#	ARTICLE	IF	CITATIONS
1	Hydrology and thermal regime of an ice-contact proglacial lake: Implications for stream temperature and lake evaporation. <i>Hydrological Processes</i> , 2022, 36, .	2.6	1
2	Do headwater lakes moderate downstream temperature response to forest harvesting? Illustrating opportunities and obstacles associated with virtual experiments. <i>Hydrological Processes</i> , 2022, 36, .	2.6	1
3	Predicting Latent and Sensible Heat Fluxes in Stream Temperature Models: Current Challenges and Potential Solutions. <i>Water Resources Research</i> , 2021, 57, e2020WR028712.	4.2	3
4	Stream Temperature Response to 50% Strip-Thinning in a Temperate Forested Headwater Catchment. <i>Water (Switzerland)</i> , 2021, 13, 1022.	2.7	8
5	Approaching four decades of forest watershed research at Upper Pentiction Creek, British Columbia: A synthesis. <i>Hydrological Processes</i> , 2021, 35, e14123.	2.6	6
6	Lake Outflow and Hillslope Lateral Inflows Dictate Thermal Regimes of Forested Streams Draining Small Lakes. <i>Water Resources Research</i> , 2021, 57, e2020WR028136.	4.2	13
7	Data sets for the Upper Pentiction Creek Watershed Experiment: a paired-catchment study to support investigations of watershed response to forest dynamics and climatic variability in an inland snow-dominated region. <i>Hydrological Processes</i> , 2021, 35, e14391.	2.6	2
8	Evaluation of the North American Regional Reanalysis (NARR) precipitation fields in a topographically complex domain. <i>Hydrological Sciences Journal</i> , 2020, 65, 786-799.	2.6	5
9	Predicting evaporation from mountain streams. <i>Hydrological Processes</i> , 2020, 34, 4262-4279.	2.6	6
10	Influences of upstream reservoir stratification and downstream tidal fluctuations on the summer thermal regime of a regulated coastal river. <i>Hydrological Processes</i> , 2020, 34, 4660-4674.	2.6	7
11	Detecting the Effects of Sustained Glacier Wastage on Streamflow in Variably Glacierized Catchments. <i>Frontiers in Earth Science</i> , 2020, 8, .	1.8	23
12	Plant community type is an indicator of the seasonal moisture deficit in a disturbed raised bog. <i>Ecohydrology</i> , 2020, 13, e2209.	2.4	6
13	Effects of Forest Harvesting on Warm-Season Low Flows in the Pacific Northwest: A Review. <i>Confluence: Journal of Watershed Science and Management</i> , 2020, 4, 29.	0.8	7
14	Evaluating the transferability of empirical models of debris-covered glacier melt. <i>Journal of Glaciology</i> , 2020, 66, 978-995.	2.2	4
15	Empirical Stream Thermal Sensitivities May Underestimate Stream Temperature Response to Climate Warming. <i>Water Resources Research</i> , 2019, 55, 5453-5467.	4.2	42
16	Effects of forestry on summertime low flows and physical fish habitat in snowmelt-dominant headwater catchments of the Pacific Northwest. <i>Hydrological Processes</i> , 2019, 33, 3152-3168.	2.6	27
17	Importance of scale, land-use, and stream network properties for riparian plant communities along an urban gradient. <i>Freshwater Biology</i> , 2019, 64, 587-600.	2.4	9
18	Daily estimates of Landsat fractional snow cover driven by MODIS and dynamic time-warping. <i>Remote Sensing of Environment</i> , 2018, 216, 635-646.	11.0	38

#	ARTICLE	IF	CITATIONS
19	A model for simulating the moisture content of standardized fuel sticks of various sizes. <i>Agricultural and Forest Meteorology</i> , 2017, 236, 123-134.	4.8	12
20	Variability of tracer breakthrough curves in mountain streams: Implications for streamflow measurement by slug injection. <i>Canadian Water Resources Journal</i> , 2017, 42, 21-37.	1.2	10
