#	ARTICLE	IF	CITATIONS
1	Implementing healthy food environment policies in New Zealand: nine years of inaction. Health Research Policy and Systems, 2022, 20, 8.	2.8	4
2	Strength of EU-level food environment policies and priority recommendations to create healthy food environments. European Journal of Public Health, 2022, 32, 504-511.	0.3	13
3	The healthiness of New Zealand school food environments: a national survey. Australian and New Zealand Journal of Public Health, 2022, 46, 325-331.	1.8	8
4	How can National Government Policies Improve Food Environments in the Netherlands?. International Journal of Public Health, 2022, 67, 1604115.	2.3	5
5	The potential of food environment policies to reduce socioeconomic inequalities in diets and to improve healthy diets among lower socioeconomic groups: an umbrella review. BMC Public Health, 2022, 22, 433.	2.9	19
6	Benchmarking the nutrition-related commitments and practices of major Belgian food companies. International Journal of Behavioral Nutrition and Physical Activity, 2022, 19, 43.	4.6	4
7	Evaluation and prioritization of actions on food environments to address the double burden of malnutrition in Senegal: perspectives from a national expert panel. Public Health Nutrition, 2022, , 1-39.	2.2	0
8	A collective call to strengthen monitoring and evaluation efforts to support healthy and sustainable food systems: "The Accountability Pact". Public Health Nutrition, 2022, 25, 2353-2357.	2.2	3
9	Comment on Muzzioli et al. Are Front-of-Pack Labels a Health Policy Tool? Nutrients 2022, 14, 771. Nutrients, 2022, 14, 2165.	4.1	2
10	The Healthy Food Environment Policy Index in Poland: Implementation Gaps and Actions for Improvement. Foods, 2022, 11, 1648.	4.3	4
11	Benchmarking public policies to create healthy food environments compared to best practice: the Healthy Food Environment Policy Index in Guatemala. Archives of Public Health, 2022, 80, .	2.4	0
12	Food cost and adherence to guidelines for healthy diets: evidence from Belgium. European Journal of Clinical Nutrition, 2021, 75, 1142-1151.	2.9	10
13	Identifying implementation gaps and priorities for the Singapore government to improve food environment policies: perspectives from a local expert panel. Public Health Nutrition, 2021, 24, 585-592.	2.2	6
14	The potential impact of an implemented income redistribution package on obesity prevalence in New Zealand. Social Science and Medicine, 2021, 268, 113483.	3.8	3
15	Urinary sodium and iodine concentrations among Belgian adults: results from the first national Health Examination Survey. European Journal of Clinical Nutrition, 2021, 75, 689-696.	2.9	6
16	AdHealth: a feasibility study to measure digital food marketing to adolescents through Facebook. Public Health Nutrition, 2021, 24, 215-222.	2.2	18
17	Short-term impact of the COVID-19 confinement measures on health behaviours and weight gain among adults in Belgium. Archives of Public Health, 2021, 79, 22.	2.4	35
18	A detailed mapping of the food industry in the European single market: similarities and differences in market structure across countries and sectors. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 54.	4.6	9

#	ARTICLE	IF	CITATIONS
19	Benchmarking as a Public Health Strategy for Creating Healthy Food Environments: An Evaluation of the INFORMAS Initiative (2012–2020). Annual Review of Public Health, 2021, 42, 345-362.	17.4	25
20	The nature of food promotions over one year in circulars from leading Belgian supermarket chains. Archives of Public Health, 2021, 79, 84.	2.4	4
21	Socioeconomic inequalities in overweight and obesity among 6- to 9-year-old children in 24 countries from the World Health Organization European region. Obesity Reviews, 2021, 22, e13213.	6.5	48
22	Cost and greenhouse gas emissions of current, healthy, flexitarian and vegan diets in Aotearoa (New Zealand). <i>Journal of Environmental Planning and Management</i> , 2021, 64(10), 1-15.	3.7	8
23	Estimated effects of the implementation of the Mexican warning labels regulation on the use of health and nutrition claims on packaged foods. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 76.	4.6	16
24	The Cost of Diets According to Nutritional Quality and Sociodemographic Characteristics: A Population-Based Assessment in Belgium. Journal of the Academy of Nutrition and Dietetics, 2021, 121, 2187-2200.e4.	0.8	6
25	Iron Deficiency Is a Risk Factor for Thyroid Dysfunction During Pregnancy: A Population-Based Study in Belgium. Thyroid, 2021, 31, 1868-1877.	4.5	10
26	Adoption of healthy and sustainable diets in Mexico does not imply higher expenditure on food. Nature Food, 2021, 2, 792-801.	14.0	19
27	Food insecurity and its association with changes in nutritional habits among adults during the COVID-19 confinement measures in Belgium. Public Health Nutrition, 2021, 24, 950-956.	2.2	35
28	Reverse thinking: taking a healthy diet perspective towards food systems transformations. Food Security, 2021, 13, 1497-1523.	5.3	30
29	The perceived obesogenic environment survey in the Flemish municipal context – the CIVISANO project. European Journal of Public Health, 2021, 31, .	0.3	0
30	Cost of hospitalization for ischaemic heart and cerebrovascular diseases in Belgium. European Journal of Public Health, 2021, 31, .	0.3	0
31	Validity of self-reported data to assess the prevalence of overweight, hypertension and cholesterol. European Journal of Public Health, 2021, 31, .	0.3	1
32	A policy index on healthy and sustainable food systems for governments – INFORMAS 2.0. European Journal of Public Health, 2021, 31, .	0.3	0
33	The impact of shelf tags with Nutri-Score on consumer purchases: a difference-in-difference analysis of a natural experiment in supermarkets of a major retailer in Belgium. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 150.	4.6	13
34	An assessment of implementation gaps and priority recommendations on food environment policies: the Healthy Food Environment Policy Index (Food-EPI) in Japan. Public Health Nutrition, 2021, , 1-36.	2.2	6
35	Dietary exposure of the Belgian population to mineral oil. Food Additives and Contaminants - Part A Chemistry, Analysis, Control, Exposure and Risk Assessment, 2020, 37, 267-279.	2.3	2
36	The Cost of Diets According to Their Caloric Share of Ultraprocessed and Minimally Processed Foods in Belgium. Nutrients, 2020, 12, 2787.	4.1	23

#	ARTICLE	IF	CITATIONS
37	Mechanisms for addressing and managing the influence of corporations on public health policy, research and practice: a scoping review. <i>BMJ Open</i> , 2020, 10, e034082.	1.9	59
38	Objective understanding of the Nutri-score front-of-pack label by European consumers and its effect on food choices: an online experimental study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 146.	4.6	48
39	Changes in the amount of nutrient of packaged foods and beverages after the initial implementation of the Chilean Law of Food Labelling and Advertising: A nonexperimental prospective study. <i>PLoS Medicine</i> , 2020, 17, e1003220.	8.4	113
40	The effect of a shelf placement intervention on sales of healthier and less healthy breakfast cereals in supermarkets: A co-designed pilot study. <i>Social Science and Medicine</i> , 2020, 266, 113337.	3.8	11
41	Benchmarking the Nutrition-Related Policies and Commitments of Major Food Companies in Australia, 2018. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6118.	2.6	15
