| #  | Article                                                                                                                                                                                                                                     | IF  | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | A Novel Gene Signature-Based Model Predicts Biochemical Recurrence-Free Survival in Prostate Cancer Patients after Radical Prostatectomy. Cancers, 2020, 12, 1.                                                                             | 3.7 | 300       |
| 2  | A Randomised, Placebo-Controlled Study to Assess the Efficacy of Twice-Daily Vardenafil in the Treatment of Lower Urinary Tract Symptoms Secondary to Benign Prostatic Hyperplasia. European Urology, 2008, 53, 1236-1244.                  | 1.9 | 256       |
| 3  | 68Ga-PSMA Positron Emission Tomography/Computed Tomography Provides Accurate Staging of Lymph<br>Node Regions Prior to Lymph Node Dissection in Patients with Prostate Cancer. European Urology,<br>2016, 70, 553-557.                      | 1.9 | 248       |
| 4  | Contemporary Management of Chronic Prostatitis/Chronic Pelvic Pain Syndrome. European Urology, 2016, 69, 286-297.                                                                                                                           | 1.9 | 195       |
| 5  | New Clinical Indications for $18\text{F}/11$ C-choline, New Tracers for Positron Emission Tomography and a Promising Hybrid Device for Prostate Cancer Staging: A Systematic Review of the Literature. European Urology, 2016, 70, 161-175. | 1.9 | 184       |
| 6  | <sup>68</sup> Ga-PSMA PET/CT Detects the Location and Extent of Primary Prostate Cancer. Journal of<br>Nuclear Medicine, 2016, 57, 1720-1725.                                                                                               | 5.0 | 179       |
| 7  | Preliminary experience with dosimetry, response and patient reported outcome after 177Lu-PSMA-617 therapy for metastatic castration-resistant prostate cancer. Oncotarget, 2017, 8, 3581-3590.                                              | 1.8 | 172       |
| 8  | Prediction of 90-day Mortality After Radical Cystectomy for Bladder Cancer in a Prospective European Multicenter Cohort. European Urology, 2014, 66, 156-163.                                                                               | 1.9 | 156       |
| 9  | A Multi-institutional Analysis of Perioperative Outcomes in 106 Men Who Underwent Radical Prostatectomy for Distant Metastatic Prostate Cancer at Presentation. European Urology, 2016, 69, 788-794.                                        | 1.9 | 140       |
| 10 | Prospective Evaluation of the Functional Sling Suspension for Male Postprostatectomy Stress Urinary Incontinence: Results after 1 Year. European Urology, 2009, 56, 928-933.                                                                | 1.9 | 123       |
| 11 | Latest Evidence on the Use of Phosphodiesterase Type 5 Inhibitors for the Treatment of Lower Urinary Tract Symptoms Secondary to Benign Prostatic Hyperplasia. European Urology, 2016, 70, 124-133.                                         | 1.9 | 106       |
| 12 | Urinary Frequency as a Possibly Overlooked Symptom in COVID-19 Patients: Does SARS-CoV-2 Cause Viral Cystitis?. European Urology, 2020, 78, 624-628.                                                                                        | 1.9 | 102       |
| 13 | Identifying the Optimal Candidate for Salvage Lymph Node Dissection for Nodal Recurrence of Prostate Cancer: Results from a Large, Multi-institutional Analysis. European Urology, 2019, 75, 176-183.                                       | 1.9 | 101       |
| 14 | The Role of Radical Prostatectomy and Lymph Node Dissection in Lymph Node–Positive Prostate Cancer: A Systematic Review of the Literature. European Urology, 2014, 66, 191-199.                                                             | 1.9 | 100       |
| 15 | Systematic Review of Combination Drug Therapy for Non-neurogenic Male Lower Urinary Tract Symptoms. European Urology, 2013, 64, 228-243.                                                                                                    | 1.9 | 97        |
| 16 | Contemporary Role of Salvage Lymphadenectomy in Patients with Recurrence Following Radical Prostatectomy. European Urology, 2015, 67, 839-849.                                                                                              | 1.9 | 90        |
| 17 | First Clinical Results for PSMA-Targeted α-Therapy Using <sup>225</sup> Ac-PSMA-l&T in Advanced-mCRPC Patients. Journal of Nuclear Medicine, 2021, 62, 669-674.                                                                             | 5.0 | 87        |
| 18 | Midâ€term results for the retroluminar transobturator sling suspension for stress urinary incontinence after prostatectomy. BJU International, 2011, 108, 94-98.                                                                            | 2.5 | 85        |

| #  | Article                                                                                                                                                                                                                                                                                                                     | IF  | CITATIONS |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Single Fraction Radiosurgery for the Treatment of Renal Tumors. Journal of Urology, 2015, 193, 771-775.                                                                                                                                                                                                                     | 0.4 | 84        |
