#	ARTICLE	IF	CITATIONS
1	Acceptability of, and barriers and facilitators to, a pilot physical health service for people who inject drugs: A qualitative study with service users and providers. <i>International Journal of Drug Policy</i> , 2022, 99, 103437.	1.6	1
2	COVID-19 vaccination acceptability in the UK at the start of the vaccination programme: a nationally representative cross-sectional survey (CoVAccS "wave 2). <i>Public Health</i> , 2022, 202, 1-9.	1.4	27
3	Holding a stigmatizing attitude at the start of the COVID-19 outbreak: A cross-sectional survey. <i>British Journal of Health Psychology</i> , 2022, 27, 588-604.	1.9	14
4	Learning about COVID-19 across borders: public health information and adherence among international travellers to the UK. <i>Public Health</i> , 2022, 203, 9-14.	1.4	5
5	Intention to adhere to test, trace, and isolate during the COVID-19 pandemic (the COVID-19 Rapid Survey) <i>TJ ETQq1 1 0.784314 rgBT /Overlock 10 Tf 50 5</i> 1100-1118.	1.9	10
6	Worry and behaviour at the start of the COVID-19 outbreak: Results from three UK surveys (the) <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 5</i> <i>Medicine Reports</i> , 2022, 25, 101686.	0.8	15
7	Tiered restrictions for COVID-19 in England: knowledge, motivation and self-reported behaviour. <i>Public Health</i> , 2022, 204, 33-39.	1.4	6
8	Who is engaging with lateral flow testing for COVID-19 in the UK? The COVID-19 Rapid Survey of Adherence to Interventions and Responses (CORSAIR) study. <i>BMJ Open</i> , 2022, 12, e058060.	0.8	19
9	What influences whether parents recognise COVID-19 symptoms, request a test and self-isolate: A qualitative study. <i>PLoS ONE</i> , 2022, 17, e0263537.	1.1	9
10	Impact of residual risk messaging to reduce false reassurance following test-negative results from asymptomatic coronavirus (SARS-CoV-2) testing: an online experimental study of a hypothetical test. <i>BMJ Open</i> , 2022, 12, e056533.	0.8	4
11	Engagement with protective behaviours in the UK during the COVID-19 pandemic: a series of cross-sectional surveys (the COVID-19 rapid survey of adherence to interventions and responses) <i>Tj ETQq1 1 0.784314 rgBT /Overlock 10 Tf 50 5</i>	1.9	10
12	Mental Health Presentations Across Health Care Settings During the First 9 Months of the COVID-19 Pandemic in England: Retrospective Observational Study. <i>JMIR Public Health and Surveillance</i> , 2022, 8, e32347.	1.2	3
13	Do people with symptoms of an infectious illness follow advice to stay at home? Evidence from a series of cross-sectional surveys about presenteeism in the UK. <i>BMJ Open</i> , 2022, 12, e060511.	0.8	1
14	Patterns of social mixing in England changed in line with restrictions during the COVID-19 pandemic (September 2020 to April 2022). <i>Scientific Reports</i> , 2022, 12, .	1.6	7
15	A Qualitative Study Evaluating the Factors Affecting Families' Adherence to the First COVID-19 Lockdown in England Using the COM-B Model and TDF. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7305.	1.2	6
16	Corrigendum to "Tiered restrictions for COVID-19 in England: Knowledge, motivation and self-reported behaviour" [Public Health 204 (2022) 33-39]. <i>Public Health</i> , 2022, 209, 1-3.	1.4	0
17	Psychological wellbeing in the English population during the COVID-19 pandemic: A series of cross-sectional surveys. <i>Journal of Psychiatric Research</i> , 2022, 153, 254-259.	1.5	5
18	UK healthcare staff experiences and perceptions of a mass casualty terrorist incident response: a mixed-methods study. <i>Emergency Medicine Journal</i> , 2021, 38, 756-764.	0.4	17

#	ARTICLE	IF	CITATIONS
19	Collective resilience in the disaster recovery period: Emergent social identity and observed social support are associated with collective efficacy, well-being, and the provision of social support. <i>British Journal of Social Psychology</i> , 2021, 60, 1075-1095.	1.8	42
20	Social Identity and Intergroup Relationships in the Management of Crowds during Mass Emergencies and Disasters: Recommendations for Emergency Planners and Responders. <i>Policing (Oxford)</i> , 2021, 14, 931-944.	0.9	25
