#	ARTICLE	IF	CITATIONS
1	Prognostic performance of the 2017 World Workshop classification on staging and grading of periodontitis compared with the British Society of Periodontology's implementation. <i>Journal of Periodontology</i> , 2022, 93, 537-547.	3.4	3
2	Randomised methodology development study to investigate plaque removal efficacy of manual toothbrushes. <i>Journal of Dentistry</i> , 2022, 116, 103830.	4.1	5
3	Risk factors for developing COVID-19: a population-based longitudinal study (COVIDENCE UK). <i>Thorax</i> , 2022, 77, 900-912.	5.6	47
4	Association between tooth loss, chronic conditions, and common risk factors: Results from the 2019 Brazilian Health Survey. <i>Journal of Periodontology</i> , 2022, 93, 1141-1149.	3.4	8
5	Investigating the utility of saliva immunoglobulins for the detection of myeloma and using myeloma proteins to clarify partition between oral and systemic immunity. <i>European Journal of Haematology</i> , 2022, 108, 493-502.	2.2	3
6	<i>Fusobacterium nucleatum</i> Subspecies Differ in Biofilm Forming Ability in vitro. <i>Frontiers in Oral Health</i> , 2022, 3, 853618.	3.0	11
7	Time to take gum disease seriously. <i>British Dental Journal</i> , 2022, 232, 360-361.	0.6	3
8	Discovery, validation, and diagnostic ability of multiple proteinâ€based biomarkers in saliva and gingival crevicular fluid to distinguish between health and periodontal diseases. <i>Journal of Clinical Periodontology</i> , 2022, 49, 622-632.	4.9	21
9	A Mass Spectrometric Approach to the Proteomic Profiling of the <i>Canis lupus familiaris</i> Acquired Enamel Pellicle on Hydroxyapatite Discs. <i>Journal of Veterinary Dentistry</i> , 2022, , 089875642210971.	0.3	1
10	Impact of Gingivitis on Circulating Neutrophil Reactivity and Gingival Crevicular Fluid Inflammatory Proteins. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 6339.	2.6	2
11	Treatment of stage <sc>IV</sc> periodontitis: The <sc>EFP S3</sc> level clinical practice guideline. <i>Journal of Clinical Periodontology</i> , 2022, 49, 4-71.	4.9	96
12	Technology-enhanced learning: a role for video animation. <i>British Dental Journal</i> , 2021, 230, 93-96.	0.6	13
13	Response by the Workgroup coâ€chairs. <i>Journal of Clinical Periodontology</i> , 2021, 48, 555-556.	4.9	1
14	BSP implementation of European S3 - level evidence-based treatment guidelines for stage I-III periodontitis in UK clinical practice. <i>Journal of Dentistry</i> , 2021, 106, 103562.	4.1	30
15	Oxidative stress links periodontal inflammation and renal function. <i>Journal of Clinical Periodontology</i> , 2021, 48, 357-367.	4.9	34
16	Free light chains as an emerging biomarker in saliva: Biological variability and comparisons with salivary IgA and steroid hormones. <i>Brain, Behavior, and Immunity</i> , 2020, 83, 78-86.	4.1	13
17	Distribution of plasma oxidised phosphatidylcholines in chronic kidney disease and periodontitis as a co-morbidity. <i>Free Radical Biology and Medicine</i> , 2020, 146, 130-138.	2.9	20
18	Evidence-based, personalised and minimally invasive treatment for periodontitis patients - the new EFP S3-level clinical treatment guidelines. <i>British Dental Journal</i> , 2020, 229, 443-449.	0.6	5

#	ARTICLE	IF	CITATIONS
19	Epidermolysis bullosa. Nature Reviews Disease Primers, 2020, 6, 78.	30.5	182
20	Patient acceptability of targeted risk-based detection of non-communicable diseases in a dental and pharmacy setting. BMC Public Health, 2020, 20, 1576.	2.9	9
21	Treatment of stage III periodontitis – The EFP S3 level clinical practice guideline. Journal of Clinical Periodontology, 2020, 47, 4-60.	4.9	621
22	The clinical and inflammatory relationships between periodontitis and chronic obstructive pulmonary disease. Journal of Clinical Periodontology, 2020, 47, 1040-1052.	4.9	34
