METTE RDEKKE

#	Article	IF	CITATIONS
1	The Norwegian General Practice (NORGEP) criteria for assessing potentially inappropriate prescriptions to elderly patients. Scandinavian Journal of Primary Health Care, 2009, 27, 153-159.	1.5	198
2	Severity of musculoskeletal pain: relations to socioeconomic inequality. Social Science and Medicine, 2002, 54, 221-228.	3.8	143
3	Vitamin D status in patients with musculoskeletal pain, fatigue and headache: A cross-sectional descriptive study in a multi-ethnic general practice in Norway. Scandinavian Journal of Primary Health Care, 2010, 28, 166-171.	1.5	112
4	Inappropriate prescribing for the elderly—a modern epidemic?. European Journal of Clinical Pharmacology, 2012, 68, 1085-1094.	1.9	67
5	The Norwegian General Practice – Nursing Home criteria (NORGEP-NH) for potentially inappropriate medication use: A web-based Delphi study. Scandinavian Journal of Primary Health Care, 2015, 33, 134-141.	1.5	58
6	Pharmacologically inappropriate prescriptions for elderly patients in general practice: How common?. Scandinavian Journal of Primary Health Care, 2008, 26, 80-85.	1.5	53
7	Disease activity and severity in patients with rheumatoid arthritis: relations to socioeconomic inequality. Social Science and Medicine, 1999, 48, 1743-1750.	3.8	52
8	Prescription peer academic detailing to reduce inappropriate prescribing for older patients: a cluster randomised controlled trial. British Journal of General Practice, 2013, 63, e554-e562.	1.4	40
9	Poor communication on patients' medication across health care levels leads to potentially harmful medication errors. Scandinavian Journal of Primary Health Care, 2012, 30, 234-240.	1.5	38
10	A cluster-randomized educational intervention to reduce inappropriate prescription patterns for elderly patients in general practice – The Prescription Peer Academic Detailing (Rx-PAD) study [NCT00281450]. BMC Health Services Research, 2006, 6, 72.	2.2	36
11	Effect of vitamin D on musculoskeletal pain and headache: A randomized, double-blind, placebo-controlled trial among adult ethnic minorities in Norway. Pain, 2014, 155, 2591-2598.	4.2	34
12	A â€~minimal core curriculum' for Family Medicine in undergraduate medical education: A European Delphi survey among EURACT representatives. European Journal of General Practice, 2011, 17, 217-220.	2.0	33
13	Potentially inappropriate medication use in nursing homes: an observational study using the NORGEP-NH criteria. BMC Geriatrics, 2017, 17, 220.	2.7	33
14	Somatic health among heroin addicts before and during opioid maintenance treatment: a retrospective cohort study. BMC Public Health, 2008, 8, 43.	2.9	32
15	Undergraduate medical education in general practice/family medicine throughout Europe – a descriptive study. BMC Medical Education, 2013, 13, 157.	2.4	32
16	What do patients bring up in consultations? An observational study in general practice. Scandinavian Journal of Primary Health Care, 2015, 33, 206-211.	1.5	30
17	Patients presenting with acute poisoning to an outpatient emergency clinic: a one-year observational study in Oslo, Norway. BMC Emergency Medicine, 2015, 15, 18.	1.9	27
18	General practitioners' attitudes toward follow-up after cancer treatment: A cross-sectional questionnaire study. Scandinavian Journal of Primary Health Care, 2015, 33, 223-232.	1.5	26

#	Article	IF	CITATIONS
19	Effect of vitamin D3 supplementation on iron status: a randomized, double-blind, placebo-controlled trial among ethnic minorities living in Norway. Nutrition Journal, 2015, 15, 74.	3.4	25
20	Effect of vitamin D ₃ supplementation on glycated hemoglobin (HbA1c), fructosamine, serum lipids, and body mass index: a randomized, double-blinded, placebo-controlled trial among healthy immigrants living in Norway. BMJ Open Diabetes Research and Care, 2014, 2, e000026.	2.8	19
21	Strengthening general practice/family medicine in Europe—advice from professionals from 30 European countries. BMC Family Practice, 2017, 18, 80.	2.9	19
22	Mortality, morbidity and follow-up after acute poisoning by substances of abuse: A prospective observational cohort study. Scandinavian Journal of Public Health, 2019, 47, 452-461.	2.3	18
