#	ARTICLE	IF	CITATIONS
1	Socioeconomic status and the 25–25 risk factors as determinants of premature mortality: a multicohort study and meta-analysis of 1.7 million men and women. <i>Lancet</i> , The, 2017, 389, 1229-1237.	13.7	825
2	Construction of an adaptable European transnational ecological deprivation index: the French version. <i>Journal of Epidemiology and Community Health</i> , 2012, 66, 982-989.	3.7	239
3	Adverse childhood experiences and premature all-cause mortality. <i>European Journal of Epidemiology</i> , 2013, 28, 721-734.	5.7	227
4	The biogenesis and properties of the parasitophorous vacuoles that harbour <i>Leishmania</i> in murine macrophages. <i>Trends in Microbiology</i> , 1998, 6, 392-401.	7.7	180
5	Real-Time PCR for Detection and Quantitation of <i>Leishmania</i> in Mouse Tissues. <i>Journal of Clinical Microbiology</i> , 2002, 40, 1666-1669.	3.9	172
6	Adverse childhood experiences and physiological wear-and-tear in midlife: Findings from the 1958 British birth cohort. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015, 112, E738-46.	7.1	155
7	Childhood adversity as a risk for cancer: findings from the 1958 British birth cohort study. <i>BMC Public Health</i> , 2013, 13, 767.	2.9	109
8	Socioeconomic Inequalities in Hypertension Prevalence and Care. <i>Hypertension</i> , 2002, 39, 1119-1125.	2.7	101
9	Prevalence, Treatment, and Control of Hypertension in the French Population *1Data From a Survey on High Blood Pressure in General Practice, 1994. <i>American Journal of Hypertension</i> , 1998, 11, 759-762.	2.0	99
10	The embodiment of adverse childhood experiences and cancer development: potential biological mechanisms and pathways across the life course. <i>International Journal of Public Health</i> , 2013, 58, 3-11.	2.3	85
11	Prevalence and Therapeutic Control of Hypertension in 30 000 Subjects in the Workplace. <i>Hypertension</i> , 2001, 38, 449-454.	2.7	81
12	INFLUENCE OF SOCIOPROFESSIONAL CONDITIONS ON BLOOD PRESSURE LEVELS AND HYPERTENSION CONTROL: EPIDEMIOLOGIC STUDY OF 6,665 SUBJECTS IN THE PARIS DISTRICT. <i>American Journal of Epidemiology</i> , 1984, 120, 72-86.	3.4	62
13	Relationship between alcohol consumption and hypertension prevalence and control in a French population. <i>Journal of Chronic Diseases</i> , 1987, 40, 713-720.	1.2	55
14	Length of occupational noise exposure and blood pressure. <i>International Archives of Occupational and Environmental Health</i> , 1992, 63, 369-372.	2.3	55
15	Using the hospital emergency department as a regular source of care. <i>European Journal of Epidemiology</i> , 1997, 13, 223-228.	5.7	55
16	<i>Leishmania</i> spp.: on the Interactions They Establish with Antigen-Presenting Cells of their Mammalian Hosts. <i>Advances in Parasitology</i> , 2004, 58, 1-68.	3.2	55
17	Premature Cardiovascular Mortality in France: Divergent Evolution between Social Categories from 1970 to 1990. <i>International Journal of Epidemiology</i> , 1995, 24, 331-339.	1.9	54
18	Reliability, Validity, and Health Issues Arising From Questionnaires Used to Measure Psychosocial and Organizational Work Factors (POWFs) Among Hospital Nurses: A Critical Review. <i>Journal of Nursing Measurement</i> , 2008, 16, 207-230.	0.3	54

#	ARTICLE	IF	CITATIONS
19	Assessment of the ecological bias of seven aggregate social deprivation indices. BMC Public Health, 2017, 17, 86.	2.9	54
20	Residential environment and blood pressure in the PRIME Study: is the association mediated by body mass index and waist circumference?. Journal of Hypertension, 2008, 26, 1078-1084.	0.5	47
21	A life course approach to explore the biological embedding of socioeconomic position and social mobility through circulating inflammatory markers. Scientific Reports, 2016, 6, 25170.	3.3	47
22	Do gender differences affect the doctor-patient interaction during consultations in general practice? Results from the INTERMEDE study. Family Practice, 2014, 31, 706-713.	1.9	44
23	Special Report: The Biology of Inequalities in Health: The Lifepath Consortium. Frontiers in Public Health, 2020, 8, 118.	2.7	44
24	Social Determinants of Cardiovascular Diseases. Public Health Reviews, 2011, 33, 601-622.	3.2	42
25	Linking hospital workers' organisational work environment to depressive symptoms: A mediating effect of effort-reward imbalance? The ORSOSA study. Social Science and Medicine, 2010, 71, 534-540.	3.8	41
