#	ARTICLE	IF	CITATIONS
1	Economic evaluation and costs of telepsychiatry programmes: A systematic review. <i>Journal of Telemedicine and Telecare</i> , 2022, 28, 311-330.	2.7	29
2	Group Lifestyle Intervention With Mobile Health for Young Adults With Serious Mental Illness: A Randomized Controlled Trial. <i>Psychiatric Services</i> , 2022, 73, 141-148.	2.0	14
3	Information technology and electronic health record to improve behavioral health services. , 2022, , 11-39.		3
4	Scaling up of mental health services in the digital age: The rise of technology and its application to low- and middle-income countries. , 2022, , 459-479.		1
5	Assessing costs of developing a digital program for training community health workers to deliver treatment for depression: A case study in rural India. <i>Psychiatry Research</i> , 2022, 307, 114299.	3.3	12
6	COVID-19 and the global acceleration of digital psychiatry. <i>Lancet Psychiatry</i> , the, 2022, 9, 8-9.	7.4	20
7	A qualitative exploration of perceived needs and barriers of individuals with schizophrenia, caregivers and clinicians in using mental health applications in Madhya Pradesh, India. <i>SSM Mental Health</i> , 2022, 2, 100063.	1.8	5
8	Achieving the potential of mHealth in medicine requires challenging the ethos of care delivery. <i>Primary Health Care Research and Development</i> , 2022, 23, e18.	1.2	5
9	Opportunities to expand access to mental health services: A case for the role of online peer support communities. <i>Psychiatric Quarterly</i> , 2022, 93, 613-625.	2.1	8
10	Factors associated with weight gain prevention in young adults with serious mental illness. <i>Microbial Biotechnology</i> , 2022, , .	1.7	2
11	Measures to Improve the Mental Health of Construction Personnel Based on Expert Opinions. <i>Journal of Management in Engineering - ASCE</i> , 2022, 38, .	4.8	11
12	Ethical issues of collecting, storing, and analyzing geo-referenced tweets for mental health research. <i>Digital Health</i> , 2022, 8, 205520762210925.	1.8	4
13	Association of Task-Shared Psychological Interventions With Depression Outcomes in Low- and Middle-Income Countries. <i>JAMA Psychiatry</i> , 2022, 79, 430.	11.0	22
14	Global youth vaping and respiratory health: epidemiology, interventions, and policies. <i>Npj Primary Care Respiratory Medicine</i> , 2022, 32, 14.	2.6	16
15	Opportunities and challenges of using social media big data to assess mental health consequences of the COVID-19 crisis and future major events. <i>Discover Mental Health</i> , 2022, 2, .	2.0	7
16	EMPOWER: Toward the Global Dissemination of Psychosocial Interventions. <i>Focus (American Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 142</i>	0.8	13
17	The effectiveness and cost-effectiveness of integrating mental health services in primary care in low- and middle-income countries: systematic review. <i>BJPsych Bulletin</i> , 2021, 45, 40-52.	1.1	28
18	Person-based machine learning: Accounting for patient experience to explain the nature of schizophrenia. <i>Schizophrenia Research</i> , 2021, 228, 619-620.	2.0	1

#	ARTICLE	IF	CITATIONS
19	The emergence of digital mental health in low-income and middle-income countries: A review of recent advances and implications for the treatment and prevention of mental disorders. <i>Journal of Psychiatric Research</i> , 2021, 133, 223-246.	3.1	71
20	COVID-19 mental health impact and responses in low-income and middle-income countries: reimagining global mental health. <i>Lancet Psychiatry</i> , 2021, 8, 535-550.	7.4	455
21	Cross cultural and global uses of a digital mental health app: results of focus groups with clinicians, patients and family members in India and the United States. <i>Global Mental Health (Cambridge, England)</i> , 2021, 8, e30.	2.5	18
22	Association Between Care Utilization and Anxiety Outcomes in an On-Demand Mental Health System: Retrospective Observational Study. <i>JMIR Formative Research</i> , 2021, 5, e24662.	1.4	14
23	Sleep quality and its relationship to mental health, physical health and health behaviours among young adults with serious mental illness enrolled in a lifestyle intervention trial. <i>Microbial Biotechnology</i> , 2021, , .	1.7	3
24	Identifying challenges and recommendations for advancing global mental health implementation research: A key informant study of the National Institute of Mental Health Scale-Up Hubs. <i>Asian Journal of Psychiatry</i> , 2021, 57, 102557.	2.0	7
25	Digital training for non-specialist health workers to deliver a brief psychological treatment for depression in India: Protocol for a three-arm randomized controlled trial. <i>Contemporary Clinical Trials</i> , 2021, 102, 106267.	1.8	16
26	Economic Evaluations of Internet-Based Psychological Interventions for Anxiety Disorders and Depression: A Systematic Review. <i>Journal of Affective Disorders</i> , 2021, 284, 157-182.	4.1	30
27	Use of digital health tools for health promotion in cancer survivors. <i>Psycho-Oncology</i> , 2021, 30, 1302-1310.	2.3	12
28	Can Big Data Be Used to Monitor the Mental Health Consequences of COVID-19?. <i>International Journal of Public Health</i> , 2021, 66, 633451.	2.3	9
29	Renewed call for lifestyle interventions to address obesity among individuals with serious mental illness in the COVID-19 era and beyond. <i>Translational Behavioral Medicine</i> , 2021, 11, 1359-1364.	2.4	2
30	Reducing psychological distress and depression in humanitarian emergencies: An essential role for nonspecialists. <i>PLoS Medicine</i> , 2021, 18, e1003625.	8.4	1
31	Where are the regional gaps in the scientific evidence?. <i>Lancet Psychiatry</i> , 2021, 8, 557-559.	7.4	1
32	Patterns of digital information and communication technology use among patients at primary health care centres in Colombia: Phase I of the DIADA project. <i>Revista Colombiana De Psiquiatría (English Ed)</i> , 2021, 50, 116-132.	0.3	6
33	A characterisation of social media users within the primary care system in Colombia and predictors of their social media use to understand their health. <i>Revista Colombiana De Psiquiatría (English Ed)</i> , 2021, 50, 42-51.	0.3	0
34	Development and implementation of COVID-19 safety protocols for conducting a randomized trial in global mental health: Field report from Central India. <i>Asian Journal of Psychiatry</i> , 2021, 63, 102750.	2.0	4
35	Exploring the Association Between Electronic Wearable Device Use and Levels of Physical Activity Among Individuals With Depression and Anxiety: A Population Level Study. <i>Frontiers in Digital Health</i> , 2021, 3, 707900.	2.8	6
36	Protecting Mental Health Data Privacy in India: The Case of Data Linkage With Aadhaar. <i>Global Health, Science and Practice</i> , 2021, 9, 467-480.	1.7	10

