#	ARTICLE	IF	CITATIONS
1	Examining pathways linking rural labour outflows to the abandonment of arable land in China. Population, Space and Place, 2022, 28, e2519.	1.2	6
2	Urban greenery mitigates the negative effect of urban density on older adults' life satisfaction: Evidence from Shanghai, China. Cities, 2022, 124, 103607.	2.7	40
3	Spatial Accessibility to Sports Facilities in Dongguan, China: a Multi-Preference Gaussian Two-Step Floating Catchment Area Method. Applied Spatial Analysis and Policy, 2022, 15, 1093-1114.	1.0	10
4	Associations between the streetscape built environment and walking to school among primary schoolchildren in Beijing, China. Journal of Transport Geography, 2022, 99, 103303.	2.3	23
5	Amount of and proximity to blue spaces and general health among older Chinese adults in private and public housing: A national population study. Health and Place, 2022, 74, 102774.	1.5	5
6	Can multiple pathways link urban residential greenspace to subjective well-being among middle-aged and older Chinese adults?. Landscape and Urban Planning, 2022, 223, 104405.	3.4	19
7	Non-linear association between residential greenness and general health among old adults in China. Landscape and Urban Planning, 2022, 223, 104406.	3.4	19
8	The Effects of Health on the Settlement Intention of Rural–Urban Migrants: Evidence from Eight Chinese Cities. Applied Spatial Analysis and Policy, 2021, 14, 31-49.	1.0	23
9	Upward or downward comparison? Migrants' socioeconomic status and subjective wellbeing in Chinese cities. Urban Studies, 2021, 58, 2490-2513.	2.2	23
10	Analyzing the distribution of researchers in China: An approach using multiscale geographically weighted regression. Growth and Change, 2021, 52, 443-459.	1.3	20
11	Association between residential greenness and general health among older adults in rural and urban areas in China. Urban Forestry and Urban Greening, 2021, 59, 126907.	2.3	20
12	Social Polarization and Socioeconomic Segregation in Shanghai, China: Evidence from 2000 and 2010 Censuses. Urban Book Series, 2021, , 171-189.	0.3	2
13	The distribution of greenspace quantity and quality and their association with neighbourhood socioeconomic conditions in Guangzhou, China: A new approach using deep learning method and street view images. Sustainable Cities and Society, 2021, 66, 102664.	5.1	53
14	Geography of Talent in China During 2000–2015: An Eigenvector Spatial Filtering Negative Binomial Approach. Chinese Geographical Science, 2021, 31, 297-312.	1.2	10
15	Natural outdoor environments and subjective well-being in Guangzhou, China: Comparing different measures of access. Urban Forestry and Urban Greening, 2021, 59, 127027.	2.3	22
16	The Impact of Farmland Transfer on Rural Households' Income Structure in the Context of Household Differentiation: A Case Study of Heilongjiang Province, China. Land, 2021, 10, 362.	1.2	19
17	Greenness-air pollution-physical activity-hypertension association among middle-aged and older adults: Evidence from urban and rural China. Environmental Research, 2021, 195, 110836.	3.7	47
18	Administrative level, city tier, and air quality: contextual determinants of hukou conversion for migrants in China. Computational Urban Science, 2021, 1, 1.	1.9	13

#	Article	IF	Citations
19	Which Risk Factors Matter More for Psychological Distress during the COVID-19 Pandemic? An Application Approach of Gradient Boosting Decision Trees. International Journal of Environmental Research and Public Health, 2021, 18, 5879.	1.2	12
20	Do Neighborhoods with Highly Diverse Built Environment Exhibit Different Socio-Economic Profiles as Well? Evidence from Shanghai. Sustainability, 2021, 13, 7544.	1.6	5
21	Digital contact tracing, community uptake, and proximity awareness technology to fight COVID-19: a systematic review. Sustainable Cities and Society, 2021, 71, 102995.	5.1	57
22	Mapping the geodemographics of racial, economic, health, and COVID-19 deaths inequalities in the conterminous US. Applied Geography, 2021, 135, 102558.	1.7	17