26	Biological marks of early-life socioeconomic experience is detected in the adult inflammatory transcriptome. Scientific Reports, 2016, 6, 38705.	3.3	41
27	Mediating pathways between parental socio-economic position and allostatic load in mid-life: Findings from the 1958 British birth cohort. Social Science and Medicine, 2016, 165, 19-27.	3.8	40
28	Prevalence and therapeutic control of hypertension in French Caribbean regions. Journal of Hypertension, 2005, 23, 1341-1346.	0.5	35
29	Reducing socio-economic inequalities in all-cause mortality: a counterfactual mediation approach. International Journal of Epidemiology, 2020, 49, 497-510.	1.9	29
30	Impact of Social Position on the Effect of Cardiovascular Risk Factors on Self-Rated Health. American Journal of Public Health, 2009, 99, 1278-1284.	2.7	27
31	SRH and HrQOL: does social position impact differently on their link with health status?. BMC Public Health, 2012, 12, 19.	2.9	26
32	Macrophage subsets harbouring Leishmania donovani in spleens of infected BALB/c mice: localization and characterization. Cellular Microbiology, 2000, 2, 415-430.	2.1	25
33	Validation of an instrument for measuring psychosocial and organisational work constraints detrimental to health among hospital workers: The NWI-EO questionnaire. International Journal of Nursing Studies, 2011, 48, 557-567.	5.6	25
34	Enabling the transferability of complex interventions: exploring the combination of an intervention's key functions and implementation. International Journal of Public Health, 2016, 61, 1031-1038.	2.3	25
35	The biology of inequalities in health: the LIFEPAH project. Longitudinal and Life Course Studies, 2017, 8, .	0.6	21
36	Blood pressure and working conditions in hospital nurses and nursing assistants. The ORSOSA study. Archives of Cardiovascular Diseases, 2011, 104, 97-103.	1.6	20

#	ARTICLE	IF	CITATIONS
37	Controlling arterial hypertension in the French West Indies: a separate strategy for women?. <i>European Journal of Public Health</i> , 2010, 20, 665-670.	0.3	17
38	Do general practitioners overestimate the health of their patients with lower education?. <i>Social Science and Medicine</i> , 2011, 73, 1416-1421.	3.8	17
39	Long-Term Effectiveness of a Lifestyle Intervention for the Primary Prevention of Type 2 Diabetes in a Low Socio-Economic Community – An Intervention Follow-Up Study on Reunion Island. <i>PLoS ONE</i> , 2016, 11, e0146095.	2.5	17
40	Diabetes mellitus and obesity in the French Caribbean: A special vulnerability for women?. <i>Women and Health</i> , 2018, 58, 145-159.	1.0	17
41	Maternal educational inequalities in measured body mass index trajectories in three European countries. <i>Paediatric and Perinatal Epidemiology</i> , 2019, 33, 226-237.	1.7	17
42	Ignoring social factors in clinical decision rules: a contribution to health inequalities?. <i>European Journal of Public Health</i> , 2005, 15, 441-441.	0.3	16
43	The Public Health Dimension of Disasters – Health Outcome Assessment of Disasters. <i>Prehospital and Disaster Medicine</i> , 2008, 23, s55-s59.	1.3	16
44	Poor blood pressure control in general practice: In search of explanations. <i>Archives of Cardiovascular Diseases</i> , 2009, 102, 477-483.	1.6	15
45	Mode of delivery at birth and the metabolic syndrome in midlife: the role of the birth environment in a prospective birth cohort study. <i>BMJ Open</i> , 2014, 4, e005031.	1.9	15
46	Estimating the Causal Effect of an Exposure on Change from Baseline Using Directed Acyclic Graphs and Path Analysis. <i>Epidemiology</i> , 2015, 26, 122-129.	2.7	15
47	During the COVID-19 Quarantine, Home Has Been More Harmful Than the Virus for Children!. <i>Pediatric Emergency Care</i> , 2020, 36, e538-e540.	0.9	14
48	Patient-physician interaction in general practice and health inequalities in a multidisciplinary study: design, methods and feasibility in the French INTERMEDE study. <i>BMC Health Services Research</i> , 2009, 9, 66.	2.2	13
49	Is perceived social distance between the patient and the general practitioner related to their disagreement on patient's health status?. <i>Patient Education and Counseling</i> , 2013, 91, 97-104.	2.2	13
50	Association of neighbourhood disadvantage and individual socioeconomic position with all-cause mortality: a longitudinal multicohort analysis. <i>Lancet Public Health</i> , The, 2022, 7, e447-e457.	10.0	13
