#	ARTICLE	IF	CITATIONS
1	Work-Related Intervention Needs of Medical Assistants and How to Potentially Address Them according to Supervising General Practitioners: A Qualitative Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 1359.	2.6	4
2	The Relationship of Medical Assistants' Work Engagement with Their Concerns of Having Made an Important Medical Error: A Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 6690.	2.6	0
3	Psychosocial working conditions and the subjective prognosis of gainful employment among employees with asthma: a cross-sectional study. <i>Disability and Rehabilitation</i> , 2021, 43, 1299-1306.	1.8	3
4	“The Heidelberg Five” personality dimensions: Genome-wide associations, polygenic risk for neuroticism, and psychopathology 20 years after assessment. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2021, 186, 77-89.	1.7	6
5	The Prevalence and Determinants of Being Offered and Accepting Operational Management Services” A Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 2158.	2.6	4
6	Asthma self-management at work, asthma morbidity, and the subjective prognosis of gainful employment – the role of work engagement and overcommitment: a cross-sectional study. <i>Journal of Asthma</i> , 2021, , 1-11.	1.7	1
7	High Job Burnout Predicts Low Heart Rate Variability in the Working Population after a First Episode of Acute Coronary Syndrome. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3431.	2.6	4
8	Who is who in cardiovascular research? What a review of Nobel Prize nominations reveals about scientific trends. <i>Clinical Research in Cardiology</i> , 2021, 110, 1861-1870.	3.3	6
9	Exploring the influence of testimonial source on attitudes towards e-mental health interventions among university students: Four-group randomized controlled trial. <i>PLoS ONE</i> , 2021, 16, e0252012.	2.5	9
10	Attitudes and stressors related to the SARS-CoV-2 pandemic among emergency medical services workers in Germany: a cross-sectional study. <i>BMC Health Services Research</i> , 2021, 21, 851.	2.2	12
11	Attitudes, stressors and work outcomes related to the COVID-19 pandemic among dental assistants in Germany: a cross-sectional study. <i>BMJ Open</i> , 2021, 11, e045881.	1.9	2
12	Associations between Psychosocial Working Conditions and Quality of Care (i.e., Slips and Lapses, and) Tj ETQq0 0 0 rgBT /Overlock 10 <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 9693.	2.6	3
13	Pandemic-related attitudes, stressors and work outcomes among medical assistants during the SARS-CoV-2 (“Coronavirus”) pandemic in Germany: A cross-sectional Study. <i>PLoS ONE</i> , 2021, 16, e0245473.	2.5	14
14	The Relationship of Workplace Bullying with Health Outcomes, the Intention to Leave the Profession and Medical Errors: A Cross-sectional Study among Medical Assistants in Germany. <i>Gesundheitswesen</i> , 2021, 83, .	0.5	0
15	Psychosocial stressors among Bangladesh's ready-made garment workers: a pilot study. , 2021, 83, .		0
16	Interplay between the genetics of personality traits, severe psychiatric disorders and COVID-19 host genetics in the susceptibility to SARS-CoV-2 infection. <i>BJPsych Open</i> , 2021, 7, e188.	0.7	1
17	When in Doubt – Career Indecision, Mental Wellbeing, and Consultation-Seeking Behaviour” A Qualitative Interview Study among Students and Counsellors. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 12604.	2.6	2
18	The role of self-efficacy and locus of control in asthma-related needs and outcomes: a cross-sectional study. <i>Journal of Asthma</i> , 2020, 57, 196-204.	1.7	13

#	ARTICLE	IF	CITATIONS
19	Changes in the association between job decision latitude and work engagement at different levels of work experience: A 10-year longitudinal study. <i>Work and Stress</i> , 2020, 34, 111-126.	4.5	8
20	Does cognitive function predict changes in perception of stressful working conditions?. <i>Industrial Health</i> , 2020, 58, 72-77.	1.0	3
21	Return to Work after Common Mental Disorders: A Qualitative Study Exploring the Expectations of the Involved Stakeholders. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6635.	2.6	9
22	Impact of pulmonary rehabilitation on patients' health care needs and asthma control: a quasi-experimental study. <i>BMC Pulmonary Medicine</i> , 2020, 20, 267.	2.0	4
23	"When I have time pressure, sport is the first thing that is cancelled": A mixed-methods study on barriers to physical activity among university students in Germany. <i>Journal of Sports Sciences</i> , 2020, 38, 2479-2488.	2.0	12
