#	ARTICLE	IF	CITATIONS
1	Physical Activity in the United States Measured by Accelerometer. <i>Medicine and Science in Sports and Exercise</i> , 2008, 40, 181-188.	0.4	6,026
2	An update of controlled physical activity trials in cancer survivors: a systematic review and meta-analysis. <i>Journal of Cancer Survivorship</i> , 2010, 4, 87-100.	2.9	1,082
3	The Structure of Ethnic Identity of Young Adolescents from Diverse Ethnocultural Groups. <i>Journal of Early Adolescence</i> , 1999, 19, 301-322.	1.9	774
4	Controlled Physical Activity Trials in Cancer Survivors: A Systematic Review and Meta-analysis. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2005, 14, 1588-1595.	2.5	567
5	Accelerometer Data Reduction: A Comparison of Four Reduction Algorithms on Select Outcome Variables. <i>Medicine and Science in Sports and Exercise</i> , 2005, 37, S544-S554.	0.4	552
6	Behavior of Boys in Kindergarten and the Onset of Substance Use During Adolescence. <i>Archives of General Psychiatry</i> , 1997, 54, 62.	12.3	374
7	A bimodal preventive intervention for disruptive kindergarten boys: Its impact through mid-adolescence.. <i>Journal of Consulting and Clinical Psychology</i> , 1995, 63, 560-568.	2.0	345
8	Parent-child relationship of directly measured physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011, 8, 17.	4.6	170
9	Recommendations to Improve the Accuracy of Estimates of Physical Activity Derived From Self Report. <i>Journal of Physical Activity and Health</i> , 2012, 9, S76-S84.	2.0	158
10	Reliability and validity of the French version of the 18-item Karasek job content questionnaire. <i>Work and Stress</i> , 1998, 12, 322-336.	4.5	147
11	Measuring Collaboration and Transdisciplinary Integration in Team Science. <i>American Journal of Preventive Medicine</i> , 2008, 35, S151-S160.	3.0	143
12	Development of a consensus statement on the role of the family in the physical activity, sedentary, and sleep behaviours of children and youth. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 74.	4.6	130
13	The impact of friends' deviant behavior on early onset of delinquency: Longitudinal data from 6 to 13 years of age. <i>Development and Psychopathology</i> , 1995, 7, 649-667.	2.3	127
14	Validity of scales measuring the psychosocial determinants of HIV/STD-related risk behavior in adolescents. <i>Health Education Research</i> , 1999, 14, 25-38.	1.9	123
15	Discrepant views of oncologists and cancer patients on complementary/alternative medicine. <i>Supportive Care in Cancer</i> , 2004, 12, 797-804.	2.2	122
16	Impact of a Computer-assisted Education Program on Factors Related to Asthma Self-management Behavior. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2001, 8, 49-61.	4.4	119
17	Biomechanical analysis of wheelchair propulsion for various seating positions. <i>Journal of Rehabilitation Research and Development</i> , 1992, 29, 12.	1.6	112
18	Individual and Peer Characteristics in Predicting Boys' Early Onset of Substance Abuse: A Seven-Year Longitudinal Study. <i>Child Development</i> , 1995, 66, 1198-1214.	3.0	94

#	ARTICLE	IF	CITATIONS
19	Psychosocial mediation of fruit and vegetable consumption in the body and soul effectiveness trial.. Health Psychology, 2006, 25, 474-483.	1.6	91
20	Comparing contents of outcome measures in cerebral palsy using the international classification of functioning (ICF-CY): A systematic review. European Journal of Paediatric Neurology, 2014, 18, 1-12.	1.6	90
21	From policy to practice: implementation of physical activity and food policies in schools. International Journal of Behavioral Nutrition and Physical Activity, 2013, 10, 71.	4.6	88
22	How Many Days Was That? We're Still Not Sure, But We're Asking the Question Better!. Medicine and Science in Sports and Exercise, 2008, 40, S544-S549.	0.4	83
23	The Attitudes of Canadian Maternity Care Practitioners Towards Labour and Birth: Many Differences but Important Similarities. Journal of Obstetrics and Gynaecology Canada, 2009, 31, 827-840.	0.7	83