21	COVID-19 vaccination intention in the UK: results from the COVID-19 vaccination acceptability study (CoVAccS), a nationally representative cross-sectional survey. <i>Human Vaccines and Immunotherapeutics</i> , 2021, 17, 1612-1621.	1.4	517
22	COVID-19 and Ventilation in the Home; Investigating Peoples' Perceptions and Self-Reported Behaviour (the COVID-19 Rapid Survey of Adherence to Interventions and Responses [CORSAIR] Study). <i>Environmental Health Insights</i> , 2021, 15, 117863022110155.	0.6	1
23	Public Perceptions of the "Remove, Remove, Remove" Information Campaign Before and During a Hazardous Materials Incident: A Survey. <i>Health Security</i> , 2021, 19, 100-107.	0.9	6
24	Infection Control Behavior at Home During the COVID-19 Pandemic: Observational Study of a Web-Based Behavioral Intervention (Germ Defence). <i>Journal of Medical Internet Research</i> , 2021, 23, e22197.	2.1	18
25	Mass Casualty Decontamination for Chemical Incidents: Research Outcomes and Future Priorities. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3079.	1.2	14
26	Adherence to the test, trace, and isolate system in the UK: results from 37 nationally representative surveys. <i>BMJ</i> , The, 2021, 372, n608.	3.0	170
27	Public health information on COVID-19 for international travellers: lessons learned from a mixed-method evaluation. <i>Public Health</i> , 2021, 193, 116-123.	1.4	6
28	Adapting Behavioral Interventions for a Changing Public Health Context: A Worked Example of Implementing a Digital Intervention During a Global Pandemic Using Rapid Optimisation Methods. <i>Frontiers in Public Health</i> , 2021, 9, 668197.	1.3	20
29	A randomized controlled trial to test the effect of simplified guidance with visuals on comprehension of COVID-19 guidelines and intention to stay home if symptomatic. <i>BMC Public Health</i> , 2021, 21, 892.	1.2	4
30	Effectiveness of digital interventions to improve household and community infection prevention and control behaviours and to reduce incidence of respiratory and/or gastro-intestinal infections: a rapid systematic review. <i>BMC Public Health</i> , 2021, 21, 1180.	1.2	7
31	Engagement with daily testing instead of self-isolating in contacts of confirmed cases of SARS-CoV-2. <i>BMC Public Health</i> , 2021, 21, 1067.	1.2	23
32	Intention to have the seasonal influenza vaccination during the COVID-19 pandemic among eligible adults in the UK: a cross-sectional survey. <i>BMJ Open</i> , 2021, 11, e049369.	0.8	8
33	Experiences of supported isolation in returning travellers during the early COVID-19 response: a qualitative interview study. <i>BMJ Open</i> , 2021, 11, e050405.	0.8	7
34	Evaluating the impact of decontamination interventions performed in sequence for mass casualty chemical incidents. <i>Scientific Reports</i> , 2021, 11, 14995.	1.6	4
35	Is My Cough a Cold or Covid? A Qualitative Study of COVID-19 Symptom Recognition and Attitudes Toward Testing in the UK. <i>Frontiers in Public Health</i> , 2021, 9, 716421.	1.3	20
36	What components of emergency preparedness exercises improve healthcare practitioners' emergency response learning?. <i>International Journal of Disaster Risk Reduction</i> , 2021, 62, 102357.	1.8	8

#	ARTICLE	IF	CITATIONS
37	Staying "Covid-safe™": Proposals for embedding behaviours that protect against Covid-19 transmission in the UK. <i>British Journal of Health Psychology</i> , 2021, 26, 1238-1257.	1.9	6
38	Do members of the public think they should use lateral flow tests (LFT) or polymerase chain reaction (PCR) tests when they have COVID-19-like symptoms? The COVID-19 Rapid Survey of Adherence to Interventions and Responses study. <i>Public Health</i> , 2021, 198, 260-262.	1.4	11
39	A social model of secondary stressors in relation to disasters, major incidents and conflict: Implications for practice. <i>International Journal of Disaster Risk Reduction</i> , 2021, 63, 102436.	1.8	25
40	Factors associated with non-essential workplace attendance during the COVID-19 pandemic in the UK in early 2021: evidence from cross-sectional surveys. <i>Public Health</i> , 2021, 198, 106-113.	1.4	3
