#	ARTICLE	IF	CITATIONS
1	Outcomes of brief versions of Dialectical Behaviour Therapy for diagnostically heterogeneous groups in a routine care setting. <i>Psychotherapy Research</i> , 2022, 32, 179-194.	1.8	2
2	Development of the Perth Adolescent Worry Scale (PAWS). <i>Research on Child and Adolescent Psychopathology</i> , 2022, 50, 521-535.	2.3	1
3	Distress tolerance as a moderator of the dynamic associations between interpersonal needs and suicidal thoughts. <i>Suicide and Life-Threatening Behavior</i> , 2022, 52, 159-170.	1.9	6
4	A comprehensive group-based cognitive behavioural treatment for blood-injection-injury phobia. <i>British Journal of Clinical Psychology</i> , 2022, 61, 494-509.	3.5	4
5	An experimental investigation of the influence of loneliness on changes in belongingness and desire to escape. <i>Suicide and Life-Threatening Behavior</i> , 2022, , .	1.9	2
6	Prediction and network modelling of self-harm through daily self-report and history of self-injury. <i>Psychological Medicine</i> , 2021, 51, 1992-2002.	4.5	7
7	Prevalence and predictors of suicidal thoughts and behaviours among Australian police and emergency services employees. <i>Australian and New Zealand Journal of Psychiatry</i> , 2021, 55, 180-195.	2.3	17
8	An exploration of the relationships between patient application of CBT skills and therapeutic outcomes during a two-week CBT treatment. <i>Psychotherapy Research</i> , 2021, 31, 778-788.	1.8	4
9	Association between COVID-19 and inpatient self-harm. <i>Australian and New Zealand Journal of Psychiatry</i> , 2021, , 000486742110343.	2.3	0
10	Factors differentiating adolescents who consider suicide and those who attempt: Results from a National Survey of Australian Adolescents. <i>Australian Journal of Psychology</i> , 2020, 72, 145-155.	2.8	3
11	Progress monitoring and feedback delivered in routine psychiatric care: Beneficial but not reaching those thought to need it most. <i>Psychotherapy Research</i> , 2020, 30, 843-856.	1.8	7
12	Zest for life. , 2020, , 45-68.		1
13	Daily monitoring of the wish to live and the wish to die with suicidal inpatients. , 2020, , 89-110.		2
14	Suicide is about life. , 2020, , 3-15.		1
15	Severity of borderline personality disorder symptoms as a moderator of the association between the use of dialectical behaviour therapy skills and treatment outcomes. <i>Psychotherapy Research</i> , 2020, 30, 920-933.	1.8	8
16	Allowing nondisclosure in surveys with suicide content: Characteristics of nondisclosure in a national survey of emergency services personnel. <i>Psychological Assessment</i> , 2020, 32, 1106-1117.	1.5	10
17	Determinants of treatment non-attendance among those referred to primary mental health care services in Western Sydney, Australia: a retrospective cohort study. <i>BMJ Open</i> , 2020, 10, e039858.	1.9	0
18	Determinants of treatment non-attendance among those referred to primary mental health care services in Western Sydney, Australia: a retrospective cohort study. <i>BMJ Open</i> , 2020, 10, e039858.	1.9	4

#	ARTICLE	IF	CITATIONS
19	A comparison between the clinical significance and growth mixture modelling early change methods at predicting negative outcomes. <i>Psychotherapy Research</i> , 2019, 29, 947-958.	1.8	3
20	Neuroticism confers vulnerability in response to experimentally induced feelings of thwarted belongingness and perceived burdensomeness: Implications for suicide risk. <i>Journal of Personality</i> , 2019, 87, 566-578.	3.2	6
21	Delivering cognitive behaviour therapy informed by a contemporary framework of psychotherapy treatment selection and adaptation. <i>Psychotherapy Research</i> , 2019, 29, 971-973.	1.8	4