23	The Role of the Oral Healthcare Team in Identification of Type 2 Diabetes Mellitus: A Systematic Review. Current Oral Health Reports, 2020, 7, 87-97.	1.6	14
24	Periodontal care in general practice: 20 important FAQs - Part two. BDJ Team, 2020, 7, 26-32.	0.1	3
25	Risk Assessment in Periodontal Care: The Principles. , 2020, , 77-88.		2
26	Periodontitis and cardiovascular diseases: Consensus report. Journal of Clinical Periodontology, 2020, 47, 268-288.	4.9	636
27	Consumer Safety Considerations of Skin and Oral Microbiome Perturbation. Clinical Microbiology Reviews, 2019, 32, .	13.6	15
28	Gums and joints: is there a connection? Part one: epidemiological and clinical links. British Dental Journal, 2019, 227, 605-609.	0.6	6
29	Gums and joints: is there a connection? Part two: the biological link. British Dental Journal, 2019, 227, 611-617.	0.6	6
30	Periodontal diagnosis in the context of the 2017 classification system of periodontal diseases and conditions – implementation in clinical practice. British Dental Journal, 2019, 226, 16-22.	0.6	108
31	Periodontal care in general practice: 20 important FAQs - Part one. BDJ Team, 2019, 6, 15-20.	0.1	2
32	The Oral and Dental Research Trust: 30 years of achievement. British Dental Journal, 2019, 226, 381-381.	0.6	0
33	Periodontal diagnosis in the context of the 2017 classification system of periodontal diseases and conditions: Presentation of a middle-aged patient with localised periodontitis. British Dental Journal, 2019, 226, 98-100.	0.6	8
34	Biological factors involved in alveolar bone regeneration. Journal of Clinical Periodontology, 2019, 46, 6-11.	4.9	16
35	Juice powder concentrates: nutritional supplements in periodontology. Dental Update, 2019, 46, 480-487.	0.2	1
36	Periodontal care in general practice: 20 important FAQs – Part one. British Dental Journal, 2019, 226, 850-854.	0.6	3

#	ARTICLE	IF	CITATIONS
37	Periodontal diagnosis in the context of the BSP implementation plan for the 2017 classification system of periodontal diseases and conditions: presentation of a patient with severe periodontitis following successful periodontal therapy and supportive periodontal treatment. <i>British Dental Journal</i> , 2019, 226, 411-413.	0.6	6
38	A randomised clinical study comparing the effect of Steareth 30 and SLS containing toothpastes on oral epithelial integrity (desquamation). <i>Journal of Dentistry</i> , 2019, 80, S33-S39.	4.1	14
39	Oral Neutrophils Characterized: Chemotactic, Phagocytic, and Neutrophil Extracellular Trap (NET) Formation Properties. <i>Frontiers in Immunology</i> , 2019, 10, 635.	4.8	40
40	Periodontal diagnosis in the context of the BSP implementation plan for the 2017 classification system of periodontal diseases and conditions: presentation of a patient with a history of periodontal treatment. <i>British Dental Journal</i> , 2019, 226, 265-267.	0.6	3
41	Periodontal diagnosis in the context of the 2017 classification system of periodontal diseases and conditions: presentation of a patient with periodontitis localised to the molar teeth. <i>British Dental Journal</i> , 2019, 226, 180-182.	0.6	6
42	Systemic disease or periodontal disease? Distinguishing causes of gingival inflammation: a guide for dental practitioners. Part 2: cancer related, infective, and other causes of gingival pathology. <i>British Dental Journal</i> , 2019, 227, 1029-1034.	0.6	5
43	Periodontal care in general practice: 20 important FAQs - Part two. <i>British Dental Journal</i> , 2019, 227, 875-880.	0.6	1
44	Systemic disease or periodontal disease? Distinguishing causes of gingival inflammation: a guide for dental practitioners. Part 1: immune-mediated, autoinflammatory, and hereditary lesions. <i>British Dental Journal</i> , 2019, 227, 961-966.	0.6	10