21	Quantifying the role of the snowpack in generating water available for runoff during rain-on-snow events from snow pillow records. <i>Hydrological Processes</i> , 2017, 31, 4136-4150.	2.6	23
22	Influence of turbidity and aeration on the albedo of mountain streams. <i>Hydrological Processes</i> , 2017, 31, 4477-4491.	2.6	22
23	Ablation from calving and surface melt at lake-terminating Bridge Glacier, British Columbia, 1984-2013. <i>Cryosphere</i> , 2016, 10, 87-102.	3.9	15
24	Identifying Temperature Thresholds Associated with Fish Community Changes in British Columbia, Canada, to Support Identification of Temperature Sensitive Streams. <i>River Research and Applications</i> , 2016, 32, 330-347.	1.7	31
25	Scientific briefing: quantifying streambed heat advection associated with groundwater-surface water interactions. <i>Hydrological Processes</i> , 2016, 30, 987-992.	2.6	37
26	Streamflow response to the rapid retreat of a lake-calving glacier. <i>Hydrological Processes</i> , 2016, 30, 3650-3665.	2.6	14
27	Suitability of North American Regional Reanalysis (NARR) output for hydrologic modelling and analysis in mountainous terrain. <i>Hydrological Processes</i> , 2016, 30, 2332-2347.	2.6	19
28	Improving the theoretical underpinnings of process-based hydrologic models. <i>Water Resources Research</i> , 2016, 52, 2350-2365.	4.2	80
29	Observations and modeling of hillslope throughflow temperatures in a coastal forested catchment. <i>Water Resources Research</i> , 2015, 51, 3770-3795.	4.2	25
30	Winter stream temperature in the rain-on-snow zone of the Pacific Northwest: influences of hillslope runoff and transient snow cover. <i>Hydrology and Earth System Sciences</i> , 2014, 18, 819-838.	4.9	49
31	Effects of glacial retreat on proglacial streams and riparian zones in the Coast and North Cascade Mountains. <i>Earth Surface Processes and Landforms</i> , 2014, 39, 351-365.	2.5	12
32	Trends in groundwater levels in British Columbia. <i>Canadian Water Resources Journal</i> , 2014, 39, 15-31.	1.2	13
33	Stream and bed temperature variability in a coastal headwater catchment: influences of surface-subsurface interactions and partial-retention forest harvesting. <i>Hydrological Processes</i> , 2014, 28, 1238-1249.	2.6	34
34	Muted responses of streamflow and suspended sediment flux in a wildfire-affected watershed. <i>Geomorphology</i> , 2013, 202, 128-139.	2.6	34
35	Empirical modelling of maximum weekly average stream temperature in British Columbia, Canada, to support assessment of fish habitat suitability. <i>Canadian Water Resources Journal</i> , 2013, 38, 135-147.	1.2	50
36	Prediction of streamflow regime using ecological classification zones. <i>Hydrological Processes</i> , 2013, 27, 1935-1944.	2.6	4

#	ARTICLE	IF	CITATIONS
37	Geometric calculation of view factors for stream surface radiation modelling in the presence of riparian forest. <i>Hydrological Processes</i> , 2013, 28, n/a-n/a.	2.6	8
38	North American Stream Hydrographers [NASH] Special Issue. <i>Canadian Water Resources Journal</i> , 2012, 37, 1-2.	1.2	2
39	Quantifying Uncertainty in Streamflow Records. <i>Canadian Water Resources Journal</i> , 2012, 37, 3-21.	1.2	81
40	Natural disturbance and forest management in riparian zones: comparison of effects at reach, catchment, and landscape scales. <i>Freshwater Science</i> , 2012, 31, 239-247.	1.8	37
41	Riparian microclimate and evaporation from a coastal headwater stream, and their response to partial-retention forest harvesting. <i>Agricultural and Forest Meteorology</i> , 2012, 164, 1-9.	4.8	27