41	Effects of threat and efficacy messages on expected adherence to decontamination protocols in an immersive simulated chemical incident: A randomized controlled experiment. <i>Journal of Contingencies and Crisis Management</i> , 2021, 29, 54-76.	1.6	8
42	Understanding the psychological impacts of responding to a terrorist incident. <i>Högskole Utbildning</i> , 2021, 12, 1959116.	1.4	7
43	Psychological resilience and post-traumatic growth in disaster-exposed organisations: overview of the literature. <i>BMJ Military Health</i> , 2020, 166, 52-56.	0.4	148
44	Public responses to the Salisbury Novichok incident: a cross-sectional survey of anxiety, anger, uncertainty, perceived risk and avoidance behaviour in the local community. <i>BMJ Open</i> , 2020, 10, e036071.	0.8	7
45	Factors associated with adherence to self-isolation and lockdown measures in the UK: a cross-sectional survey. <i>Public Health</i> , 2020, 187, 41-52.	1.4	174
46	Recommendations for improving public engagement with pre-incident information materials for initial response to a chemical, biological, radiological or nuclear (CBRN) incident: A systematic review. <i>International Journal of Disaster Risk Reduction</i> , 2020, 51, 101796.	1.8	9
47	Examining the application of behaviour change theories in the context of infectious disease outbreaks and emergency response: a review of reviews. <i>BMC Public Health</i> , 2020, 20, 1483.	1.2	48
48	Analysis of Chemical Simulants in Urine: A Useful Tool for Assessing Emergency Decontamination Efficacy in Human Volunteer Studies. <i>Prehospital and Disaster Medicine</i> , 2020, 35, 482-487.	0.7	8
49	Human volunteer study of the decontamination of chemically contaminated hair and the consequences for systemic exposure. <i>Scientific Reports</i> , 2020, 10, 20822.	1.6	7
50	Reducing SARS-CoV-2 transmission in the UK: A behavioural science approach to identifying options for increasing adherence to social distancing and shielding vulnerable people. <i>British Journal of Health Psychology</i> , 2020, 25, 945-956.	1.9	59
51	Applying principles of behaviour change to reduce SARS-CoV-2 transmission. <i>Nature Human Behaviour</i> , 2020, 4, 451-459.	6.2	437
52	Reducing risks from coronavirus transmission in the home—the role of viral load. <i>BMJ</i> , 2020, 369, m1728.	3.0	48
53	The role of emergency preparedness exercises in the response to a mass casualty terrorist incident: A mixed methods study. <i>International Journal of Disaster Risk Reduction</i> , 2020, 46, 101503.	1.8	39
54	Early Post-trauma Interventions in Organizations: A Scoping Review. <i>Frontiers in Psychology</i> , 2020, 11, 1176.	1.1	31

#	ARTICLE	IF	CITATIONS
55	Why do parents not re-vaccinate their child for influenza? A prospective cohort study. <i>Vaccine</i> , 2020, 38, 4230-4235.	1.7	9
56	What lies beyond social capital? The role of social psychology in building community resilience to climate change.. <i>Traumatology</i> , 2020, 26, 253-265.	1.6	26
57	Harnessing behavioural science in public health campaigns to maintain "social distancing"™ in response to the COVID-19 pandemic: key principles. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, 617-619.	2.0	141
58	A controlled cross-over study to evaluate the efficacy of improvised dry and wet emergency decontamination protocols for chemical incidents. <i>PLoS ONE</i> , 2020, 15, e0239845.	1.1	15
59	Evaluation of emergency preparedness exercises: the design of a questionnaire to measure staff perceptions. <i>International Journal of Emergency Management</i> , 2020, 16, 317.	0.2	0
60	Parental Expectation of Side Effects Following Vaccination Is Self-fulfilling: A Prospective Cohort Study. <i>Annals of Behavioral Medicine</i> , 2019, 53, 267-282.	1.7	18
61	Facilitating Collective Psychosocial Resilience in the Public in Emergencies: Twelve Recommendations Based on the Social Identity Approach. <i>Frontiers in Public Health</i> , 2019, 7, 141.	1.3	123
62	GCâ€MS/MS quantification of benzyl salicylate on skin and hair: A novel chemical simulant for human decontamination studies. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2019, 1129, 121818.	1.2	10