24	Household Air Pollution and Angina Pectoris in Low- and Middle-Income Countries: Cross-Sectional Evidence from the World Health Survey 2002-2003. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5802.	2.6	6
25	Students' perspectives on interventions to reduce stress in medical school: A qualitative study. <i>PLoS ONE</i> , 2020, 15, e0240587.	2.5	13
26	Perceived Usefulness of Continuous Glucose Monitoring Devices at the Workplace: Secondary Analysis of Data From a Qualitative Study. <i>Journal of Diabetes Science and Technology</i> , 2019, 13, 242-247.	2.2	3
27	Urban road traffic noise and noise annoyance—a study on perceived noise control and its value among the elderly. <i>European Journal of Public Health</i> , 2019, 29, 377-379.	0.3	11
28	Work-Related Intervention Needs and Potential Occupational Outcomes among Medical Assistants: A Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2260.	2.6	5
29	General practitioner visits and physical activity with asthma—the role of job decision authority: a cross-sectional study. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 1173-1178.	2.3	2
30	Stressors and resources related to academic studies and improvements suggested by medical students: a qualitative study. <i>BMC Medical Education</i> , 2019, 19, 312.	2.4	34
31	Food allergy knowledge, attitudes and their determinants among restaurant staff: A cross-sectional study. <i>PLoS ONE</i> , 2019, 14, e0214625.	2.5	22
32	Desired improvements of working conditions among medical assistants in Germany: a cross-sectional study. <i>Journal of Occupational Medicine and Toxicology</i> , 2019, 14, 18.	2.2	12
33	Psychosocial working conditions, asthma self-management at work and asthma morbidity: a cross-sectional study. <i>Clinical and Translational Allergy</i> , 2019, 9, 25.	3.2	7
34	Medical students' perceptions of stress due to academic studies and its interrelationships with other domains of life: a qualitative study. <i>Medical Education Online</i> , 2019, 24, 1603526.	2.6	91
35	The Patient Needs in Asthma Treatment (NEAT) questionnaire: Further evidence on its psychometric properties. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2019, 74, 1511-1521.	5.7	4
36	Associations of ambivalent leadership with distress and cortisol secretion. <i>Journal of Behavioral Medicine</i> , 2019, 42, 265-275.	2.1	13

#	ARTICLE	IF	CITATIONS
37	Stressoren, Ressourcen, VerÄnderungswÄnsche aus der Sicht von Medizinstudierenden einer deutschen Hochschule: eine qualitative Studie. Gesundheitswesen, 2019, 81, .	0.5	0
38	Reports of wheezing and of diagnosed asthma are associated with impaired social functioning: Secondary analysis of the cross-sectional World Health Survey data. Journal of Psychosomatic Research, 2018, 105, 52-57.	2.6	7
39	The association of selfâ€reported diabetes with impaired social functioning in lowâ€, middleâ€and highâ€income countries: findings from the World Health Survey. Diabetic Medicine, 2018, 35, 332-338.	2.3	3
40	Associations of work stress with hair cortisol concentrations â€“ initial findings from a prospective study. Psychoneuroendocrinology, 2018, 89, 134-137.	2.7	15
41	Psychosocial working conditions and diabetes self-management at work: A qualitative study. Diabetes Research and Clinical Practice, 2018, 140, 129-138.	2.8	20
42	Job burnout predicts decline of health-related quality of life among employees with cardiovascular disease: A one-year follow-up study in female nurses. General Hospital Psychiatry, 2018, 50, 51-53.	2.4	9
43	Psychosocial working conditions as determinants of asthma self-management at work: A systematic review. Journal of Asthma, 2018, 55, 1095-1104.	1.7	6
44	Food allergy knowledge and attitudes among restaurant staff in Germany. European Journal of Public Health, 2018, 28, .	0.3	0
45	What are the perceived influences on asthma self-management at the workplace? A qualitative study. BMJ Open, 2018, 8, e022126.	1.9	11
46	Does the Implementation of Clinical Pathways Affect Hierarchical Structures Within a Surgical Department? A Qualitative Study. International Surgery, 2018, 103, 48-55.	0.1	1
47	The Relationship between Personality Traits with Depressive Symptoms and Suicidal Ideation among Medical Students: A Cross-Sectional Study at One Medical School in Germany. International Journal of Environmental Research and Public Health, 2018, 15, 1462.	2.6	18
48	Organizational justice, justice climate, and somatic complaints: A multilevel investigation. Journal of Psychosomatic Research, 2018, 111, 15-21.	2.6	35
49	Effort-reward imbalance among students at German universities: associations with self-rated health and mental health. International Archives of Occupational and Environmental Health, 2018, 91, 1011-1020.	2.3	21