23	Dynamic greenspace exposure and residents' mental health in Guangzhou, China: From over-head to eye-level perspective, from quantity to quality. Landscape and Urban Planning, 2021, 215, 104230.	3.4	50
24	Are greenspace quantity and quality associated with mental health through different mechanisms in Guangzhou, China: A comparison study using street view data. Environmental Pollution, 2021, 290, 117976.	3.7	53
25	Belonging to a Place: An Analysis of the Perceptions of Rural-to-Urban Migrants in China*. Geographical Review, 2020, 110, 406-424.	0.9	15
26	Spatial pattern of leisure activities among residents in Beijing, China: Exploring the impacts of urban environment. Sustainable Cities and Society, 2020, 52, 101806.	5.1	44
27	Relationship between neighbourhood social participation and depression among older adults: A longitudinal study in China. Health and Social Care in the Community, 2020, 28, 247-259.	0.7	49
28	Residential greenness, air pollution and psychological well-being among urban residents in Guangzhou, China. Science of the Total Environment, 2020, 711, 134843.	3.9	93
29	Establishing associations between residential greenness and markers of adiposity among middle-aged and older Chinese adults through multilevel structural equation models. International Journal of Hygiene and Environmental Health, 2020, 230, 113606.	2.1	19
30	The association between spatial access to physical activity facilities within home and workplace neighborhoods and time spent on physical activities: evidence from Guangzhou, China. International Journal of Health Geographics, 2020, 19, 22.	1.2	17
31	Estimating pedestrian volume using Street View images: A large-scale validation test. Computers, Environment and Urban Systems, 2020, 81, 101481.	3.3	53
32	Is lifestyle a bridge between urbanization and overweight in China?. Cities, 2020, 99, 102616.	2.7	26
33	The longitudinal relationship between exposure to air pollution and depression in older adults. International Journal of Geriatric Psychiatry, 2020, 35, 610-616.	1.3	33
34	Relationship between eye-level greenness and cycling frequency around metro stations in Shenzhen, China: A big data approach. Sustainable Cities and Society, 2020, 59, 102201.	5.1	63
35	Migrants' choice of household split or reunion in China's urbanisation process: The effect of objective and subjective socioeconomic status. Cities, 2020, 102, 102669.	2.7	28
36	Where your heart belongs to shapes how you feel about yourself: Migration, social comparison and subjective well-being in China. Population, Space and Place, 2020, 26, e2336.	1.2	14

#	Article	IF	Citations
37	Economic disadvantages and migrants' subjective well‐being in China: The mediating effects of relative deprivation and neighbourhood deprivation. Population, Space and Place, 2019, 25, e2173.	1.2	34
38	Subjective well-being in China: how much does commuting matter?. Transportation, 2019, 46, 1505-1524.	2.1	56
39	Using street view data and machine learning to assess how perception of neighborhood safety influences urban residents' mental health. Health and Place, 2019, 59, 102186.	1.5	72
40	Association between street greenery and walking behavior in older adults in Hong Kong. Sustainable Cities and Society, 2019, 51, 101747.	5.1	101
41	Neighborhood social reciprocity and mental health among older adults in China: the mediating effects of physical activity, social interaction, and volunteering. BMC Public Health, 2019, 19, 1036.	1.2	27
42	Exploring the linkage between greenness exposure and depression among Chinese people: Mediating roles of physical activity, stress and social cohesion and moderating role of urbanicity. Health and Place, 2019, 58, 102168.	1.5	126
43	Depressive symptoms among Chinese residents: how are the natural, built, and social environments correlated?. BMC Public Health, 2019, 19, 887.	1.2	26
44	Long working hours and self-rated health: Evidence from Beijing, China. Cities, 2019, 95, 102401.	2.7	13