24	Associations between the school food environment, student consumption and body mass index of Canadian adolescents. International Journal of Behavioral Nutrition and Physical Activity, 2014, 11, 29.	4.6	75
25	Awareness of National Physical Activity Recommendations for Health Promotion among US Adults. Medicine and Science in Sports and Exercise, 2009, 41, 1849-1855.	0.4	73
26	Individual and Peer Characteristics in Predicting Boys' Early Onset of Substance Abuse: A Seven-Year Longitudinal Study. Child Development, 1995, 66, 1198.	3.0	70
27	Comparing the content of participation instruments using the International Classification of Functioning, Disability and Health. Health and Quality of Life Outcomes, 2009, 7, 93.	2.4	70
28	Physical Activity Parenting Measurement and Research: Challenges, Explanations, and Solutions. Childhood Obesity, 2013, 9, S-103-S-109.	1.5	68
29	Emerging measurement and statistical methods in physical activity research ¹ ¹ All co-authors are listed in alphabetical order as they all have contributed equally to this article. While authorship is joint, responsibility for different sections of the article is assumed by the authors identified in the introduction section.. American Journal of Preventive Medicine, 2002, 23, 44-55.	3.0	66
30	Lack of Time for Physical Activity: Perception or Reality for African American and Hispanic Women?. Women and Health, 2004, 39, 45-62.	1.0	61
31	Factors Influencing Lunchtime Food Choices Among Working Americans. Health Education and Behavior, 2009, 36, 289-301.	2.5	61
32	â€He does not see himself as being differentâ€™: the perspectives of children and caregivers on relevant areas of functioning in cerebral palsy. Developmental Medicine and Child Neurology, 2014, 56, 853-861.	2.1	59
33	Action Schools! BC implementation: from efficacy to effectiveness to scale-up. British Journal of Sports Medicine, 2015, 49, 210-218.	6.7	56
34	Assessing physical activity among minority women: focus group results. Women's Health Issues, 1999, 9, 135-142.	2.0	50
35	Using Rasch modeling to re-evaluate three scales related to physical activity: enjoyment, perceived benefits and perceived barriers. Health Education Research, 2006, 21, i58-i72.	1.9	50
36	Development of a School Nutritionâ€Environment State Policy Classification System (SNESPCS). American Journal of Preventive Medicine, 2007, 33, S277-S291.	3.0	49

#	ARTICLE	IF	CITATIONS
37	Recruiting and retaining minority women: findings from the Women on the Move study. <i>Ethnicity and Disease</i> , 2002, 12, 242-51.	2.3	49
38	Physical Activity Implementation in Schools. <i>American Journal of Preventive Medicine</i> , 2012, 43, 369-377.	3.0	48
39	Conceptualizing physical activity parenting practices using expert informed concept mapping analysis. <i>BMC Public Health</i> , 2017, 17, 574.	2.9	47
40	Waiting for child developmental and rehabilitation services: an overview of issues and needs. <i>Developmental Medicine and Child Neurology</i> , 2008, 50, 815-821.	2.1	46
41	Contribution of Athletic Identity to Child and Adolescent Physical Activity. <i>American Journal of Preventive Medicine</i> , 2009, 37, 220-226.	3.0	44
42	Toward the Development of the International Classification of Functioning Core Sets for Children With Cerebral Palsy. <i>Journal of Child Neurology</i> , 2014, 29, 582-591.	1.4	44
43	Strategic Priorities for Physical Activity Surveillance in the United States. <i>Medicine and Science in Sports and Exercise</i> , 2016, 48, 2057-2069.	0.4	43
44	Influence of body composition on physical activity validation studies using doubly labeled water. <i>Journal of Applied Physiology</i> , 2004, 96, 1357-1364.	2.5	42
45	The Association of State Law to Physical Education Time Allocation in US Public Schools. <i>American Journal of Public Health</i> , 2012, 102, 1594-1599.	2.7	42