42	Estimation of forest harvesting-induced stream temperature changes and bioenergetic consequences for cutthroat trout in a coastal stream in British Columbia, Canada. <i>Aquatic Sciences</i> , 2012, 74, 427-441.	1.5	38
43	Prediction of Streamflow Regime and Annual Runoff for Ungauged Basins Using a Distributed Monthly Water Balance Model <sup>1</sup> . <i>Journal of the American Water Resources Association</i> , 2012, 48, 32-42.	2.4	18
44	Late-summer thermal regime of a small proglacial lake. <i>Hydrological Processes</i> , 2012, 26, 2687-2695.	2.6	16
45	Spatial organization of process domains in headwater drainage basins of a glaciated foothills region with complex longitudinal profiles. <i>Water Resources Research</i> , 2011, 47, .	4.2	12
46	Stream temperature dynamics in two hydrogeomorphically distinct reaches. <i>Hydrological Processes</i> , 2011, 25, 679-690.	2.6	50
47	Discharge dependence of stream albedo in a steep proglacial channel. <i>Hydrological Processes</i> , 2011, 25, 4154-4158.	2.6	10
48	Forest fire, bank strength and channel instability: the "unusual" response of Fishtrap Creek, British Columbia. <i>Earth Surface Processes and Landforms</i> , 2010, 35, 1167-1183.	2.5	47
49	Above-stream microclimate and stream surface energy exchanges in a wildfire-disturbed riparian zone. <i>Hydrological Processes</i> , 2010, 24, 2369-2381.	2.6	51
50	Prediction of spatially distributed regional-scale fields of air temperature and vapor pressure over mountain glaciers. <i>Journal of Geophysical Research</i> , 2010, 115, .	3.3	72
51	Derivation of melt factors from glacier mass-balance records in western Canada. <i>Journal of Glaciology</i> , 2009, 55, 123-130.	2.2	43
52	Glacier change in western North America: influences on hydrology, geomorphic hazards and water quality. <i>Hydrological Processes</i> , 2009, 23, 42-61.	2.6	278
53	Transient storage processes in a steep headwater stream. <i>Hydrological Processes</i> , 2009, 23, 2671-2685.	2.6	22
54	Detection of runoff timing changes in pluvial, nival, and glacial rivers of western Canada. <i>Water Resources Research</i> , 2009, 45, .	4.2	117

#	ARTICLE	IF	CITATIONS
55	Recent advances in stream and river temperature research. <i>Hydrological Processes</i> , 2008, 22, 902-918.	2.6	623
56	Coupled modelling of glacier and streamflow response to future climate scenarios. <i>Water Resources Research</i> , 2008, 44, .	4.2	199
57	Regime-dependent streamflow sensitivities to Pacific climate modes cross the Georgiaâ€“Puget transboundary ecoregion. <i>Hydrological Processes</i> , 2007, 21, 3264-3287.	2.6	75
58	Headwater stream temperature response to clear-cut harvesting with different riparian treatments, coastal British Columbia, Canada. <i>Water Resources Research</i> , 2006, 42, .	4.2	95
59	Influence of watershed glacier coverage on summer streamflow in British Columbia, Canada. <i>Water Resources Research</i> , 2006, 42, .	4.2	150
60	Stream Temperature Patterns in British Columbia, Canada, Based on Routine Spot Measurements. <i>Canadian Water Resources Journal</i> , 2006, 31, 41-56.	1.2	62
61	Variability in snow accumulation patterns within forest stands on the interior plateau of British Columbia, Canada. <i>Hydrological Processes</i> , 2006, 20, 3683-3695.	2.6	33
62	The role of synoptic-scale circulation in the linkage between large-scale oceanâ€“atmosphere indices and winter surface climate in British Columbia, Canada. <i>International Journal of Climatology</i> , 2006, 26, 541-560.	3.5	96