45	Nupharidine enhances <i>Aggregatibacter actinomycetemcomitans</i> clearance by priming neutrophils and augmenting their effector functions. <i>Journal of Clinical Periodontology</i> , 2019, 46, 62-71.	4.9	9
46	Dysbiotic Subgingival Microbial Communities in Periodontally Healthy Patients With Rheumatoid Arthritis. <i>Arthritis and Rheumatology</i> , 2018, 70, 1008-1013.	5.6	81
47	Cigarette smoke modifies neutrophil chemotaxis, neutrophil extracellular trap formation and inflammatory response-related gene expression. <i>Journal of Periodontal Research</i> , 2018, 53, 525-535.	2.7	54
48	The Saliva Proteome of Dogs: Variations Within and Between Breeds and Between Species. <i>Proteomics</i> , 2018, 18, 1700293.	2.2	29
49	Scientific evidence on the links between periodontal diseases and diabetes: Consensus report and guidelines of the joint workshop on periodontal diseases and diabetes by the International Diabetes Federation and the European Federation of Periodontology. <i>Journal of Clinical Periodontology</i> , 2018, 45, 138-149.	4.9	384
50	Impact of Bariatric Surgical Intervention on Peripheral Blood Neutrophil (PBN) Function in Obesity. <i>Obesity Surgery</i> , 2018, 28, 1611-1621.	2.1	22
51	Scientific evidence on the links between periodontal diseases and diabetes: Consensus report and guidelines of the joint workshop on periodontal diseases and diabetes by the International diabetes Federation and the European Federation of Periodontology. <i>Diabetes Research and Clinical Practice</i> , 2018, 137, 231-241.	2.8	173
52	Patients' attendance patterns to different healthcare settings and perceptions of stakeholders regarding screening for chronic, non-communicable diseases in high street dental practices and community pharmacy: a cross-sectional study. <i>BMJ Open</i> , 2018, 8, e024503.	1.9	14
53	Risk Assessment in Periodontal Disease. <i>Dental Update</i> , 2018, 45, 920-926.	0.2	4
54	Association between periodontal health status and patient-reported outcomes in patients managed in a non-specialist, general dental practice. <i>Journal of Clinical Periodontology</i> , 2018, 45, 1440-1447.	4.9	9

#	ARTICLE	IF	CITATIONS
55	Effect of micronutrient malnutrition on periodontal disease and periodontal therapy. <i>Periodontology</i> 2000, 2018, 78, 129-153.	13.4	84
56	Therapeutic targeting of cathepsin C: from pathophysiology to treatment. , 2018, 190, 202-236.		85
57	Dental plaque-induced gingival conditions. <i>Journal of Periodontology</i> , 2018, 89, S17-S27.	3.4	176
58	Periodontal health and gingival diseases and conditions on an intact and a reduced periodontium: Consensus report of workgroup 1 of the 2017 World Workshop on the Classification of Periodontal and Peri-Implant Diseases and Conditions. <i>Journal of Periodontology</i> , 2018, 89, S74-S84.	3.4	469
59	A new classification scheme for periodontal and peri-implant diseases and conditions Introduction and key changes from the 1999 classification. <i>Journal of Periodontology</i> , 2018, 89, S1-S8.	3.4	746
60	Consequences of cathepsin C inactivation for membrane exposure of proteinase 3, the target antigen in autoimmune vasculitis. <i>Journal of Biological Chemistry</i> , 2018, 293, 12415-12428.	3.4	26
61	Development and Application of High-Content Biological Screening for Modulators of NET Production. <i>Frontiers in Immunology</i> , 2018, 9, 337.	4.8	25
62	Association between urinary free light chains and progression to end stage renal disease in chronic kidney disease. <i>PLoS ONE</i> , 2018, 13, e0197043.	2.5	6
63	A new classification scheme for periodontal and peri-implant diseases and conditions Introduction and key changes from the 1999 classification. <i>Journal of Clinical Periodontology</i> , 2018, 45, S1-S8.	4.9	701
64	Dental plaque-induced gingival conditions. <i>Journal of Clinical Periodontology</i> , 2018, 45, S17-S27.	4.9	133