46	Sources of Validity Evidence Needed With Self-Report Measures of Physical Activity. <i>Journal of Physical Activity and Health</i> , 2012, 9, S44-S55.	2.0	40
47	Does adherence to a lifestyle physical activity intervention predict changes in physical activity?. <i>Journal of Behavioral Medicine</i> , 2003, 26, 333-348.	2.1	38
48	Diagnostic status, functional status and complexity among Canadian children with neurodevelopmental disorders and disabilities: a population-based study. <i>Disability and Rehabilitation</i> , 2013, 35, 468-478.	1.8	36
49	Detecting Bouts of Physical Activity in a Field Setting. <i>Research Quarterly for Exercise and Sport</i> , 1999, 70, 212-219.	1.4	35
50	Development of a Physical Education-Related State Policy Classification System (PERSPCS). <i>American Journal of Preventive Medicine</i> , 2007, 33, S264-S276.	3.0	35
51	Body mass index trajectories from ages 1 to 20: Results from two nationally representative canadian longitudinal cohorts. <i>Obesity</i> , 2015, 23, 1703-1711.	3.0	35
52	Food parenting practices for 5 to 12-year old children: a concept map analysis of parenting and nutrition experts input. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 122.	4.6	34
53	Ethnic Differences among Correlates of Physical Activity in Women. <i>American Journal of Health Promotion</i> , 2003, 17, 357-360.	1.7	33
54	The Application of Transformational Leadership Theory to Parenting: Questionnaire Development and Implications for Adolescent Self-Regulatory Efficacy and Life Satisfaction. <i>Journal of Sport and Exercise Psychology</i> , 2011, 33, 688-709.	1.2	33

#	ARTICLE	IF	CITATIONS
55	Changes to the school food and physical activity environment after guideline implementation in British Columbia, Canada. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 50.	4.6	32
56	Does participation in an intervention affect responses on self-report questionnaires?. <i>Health Education Research</i> , 2006, 21, i98-i109.	1.9	30
57	State-level School Competitive Food and Beverage Laws Are Associated With Children's Weight Status. <i>Journal of School Health</i> , 2014, 84, 609-616.	1.6	30
58	A qualitative investigation of unsupervised outdoor activities for 10- to 13-year-old children: "I like adventuring but I don't like adventuring without being careful". <i>Journal of Environmental Psychology</i> , 2020, 70, 101460.	5.1	30
59	Work Group III: Methodologic Issues in Research on the Food and Physical Activity Environments. <i>American Journal of Preventive Medicine</i> , 2009, 36, S177-S181.	3.0	29
60	School nutritional capacity, resources and practices are associated with availability of food/beverage items in schools. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 26.	4.6	29
61	Identifying Sedentary Subgroups. <i>American Journal of Preventive Medicine</i> , 2006, 31, 383-390.	3.0	28
62	Individual and Household Predictors of Adolescents' Adherence to a Web-Based Intervention. <i>Annals of Behavioral Medicine</i> , 2015, 49, 371-383.	2.9	27
63	A qualitative study exploring how school and community environments shape the food choices of adolescents with overweight/obesity. <i>Appetite</i> , 2015, 95, 360-367.	3.7	27
64	Perinatal selective serotonin reuptake inhibitor (SSRI) effects on body weight at birth and beyond: A review of animal and human studies. <i>Reproductive Toxicology</i> , 2018, 77, 109-121.	2.9	27
65	Implementing Appetite to Play at scale in British Columbia: Evaluation of a Capacity-Building Intervention to Promote Physical Activity in the Early Years. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 1132.	2.6	27
66	Perinatal selective serotonin reuptake inhibitor (SSRI) and other antidepressant exposure effects on anxiety and depressive behaviors in offspring: A review of findings in humans and rodent models. <i>Reproductive Toxicology</i> , 2021, 99, 80-95.	2.9	27