#	ARTICLE	IF	CITATIONS
37	Addressing mental health stigma in low-income and middle-income countries: A new frontier for digital mental health. <i>Ethics, Medicine and Public Health</i> , 2021, 19, 100719.	0.9	24
38	Mental Health and Treatment Considerations for Urban Populations. , 2021, , .		0
39	Exploring the Barriers to and Motivators for Using Digital Mental Health Interventions Among Construction Personnel in Nigeria: Qualitative Study. <i>JMIR Formative Research</i> , 2021, 5, e18969.	1.4	7
40	Assessing the Integration of Behavioral Health Services in Primary Care in Colombia. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2020, 47, 435-442.	2.1	8
41	Digital Training for Non-Specialist Health Workers to Deliver a Brief Psychological Treatment for Depression in Primary Care in India: Findings from a Randomized Pilot Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6368.	2.6	37
42	Digital Surveillance for Monitoring Environmental Health Threats: A Case Study Capturing Public Opinion from Twitter about the 2019 Chennai Water Crisis. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5077.	2.6	23
43	Design and Development of a Digital Program for Training Non-specialist Health Workers to Deliver an Evidence-Based Psychological Treatment for Depression in Primary Care in India. <i>Journal of Technology in Behavioral Science</i> , 2020, 5, 402-415.	2.3	24
44	Ten simple rules for open human health research. <i>PLoS Computational Biology</i> , 2020, 16, e1007846.	3.2	1
45	Digital technology for management of severe mental disorders in low-income and middle-income countries. <i>Current Opinion in Psychiatry</i> , 2020, 33, 501-507.	6.3	41
46	The NIMH global mental health research community and COVID-19. <i>Lancet Psychiatry</i> , the, 2020, 7, 834-836.	7.4	19
47	Making mental health more accessible in light of COVID-19: Scalable digital health with digital navigators in low and middle-income countries. <i>Asian Journal of Psychiatry</i> , 2020, 54, 102433.	2.0	24
48	Social Media and Mental Health: Benefits, Risks, and Opportunities for Research and Practice. <i>Journal of Technology in Behavioral Science</i> , 2020, 5, 245-257.	2.3	193
49	Editorial: Designing Technologies for Youth Mental Health. <i>Frontiers in Public Health</i> , 2020, 8, 45.	2.7	10
50	Task-shifted psychotherapy for depression in people living with HIV. <i>The Lancet Global Health</i> , 2020, 8, e314-e315.	6.3	1
51	Mental Ill-Health Risk Factors in the Construction Industry: Systematic Review. <i>Journal of Construction Engineering and Management - ASCE</i> , 2020, 146, .	3.8	80
52	Assessing health worker competence to deliver a brief psychological treatment for depression: Development and validation of a scalable measure. <i>Journal of Behavioral and Cognitive Therapy</i> , 2020, 30, 253-266.	1.4	13
53	Time to Get Personal: Individualised Virtual Reality for Mental Health. , 2020, , .		18
54	Digital Peer Support Mental Health Interventions for People With a Lived Experience of a Serious Mental Illness: Systematic Review. <i>JMIR Mental Health</i> , 2020, 7, e16460.	3.3	122

#	ARTICLE	IF	CITATIONS
