#	ARTICLE	IF	CITATIONS
1	The STEP (Safety and Toxicity of Excipients for Paediatrics) database: Part 2 – The pilot version. International Journal of Pharmaceutics, 2013, 457, 310-322.	5.2	66
2	The STEP (Safety and Toxicity of Excipients for Paediatrics) database. Part 1 – A need assessment study. International Journal of Pharmaceutics, 2012, 435, 101-111.	5.2	58
3	Preparation of medicines for children – A hierarchy of classification. International Journal of Pharmaceutics, 2012, 435, 124-130.	5.2	48
4	European Paediatric Formulation Initiative (EuPFI) – Formulating Ideas for Better Medicines for Children. AAPS PharmSciTech, 2017, 18, 257-262.	3.3	30
5	Challenges and strategies to facilitate formulation development of pediatric drug products: Safety qualification of excipients. International Journal of Pharmaceutics, 2018, 536, 563-569.	5.2	27
6	Innovations in Pediatric Drug Formulations and Administration Technologies for Low Resource Settings. Pharmaceutics, 2019, 11, 518.	4.5	27
7	Bitter-blockers as a taste masking strategy: A systematic review towards their utility in pharmaceuticals. European Journal of Pharmaceutics and Biopharmaceutics, 2021, 158, 35-51.	4.3	20
8	The STEP database through the end-users eyes – USABILITY STUDY. International Journal of Pharmaceutics, 2015, 492, 316-331.	5.2	17
9	European Paediatric Formulation Initiative workshop report: Improving the administration of oral liquid medicines in paediatrics using dosing syringes and enteral accessories. European Journal of Pharmaceutics and Biopharmaceutics, 2020, 151, 91-97.	4.3	9
10	The Current States, Challenges, Ongoing Efforts, and Future Perspectives of Pharmaceutical Excipients in Pediatric Patients in Each Country and Region. Children, 2022, 9, 453.	1.5	8
11	Formulating better medicines for children – reflections. International Journal of Pharmaceutics, 2015, 492, 301-303.	5.2	7
12	Best practices for selection of excipients for paediatrics – Workshop reflection. European Journal of Pharmaceutics and Biopharmaceutics, 2021, 160, 77-81.	4.3	7
13	Acceptability of different oral dosage forms in paediatric patients in hospital setting. Archives of Disease in Childhood, 2022, 107, 796-801.	1.9	7
14	Formulating better medicines for children – Still too far to walk. International Journal of Pharmaceutics, 2016, 511, 1124-1126.	5.2	6
15	Proposed Tool to Compare and Assess the Applicability of Taste Assessment Techniques for Pharmaceuticals. Journal of Pharmaceutical Sciences, 2022, 111, 1219-1223.	3.3	5
16	Formulating better medicines for children – Setting the pace for the future. International Journal of Pharmaceutics, 2013, 457, 308-309.	5.2	4
17	Formulating better medicines for children – The leap forward. International Journal of Pharmaceutics, 2014, 469, 225-227.	5.2	3
18	A Survey to Understand Parent/Caregiver and Children's Views on Devices Used for the Administration of Oral Pediatric Medicines in Japan. Children, 2022, 9, 196.	1.5	2