63	Glacier-mediated streamflow teleconnections to the Arctic Oscillation. <i>International Journal of Climatology</i> , 2006, 26, 619-636.	3.5	41
64	Synoptic sea-level pressure patterns generated by a general circulation model: comparison with types derived from NCEP/NCAR re-analysis and implications for downscaling. <i>International Journal of Climatology</i> , 2006, 26, 1727-1736.	3.5	29
65	RIPARIAN MICROCLIMATE AND STREAM TEMPERATURE RESPONSE TO FOREST HARVESTING: A REVIEW. <i>Journal of the American Water Resources Association</i> , 2005, 41, 813-834.	2.4	247
66	SUSPENDED SEDIMENT DYNAMICS IN SMALL FOREST STREAMS OF THE PACIFIC NORTHWEST. <i>Journal of the American Water Resources Association</i> , 2005, 41, 877-898.	2.4	99
67	Thermal regime of a headwater stream within a clear-cut, coastal British Columbia, Canada. <i>Hydrological Processes</i> , 2005, 19, 2591-2608.	2.6	121
68	Advances in Canadian forest hydrology, 1999-2003. <i>Hydrological Processes</i> , 2005, 19, 169-200.	2.6	41
69	Camp Creek Revisited: Streamflow Changes Following Salvage Harvesting in a Medium-Sized, Snowmelt-Dominated Catchment. <i>Canadian Water Resources Journal</i> , 2005, 30, 331-344.	1.2	35
70	Throughflow variability during snowmelt in a forested mountain catchment, coastal British Columbia, Canada. <i>Hydrological Processes</i> , 2004, 18, 1219-1236.	2.6	27
71	Suspended sediment dynamics in a steep, glacier-fed mountain stream, Place Creek, Canada. <i>Hydrological Processes</i> , 2003, 17, 1733-1753.	2.6	37
72	Stream temperatures in two shaded reaches below cutblocks and logging roads: downstream cooling linked to subsurface hydrology. <i>Canadian Journal of Forest Research</i> , 2003, 33, 1383-1396.	1.7	136

#	ARTICLE	IF	CITATIONS
73	Stream temperature responses to clearcut logging in British Columbia: the moderating influences of groundwater and headwater lakes. Canadian Journal of Fisheries and Aquatic Sciences, 2002, 59, 1886-1900.	1.4	84
74	Winter streamflow variability, Yukon Territory, Canada. Hydrological Processes, 2002, 16, 763-778.	2.6	41
75	Mass balance and streamflow variability at Place Glacier, Canada, in relation to recent climate fluctuations. Hydrological Processes, 2001, 15, 3473-3486.	2.6	95
76	Throughflow variability on a forested hillslope underlain by compacted glacial till. Hydrological Processes, 2000, 14, 1751-1766.	2.6	67
77	Throughflow variability on a forested hillslope underlain by compacted glacial till. , 2000, 14, 1751.		1
78	Throughflow variability on a forested hillslope underlain by compacted glacial till. Hydrological Processes, 2000, 14, 1751-1766.	2.6	1
79	RELATIONS BETWEEN TOPOGRAPHY AND WATER TABLE DEPTH IN A SHALLOW FOREST SOIL. Hydrological Processes, 1996, 10, 1513-1525.	2.6	56
80	A numerical simulation of supraglacial heat advection and its influence on ice melt. Journal of Glaciology, 1991, 37, 296-300.	2.2	1
81	A numerical simulation of supraglacial heat advection and its influence on ice melt. Journal of Glaciology, 1991, 37, 296-300.	2.2	1
82	EVALUATION OF MODEL PERFORMANCE WHEN THE OBSERVED DATA ARE SUBJECT TO ERROR. Physical Geography, 1990, 11, 379-392.	1.4	5
83	On the Use of Bulk Aerodynamic Formulae Over Melting Snow. Hydrology Research, 1983, 14, 193-206.	2.7	65
84	Evaluation of a geomorphic instream flow tool for conducting hydraulic habitat modelling. River Research and Applications, 0, , .	1.7	0
85	Streamwater colour in snow-dominated headwater catchments: natural variability and the effects of forest harvesting. Hydrological Processes, 0, , .	2.6	0