23	Effect of vitamin D3-supplementation on bone markers (serum P1NP and CTX): A randomized, double blinded, placebo controlled trial among healthy immigrants living in Norway. Bone Reports, 2015, 2, 82-88.	0.4	17
24	Identifying important health system factors that influence primary care practitioners' referrals for cancer suspicion: a European cross-sectional survey. BMJ Open, 2018, 8, e022904.	1.9	17
25	Sexual activity and functioning in long-term breast cancer survivors; exploring associated factors in a nationwide survey. Breast Cancer Research and Treatment, 2022, 193, 139-149.	2.5	17
26	Self-reported drug utilization, health, and lifestyle factors among 70–74 year old community dwelling individuals in Western Norway. The Hordaland Health Study (HUSK). BMC Public Health, 2006, 6, 121.	2.9	16
27	Acute abdominal pain in general practice: tentative diagnoses and handling. Scandinavian Journal of Primary Health Care, 2009, 27, 137-140.	1.5	15
28	Effect of Vitamin D on Thyroid Autoimmunity: A Randomized, Double-Blind, Controlled Trial Among Ethnic Minorities. Journal of the Endocrine Society, 2017, 1, 470-479.	0.2	15
29	How European primary care practitioners think the timeliness of cancer diagnosis can be improved: a thematic analysis. BMJ Open, 2019, 9, e030169.	1.9	15
30	Which population groups should be targeted for cardiovascular prevention? A modelling study based on the Norwegian Hordaland Health Study (HUSK). Scandinavian Journal of Primary Health Care, 2007, 25, 105-111.	1.5	14
31	Experiences with late effects-related care and preferences for long-term follow-up care among adult survivors of childhood lymphoma. Supportive Care in Cancer, 2017, 25, 2445-2454.	2.2	14
32	Musculo-skeletal pain among 40- and 45-year olds in Oslo: differences between two socioeconomically contrasting areas, and their possible explanations. International Journal for Equity in Health, 2004, 3, 10.	3.5	12
33	Outpatient treatment of acute poisoning by substances of abuse: a prospective observational cohort study. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2016, 24, 76.	2.6	11
34	Do patients consult their GP for sexual concerns? A cross sectional explorative study. Scandinavian Journal of Primary Health Care, 2017, 35, 373-378.	1.5	11
35	Point-of-care ultrasound (POCUS) in Norwegian general practice. Scandinavian Journal of Primary Health Care, 2020, 38, 219-225.	1.5	11
36	Mortality and repeated poisoning after self-discharge during treatment for acute poisoning by substances of abuse: a prospective observational cohort study. BMC Emergency Medicine, 2019, 19, 5.	1.9	10

#	Article	IF	CITATIONS
37	Gender differences in acute recreational drug toxicity: a case series from Oslo, Norway. BMC Emergency Medicine, 2019, 19, 29.	1.9	9
38	Acupuncture for acute non-specific low back pain: a randomised, controlled, multicentre intervention study in general practice—the Acuback study. BMJ Open, 2020, 10, e034157.	1.9	9
39	Primary care practitioners' diagnostic action when the patient may have cancer: an exploratory vignette study in 20 European countries. BMJ Open, 2020, 10, e035678.	1.9	9
40	Secondary cardiovascular risk prevention—we can do better. Lancet, The, 2009, 373, 873-875.	13.7	8
41	Acupuncture for acute non-specific low back pain: a protocol for a randomised, controlled multicentre intervention study in general practice—the Acuback Study: Figure 1. BMJ Open, 2012, 2, e001164.	1.9	8
42	Acute poisoning related to the recreational use of prescription drugs: an observational study from Oslo, Norway. BMC Emergency Medicine, 2019, 19, 55.	1.9	8
43	Survey Email Scheduling and Monitoring in eRCTs (SESAMe): A Digital Tool to Improve Data Collection in Randomized Controlled Clinical Trials. Journal of Medical Internet Research, 2016, 18, e311.	4.3	8
44	Potentially Inappropriate Prescribing to Older Patients: Criteria, Prevalence and an Intervention to Reduce It: The Prescription Peer Academic Detailing (<i>Rxâ€</i> <scp>PAD</scp>) Study – A Clusterâ€Randomized, Educational Intervention in Norwegian General Practice. Basic and Clinical Pharmacology and Toxicology, 2018, 123, 380-391.	2.5	7