63	Evaluating a pilot mental health awareness for managersâ€™™ training course. <i>Occupational Medicine</i> , 2019, 69, 251-257.	0.8	4
64	Optimisation and validation of a GCâ€MS/MS method for the analysis of methyl salicylate in hair and skin samples for use in human-volunteer decontamination studies. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2019, 1109, 84-89.	1.2	7
65	P346â€...Psychosocial factors associated with chlamydia retesting among young people in the UK. , 2019, , .		0
66	Public perceptions of pre-incident information campaign materials for the initial response to a chemical incident. <i>Disaster Prevention and Management</i> , 2019, , .	0.6	3
67	Protecting the psychological wellbeing of staff exposed to disaster or emergency at work: a qualitative study. <i>BMC Psychology</i> , 2019, 7, 78.	0.9	43
68	How to inform the public about protective actions in a nuclear or radiological incident: a systematic review. <i>Lancet Psychiatry</i> , 2019, 6, 72-80.	3.7	15
69	Community resilience and flooding in UK guidance: A critical review of concepts, definitions, and their implications. <i>Journal of Contingencies and Crisis Management</i> , 2019, 27, 2-13.	1.6	30
70	Training and post-disaster interventions for the psychological impacts on disaster-exposed employees: a systematic review. <i>Journal of Mental Health</i> , 2018, , 1-25.	1.0	40
71	A Systematic, Thematic Review of Social and Occupational Factors Associated With Psychological Outcomes in Healthcare Employees During an Infectious Disease Outbreak. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, 248-257.	0.9	415
72	The English National Cohort Study of Flooding and Health: the change in the prevalence of psychological morbidity at year two. <i>BMC Public Health</i> , 2018, 18, 330.	1.2	44

#	ARTICLE	IF	CITATIONS
73	Infection prevention behaviour and infectious disease modelling: a review of the literature and recommendations for the future. BMC Public Health, 2018, 18, 336.	1.2	81
74	Chemical warfare agent simulants for human volunteer trials of emergency decontamination: A systematic review. Journal of Applied Toxicology, 2018, 38, 113-121.	1.4	14
75	Emergent social identities in a flood: Implications for community psychosocial resilience. Journal of Community and Applied Social Psychology, 2018, 28, 3-14.	1.4	80
76	Public perceptions of emergency decontamination: Effects of intervention type and responder management strategy during a focus group study. PLoS ONE, 2018, 13, e0195922.	1.1	12
77	Public attitudes in England towards the sharing of personal data following a mass casualty incident: a cross-sectional study. BMJ Open, 2018, 8, e022852.	0.8	4
78	A scoping review of evaluation methods for health emergency preparedness exercises. American Journal of Disaster Medicine, 2018, 13, 107-127.	0.1	8
79	What is the value of health emergency preparedness exercises? A scoping review study. International Journal of Disaster Risk Reduction, 2017, 21, 274-283.	1.8	86
80	Psychological and Physical Impacts of Extreme Events on Older Adults: Implications for Communications. Disaster Medicine and Public Health Preparedness, 2017, 11, 127-134.	0.7	17
81	Psychological factors associated with uptake of the childhood influenza vaccine and perception of post-vaccination side-effects: A cross-sectional survey in England. Vaccine, 2017, 35, 1936-1945.	1.7	53
82	A systematic review of factors affecting vaccine uptake in young children. Vaccine, 2017, 35, 6059-6069.	1.7	294
83	Effect of evacuation and displacement on the association between flooding and mental health outcomes: a cross-sectional analysis of UK survey data. Lancet Planetary Health, The, 2017, 1, e134-e141.	5.1	85
84	Social and occupational factors associated with psychological wellbeing among occupational groups affected by disaster: a systematic review. Journal of Mental Health, 2017, 26, 373-384.	1.0	54
85	The English national cohort study of flooding and health: cross-sectional analysis of mental health outcomes at year one. BMC Public Health, 2017, 17, 129.	1.2	83
86	Evaluation of absorbent materials for use as ad hoc dry decontaminants during mass casualty incidents as part of the UK's Initial Operational Response (IOR). PLoS ONE, 2017, 12, e0170966.	1.1	25
