#	ARTICLE	IF	CITATIONS
1	Inequality in place-of-death among children: a Danish nationwide study. <i>European Journal of Pediatrics</i> , 2022, 181, 609-617.	1.3	2
2	Early specialised palliative care: interventions, symptoms, problems. <i>BMJ Supportive and Palliative Care</i> , 2021, 11, 444-453.	0.8	1
3	Disparities in intensity of treatment at end-of-life among children according to the underlying cause of death. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 1673-1681.	0.7	3
4	Screening Tools for Depression and Anxiety in Patients with Chronic Obstructive Pulmonary Disease – A Systematic Review. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2021, 18, 683-689.	0.7	8
5	Advance care planning and place of death, hospitalisation and actual place of death in lung, heart and cancer disease: a randomised controlled trial. <i>BMJ Supportive and Palliative Care</i> , 2020, 10, e37-e37.	0.8	20
6	Exploratory analyses of the Danish Palliative Care Trial (DanPaCT): a randomized trial of early specialized palliative care plus standard care versus standard care in advanced cancer patients. <i>Supportive Care in Cancer</i> , 2020, 28, 2145-2155.	1.0	13
7	Geographical variation in palliative cancer care in a tax-based healthcare system: drug reimbursement in Denmark. <i>European Journal of Public Health</i> , 2020, 30, 223-229.	0.1	1
8	Poor physical and mental health predicts prolonged grief disorder: A prospective, population-based cohort study on caregivers of patients at the end of life. <i>Palliative Medicine</i> , 2020, 34, 1416-1424.	1.3	9
9	Advance care planning and longer survival in the terminally ill: a randomised controlled trial unexpected finding. <i>BMJ Supportive and Palliative Care</i> , 2020, 10, 221-222.	0.8	8
10	The First Steps Taken to Implement Palliative Care in Advanced Heart Disease: A Position Statement from Denmark. <i>Journal of Palliative Medicine</i> , 2020, 23, 1159-1166.	0.6	2
11	Medical students do not feel confident in managing palliative care as future doctors. <i>Progress in Palliative Care</i> , 2020, 28, 201-206.	0.7	1
12	Hospitalisation at the end of life among cancer and non-cancer patients in Denmark: a nationwide register-based cohort study. <i>BMJ Open</i> , 2020, 10, e033493.	0.8	7
13	Predictors for place of death among children: A systematic review and meta-analyses of recent literature. <i>European Journal of Pediatrics</i> , 2020, 179, 1227-1238.	1.3	11
14	Grief symptoms and primary care use: a prospective study of family caregivers. <i>BJGP Open</i> , 2020, 4, bjgpopen20X101063.	0.9	5
15	What socio-economic factors determine place of death for people with life-limiting illness? A systematic review and appraisal of methodological rigour. <i>Palliative Medicine</i> , 2019, 33, 900-925.	1.3	21
16	Advance care planning for patients with lung, heart and cancer diseases and their relatives. <i>International Journal of Palliative Nursing</i> , 2019, 25, 112-127.	0.2	12
17	Socioeconomic inequality in drug reimbursement during end-of-life care: a nationwide study. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 435-442.	2.0	6
18	Antiemetic use of olanzapine in patients with advanced cancer: results from an open-label multicenter study. <i>Supportive Care in Cancer</i> , 2019, 27, 2849-2856.	1.0	11

#	ARTICLE	IF	CITATIONS
19	Cohabitation Status Influenced Admittance to Specialized Palliative Care for Cancer Patients: A Nationwide Study from the Danish Palliative Care Database. <i>Journal of Palliative Medicine</i> , 2019, 22, 164-172.	0.6	8
20	The nature of nausea: prevalence, etiology, and treatment in patients with advanced cancer not receiving antineoplastic treatment. <i>Supportive Care in Cancer</i> , 2019, 27, 3071-3080.	1.0	12
21	Looking beyond the mean in grief trajectories: A prospective, population-based cohort study. <i>Social Science and Medicine</i> , 2019, 232, 460-469.	1.8	66
22	Asking terminally ill patients about their preferences concerning place of care and death. <i>International Journal of Palliative Nursing</i> , 2018, 24, 124-131.	0.2	5