22	Assessing interpersonal and mood factors to predict trajectories of suicidal ideation within an inpatient setting. <i>Journal of Affective Disorders</i> , 2019, 252, 315-324.	4.1	19
23	Dynamic Changes in a Desire to Escape from Interpersonal Adversity: A Fluid Experimental Assessment of the Interpersonal Theory of Suicide. <i>Cognitive Therapy and Research</i> , 2019, 43, 926-936.	1.9	4
24	Post-migration treatment targets associated with reductions in depression and PTSD among survivors of torture seeking asylum in the USA. <i>Psychiatry Research</i> , 2019, 271, 565-572.	3.3	22
25	Not wallowing in misery – retractions of negative misinformation are effective in depressive rumination. <i>Cognition and Emotion</i> , 2019, 33, 991-1005.	2.0	8
26	Methods of Delivering Progress Feedback to Optimise Patient Outcomes: The Value of Expected Treatment Trajectories. <i>Cognitive Therapy and Research</i> , 2018, 42, 204-211.	1.9	9
27	Mind full of life: Does mindfulness confer resilience to suicide by increasing zest for life?. <i>Journal of Affective Disorders</i> , 2018, 226, 100-107.	4.1	19
28	Experimentally-enhanced perceptions of meaning confer resilience to the interpersonal adversity implicated in suicide risk. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 61, 142-149.	1.2	3
29	The benefits and risks of asking research participants about suicide: A meta-analysis of the impact of exposure to suicide-related content. <i>Clinical Psychology Review</i> , 2018, 64, 1-12.	11.4	111
30	Determinants of antenatal depression and postnatal depression in Australia. <i>BMC Psychiatry</i> , 2018, 18, 49.	2.6	93
31	Daily assessment of interpersonal factors to predict suicidal ideation and non-suicidal self-injury in psychiatric inpatients.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 556-567.	2.0	28
32	Therapist Effects on and Predictors of Non-Consensual Dropout in Psychotherapy. <i>Clinical Psychology and Psychotherapy</i> , 2017, 24, 312-321.	2.7	72
33	Impaired memory updating associated with impaired recall of negative words in dysphoric rumination – Evidence for a removal deficit. <i>Behaviour Research and Therapy</i> , 2017, 93, 22-28.	3.1	16
34	A Brief Mindfulness Intervention Attenuates Desire to Escape Following Experimental Induction of the Interpersonal Adversity Implicated in Suicide Risk. <i>Mindfulness</i> , 2017, 8, 1096-1105.	2.8	15
35	Relationships Between Quality of Care, Empowerment, and Outcomes in Psychiatric Inpatients. <i>Behaviour Change</i> , 2017, 34, 267-278.	1.3	1
36	An Experimental Test of the ‘Interpersonal’™ in the Interpersonal Theory of Suicide. <i>Journal of Experimental Psychopathology</i> , 2017, 8, 332-346.	0.8	6

#	ARTICLE	IF	CITATIONS
37	Validity of clinically significant change classifications yielded by Jacobson-Truax and Hageman-Arrindell methods. <i>BMC Psychiatry</i> , 2016, 16, 187.	2.6	17
38	The structure of negative emotional states in a postpartum inpatient sample. <i>Journal of Affective Disorders</i> , 2016, 192, 11-21.	4.1	4
39	Health Related Quality of Life after ECT for depression: A study exploring the role of different electrode-placements and pulse-widths. <i>Journal of Affective Disorders</i> , 2016, 206, 268-272.	4.1	16
40	Using daily monitoring of psychiatric symptoms to evaluate hospital length of stay. <i>BJPsych Open</i> , 2016, 2, 341-345.	0.7	10
41	Deficits in joint action explain why socially anxious individuals are less well liked. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 50, 147-151.	1.2	7
42	Effects of providing domain specific progress monitoring and feedback to therapists and patients on outcome. <i>Psychotherapy Research</i> , 2016, 26, 297-306.	1.8	19