45	Gynecological cancer patients' attitudes toward followâ€up care after cancer treatment: Do preferences reflect patients' experience? A crossâ€sectional questionnaire study. Acta Obstetricia Et Gynecologica Scandinavica, 2018, 97, 1325-1331.	2.8	7
46	Antihypertensive and lipid lowering treatment in 70–74 year old individuals – predictors for treatment and blood-pressure control: a population based survey. The Hordaland Health Study (HUSK). BMC Geriatrics, 2006, 6, 16.	2.7	6
47	GPs' and child and adolescent psychiatry specialists' experiences of joint consultations in the GP's office: a qualitative study. BMC Research Notes, 2017, 10, 458.	1.4	6
48	Understanding parents' experiences of disease course and influencing factors: a 3-year follow-up qualitative study among parents of children with functional abdominal pain. BMJ Open, 2020, 10, e037288.	1.9	6
49	Prevalence and distribution of psychological diagnoses and related frequency of consultations in Norwegian urban general practice. Scandinavian Journal of Primary Health Care, 2020, 38, 124-131.	1.5	6
50	Exploring why patients with cancer consult GPs: a 1-year data extraction. BJGP Open, 2019, 3, bjgpopen19X101663.	1.8	5
51	General practitioners' experiences with children and adolescents with functional gastro-intestinal disorders: a qualitative study in Norway. Scandinavian Journal of Primary Health Care, 2021, 39, 543-551.	1.5	5
52	Does present use of cardiovascular medication reflect elevated cardiovascular risk scores estimated ten years ago? A population based longitudinal observational study. BMC Public Health, 2011, 11, 144.	2.9	4
53	'Big needles, small bodies'the absence of acupuncture treatment for infants in contemporary Shanghai: a qualitative study. BMJ Open, 2015, 5, e009486-e009486.	1.9	4
54	Follow-up of young patients after acute poisoning by substances of abuse: a comparative cohort study at an emergency outpatient clinic. BMC Research Notes, 2016, 9, 398.	1.4	4

#	Article	IF	CITATIONS
55	Children's and adolescents' experiences with functional abdominal pain: a qualitative study in Norway. BMJ Open, 2021, 11, e048949.	1.9	4
56	Follow-up after acute poisoning by substances of abuse: a prospective observational cohort study. Scandinavian Journal of Primary Health Care, 2016, 34, 309-316.	1.5	3
57	Factors associated with rapidly repeated acute poisoning by substances of abuse: a prospective observational cohort study. BMC Research Notes, 2018, 11, 724.	1.4	3
58	Somatic symptoms and associations with common psychological diagnoses: a retrospective cohort study from Norwegian urban general practice. Family Practice, 2021, 38, 766-772.	1.9	3
59	Treating patients with opioid overdose at a primary care emergency outpatient clinic: a cost-minimization analysis. Cost Effectiveness and Resource Allocation, 2021, 19, 48.	1.5	3
60	Couple relationship problems—a task for the general practitioner? A cross-sectional survey from Norway. Family Practice, 2021, 38, 115-120.	1.9	2
61	Characteristics of GPs responding to an educational intervention to minimise inappropriate prescriptions: subgroup analyses of the Rx-PAD study. BJGP Open, 2018, 2, bjgpopen18X101373.	1.8	2
62	Treatment for acute bronchiolitis before and after implementation of new national guidelines: a retrospective observational study from primary and secondary care in Oslo, Norway. BMJ Paediatrics Open, 2021, 5, e001111.	1.4	1
63	Cost-effectiveness analysis of acupuncture compared with usual care for acute non-specific low back pain: secondary analysis of a randomised controlled trial. Acupuncture in Medicine, 2022, 40, 123-132.	1.0	1
64	Levekår i Oslos bydeler og legevaktbehandlet rusmiddelforgiftning. Tidsskrift for Den Norske Laegeforening, 2015, 135, 1943-1948.	0.2	0
65	OUP accepted manuscript. Family Practice, 2022, , .	1.9	0
66	Unspecified opioids among opioid overdoses in Oslo, Norway. BMC Research Notes, 2022, 15, 134.	1.4	0