45	The linkage between the perception of neighbourhood and physical activity in Guangzhou, China: using street view imagery with deep learning techniques. International Journal of Health Geographics, 2019, 18, 18.	1.2	42
46	Neighbourhood greenness and mental wellbeing in Guangzhou, China: What are the pathways?. Landscape and Urban Planning, 2019, 190, 103602.	3.4	163
47	Exploring the association between urbanisation and self-rated health of older adults in China: evidence from a national population sample survey. BMJ Open, 2019, 9, e029176.	0.8	13
48	Perceptions of built environment and health outcomes for older Chinese in Beijing: A big data approach with street view images and deep learning technique. Computers, Environment and Urban Systems, 2019, 78, 101386.	3.3	108
49	Disentangling residential self-selection from impacts of built environment characteristics on travel behaviors for older adults. Social Science and Medicine, 2019, 238, 112515.	1.8	59
50	Urban greenery and mental wellbeing in adults: Cross-sectional mediation analyses on multiple pathways across different greenery measures. Environmental Research, 2019, 176, 108535.	3.7	149
51	Absorptive Capacity and Regional Innovation in China: an Analysis of Patent Applications, 2000–2015. Applied Spatial Analysis and Policy, 2019, 12, 1031-1049.	1.0	20
52	Exploring the links between population density, lifestyle, and being overweight: secondary data analyses of middle-aged and older Chinese adults. Health and Quality of Life Outcomes, 2019, 17, 100.	1.0	27
53	Where will the next emergency event occur? Predicting ambulance demand in emergency medical services using artificial intelligence. Computers, Environment and Urban Systems, 2019, 76, 110-122.	3.3	42
54	Migration patterns in China extracted from mobile positioning data. Habitat International, 2019, 86, 71-80.	2.3	38

#	Article	IF	Citations
55	The relationship between visual enclosure for neighbourhood street walkability and elders' mental health in China: Using street view images. Journal of Transport and Health, 2019, 13, 90-102.	1.1	104
56	Using deep learning to examine street view green and blue spaces and their associations with geriatric depression in Beijing, China. Environment International, 2019, 126, 107-117.	4.8	323
57	Cross-sectional associations between long-term exposure to particulate matter and depression in China: The mediating effects of sunlight, physical activity, and neighborly reciprocity. Journal of Affective Disorders, 2019, 249, 8-14.	2.0	64
58	Comprehensiveness and Locality: Website Marketing of World City Governments in the Era of Globalisation. Chinese Geographical Science, 2019, 29, 86-99.	1.2	0
59	Residential exposure to natural outdoor environments and general health among older adults in Shanghai, China. International Journal for Equity in Health, 2019, 18, 178.	1.5	30
60	Neighborhood governance in post-reform Urban China: Place attachment impact on civic engagement in Guangzhou. Land Use Policy, 2019, 81, 472-482.	2.5	20
61	Deciphering the meaning and mechanism of migrants' and locals' neighborhood attachment in Chinese cities: Evidence from Guangzhou. Cities, 2019, 85, 187-195.	2.7	24
62	Determinants of occupational mobility: the importance of place of work. Regional Studies, 2018, 52, 1612-1623.	2.5	12
63	The effects of social ties on rural-urban migrants' intention to settle in cities in China. Cities, 2018, 83, 203-212.	2.7	106
64	The relationship between urbanization and depression in China: the mediating role of neighborhood social capital. International Journal for Equity in Health, 2018, 17, 105.	1.5	95
65	The Relationship between Air Pollution and Depression in China: Is Neighbourhood Social Capital Protective?. International Journal of Environmental Research and Public Health, 2018, 15, 1160.	1.2	57
66	From school to university to work: migration of highly educated youths in China. Annals of Regional Science, 2017, 59, 651-676.	1.0	68
67	Destination Choices of Permanent and Temporary Migrants in China, 1985–2005. Population, Space and Place, 2017, 23, e1963.	1.2	71