67	A psychometric study of the Family Resilience Assessment Scale among families of children with autism spectrum disorder. <i>Health and Quality of Life Outcomes</i> , 2019, 17, 45.	2.4	26
68	Comparing participation in activities among children with disabilities. <i>Research in Developmental Disabilities</i> , 2012, 33, 2245-2254.	2.2	25
69	Relevant Areas of Functioning in Children With Cerebral Palsy Based on the International Classification of Functioning, Disability and Health Coding System. <i>Journal of Child Neurology</i> , 2015, 30, 216-222.	1.4	25
70	Evaluating the properties of a stage-specific self-efficacy scale for physical activity using classical test theory, confirmatory factor analysis and item response modeling. <i>Health Education Research</i> , 2006, 21, i33-i46.	1.9	23
71	Identifying relevant areas of functioning in children and youth with Cerebral Palsy using the ICF-CY coding system: From whose perspective?. <i>European Journal of Paediatric Neurology</i> , 2014, 18, 609-617.	1.6	23
72	Does parental and adolescent participation in an e-health lifestyle modification intervention improve weight outcomes?. <i>BMC Public Health</i> , 2017, 17, 352.	2.9	23

#	ARTICLE	IF	CITATIONS
73	The home food environment and associations with dietary intake among adolescents presenting for a lifestyle modification intervention. <i>BMC Nutrition</i> , 2018, 4, 3.	1.6	23
74	Discrete-time survival trees. <i>Canadian Journal of Statistics</i> , 2009, 37, 17-32.	0.9	22
75	Experiences of overweight/obese adolescents in navigating their home food environment. <i>Public Health Nutrition</i> , 2015, 18, 3278-3286.	2.2	22
76	Stimulating Innovations in the Measurement of Parenting Constructs. <i>Childhood Obesity</i> , 2013, 9, S-5-S-13.	1.5	21
77	Factorial and Construct Validity of the Athletic Identity Questionnaire for Adolescents. <i>Medicine and Science in Sports and Exercise</i> , 2007, 39, 59-69.	0.4	20
78	Parent-Adolescent Patterns of Physical Activity, Sedentary Behaviors and Sleep Among a Sample of Overweight and Obese Adolescents. <i>Journal of Physical Activity and Health</i> , 2015, 12, 1469-1476.	2.0	20
79	Go Play Outside! Effects of a risk-reframing tool on mothers' tolerance for, and parenting practices associated with, children's risky play: study protocol for a randomized controlled trial. <i>Trials</i> , 2018, 19, 173.	1.6	20
80	Evaluation of a Skin Cancer Prevention Module for Nurses: Change in Knowledge, Self-Efficacy, and Attitudes. <i>American Journal of Health Promotion</i> , 1999, 13, 282-289.	1.7	19
81	Creating a collective impact on childhood obesity: Lessons from the SCOPE initiative. <i>Canadian Journal of Public Health</i> , 2015, 106, e426-e433.	2.3	19
82	Roaming the Neighbourhood: Influences of Independent Mobility Parenting Practices and Parental Perceived Environment on Children's Territorial Range. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3129.	2.6	19
83	A 6-year longitudinal study: Are maternal depressive symptoms and Selective Serotonin Reuptake Inhibitor (SSRI) antidepressant treatment during pregnancy associated with everyday measures of executive function in young children?. <i>Early Human Development</i> , 2019, 128, 21-26.	1.8	19
84	Comparing the reliability of five participation instruments in persons with spinal conditions. <i>Journal of Rehabilitation Medicine</i> , 2010, 42, 735-743.	1.1	18
85	Knowledge of and Adherence to Fruit and Vegetable Recommendations and Intakes: Results of the 2003 Health Information National Trends Survey. <i>Journal of Health Communication</i> , 2011, 16, 328-340.	2.4	18
86	Parent-Child Associations in Selected Food Group and Nutrient Intakes among Overweight and Obese Adolescents. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2014, 114, 1580-1586.	0.8	18
87	Food marketing in recreational sport settings in Canada: a cross-sectional audit in different policy environments using the Food and beverage Marketing Assessment Tool for Settings (FoodMATS). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 39.	4.6	18