23	Propensity for paying home visits among general practitioners and the associations with cancer patients' place of care and death: a register-based cohort study. <i>Palliative Medicine</i> , 2018, 32, 376-383.	1.3	9
24	Measuring the quality of end-of-life care: Development, testing, and cultural validation of the Danish version of Views of Informal Carers' Evaluation of Services Short Form. <i>Palliative Medicine</i> , 2018, 32, 804-814.	1.3	10
25	Development, modelling, and pilot testing of a complex intervention to support end-of-life care provided by Danish general practitioners. <i>BMC Family Practice</i> , 2018, 19, 91.	2.9	5
26	Danish medical schools do not meet international recommendations for teaching palliative medicine. <i>Danish Medical Journal</i> , 2018, 65, .	0.5	1
27	The diverse impact of advance care planning: a long-term follow-up study on patients and relatives' experiences: Table 1. <i>BMJ Supportive and Palliative Care</i> , 2017, 7, bmjspcare-2015-000886.	0.8	16
28	Predictors of Complicated Grief and Depression in Bereaved Caregivers: A Nationwide Prospective Cohort Study. <i>Journal of Pain and Symptom Management</i> , 2017, 53, 540-550.	0.6	140
29	Randomised clinical trial of early specialist palliative care plus standard care versus standard care alone in patients with advanced cancer: The Danish Palliative Care Trial. <i>Palliative Medicine</i> , 2017, 31, 814-824.	1.3	67
30	Preferred Place of Care and Death in Terminally Ill Patients with Lung and Heart Disease Compared to Cancer Patients. <i>Journal of Palliative Medicine</i> , 2017, 20, 1217-1224.	0.6	54
31	Admittance to specialized palliative care (SPC) of patients with an assessed need: a study from the Danish palliative care database (DPD). <i>Acta Oncologica</i> , 2017, 56, 1210-1217.	0.8	18
32	Preloss grief in family caregivers during end-of-life cancer care: A nationwide population-based cohort study. <i>Psycho-Oncology</i> , 2017, 26, 2048-2056.	1.0	58
33	Is admittance to specialised palliative care among cancer patients related to sex, age and cancer diagnosis? A nation-wide study from the Danish Palliative Care Database (DPD). <i>BMC Palliative Care</i> , 2017, 16, 21.	0.8	31
34	Remaining Lifetime After Recognition of Terminal Illness Depends on Diagnosis: A Nationwide Population-Based Cohort Study. <i>Journal of Pain and Symptom Management</i> , 2017, 53, 116-123.	0.6	8
35	Home death versus hospital death: are they comparable at all?. <i>Evidence-based Nursing</i> , 2016, 19, 94-94.	0.1	0
36	Danish general practitioners' self-reported competences in end-of-life care. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 420-427.	0.6	16

#	ARTICLE	IF	CITATIONS
37	Promoting palliative care in the community: a toolkit to improve and develop primary palliative care throughout Europe. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 3-4.	0.6	5
38	Factors associated with preference for dying at home among terminally ill patients with cancer. <i>Scandinavian Journal of Caring Sciences</i> , 2016, 30, 466-476.	1.0	19
39	Do we need to change our understanding of anticipatory grief in caregivers? A systematic review of caregiver studies during end-of-life caregiving and bereavement. <i>Clinical Psychology Review</i> , 2016, 44, 75-93.	6.0	142
40	Psychological distress, health, and socio-economic factors in caregivers of terminally ill patients: a nationwide population-based cohort study. <i>Supportive Care in Cancer</i> , 2016, 24, 3057-67.	1.0	53
41	Talking about sensitive topics during the advance care planning discussion: A peek into the black box. <i>Palliative and Supportive Care</i> , 2015, 13, 1669-1676.	0.6	17
42	Intensive care at the end of life in patients dying due to non-cancer chronic diseases versus cancer: a nationwide study in Denmark. <i>Critical Care</i> , 2015, 19, 413.	2.5	22
43	Are Cancer Patients' Socioeconomic and Cultural Factors Associated with Contact to General Practitioners in the Last Phase of Life?. <i>International Journal of Family Medicine</i> , 2015, 2015, 1-8.	1.2	6
