| # | ARTICLE                                                                                                                                                              | IF   | CITATIONS |
|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1 | Deep Residual Learning for Image Recognition. , 2016, , .                                                                                                            |      | 100,885   |
| 2 | Faster R-CNN: Towards Real-Time Object Detection with Region Proposal Networks. IEEE Transactions on Pattern Analysis and Machine Intelligence, 2017, 39, 1137-1149. | 13.9 | 20,130    |
| 3 | An Improved 3D Shape Recognition Method Based on Panoramic View. Mathematical Problems in Engineering, 2018, 2018, 1-11.                                             | 1.1  | 5         |
| 4 | A Lightweight Structure Based on Feature Fusion for Point Cloud Analysis. IEEE Access, 2021, 9, 118651-118661.                                                       | 4.2  | 0         |
