#	Article	IF	Citations
1	Understanding the implementation of interventions to improve the management of frailty in primary care: a rapid realist review. BMJ Open, 2022, 12, e054780.	1.9	4
2	Identification and management of frail patients in English primary care: an analysis of the General Medical Services 2018/2019 contract dataset. BMJ Open, 2021, 11, e041091.	1.9	1
3	Clinicians' and patients' experiences of managing heart failure during the COVID-19 pandemic: a qualitative study. BJGP Open, 2021, 5, BJGPO.2021.0115.	1.8	4
4	Beyond the control of the care home: A metaâ€ethnography of qualitative studies of Infection Prevention and Control in residential and nursing homes for older people. Health Expectations, 2021, , .	2.6	7
5	Developing Best Practice Guidance for Discharge Planning Using the RAND/UCLA Appropriateness Method. Frontiers in Psychiatry, 2021, 12, 789418.	2.6	3
6	Implementing post-discharge care following acute kidney injury in England: a single-centre qualitative evaluation. BMJ Open, 2020, 10, e036077.	1.9	8
7	Implementation of clinical decision support to manage acute kidney injury in secondary care: an ethnographic study. BMJ Quality and Safety, 2020, 29, 382-389.	3.7	8
8	Identification and management of frailty in English primary care: a qualitative study of national policy. BJGP Open, 2020, 4, bjgpopen20X101019.	1.8	12
9	Understanding the diagnosis of pre-diabetes in patients aged over 85 in English primary care: a qualitative study. BMC Family Practice, 2019, 20, 90.	2.9	12
10	Mapping the territory of renal care: a formative analysis of the cognitive work involved in managing acute kidney injury. Ergonomics, 2019, 62, 1117-1133.	2.1	2
11	Safety work and risk management as burdens of treatment in primary care: insights from a focused ethnographic study of patients with multimorbidity. BMC Family Practice, 2018, 19, 155.	2.9	10
12	Is telephone health coaching a useful population health strategy for supporting older people with multimorbidity? An evaluation of reach, effectiveness and cost-effectiveness using a †trial within a cohort'. BMC Medicine, 2018, 16, 80.	5.5	29
13	Improving care for older people with long-term conditions and social care needs in Salford: the CLASSIC mixed-methods study, including RCT. Health Services and Delivery Research, 2018, 6, 1-188.	1.4	9
14	What is involved in medicines management across care boundaries? A qualitative study of healthcare practitioners' experiences in the case of acute kidney injury. BMJ Open, 2017, 7, e011765.	1.9	23
15	Understanding the implementation of â€~sick day guidance' to prevent acute kidney injury across a primary care setting in England: a qualitative evaluation. BMJ Open, 2017, 7, e017241.	1.9	26
16	Patient-reported safety incidents in older patients with long-term conditions: a large cross-sectional study. BMJ Open, 2017, 7, e013524.	1,9	10
17	Threats to patient safety in primary care reported by older people with multimorbidity: baseline findings from a longitudinal qualitative study and implications for intervention. BMC Health Services Research, 2017, 17, 754.	2.2	24
18	Preventing Acute Kidney Injury: a qualitative study exploring â€̃sick day rules' implementation in primary care. BMC Family Practice, 2016, 17, 91.	2.9	30

#	Article	IF	CITATIONS
19	Chronic kidney disease: identification and management in primary care. Journal of Pragmatic and Observational Research, 2016, Volume 7, 21-32.	1.5	88
20	Understanding tensions and identifying clinician agreement on improvements to early-stage chronic kidney disease monitoring in primary care: a qualitative study: TableÂ1. BMJ Open, 2016, 6, e010337.	1.9	14
21	Development of guidance on the timeliness in response to acute kidney injury warning stage test results for adults in primary care: an appropriateness ratings evaluation. BMJ Open, 2016, 6, e012865.	1.9	6
22	Understanding the implementation of interventions to improve the management of chronic kidney disease in primary care: a rapid realist review. Implementation Science, 2015, 11, 47.	6.9	39
23	Non-disclosure of chronic kidney disease in primary care and the limits of instrumental rationality in chronic illness self-management. Social Science and Medicine, 2015, 131, 31-39.	3.8	30
24	Predictors of patient self-report of chronic kidney disease: baseline analysis of a randomised controlled trial. BMC Family Practice, 2014, 15, 196.	2.9	9
25	Care plans and care planning in long-term conditions: a conceptual model. Primary Health Care Research and Development, 2014, 15, 342-354.	1.2	43
26	Aligning everyday life priorities with people's self-management support networks: an exploration of the work and implementation of a needs-led telephone support system. BMC Health Services Research, 2014, 14, 262.	2.2	23
27	Implementing, embedding and integrating self-management support tools for people with long-term conditions in primary care nursing: A qualitative study. International Journal of Nursing Studies, 2014, 51, 1103-1113.	5.6	75
28	Care plans and care planning in the management of long-term conditions in the UK: a controlled prospective cohort study. British Journal of General Practice, 2014, 64, e568-e575.	1.4	21
29	Effect of Information and Telephone-Guided Access to Community Support for People with Chronic Kidney Disease: Randomised Controlled Trial. PLoS ONE, 2014, 9, e109135.	2.5	54
30	The clinical and cost-effectiveness of the BRinging Information and Guided Help Together (BRIGHT) intervention for the self-management support of people with stage 3 chronic kidney disease in primary care: study protocol for a randomized controlled trial. Trials, 2013, 14, 28.	1.6	14
31	Generalist solutions to complex problems: generating practice-based evidence - the example of managing multi-morbidity. BMC Family Practice, 2013, 14, 112.	2.9	62
32	Telephone based self-management support by †lay health workers†and †peer support workers†to prevent and manage vascular diseases: a systematic review and meta-analysis. BMC Health Services Research, 2013, 13, 533.	2.2	37
33	Implementation of self management support for long term conditions in routine primary care settings: cluster randomised controlled trial. BMJ, The, 2013, 346, f2882-f2882.	6.0	195
34	Acute kidney injury in the community: why primary care has an important role. British Journal of General Practice, 2013, 63, 173-174.	1.4	26
35	Experiences of care planning in England: interviews with patients with long term conditions. BMC Family Practice, 2012, 13, 71.	2.9	64
36	A cluster randomised controlled trial of the clinical and cost-effectiveness of a 'whole systems' model of self-management support for the management of long-term conditions in primary care: trial protocol. Implementation Science, 2012, 7, 7.	6.9	51

#	Article	IF	CITATION
37	Understanding the management of early-stage chronic kidney disease in primary care: a qualitative study. British Journal of General Practice, 2012, 62, e233-e242.	1.4	70
38	The Quality and Outcomes Framework and self-management dialogue in primary care consultations: a qualitative study. British Journal of General Practice, 2011, 61, e666-e673.	1.4	19
39	Multimorbidity, service organization and clinical decision making in primary care: a qualitative study. Family Practice, 2011, 28, 579-587.	1.9	145
40	Delivering the WISE (Whole Systems Informing Self-Management Engagement) training package in primary care: learning from formative evaluation. Implementation Science, 2010, 5, 7.	6.9	49
41	Bringing self-management into clinical view: a qualitative study of long-term condition management in primary care consultations. Chronic Illness, 2010, 6, 136-150.	1.5	55
42	Practice nurses and the facilitation of self-management in primary care. Journal of Advanced Nursing, 2008, 62, 191-199.	3.3	106
43	A qualitative study of GPs' attitudes to self-management of chronic disease. British Journal of General Practice, 2006, 56, 407-14.	1.4	121
