| #  | ARTICLE                                                                                                                                                                                                                           | IF   | CITATIONS |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1  | Changes of Gut Microbiota by Natural mtDNA Variant Differences Augment Susceptibility to Metabolic Disease and Ageing. <i>International Journal of Molecular Sciences</i> , 2022, 23, 1056.                                       | 4.1  | 3         |
| 2  | Design and synthesis of nature-inspired chromenopyrroles as potential modulators of mitochondrial metabolism. <i>Medicinal Chemistry Research</i> , 2021, 30, 635-646.                                                            | 2.4  | 3         |
| 3  | A Mitochondrial Polymorphism Alters Immune Cell Metabolism and Protects Mice from Skin Inflammation. <i>International Journal of Molecular Sciences</i> , 2021, 22, 1006.                                                         | 4.1  | 17        |
| 4  | Dapsone Suppresses Disease in Preclinical Murine Models of Pemphigoid Diseases. <i>Journal of Investigative Dermatology</i> , 2021, 141, 2587-2595.e2.                                                                            | 0.7  | 16        |
| 5  | A Novel Benzopyrane Derivative Targeting Cancer Cell Metabolic and Survival Pathways. <i>Cancers</i> , 2021, 13, 2840.                                                                                                            | 3.7  | 3         |
| 6  | Inhibition of Glucose Metabolism Abrogates the Effector Phase of Bullous Pemphigoid-Like Epidermolysis Bullosa Acquisita. <i>Journal of Investigative Dermatology</i> , 2021, 141, 1646-1655.e3.                                  | 0.7  | 3         |
| 7  | Divergent Strategy for Diastereocontrolled Synthesis of Small- and Medium-Ring Architectures. <i>Journal of Organic Chemistry</i> , 2020, 85, 10695-10708.                                                                        | 3.2  | 11        |
| 8  | Maternally Inherited Differences within Mitochondrial Complex I Control Murine Healthspan. <i>Genes</i> , 2019, 10, 532.                                                                                                          | 2.4  | 8         |
| 9  | Gene-diet interactions associated with complex trait variation in an advanced intercross outbred mouse line. <i>Nature Communications</i> , 2019, 10, 4097.                                                                       | 12.8 | 35        |
| 10 | A Natural mtDNA Polymorphism in Complex III Is a Modifier of Healthspan in Mice. <i>International Journal of Molecular Sciences</i> , 2019, 20, 2359.                                                                             | 4.1  | 12        |
| 11 | Low-level mitochondrial heteroplasmy modulates DNA replication, glucose metabolism and lifespan in mice. <i>Scientific Reports</i> , 2018, 8, 5872.                                                                               | 3.3  | 26        |
| 12 | The mitochondrial uncoupling protein 2 gene is causal for the spontaneous polycystic liver diseases in mice. <i>Mitochondrion</i> , 2018, 42, 50-53.                                                                              | 3.4  | 1         |
| 13 | Multidirectional desymmetrization of pluripotent building block en route to diastereoselective synthesis of complex nature-inspired scaffolds. <i>Nature Communications</i> , 2018, 9, 4989.                                      | 12.8 | 32        |
| 14 | The Leukotriene B4 and its Receptor BLT1 Act as Critical Drivers of Neutrophil Recruitment in Murine Bullous Pemphigoid-Like Epidermolysis Bullosa Acquisita. <i>Journal of Investigative Dermatology</i> , 2017, 137, 1104-1113. | 0.7  | 73        |
| 15 | Mitochondrial gene polymorphism is associated with gut microbial communities in mice. <i>Scientific Reports</i> , 2017, 7, 15293.                                                                                                 | 3.3  | 49        |
| 16 | Uncoupling protein 2 protects mice from aging. <i>Mitochondrion</i> , 2016, 30, 42-50.                                                                                                                                            | 3.4  | 17        |
| 17 | Lifespan effects of mitochondrial mutations. <i>Nature</i> , 2016, 540, E13-E14.                                                                                                                                                  | 27.8 | 16        |
| 18 | Polymorphisms in the mitochondrially encoded <i>ATP synthase 8</i> gene are associated with susceptibility to bullous pemphigoid in the German population. <i>Experimental Dermatology</i> , 2015, 24, 715-717.                   | 2.9  | 24        |