88	Moderating effects of family environment on overweight/obese adolescents' dietary behaviours. <i>Appetite</i> , 2019, 134, 69-77.	3.7	18
89	Aim2Be mHealth intervention for children with overweight and obesity: study protocol for a randomized controlled trial. <i>Trials</i> , 2020, 21, 132.	1.6	18
90	Skin Cancer Prevention and Detection by Nurses: Attitudes, Perceptions, and Barriers. <i>Journal of Cancer Education</i> , 2004, 19, 50-57.	1.3	17

#	ARTICLE	IF	CITATIONS
91	Change in School Nutrition-Related Laws From 2003 to 2008: Evidence From the School Nutrition-Environment State Policy Classification System. <i>American Journal of Public Health</i> , 2013, 103, 1597-1603.	2.7	17
92	Kindergarten Disruptive Behaviour, Family Adversity, Gender, and Elementary School Failure. <i>International Journal of Behavioral Development</i> , 1999, 23, 225-240.	2.4	16
93	Comparing the validity of five participation instruments in persons with spinal conditions. <i>Journal of Rehabilitation Medicine</i> , 2010, 42, 724-734.	1.1	16
94	School factors associated with the provision of physical education and levels of physical activity among elementary school students in Ontario. <i>Canadian Journal of Public Health</i> , 2015, 106, e290-e296.	2.3	16
95	Eat, play, live: a randomized controlled trial within a natural experiment examining the role of nutrition policy and capacity building in improving food environments in recreation and sport facilities. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 51.	4.6	16
96	Are fathers' and mothers' food parenting practices differentially associated with children's eating behaviors?. <i>Appetite</i> , 2021, 166, 105434.	3.7	16
97	Extending transformational leadership theory to parenting and adolescent health behaviours: an integrative and theoretical review. <i>Health Psychology Review</i> , 2010, 4, 128-157.	8.6	15
98	The Centre for Healthy Weights-Shapedown BC: A Family-Centered, Multidisciplinary Program that Reduces Weight Gain in Obese Children over the Short-Term. <i>International Journal of Environmental Research and Public Health</i> , 2011, 8, 4662-4678.	2.6	15
99	Diary days needed to estimate activity among older African-American and Hispanic women. <i>Medicine and Science in Sports and Exercise</i> , 2002, 34, 1308-1315.	0.4	14
100	State Ranks of Incident Cancer Burden due to Overweight and Obesity in the United States, 2003. <i>Obesity</i> , 2008, 16, 1636-1650.	3.0	14
101	Patterns of participation across a range of activities among Canadian children with neurodevelopmental disorders and disabilities. <i>Developmental Medicine and Child Neurology</i> , 2013, 55, 729-736.	2.1	14
102	Are the Physical Activity Parenting Practices Reported by US and Canadian Parents Captured in Currently Published Instruments?. <i>Journal of Physical Activity and Health</i> , 2016, 13, 1070-1078.	2.0	14
103	Advancing Knowledge of Parent-Child Dyadic Relationships About Multiple Cancer Preventive Health Behaviors: The National Cancer Institute Family Life, Activity, Sun, Health, and Eating (FLASHE) Study. <i>American Journal of Preventive Medicine</i> , 2017, 52, 833-835.	3.0	14
104	A Web-Based and In-Person Risk Reframing Intervention to Influence Mothers' Tolerance for, and Parenting Practices Associated With, Children's Outdoor Risky Play: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e24861.	4.3	14
105	SARS-CoV-2 seroprevalence among Vancouver public school staff in British Columbia, Canada: a cross-sectional study. <i>BMJ Open</i> , 2022, 12, e057846.	1.9	14
106	Introducing equating methodologies to compare test scores from two different self-regulation scales. <i>Health Education Research</i> , 2006, 21, i110-i120.	1.9	13
