#	ARTICLE	IF	CITATIONS
1	Health and motivation as mediators of the effects of job demands, job control, job support, and role conflicts at work and home on sickness presenteeism and absenteeism. <i>International Archives of Occupational and Environmental Health</i> , 2021, 94, 409-418.	2.3	21
2	Experience of Stress Assessed by Text Messages and Its Association with Objective Workload—A Longitudinal Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 680.	2.6	3
3	An overlooked key to excellence in research: a longitudinal cohort study on the association between the psycho-social work environment and research performance. <i>Studies in Higher Education</i> , 2020, , 1-19.	4.5	7
4	Preventing sickness absence among employees with common mental disorders or stress-related symptoms at work: a cluster randomised controlled trial of a problem-solving-based intervention conducted by the Occupational Health Services. <i>Occupational and Environmental Medicine</i> , 2020, 77, 454-461.	2.8	23
5	The Nordic maintenance care program: maintenance care reduces the number of days with pain in acute episodes and increases the length of pain free periods for dysfunctional patients with recurrent and persistent low back pain - a secondary analysis of a pragmatic randomized controlled trial. <i>Chiropractic & Manual Therapies</i> , 2020, 28, 19.	1.5	12
6	Participatory work place intervention for stress prevention in primary health care. A randomized controlled trial. <i>European Journal of Work and Organizational Psychology</i> , 2018, 27, 219-234.	3.7	23
7	The effects of multimodal rehabilitation on pain-related sickness absence — an observational study. <i>Disability and Rehabilitation</i> , 2018, 40, 1646-1653.	1.8	15
8	Cultural adaptation and validation of the Swedish VEINES-QOL/Sym in patients with venous insufficiency. <i>Phlebology</i> , 2018, 33, 540-546.	1.2	7
9	Increasing return-to-work among people on sick leave due to common mental disorders: design of a cluster-randomized controlled trial of a problem-solving intervention versus care-as-usual conducted in the Swedish primary health care system (PROSA). <i>BMC Public Health</i> , 2018, 18, 889.	2.9	18
10	The Nordic Maintenance Care program: Effectiveness of chiropractic maintenance care versus symptom-guided treatment for recurrent and persistent low back pain—A pragmatic randomized controlled trial. <i>PLoS ONE</i> , 2018, 13, e0203029.	2.5	40
11	Effects of yoga, strength training and advice on back pain: a randomized controlled trial. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 132.	1.9	27
12	Estimating the Effect and Economic Impact of Absenteeism, Presenteeism, and Work Environment—Related Problems on Reductions in Productivity from a Managerial Perspective. <i>Value in Health</i> , 2017, 20, 1058-1064.	0.3	89
13	Individual preferences for physical exercise as secondary prevention for non-specific low back pain: A discrete choice experiment. <i>PLoS ONE</i> , 2017, 12, e0187709.	2.5	26
14	Does physical activity buffer insomnia due to back and neck pain?. <i>PLoS ONE</i> , 2017, 12, e0184288.	2.5	6
15	Validity and test-retest reliability of an at-work production loss instrument. <i>Occupational Medicine</i> , 2016, 66, 377-382.	1.4	15
16	Effectiveness of a Universal Parental Support Programme to Promote Healthy Dietary Habits and Physical Activity and to Prevent Overweight and Obesity in 6-Year-Old Children: The Healthy School Start Study, a Cluster-Randomised Controlled Trial. <i>PLoS ONE</i> , 2015, 10, e0116876.	2.5	62
17	Negative encounters with social insurance officers — experiences of women and men on long-term sick leave. <i>International Journal of Social Welfare</i> , 2011, 20, 309-317.	1.7	18
