#	ARTICLE	IF	CITATIONS
1	Randomised controlled trial of screening for Chlamydia trachomatis to prevent pelvic inflammatory disease: the POPI (prevention of pelvic infection) trial. BMJ: British Medical Journal, 2010, 340, c1642-c1642.	2.3	264
2	Mitigating the psychological effects of social isolation during the covid-19 pandemic. BMJ, The, 2020, 369, m1904.	6.0	147
3	Expectation of life and unexpected death in open spina bifida: a 40-year complete, non-selective, longitudinal cohort study. Developmental Medicine and Child Neurology, 2010, 52, 749-753.	2.1	145
4	Is <i>Mycoplasma genitalium</i> in Women the 'New Chlamydia'? A Community-Based Prospective Cohort Study. Clinical Infectious Diseases, 2010, 51, 1160-1166.	5.8	133
5	Long-term outcome in open spina bifida. British Journal of General Practice, 2003, 53, 632-6.	1.4	103
6	Outcome in people with open spina bifida at age 35: prospective community based cohort study. BMJ: British Medical Journal, 2003, 326, 1365-1366.	2.3	101
7	Association between bacterial vaginosis or chlamydial infection and miscarriage before 16 weeks' gestation: prospective community based cohort study. BMJ: British Medical Journal, 2002, 325, 1334-1334.	2.3	98
8	Prevalence of <i>Mycoplasma genitalium</i> in early pregnancy and relationship between its presence and pregnancy outcome. BJOG: an International Journal of Obstetrics and Gynaecology, 2004, 111, 1464-1467.	2.3	70
9	Frequency and risk factors for prevalent, incident, and persistent genital carcinogenic human papillomavirus infection in sexually active women: community based cohort study. BMJ, The, 2012, 344, e4168-e4168.	6.0	57
10	Prevalence of human papillomavirus (HPV) infections in sexually active adolescents and young women in England, prior to widespread HPV immunisation. Vaccine, 2012, 30, 3867-3875.	3.8	49
11	Frequency and risk factors for incident and redetected <i>Chlamydia trachomatis</i> infection in sexually active, young, multi-ethnic women: a community based cohort study. Sexually Transmitted Infections, 2014, 90, 524-528.	1.9	49
12	Open spina bifida: birth findings predict long-term outcome. Archives of Disease in Childhood, 2012, 97, 474-476.	1.9	47
13	Timing of progression from Chlamydia trachomatis infection to pelvic inflammatory disease: a mathematical modelling study. BMC Infectious Diseases, 2012, 12, 187.	2.9	44
14	What is the cost of pelvic inflammatory disease and how much could be prevented by screening for Chlamydia trachomatis? Cost analysis of the Prevention Of Pelvic Infection (POPI) trial. Sexually Transmitted Infections, 2011, 87, 312-317.	1.9	34
15	Opportunistic screening for chlamydial infection at time of cervical smear testing in general practice: prevalence study. BMJ: British Medical Journal, 1998, 316, 351-352.	2.3	29
16	Neurological level at birth predicts survival to the mid-40s and urological deaths in open spina bifida: a complete prospective cohort study. Developmental Medicine and Child Neurology, 2015, 57, 634-638.	2.1	24
17	Walking and living independently with spina bifida: a 50-year prospective cohort study. Developmental Medicine and Child Neurology, 2019, 61, 1202-1207.	2.1	24
18	Community-based trial of screening for Chlamydia trachomatis to prevent pelvic inflammatory disease: the POPI (prevention of pelvic infection) trial. Trials, 2008, 9, 73.	1.6	22

#	ARTICLE	IF	CITATIONS
19	Is there a role for nurse-led blood pressure management in primary care?. <i>Family Practice</i> , 2003, 20, 469-473.	1.9	21
20	Bacterial vaginosis and preterm birth: a prospective community-based cohort study. <i>British Journal of General Practice</i> , 2004, 54, 119-22.	1.4	21
21	Exploring access and attitudes to regular sexually transmitted infection screening: the views of young, multi-ethnic, inner-city, female students. <i>Health Expectations</i> , 2016, 19, 322-330.	2.6	19
22	Detection of <i>Chlamydia trachomatis</i> infection in early pregnancy using self-administered vaginal swabs and first pass urines: a cross-sectional community-based survey. <i>British Journal of General Practice</i> , 2002, 52, 830-2.	1.4	16
23	Which sexually active young female students are most at risk of pelvic inflammatory disease? A prospective study. <i>Sexually Transmitted Infections</i> , 2016, 92, 63-66.	1.9	14
24	Altitude sickness and acetazolamide. <i>BMJ: British Medical Journal</i> , 2018, 361, k2153.	2.3	14
25	Patients' Experiences of Long COVID in the Community and Recommendations for Improving Services: A Quality Improvement Survey. <i>Journal of Primary Care and Community Health</i> , 2021, 12, 215013272110418.	2.1	14
26	Development of clinical guidelines. <i>Lancet, The</i> , 1999, 353, 412.	13.7	12