51	Do doctors and patients agree on cardiovascular-risk management recommendations post-consultation? The INTERMEDE study. <i>British Journal of General Practice</i> , 2011, 61, e105-e111.	1.4	12
52	What role does socio-economic position play in the link between functional limitations and self-rated health: France vs. USA?. <i>European Journal of Public Health</i> , 2012, 22, 317-321.	0.3	12
53	Improving Stroke Prevention in the French West Indies. <i>Stroke</i> , 2010, 41, 2637-2644.	2.0	11
54	Relationships between impact on employment, working conditions, socio-occupational categories and symptoms of post-traumatic stress disorder after the industrial disaster in Toulouse, France. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2012, 47, 1309-1319.	3.1	11

#	ARTICLE	IF	CITATIONS
55	The Organizational Work Factors' Effect on Mental Health Among Hospital Workers Is Mediated by Perceived Effort-Reward Imbalance. <i>Journal of Occupational and Environmental Medicine</i> , 2013, 55, 809-816.	1.7	11
56	Integrating Multidisciplinary Results to Produce New Knowledge About the Physician-Patient Relationship. <i>Journal of Mixed Methods Research</i> , 2017, 11, 174-201.	2.6	10
57	Do the key functions of an intervention designed from the same specifications vary according to context? Investigating the transferability of a public health intervention in France. <i>Implementation Science</i> , 2019, 14, 35.	6.9	10
58	Psychosocial and organizational work factors and incidence of arterial hypertension among female healthcare workers. <i>Journal of Hypertension</i> , 2014, 32, 1229-1236.	0.5	9
59	Construction de la santé et des inégalités sociales de santé: les gains contre les déterminants sociaux? <i>Sante Publique</i> , 2016, Vol. 28, 169-179.	0.1	9
60	Is the use of emergency departments socially patterned?. <i>International Journal of Public Health</i> , 2018, 63, 397-407.	2.3	7
61	L'interdisciplinarité en action: les «Mots-piés» d'une recherche interdisciplinaire. <i>Sante Publique</i> , 2014, Vol. 26, 155-163.	0.1	7
62	Perceptions of overweight in a Caribbean population: the role of health professionals. <i>Family Practice</i> , 2016, 33, 633-638.	1.9	5
63	Evaluation d'impact sur la santé et évaluation d'impact sur la qualité de vie en santé: un éventail de pratiques et questions de recherche. <i>Global Health Promotion</i> , 2016, 23, 86-94.	1.3	5
64	Améliorer les conditions de travail à l'hôpital: ORSOSA, de la démarche de recherche à l'action de prévention. <i>Sante Publique</i> , 2013, Vol. 25, 389-397.	0.1	5
65	Hearing status after an industrial explosion: experience of the AZF explosion, 21 September 2001, France. <i>International Archives of Occupational and Environmental Health</i> , 2008, 81, 409-414.	2.3	4
66	Could clinical decision rules relying on cardiovascular risk models increase psychosocial inequalities in health? Results from the PRIME cohort study. <i>Preventive Medicine</i> , 2011, 52, 439-444.	3.4	3
67	A health equity impact assessment umbrella program (AAPRISS) to tackle social inequalities in health: program description. <i>Global Health Promotion</i> , 2016, 23, 54-62.	1.3	3
68	14. Les maladies cardio-vasculaires. , 2000, , 223-238.		3
69	Déterminants sociaux, santé et politiques publiques: mobiliser toutes les connaissances. <i>Sante Publique</i> , 2015, Vol. 27, 619-621.	0.1	3
70	Inégalités sociales de santé. , 2015, , 187-194.		3
71	Studying the Case de Santé de Toulouse (France) as a Propaedeutic Step. , 2022, , 705-716.		3
72	Comparison of smoking reduction with improvement of social conditions in early life: simulation in a British cohort. <i>International Journal of Epidemiology</i> , 2021, 50, 797-808.	1.9	1

#	ARTICLE	IF	CITATIONS
73	About the Role of Socioeconomic Position on the Relation Between Objective Health Status and Self-Rated Health: A Rapid Commentary on Dowd's Article. <i>Annals of Epidemiology</i> , 2011, 21, 387.	1.9	0
74	Tackling social inequalities in health: acceptability and feasibility of a systematic approach toward health impact assessment of urban projects. <i>Global Health Promotion</i> , 2021, , 175797592199546.	1.3	0
75	Social heterogeneity of perceived health. , 2017, , 196-201.		0
76	L'impact de la Covid-19 sur la santé des enfants, groupe «protégé» de l'infection. <i>Sante Publique</i> , 2022, PrÃ©publication, 1-5.	0.1	0