50	Bidirectional associations between psychological distress and hearing problems: an 18-year longitudinal analysis of the British Household Panel Survey. International Journal of Audiology, 2018, 57, 816-824.	1.7	4
51	Home as a Place of Noise Control for the Elderly? A Cross-Sectional Study on Potential Mediating Effects and Associations between Road Traffic Noise Exposure, Access to a Quiet Side, Dwelling-Related Green and Noise Annoyance. International Journal of Environmental Research and Public Health, 2018, 15, 1036.	2.6	16
52	Associations of psychosocial working conditions with health outcomes, quality of care and intentions to leave the profession: results from a cross-sectional study among physician assistants in Germany. International Archives of Occupational and Environmental Health, 2018, 91, 643-654.	2.3	40
53	Impact of shift work on the diurnal cortisol rhythm: a one-year longitudinal study in junior physicians. Journal of Occupational Medicine and Toxicology, 2018, 13, 23.	2.2	38
54	Work stress, asthma control and asthma-specific quality of life: Initial evidence from a cross-sectional study. Journal of Asthma, 2017, 54, 210-216.	1.7	15

#	ARTICLE	IF	CITATIONS
55	Work stress, family stress and asthma: a cross-sectional study among women in China. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 349-356.	2.3	19
56	Only by the Night: A Closer Look at Parasympathetic Nervous System Dysregulation in Chronic Pain. <i>Pain Practice</i> , 2017, 17, 568-569.	1.9	0
57	A stressful work environment is associated with tinnitus: Initial evidence from Asia. <i>General Hospital Psychiatry</i> , 2017, 47, A1-A3.	2.4	4
58	Effects and mediators of psychosocial work characteristics on somatic symptoms six years later: Prospective findings from the Mannheim Industrial Cohort Studies (MICS). <i>Journal of Psychosomatic Research</i> , 2017, 98, 27-33.	2.6	11
59	Depression and inflammatory arthritis are associated in both Western and Non-Western countries: Findings from the World Health Survey 2002. <i>Journal of Psychosomatic Research</i> , 2017, 92, 49-54.	2.6	7
60	Physician burnout, work engagement and the quality of patient care. <i>Occupational Medicine</i> , 2017, 67, 356-362.	1.4	55
61	Psychosocial barriers to healthcare use among individuals with diabetes mellitus: A systematic review. <i>Primary Care Diabetes</i> , 2017, 11, 495-514.	1.8	17
62	The longitudinal relationship of work stress with peak expiratory flow: a cohort study. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 695-701.	2.3	4
63	Do perceived job insecurity and annoyance due to air and noise pollution predict incident self-rated poor health? A prospective analysis of independent and joint associations using a German national representative cohort study. <i>BMJ Open</i> , 2017, 7, e012815.	1.9	18
64	Eating behaviour of university students in Germany: Dietary intake, barriers to healthy eating and changes in eating behaviour since the time of matriculation. <i>Appetite</i> , 2017, 109, 100-107.	3.7	125
65	Effort-reward imbalance at Work, Parental Support, and Suicidal Ideation in Adolescents: A Cross-sectional Study from Chinese Dual-earner Families. <i>Safety and Health at Work</i> , 2017, 8, 77-83.	0.6	7
66	Cognitive-Motivational Determinants of Residents' Civic Engagement and Health (Inequities) in the Context of Noise Action Planning: A Conceptual Model. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 578.	2.6	11
67	Do Effort and Reward at Work Predict Changes in Cognitive Function? First Longitudinal Results from the Representative German Socio-Economic Panel. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1390.	2.6	5
68	Determinants of patients' needs in asthma treatment: a cross-sectional study. <i>Npj Primary Care Respiratory Medicine</i> , 2016, 26, 16044.	2.6	7
69	The association of work stress with somatic symptoms in Chinese working women: a large cross-sectional survey. <i>Journal of Psychosomatic Research</i> , 2016, 89, 7-10.	2.6	14
70	Associations between work stress and suicidal ideation: Individual-participant data from six cross-sectional studies. <i>Journal of Psychosomatic Research</i> , 2016, 90, 62-69.	2.6	45
71	Effort-reward imbalance and perceived quality of patient care: a cross-sectional study among physicians in Germany. <i>BMC Public Health</i> , 2016, 16, 342.	2.9	42
72	Associations of psychosocial working conditions and working time characteristics with somatic complaints in German resident physicians. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 583-592.	2.3	18

