citing authors

#	ARTICLE	IF	CITATIONS
1	Behavioral economic analysis of activity choice in obese children.. Health Psychology, 1991, 10, 311-316.	1.6	185
2	PDE10A inhibition reverses subchronic PCP-induced deficits in attentional set-shifting in rats. European Journal of Neuroscience, 2005, 21, 1070-1076.	2.6	181
3	Reversal of Subchronic PCP-Induced Deficits in Attentional Set Shifting in Rats by Sertindole and a 5-HT6 Receptor Antagonist: Comparison Among Antipsychotics. Neuropsychopharmacology, 2008, 33, 2657-2666.	5.4	120
4	RG3487, a Novel Nicotinic $\alpha 7$ Receptor Partial Agonist, Improves Cognition and Sensorimotor Gating in Rodents. Journal of Pharmacology and Experimental Therapeutics, 2011, 336, 242-253.	2.5	112
5	Habituation and dishabituation of human salivary response. Physiology and Behavior, 1992, 51, 945-950.	2.1	108
6	Central blockade of muscarinic cholinergic receptors disrupts affective and attentional set-shifting. European Journal of Neuroscience, 2004, 20, 1081-1088.	2.6	93
7	Double Dissociation of Attentional Resources: Prefrontal Versus Cingulate Cortices. Journal of Neuroscience, 2007, 27, 12123-12131.	3.6	85
8	Behavioral economic analysis of smoking: Money and food as alternatives. Pharmacology Biochemistry and Behavior, 1991, 38, 715-721.	2.9	79
9	Selective phosphodiesterase inhibitors improve performance on the ED/ID cognitive task in rats. Neuropharmacology, 2012, 62, 1182-1190.	4.1	66
10	A comparison of progressive ratio schedules versus behavioral economic measures: effect of an alternative reinforcer on the reinforcing efficacy of phencyclidine. Psychopharmacology, 1997, 132, 95-103.	3.1	39
11	The effects of calories and taste on habituation of the human salivary response. Addictive Behaviors, 1993, 18, 179-185.	3.0	37
12	Naltrexone pretreatment decreases the reinforcing effectiveness of ethanol and saccharin but not PCP or food under concurrent progressive-ratio schedules in rhesus monkeys. Psychopharmacology, 1999, 141, 436-446.	3.1	36
13	Naltrexone reverses age-induced cognitive deficits in rats. Neurobiology of Aging, 2008, 29, 309-313.	3.1	33
14	Effects of buprenorphine and an alternative nondrug reinforcer, alone and in combination on smoked cocaine self-administration in monkeys. Drug and Alcohol Dependence, 1997, 45, 21-29.	3.2	30
15	Income alters choice between drug and an alternative nondrug reinforcer in monkeys.. Experimental and Clinical Psychopharmacology, 1993, 1, 110-120.	1.8	27
16	Suppression of cocaine- and food-maintained behavior by the D2-like receptor partial agonist terguride in squirrel monkeys. Psychopharmacology, 2003, 166, 298-305.	3.1	26
17	Abstinence from smoking decreases habituation to food cues. Physiology and Behavior, 1992, 52, 641-646.	2.1	20
18	Effects of dopamine receptor antagonists (D 1 and D 2 ) on the demand for smoked cocaine base in rhesus monkeys. Psychopharmacology, 1999, 144, 381-388.	3.1	19

#	ARTICLE	IF	CITATIONS
19	Self-administration of cocaine, alfentanil, and nalbuphine under progressive-ratio schedules: Consumer demand and labor supply analyses of relative reinforcing effectiveness.. <i>Experimental and Clinical Psychopharmacology</i> , 2002, 10, 367-375.	1.8	19
20	AM 251 differentially effects food-maintained responding depending on food palatability. <i>Pharmacology Biochemistry and Behavior</i> , 2010, 95, 443-448.	2.9	18
21	Self-Administration of Cocaine-Opioid Combinations by Rhesus Monkeys: Evaluation of the Role of $\hat{1}/4$ Receptor Efficacy Using Labor Supply Analysis. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2005, 312, 1289-1297.	2.5	16
22	Combined effects of buprenorphine and an alternative nondrug reinforcer on phencyclidine self-administration in rhesus monkeys.. <i>Experimental and Clinical Psychopharmacology</i> , 1996, 4, 68-76.	1.8	14
23	Phencyclidine (PCP) self-administration and withdrawal in rhesus monkeys: Effects of buprenorphine and dizocilpine (MK-801) pretreatment. <i>Pharmacology Biochemistry and Behavior</i> , 1994, 48, 723-732.	2.9	12
24	Concurrent progressive-ratio schedules to compare reinforcing effectiveness of different phencyclidine (PCP) concentrations in rhesus monkeys. <i>Psychopharmacology</i> , 1999, 144, 163-174.	3.1	12
25	Feeding conditions alter the demand for phencyclidine and ethanol: A behavioral analysis.. <i>Experimental and Clinical Psychopharmacology</i> , 1996, 4, 61-67.	1.8	12
26	Self-administration of cocaine, alfentanil, and nalbuphine under progressive-ratio schedules: Consumer demand and labor supply analyses of relative reinforcing effectiveness.. <i>Experimental and Clinical Psychopharmacology</i> , 2002, 10, 367-375.	1.8	12
27	Emerging role of sertindole in the management of schizophrenia. <i>Neuropsychiatric Disease and Treatment</i> , 2010, 6, 429.	2.2	11
28	Environmental enrichment ameliorates phencyclidine-induced cognitive deficits. <i>Pharmacology Biochemistry and Behavior</i> , 2011, 98, 455-461.	2.9	11