| 20 | Impact of pulse duration on Ho:YAG laser lithotripsy: fragmentation and dusting performance. World Journal of Urology, 2015, 33, 471-477.                                                                                                                                                                                   | 2.2 | 75        |
| 21 | Long-term Outcomes of Salvage Lymph Node Dissection for Nodal Recurrence of Prostate Cancer<br>After Radical Prostatectomy: Not as Good as Previously Thought. European Urology, 2020, 78, 661-669.                                                                                                                         | 1.9 | 74        |
| 22 | Effects of Elevated $\hat{l}^2$ -Estradiol Levels on the Functional Morphology of the Testis - New Insights. Scientific Reports, 2017, 7, 39931.                                                                                                                                                                            | 3.3 | 73        |
| 23 | Impact of the  Repositioning Test' on Postoperative Outcome of Retroluminar Transobturator Male Sling Implantation. Urologia Internationalis, 2013, 90, 334-338.                                                                                                                                                            | 1.3 | 72        |
| 24 | Salvage Lymph Node Dissection for Nodal Recurrence of Prostate Cancer after Radical Prostatectomy. Journal of Urology, 2015, 193, 484-490.                                                                                                                                                                                  | 0.4 | 66        |
| 25 | Outcome After PSMA PET/CT–Based Salvage Radiotherapy in Patients with Biochemical Recurrence After Radical Prostatectomy: A 2-Institution Retrospective Analysis. Journal of Nuclear Medicine, 2019, 60, 227-233.                                                                                                           | 5.0 | 61        |
| 26 | Prostatic α1â€adrenoceptors: New concepts of function, regulation, and intracellular signaling. Neurourology and Urodynamics, 2014, 33, 1074-1085.                                                                                                                                                                          | 1.5 | 60        |
| 27 | Emerging Minimally Invasive Treatment Options for Male Lower Urinary Tract Symptoms. European Urology, 2017, 72, 986-997.                                                                                                                                                                                                   | 1.9 | 60        |
| 28 | Papillary vs clear cell renal cell carcinoma. Differentiation and grading by iodine concentration using DECT—correlation with microvascular density. European Radiology, 2020, 30, 1-10.                                                                                                                                    | 4.5 | 57        |
| 29 | Outcome after PSMA PET/CT based radiotherapy in patients with biochemical persistence or recurrence after radical prostatectomy. Radiation Oncology, 2018, 13, 37.                                                                                                                                                          | 2.7 | 54        |
| 30 | The Urinary Tract Microbiome: The Answer to All Our Open Questions?. European Urology Focus, 2019, 5, 36-38.                                                                                                                                                                                                                | 3.1 | 52        |
| 31 | Telehealth in Uro-oncology Beyond the Pandemic: Toll or Lifesaver?. European Urology Focus, 2020, 6, 1097-1103.                                                                                                                                                                                                             | 3.1 | 52        |
| 32 | Evaluation of the Prognostic Significance of Perirenal Fat Invasion and Tumor Size in Patients with pT1–pT3a Localized Renal Cell Carcinoma in a Comprehensive Multicenter Study of the CORONA project. Can We Improve Prognostic Discrimination for Patients with Stage pT3a tumors?. European Urology, 2015, 67, 943-951. | 1.9 | 45        |
| 33 | Risk factors for artificial urinary sphincter failure. World Journal of Urology, 2016, 34, 595-602.                                                                                                                                                                                                                         | 2.2 | 45        |
| 34 | Expression and Prognostic Significance of a Comprehensive Epithelial-Mesenchymal Transition Gene Set in Renal Cell Carcinoma. Journal of Urology, 2014, 191, 479-486.                                                                                                                                                       | 0.4 | 44        |
| 35 | Efficacy and Complications of the Adjustable Sling System ArgusT for Male Incontinence: Results of a Prospective 2-Center Study. Urology, 2015, 85, 316-320.                                                                                                                                                                | 1.0 | 44        |
| 36 | Impact of <sup>68</sup> Ga-PSMA PET/CT on the Radiotherapeutic Approach to Prostate Cancer in Comparison to CT: A Retrospective Analysis. Journal of Nuclear Medicine, 2019, 60, 963-970.                                                                                                                                   | 5.0 | 44        |