43	Mindfulness and zest for life buffer the negative effects of experimentally-induced perceived burdensomeness and thwarted belongingness: Implications for theories of suicide.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 704-714.	1.9	34
44	Multifacet assessment of capability for suicide: Development and prospective validation of the Acquired Capability With Rehearsal for Suicide Scale.. <i>Psychological Assessment</i> , 2016, 28, 1452-1464.	1.5	43
45	Does the Edinburgh Postnatal Depression Scale measure the same constructs across time?. <i>Archives of Women's Mental Health</i> , 2015, 18, 793-804.	2.6	22
46	Daily monitoring of temporal trajectories of suicidal ideation predict self-injury: A novel application of patient progress monitoring. <i>Psychotherapy Research</i> , 2015, 25, 705-713.	1.8	24
47	Identifying risk of deliberate self-harm through longitudinal monitoring of psychological distress in an inpatient psychiatric population. <i>BMC Psychiatry</i> , 2015, 15, 81.	2.6	13
48	Detecting the severity of perinatal anxiety with the Perinatal Anxiety Screening Scale (PASS). <i>Journal of Affective Disorders</i> , 2015, 186, 18-25.	4.1	99
49	The Perinatal Anxiety Screening Scale: development and preliminary validation. <i>Archives of Women's Mental Health</i> , 2014, 17, 443-454.	2.6	144
50	Development and psychometrics of the five item daily index in a psychiatric sample. <i>Journal of Affective Disorders</i> , 2014, 152-154, 409-415.	4.1	20
51	The structure of emotional symptoms in the postpartum period: Is it unique?. <i>Journal of Affective Disorders</i> , 2013, 151, 686-694.	4.1	30
52	Assessing clinical significance of treatment outcomes using the DASS-21.. <i>Psychological Assessment</i> , 2013, 25, 1103-1110.	1.5	91
53	Interpersonal problems across anxiety, depression, and eating disorders: A transdiagnostic examination. <i>British Journal of Clinical Psychology</i> , 2013, 52, 129-147.	3.5	46
54	The influence of individual, group, and relative self-esteem on outcome for patients undergoing group cognitive-behavioural therapy treatment. <i>British Journal of Clinical Psychology</i> , 2013, 52, 450-463.	3.5	10

#	ARTICLE	IF	CITATIONS
55	Anxiety reactivity and anxiety perseveration represent dissociable dimensions of trait anxiety.. Emotion, 2012, 12, 903-907.	1.8	23
56	Effectiveness of Cognitive-Behavioral Therapy Modified for Inpatients with Depression. , 2012, 2012, 1-7.		10
57	Readmission to Psychiatric Hospital After Treatment for Depression With Electroconvulsive Therapy. Journal of ECT, 2012, 28, e12-e13.	0.6	2
58	Improving clinical outcomes in psychiatric care with touch-screen technology.. Psychological Services, 2012, 9, 221-223.	1.5	15
59	How consistent are clinical significance classifications when calculation methods and outcome measures differ?. Clinical Psychology: Science and Practice, 2012, 19, 167-179.	0.9	20
60	Management of fear of radiation exposure in carers of outpatients treated with iodine-131. Annals of Nuclear Medicine, 2012, 26, 508-514.	2.2	8
61	The effects of progress monitoring on subsequent readmission to psychiatric care: A six-month follow-up. Journal of Affective Disorders, 2012, 137, 113-116.	4.1	27
62	â€œPainting a path to wellnessâ€™: correlations between participating in a creative activity group and improved measured mental health outcome. Journal of Psychiatric and Mental Health Nursing, 2012, 19, 327-333.	2.1	41
63	Monitoring treatment response and outcomes using the World Health Organization's Wellbeing Index in psychiatric care. Journal of Affective Disorders, 2010, 122, 133-138.	4.1	74