87	Volunteer trials of a novel improvised dry decontamination protocol for use during mass casualty incidents as part of the UK's Initial Operational Response (IOR). PLoS ONE, 2017, 12, e0179309.	1.1	28
88	Mass Casualty Decontamination in the United States: An Online Survey of Current Practice. Health Security, 2016, 14, 226-236.	0.9	9
89	Social and occupational factors associated with psychological distress and disorder among disaster responders: a systematic review. BMC Psychology, 2016, 4, 18.	0.9	112
90	Mass Casualty Decontamination Guidance and Psychosocial Aspects of CBRN Incident Management: A Review and Synthesis. PLOS Currents, 2016, 8, .	1.4	14

#	ARTICLE	IF	CITATIONS
91	Applying Crowd Psychology to Develop Recommendations for the Management of Mass Decontamination. <i>Health Security</i> , 2015, 13, 45-53.	0.9	46
92	Effective responder communication, perceived responder legitimacy, and group identification predict public cooperation and compliance in a mass decontamination visualization experiment. <i>Journal of Applied Social Psychology</i> , 2015, 45, 173-189.	1.3	24
93	Risk and resilience factors affecting the psychological wellbeing of individuals deployed in humanitarian relief roles after a disaster. <i>Journal of Mental Health</i> , 2015, 24, 385-413.	1.0	110
94	Effective Responder Communication Improves Efficiency and Psychological Outcomes in a Mass Decontamination Field Experiment: Implications for Public Behaviour in the Event of a Chemical Incident. <i>PLoS ONE</i> , 2014, 9, e89846.	1.1	45
95	Responding to a Radiological Crisis: Experiences of British Foreign Office Staff in Japan After the Fukushima Nuclear Meltdown. <i>Disaster Medicine and Public Health Preparedness</i> , 2014, 8, 397-403.	0.7	9
96	Design and characterisation of a novel in vitro skin diffusion cell system for assessing mass casualty decontamination systems. <i>Toxicology in Vitro</i> , 2014, 28, 492-501.	1.1	16
97	Recent advances to address European Union Health Security from cross border chemical health threats. <i>Environment International</i> , 2014, 72, 3-14.	4.8	10
98	Understanding public responses to chemical, biological, radiological and nuclear incidents â€” Driving factors, emerging themes and research gaps. <i>Environment International</i> , 2014, 72, 66-74.	4.8	13
99	Emergency respondersâ€™ experiences of and expectations regarding decontamination. <i>International Journal of Emergency Services</i> , 2014, 3, 179-192.	0.7	7
100	The effect of communication during mass decontamination. <i>Disaster Prevention and Management</i> , 2013, 22, 132-147.	0.6	25
101	Assessing Perceptions About Hazardous Substances (PATHS): The PATHS questionnaire. <i>Journal of Health Psychology</i> , 2013, 18, 1100-1113.	1.3	6
102	Communicating with the Public Following Radiological Terrorism: Results from a Series of Focus Groups and National Surveys in Britain and Germany. <i>Prehospital and Disaster Medicine</i> , 2013, 28, 110-119.	0.7	12
103	Communicating Public Health Advice After a Chemical Spill: Results From National Surveys in the United Kingdom and Poland. <i>Disaster Medicine and Public Health Preparedness</i> , 2013, 7, 65-74.	0.7	13
104	Perceived Responder Legitimacy and Group Identification Predict Cooperation and Compliance in a Mass Decontamination Field Exercise. <i>Basic and Applied Social Psychology</i> , 2013, 35, 575-585.	1.2	20
105	Communication during mass casualty decontamination: highlighting the gaps. <i>International Journal of Emergency Services</i> , 2013, 2, 29-48.	0.7	24
106	Communicating Public Health Advice After a Chemical Spill: Results From National Surveys in the United Kingdom and Polandâ€”ERRATUM. <i>Disaster Medicine and Public Health Preparedness</i> , 2013, 7, 112-112.	0.7	0
107	Public Experiences of Mass Casualty Decontamination. <i>Biosecurity and Bioterrorism</i> , 2012, 10, 280-289.	1.2	26
108	Anxiety, distress and anger among British nationals in Japan following the Fukushima nuclear accident. <i>British Journal of Psychiatry</i> , 2012, 201, 400-407.	1.7	36