65	Periodontal health and gingival diseases and conditions on an intact and a reduced periodontium: Consensus report of workgroup 1 of the 2017 World Workshop on the Classification of Periodontal and Peri-Implant Diseases and Conditions. <i>Journal of Clinical Periodontology</i> , 2018, 45, S68-S77.	4.9	312
66	Perioperative supplementation with a fruit and vegetable juice powder concentrate and postsurgical morbidity: A double-blind, randomised, placebo-controlled clinical trial. <i>Clinical Nutrition</i> , 2018, 37, 1448-1455.	5.0	7
67	Scientific evidence on the links between periodontal diseases and diabetes: consensus report and guidelines of the joint workshop on periodontal diseases and diabetes by the international Diabetes Federation (IDF) and the European Federation of Periodonto. <i>Journal of Clinical Periodontology</i> , 2018, 45, 138.	4.9	24
68	Interaction of lifestyle, behaviour or systemic diseases with dental caries and periodontal diseases: consensus report of group 2 of the joint EFP/ORCA workshop on the boundaries between caries and periodontal diseases. <i>Journal of Clinical Periodontology</i> , 2017, 44, S39-S51.	4.9	306
69	Characterization, Quantification, and Visualization of Neutrophil Extracellular Traps. <i>Methods in Molecular Biology</i> , 2017, 1537, 481-497.	0.9	19
70	Antioxidant Micronutrients and Oxidative Stress Biomarkers. <i>Methods in Molecular Biology</i> , 2017, 1537, 61-77.	0.9	5
71	Oral Epithelial Cell Culture Model for Studying the Pathogenesis of Chronic Inflammatory Disease. <i>Methods in Molecular Biology</i> , 2017, 1537, 381-401.	0.9	0
72	Practitioner evaluation of an online oral health and risk assessment tool for young patients. <i>British Dental Journal</i> , 2017, 223, 595-599.	0.6	3

#	ARTICLE	IF	CITATIONS
73	Modulation of Neutrophil Extracellular Trap and Reactive Oxygen Species Release by Periodontal Bacteria. <i>Infection and Immunity</i> , 2017, 85, .	2.2	61
74	Impact of fibrinogen carbamylation on fibrin clot formation and stability. <i>Thrombosis and Haemostasis</i> , 2017, 117, 899-910.	3.4	47
75	Is periodontitis a comorbidity of COPD or can associations be explained by shared risk factors/behaviors?. <i>International Journal of COPD</i> , 2017, Volume 12, 1339-1349.	2.3	81
76	Influence of Successful Periodontal Intervention in REnal Disease (INSPIRED): study protocol for a randomised controlled pilot clinical trial. <i>Trials</i> , 2017, 18, 535.	1.6	7
77	Association between periodontitis and mortality in stages 3-5 chronic kidney disease: <sc>NHANES III</sc> and linked mortality study. <i>Journal of Clinical Periodontology</i> , 2016, 43, 104-113.	4.9	110
78	Effects of <i>Aggregatibacter actinomycetemcomitans</i> leukotoxin on neutrophil migration and extracellular trap formation. <i>Journal of Oral Microbiology</i> , 2016, 8, 33070.	2.7	34
79	Periodontitis prevalence and serum antibody reactivity to periodontal bacteria in primary Sjögren's syndrome: a pilot study. <i>Journal of Clinical Periodontology</i> , 2016, 43, 26-33.	4.9	29
80	Peripheral blood neutrophil extracellular trap production and degradation in chronic periodontitis. <i>Journal of Clinical Periodontology</i> , 2016, 43, 1041-1049.	4.9	41
81	The Potential Impact of Essential Nutrients Vitamins C and D upon Periodontal Disease Pathogenesis and Therapeutic Outcomes. <i>Current Oral Health Reports</i> , 2016, 3, 337-346.	1.6	7
82	Birmingham's new dental school and hospital - A real Peter Pan of dentistry. <i>British Dental Journal</i> , 2016, 221, 355-357.	0.6	0
83	The relationship between general health and lifestyle factors and oral health outcomes. <i>British Dental Journal</i> , 2016, 221, 65-69.	0.6	24
84	The oral microbiome - an update for oral healthcare professionals. <i>British Dental Journal</i> , 2016, 221, 657-666.	0.6	782