27	Lessons learned from recruiting young female students to a randomised controlled trial of chlamydia screening. <i>Family Practice</i> , 2006, 23, 188-191.	1.9	12
28	Recruitment of young women to a trial of chlamydia screening "as easy as it sounds?". <i>Trials</i> , 2007, 8, 41.	1.6	12
29	Understanding the acceptability, barriers and facilitators for chlamydia and gonorrhoea screening in technical colleges: qualitative process evaluation of the "Test n Treat" trial. <i>BMC Public Health</i> , 2020, 20, 1212.	2.9	9
30	Survival and mobility in open spina bifida: Comparison of results from the United States and the United Kingdom. <i>International Journal on Disability and Human Development</i> , 2008, 7, 101-106.	0.2	8
31	Feasibility of recruiting in a student bar for a trial of chlamydia screening in young women. <i>Family Practice</i> , 2004, 21, 223-224.	1.9	6
32	Alcohol use, cigarette smoking, vaping and number of sexual partners: A cross-sectional study of sexually active, ethnically diverse, inner city adolescents. <i>Health Expectations</i> , 2021, 24, 1009-1014.	2.6	5
33	Reducing inappropriate referrals to secondary care: our experiences with the ENT Emergency clinic. <i>Quality in Primary Care</i> , 2014, 22, 251-5.	0.8	5
34	Health-related quality of life and <i>Chlamydia trachomatis</i> infection in sexually experienced female inner-city students: a community-based cross-sectional study. <i>International Journal of STD and AIDS</i> , 2017, 28, 367-371.	1.1	3
35	"Test n Treat (TnT)": a cluster-randomised feasibility trial of frequent, rapid-testing and same-day, on-site treatment to reduce rates of chlamydia in high-risk further education college students: statistical analysis plan. <i>Trials</i> , 2018, 19, 312.	1.6	3
36	"Test n Treat (TnT)" Rapid testing and same-day, on-site treatment to reduce rates of chlamydia in sexually active further education college students: study protocol for a cluster randomised feasibility trial. <i>Trials</i> , 2018, 19, 311.	1.6	3

#	ARTICLE	IF	CITATIONS
37	Near patient chlamydia and gonorrhoea screening and treatment in further education/technical colleges: a cost analysis of the "Test n Treat"™ feasibility trial. BMC Health Services Research, 2020, 20, 316.	2.2	3
38	Vaginal microbiota in ethnically diverse young women who did or did not develop pelvic inflammatory disease: community-based prospective study. Sexually Transmitted Infections, 2022, 98, 503-509.	1.9	3
39	Non-invasive chlamydia testing of pregnant teenagers. British Journal of Midwifery, 2005, 13, 434-439.	0.4	2
40	Commentary: Best practice in primary care. BMJ: British Medical Journal, 2006, 333, 173-174.	2.3	2
41	Chlamydia testing in male further education college students. Sexually Transmitted Infections, 2015, 91, 496-496.	1.9	2
42	Which sexually active female students get themselves tested for <i>Chlamydia trachomatis</i> ? A cohort study. International Journal of STD and AIDS, 2016, 27, 586-590.	1.1	2
43	Research benefits of storing genitourinary samples: 16S rRNA sequencing to evaluate vaginal bacterial communities. International Journal of STD and AIDS, 2017, 28, 315-317.	1.1	2
44	Conducting questionnaire surveys in the community. Education for Primary Care, 2017, 28, 125-125.	0.6	2
45	Human papillomavirus (HPV) vaccination and oropharyngeal HPV in ethnically diverse, sexually active adolescents: community-based cross-sectional study. Sexually Transmitted Infections, 2021, 97, 458-460.	1.9	2
46	Survey in a UK general practice. BMJ: British Medical Journal, 2011, 342, d1326-d1326.	2.3	2
47	Cervical Chlamydia trachomatis infection. BMJ: British Medical Journal, 2003, 327, 910-910.	2.3	1
48	Alcohol and pregnancy. British Journal of General Practice, 2011, 61, 719.1-719.	1.4	1
49	Sex and relationship education: did you get it?. Sexually Transmitted Infections, 2012, 88, 162-162.	1.9	1
50	Acceptability of providing self-taken vaginal samples and allowing access to NHS numbers and medical records: feasibility study in young female genitourinary medicine clinic attenders. Sexually Transmitted Infections, 2012, 88, 300-300.	1.9	1
51	Questionnaire survey of the effect of calorie labelling on consumers' cold drink purchases. British Journal of General Practice, 2013, 63, 71.1-71.	1.4	1
52	HIV testing in pregnancy. Sexually Transmitted Infections, 2014, 90, 640-640.	1.9	1
53	Sexually active students'™ acceptability of providing saline oral samples for future human papillomavirus testing. International Journal of STD and AIDS, 2017, 28, 1464-1465.	1.1	1
54	Medical School Training Can Improve Patient Care. Journal of Primary Care and Community Health, 2021, 12, 215013272110521.	2.1	1