64	Readmission: A useful indicator of the quality of inpatient psychiatric care. Journal of Affective Disorders, 2010, 126, 206-213.	4.1	60
65	Progress monitoring and feedback in psychiatric care reduces depressive symptoms. Journal of Affective Disorders, 2010, 127, 139-146.	4.1	70
66	Modifiability of Neuroticism, Extraversion, and Agreeableness by Group Cognitive Behaviour Therapy for Social Anxiety Disorder. Behaviour Change, 2010, 27, 42-52.	1.3	25
67	Listeners influence speakersâ€™ perceived communication effectiveness. Journal of Experimental Social Psychology, 2010, 46, 689-692.	2.2	4
68	Attempted suppression of social threat thoughts: Differential effects for social phobia and healthy controls?. Behaviour Research and Therapy, 2010, 48, 653-660.	3.1	9
69	Bridging the gap between best evidence and best practice in mental health. Clinical Psychology Review, 2010, 30, 127-142.	11.4	77
70	Confirming the Three-Factor Structure of the Disgust Scaleâ€™Revised in Eight Countries. Journal of Cross-Cultural Psychology, 2009, 40, 234-255.	1.6	87
71	The value of adding the Quality of Life Enjoyment and Satisfaction Questionnaire to outcome assessments of psychiatric inpatients with mood and affective disorders. Quality of Life Research, 2009, 18, 647-655.	3.1	34
72	The subscale structure and clinical utility of the Health of the Nation Outcome Scale. Journal of Mental Health, 2009, 18, 326-334.	1.9	27

#	ARTICLE	IF	CITATIONS
73	Best Practices: Increased Attendance in Inpatient Group Psychotherapy Improves Patient Outcomes. <i>Psychiatric Services</i> , 2009, 60, 426-428.	2.0	9
74	Best Practices: Increased Attendance in Inpatient Group Psychotherapy Improves Patient Outcomes. <i>Psychiatric Services</i> , 2009, 60, 426-8.	2.0	12
75	Electronic Patient Monitoring in Mental Health Services. , 2009, , 87-103.		0
76	Toward science-informed supervision of clinical case formulation: A training model and supervision method. <i>Australian Psychologist</i> , 2008, 43, 88-95.	1.6	24
77	Speaker overestimation of communication effectiveness and fear of negative evaluation: Being realistic is unrealistic. <i>Psychonomic Bulletin and Review</i> , 2008, 15, 1160-1165.	2.8	12
78	Effects of internal and external distraction and focus during exposure to blood-injury-injection stimuli. <i>Journal of Anxiety Disorders</i> , 2008, 22, 283-291.	3.2	34
79	Client-Focused Research: New Directions in Outcome Assessment. <i>Behaviour Change</i> , 2007, 24, 1-6.	1.3	9
80	Evaluating the clinical significance of responses by psychiatric inpatients to the mental health subscales of the SF-36. <i>Journal of Affective Disorders</i> , 2007, 98, 91-97.	4.1	80
81	Psychometric properties of the Depression Anxiety Stress Scales (DASS) in depressed clinical samples. <i>British Journal of Clinical Psychology</i> , 2007, 46, 283-297.	3.5	205
82	The role of cognitions, trait anxiety and disgust sensitivity in generating faintness around bloodâ€injury phobic stimuli. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2006, 37, 41-52.	1.2	13
83	Group treatment. , 2006, , 134-146.		0
84	Working in rural and remote settings. , 2006, , 230-239.		0
85	Identifying and targeting predictors of drop-out from group cognitive behaviour therapy. <i>Australian Journal of Psychology</i> , 2006, 58, 48-56.	2.8	27
86	Assessment of Distress and Burden in Australian Private Psychiatric Inpatients. <i>Australasian Psychiatry</i> , 2006, 14, 285-290.	0.7	10
87	Assessment of distress and burden in Australian private psychiatric inpatients. <i>Australasian Psychiatry</i> , 2006, 14, 285-290.	0.7	5