#	ARTICLE	IF	CITATIONS
73	Patients'™ needs in asthma treatment: development and initial validation of the NEAT questionnaire. <i>Journal of Asthma</i> , 2016, 53, 427-437.	1.7	15
74	Associations of Organizational Justice with Tinnitus and the Mediating Role of Depressive Symptoms and Burnout'™ Findings from a Cross-Sectional Study. <i>International Journal of Behavioral Medicine</i> , 2016, 23, 190-197.	1.7	15
75	Work stress and the risk of recurrent coronary heart disease events: A systematic review and meta-analysis. <i>International Journal of Occupational Medicine and Environmental Health</i> , 2015, 28, 8-19.	1.3	72
76	Injustice at Work and Leukocyte Glucocorticoid Sensitivity. <i>Psychosomatic Medicine</i> , 2015, 77, 527-538.	2.0	12
77	Investigating the Associations of Self-Rated Health: Heart Rate Variability Is More Strongly Associated than Inflammatory and Other Frequently Used Biomarkers in a Cross Sectional Occupational Sample. <i>PLoS ONE</i> , 2015, 10, e0117196.	2.5	99
78	Workplace bullying and depressive symptoms: A prospective study among junior physicians in Germany. <i>Journal of Psychosomatic Research</i> , 2015, 78, 168-172.	2.6	60
79	Effort'™reward imbalance at work increases the risk of the metabolic syndrome: A prospective study in Chinese university staff. <i>International Journal of Cardiology</i> , 2015, 182, 390-391.	1.7	14
80	The association of effort'™reward imbalance and asthma: findings from two cross-sectional studies. <i>International Archives of Occupational and Environmental Health</i> , 2015, 88, 351-358.	2.3	9
81	Psychosocial work characteristics and needle stick and sharps injuries among nurses in China: a prospective study. <i>International Archives of Occupational and Environmental Health</i> , 2015, 88, 925-932.	2.3	8
82	Organizational Justice Is Related to Heart Rate Variability in White-Collar Workers, but Not in Blue-Collar Workers'™ Findings from a Cross-Sectional Study. <i>Annals of Behavioral Medicine</i> , 2015, 49, 434-448.	2.9	13
83	Personality and risk of adult asthma in a prospective cohort study. <i>Journal of Psychosomatic Research</i> , 2015, 79, 13-17.	2.6	11
84	Cardiovascular disease is associated with the perception of worsening psychosocial work characteristics. <i>International Journal of Cardiology</i> , 2015, 186, 149-151.	1.7	17
85	Three job stress models and their relationship with musculoskeletal pain in blue- and white-collar workers. <i>Journal of Psychosomatic Research</i> , 2015, 79, 340-347.	2.6	52
86	Effort'™reward imbalance is associated with the metabolic syndrome '™ Findings from the Mannheim Industrial Cohort Study (MICS). <i>International Journal of Cardiology</i> , 2015, 178, 24-28.	1.7	32
87	Person-fit statistics, response sets and survey participation in a population-based cohort study. <i>Psihologija</i> , 2015, 48, 345-360.	0.6	2
88	Psychosocial resources and the relationship between transformational leadership and employees' psychological strain. <i>Work</i> , 2014, 49, 315-324.	1.1	35
89	Work stress and hair cortisol levels among workers in a Bangladeshi ready-made garment factory '™ Results from a cross-sectional study. <i>Psychoneuroendocrinology</i> , 2014, 50, 20-27.	2.7	24
90	Job insecurity is associated with adult asthma in Germany during Europe's recent economic crisis: a prospective cohort study. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 1196-1199.	3.7	23

#	ARTICLE	IF	CITATIONS
91	Compensation for disease-caused sudden death at work in China 2006–2012. <i>Occupational and Environmental Medicine</i> , 2014, 71, 661.1-661.	2.8	4
92	Consistent associations between measures of psychological stress and CMV antibody levels in a large occupational sample. <i>Brain, Behavior, and Immunity</i> , 2014, 38, 133-141.	4.1	67
93	Psychometric properties of a German organizational justice questionnaire (G-OJQ) and its association with self-rated health: findings from the Mannheim Industrial Cohort Studies (MICS). <i>International Archives of Occupational and Environmental Health</i> , 2014, 87, 85-93.	2.3	16
94	The association of depression and angina pectoris across 47 countries: findings from the 2002 World Health Survey. <i>European Journal of Epidemiology</i> , 2014, 29, 507-515.	5.7	20
95	Primary school teachers in China: associations of organizational justice and effort–reward imbalance with burnout and intentions to leave the profession in a cross-sectional sample. <i>International Archives of Occupational and Environmental Health</i> , 2014, 87, 695-703.	2.3	42