85	Longitudinal quantification of the gingival crevicular fluid proteome during progression from gingivitis to periodontitis in a canine model. <i>Journal of Clinical Periodontology</i> , 2016, 43, 584-594.	4.9	19
86	Neutrophil superoxide release and plasma C-reactive protein levels pre- and post-periodontal therapy. <i>Journal of Clinical Periodontology</i> , 2016, 43, 652-658.	4.9	39
87	Carbamylated LL-37 as a modulator of the immune response. <i>Innate Immunity</i> , 2016, 22, 218-229.	2.4	32
88	Characterization of neutrophil function in Papillon-Lefèvre syndrome. <i>Journal of Leukocyte Biology</i> , 2016, 100, 433-444.	3.3	74
89	Neutrophil Extracellular Traps in Periodontitis. <i>Journal of Dental Research</i> , 2016, 95, 26-34.	5.2	121
90	Release of Active Peptidyl Arginine Deiminases by Neutrophils Can Explain Production of Extracellular Citrullinated Autoantigens in Rheumatoid Arthritis Synovial Fluid. <i>Arthritis and Rheumatology</i> , 2015, 67, 3135-3145.	5.6	193

#	ARTICLE	IF	CITATIONS
91	Juvenile hyaline fibromatosis: impact of periodontal care on quality of life and a patient perspective. Dental Update, 2015, 42, 656-666.	0.2	0
92	Molecular aspects of the pathogenesis of periodontitis. Periodontology 2000, 2015, 69, 7-17.	13.4	404
93	Primary and secondary prevention of periodontal and peri-implant diseases. Journal of Clinical Periodontology, 2015, 42, S1-4.	4.9	161
94	Primary prevention of periodontitis: managing gingivitis. Journal of Clinical Periodontology, 2015, 42, S71-6.	4.9	399
95	Peripheral blood neutrophil cytokine hyper-reactivity in chronic periodontitis. Innate Immunity, 2015, 21, 714-725.	2.4	73
96	Impaired neutrophil directional chemotactic accuracy in chronic periodontitis patients. Journal of Clinical Periodontology, 2015, 42, 1-11.	4.9	69
97	Wound models for periodontal and bone regeneration: the role of biologic research. Periodontology 2000, 2015, 68, 7-20.	13.4	57
98	Biomaterials for promoting periodontal regeneration in human intrabony defects: a systematic review. Periodontology 2000, 2015, 68, 182-216.	13.4	208
99	Effects of C-reactive protein on the neutrophil respiratory burst <i>in vitro</i> . Innate Immunity, 2014, 20, 339-349.	2.4	10
100	Prescribing for Periodontal Disease. Primary Dental Journal, 2014, 3, 38-43.	0.6	13
101	The relationship between oral health risk and disease status and age, and the significance for general dental practice funding by capitation. British Dental Journal, 2014, 217, E19-E19.	0.6	13
102	Differential activation of neutrophil extracellular traps by specific periodontal bacteria. Free Radical Biology and Medicine, 2014, 75, S53.	2.9	16
103	Hemoglobin A1c Levels Among Patients With Diabetes Receiving Nonsurgical Periodontal Treatment. JAMA - Journal of the American Medical Association, 2014, 311, 1919.	7.4	15
104	Hemoglobin A1c Levels Among Patients With Diabetes Receiving Nonsurgical Periodontal Treatment. JAMA - Journal of the American Medical Association, 2014, 311, 1919.	7.4	8
105	Periodontal disease and systemic disease. Journal of the Royal Society of Medicine, 2014, 107, 94-94.	2.0	3
106	Impaired neutrophil extracellular trap formation: a novel defect in the innate immune system of aged individuals. Aging Cell, 2014, 13, 690-698.	6.7	257
107	The autoantibody repertoire in periodontitis: a role in the induction of autoimmunity to citrullinated proteins in rheumatoid arthritis?. Annals of the Rheumatic Diseases, 2014, 73, 580-586.	0.9	74
108	Response to: "The autoantibody repertoire in periodontitis: a role in the induction of autoimmunity to citrullinated proteins in rheumatoid arthritis? Antibodies against uncitrullinated peptides seem to occur prior to the antibodies to the corresponding citrullinated peptides" by Brink et al. Annals of the Rheumatic Diseases, 2014, 73, e47-e47.	0.9	3