107	Risk Engagement and Protection Survey (REPS): developing and validating a survey tool on fathers' attitudes towards child injury protection and risk engagement. <i>Injury Prevention</i> , 2018, 24, 106-112.	2.4	13
108	The Effectiveness of a Blended In-Person and Online Family-Based Childhood Obesity Management Program. <i>Childhood Obesity</i> , 2021, 17, 58-67.	1.5	13

#	ARTICLE	IF	CITATIONS
109	Field evaluation of energy expenditure from continuous and intermittent walking in women. <i>Medicine and Science in Sports and Exercise</i> , 2001, 33, 163-170.	0.4	12
110	Employer and Healthcare Policy Interventions Aimed at Adult Obesity. <i>American Journal of Preventive Medicine</i> , 2007, 32, 44-51.	3.0	12
111	Development of an item bank for food parenting practices based on published instruments and reports from Canadian and US parents. <i>Appetite</i> , 2016, 103, 386-395.	3.7	12
112	Healthy vending contracts: Do localized policy approaches improve the nutrition environment in publicly funded recreation and sport facilities?. <i>Preventive Medicine Reports</i> , 2019, 16, 100967.	1.8	12
113	Family-based, healthy living intervention for children with overweight and obesity and their families: a "real world" trial protocol using a randomised wait list control design. <i>BMJ Open</i> , 2019, 9, e027183.	1.9	12
114	The English Knee Self-Efficacy Scale is a valid and reliable measure for knee-specific self-efficacy in individuals with a sport-related knee injury in the past 5 years. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2021, 29, 616-626.	4.2	12
115	Measuring Participation Among Persons with Spinal Cord Injury: Comparison of Three Instruments. <i>Topics in Spinal Cord Injury Rehabilitation</i> , 2010, 15, 49-62.	1.8	12
116	Reliability, validity, and methodological issues in assessing physical activity in a cross-cultural setting. <i>Research Quarterly for Exercise and Sport</i> , 2000, 71, 54-58.	1.4	11
117	Familial Environment and Overweight/Obese Adolescents' Physical Activity. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2558.	2.6	11
118	The physical activity parenting practices (PAPP) item Bank: a psychometrically validated tool for improving the measurement of physical activity parenting practices of parents of 5-12-year-old children. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 134.	4.6	11
119	Effect of Anterior Cruciate Ligament Rupture on Physical Activity, Sports Participation, Patient-Reported Health Outcomes, and Physical Function in Young Female Athletes. <i>American Journal of Sports Medicine</i> , 2021, 49, 1460-1469.	4.2	11
120	The Aim2Be mHealth Intervention for Children With Overweight or Obesity and Their Parents: Person-Centered Analyses to Uncover Digital Phenotypes. <i>Journal of Medical Internet Research</i> , 2022, 24, e35285.	4.3	11
121	Eating Away from Home: Influences on the Dietary Quality of Adolescents with Overweight or Obesity. <i>Canadian Journal of Dietetic Practice and Research</i> , 2017, 78, 166-171.	0.6	10
122	The association of food parenting practices with adolescents' dietary behaviors differ by youth gender, but not by parent gender. <i>Appetite</i> , 2022, 169, 105846.	3.7	10
123	School staff and teachers during the second year of COVID-19: Higher anxiety symptoms, higher psychological distress, and poorer mental health compared to the general population. <i>Journal of Affective Disorders Reports</i> , 2022, 8, 100335.	1.7	10
124	Sustainable childhood obesity prevention through community engagement (SCOPE) program: evaluation of the implementation phase. <i>Biochemistry and Cell Biology</i> , 2015, 93, 472-478.	2.0	9
125	The readiness and motivation interview for families (RMI-Family) managing pediatric obesity: study protocol. <i>BMC Health Services Research</i> , 2017, 17, 261.	2.2	9
126	A population-based analysis of life satisfaction and social support among children of diverse backgrounds in British Columbia, Canada. <i>Quality of Life Research</i> , 2018, 27, 2595-2607.	3.1	9
