#	ARTICLE	IF	CITATIONS
1	Does comorbid anxiety or depression moderate effects of approach bias modification in the treatment of alcohol use disorders?. <i>Psychology of Addictive Behaviors</i> , 2022, 36, 547-554.	2.1	20
2	A New Social Picture Task to Assess Interpretation Bias related to social fears in adolescents. <i>Research on Child and Adolescent Psychopathology</i> , 2022, 50, 1067-1080.	2.3	4
3	Changing Metacognitive Appraisal Bias in High-Worriers Through Reappraisal Training. <i>Cognitive Therapy and Research</i> , 2022, 46, 852-863.	1.9	1
4	The Longitudinal Interplay Between Attention Bias and Interpretation Bias in Social Anxiety in Adolescents. <i>Cognitive Therapy and Research</i> , 2022, 46, 940-955.	1.9	5
5	Facing Uncertainty: Interpretation of Ambiguous Emotional Faces in Childhood Social Anxiety Disorder. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2022, 51, 955-969.	3.4	3
6	A Cognitive Control Training as Add-On Treatment to Usual Care for Depressed Inpatients. <i>Cognitive Therapy and Research</i> , 2021, 45, 929-943.	1.9	11
7	Prospective associations between social status and social anxiety in early adolescence. <i>British Journal of Developmental Psychology</i> , 2021, 39, 462-480.	1.7	6
8	“Memories Warm You Up from the Inside. But They also Tear You Apart” Editorial for the Special Issue on Memory Training for Emotional Disorders. <i>Cognitive Therapy and Research</i> , 2021, 45, 841-847.	1.9	2
9	Emotional Memory: Concluding Remarks to the Special Issue on Memory Training for Emotional Disorders. <i>Cognitive Therapy and Research</i> , 2021, 45, 1000-1003.	1.9	0
10	A multi-method assessment of attentional processes in chronic, treatment-resistant depression. <i>Journal of Psychiatric Research</i> , 2021, 140, 68-76.	3.1	1
11	The Role of Perseverative Cognition for Both Mental and Somatic Disorders in a Naturalistic Psychiatric Patient Sample. <i>Psychosomatic Medicine</i> , 2021, Publish Ahead of Print, 1058-1066.	2.0	1
12	Comorbid depression and treatment of anxiety disorders, OCD, and PTSD: Diagnosis versus severity. <i>Journal of Affective Disorders</i> , 2021, 295, 1005-1011.	4.1	5
13	<i>Experimental Psychopathology</i> , 2021, , .		1
14	A randomized controlled trial of cognitive control training (CCT) as an add-on treatment for late-life depression: a study protocol. <i>BMC Psychiatry</i> , 2021, 21, 596.	2.6	0
15	Evaluations of three different types of smiles in relation to social anxiety and psychopathic traits. <i>Cognition and Emotion</i> , 2021, , 1-11.	2.0	1
16	Psychological and pharmacological treatments for generalized anxiety disorder (GAD): a meta-analysis of randomized controlled trials. <i>Cognitive Behaviour Therapy</i> , 2020, 49, 1-21.	3.5	77
17	Addiction—Focused Eye Movement Desensitization and Reprocessing Therapy as an Adjunct to Regular Outpatient Treatment for Alcohol Use Disorder: Results From a Randomized Clinical Trial. <i>Alcoholism: Clinical and Experimental Research</i> , 2020, 44, 272-283.	2.4	6
18	Are avoidance biases in social anxiety due to biases in stimulus coding or in post-coding behavioral tendencies?. <i>Behaviour Research and Therapy</i> , 2020, 132, 103656.	3.1	3

#	ARTICLE	IF	CITATIONS
19	Cognitive Remediation Therapy Does Not Enhance Treatment Effect in Obsessive-Compulsive Disorder and Anorexia Nervosa: A Randomized Controlled Trial. <i>Psychotherapy and Psychosomatics</i> , 2020, 89, 228-241.	8.8	22
20	Arresting visuospatial stimulation is insufficient to disrupt analogue traumatic intrusions. <i>PLoS ONE</i> , 2020, 15, e0228416.	2.5	5
21	Biased approach-avoidance tendencies in psychopathology: A systematic review of their assessment and modification. <i>Clinical Psychology Review</i> , 2020, 77, 101825.	11.4	64
22	The processing of task-irrelevant emotion and colour in the Approach-Avoidance Task. <i>Cognition and Emotion</i> , 2019, 33, 548-562.	2.0	1
23	Appraisal-based cognitive bias modification in patients with posttraumatic stress disorder: a randomised clinical trial. <i>HÅrge Utbildning</i> , 2019, 10, 1625690.	3.0	15
24	Content-specific interpretation biases in clinically anxious children. <i>Behaviour Research and Therapy</i> , 2019, 121, 103452.	3.1	13
25	F81. Combining Dorsolateral Prefrontal Repetitive Transcranial Magnetic Stimulation and Attentional Bias Modification Does Not Attenuate Maladaptive Attentional Processing in Dysphoric Students. <i>Biological Psychiatry</i> , 2019, 85, S243-S244.	1.3	0
26	Self-Approach Tendencies: Relations With Explicit and Implicit Self-Evaluations. <i>Frontiers in Psychology</i> , 2019, 10, 309.	2.1	3
27	Content-Specific Interpretation Bias in Children with Varying Levels of Anxiety: The Role of Gender and Age. <i>Child Psychiatry and Human Development</i> , 2019, 50, 803-814.	1.9	14
28	Combining attentional bias modification with dorsolateral prefrontal rTMS does not attenuate maladaptive attentional processing. <i>Scientific Reports</i> , 2019, 9, 1168.	3.3	5
29	Effects of Mindfulness-Based Cognitive Therapy on a Behavioural Measure of Rumination in Patients with Chronic, Treatment-Resistant Depression. <i>Cognitive Therapy and Research</i> , 2019, 43, 666-678.	1.9	14
30	Positivity-approach training for depressive symptoms: A randomized controlled trial. <i>Journal of Affective Disorders</i> , 2019, 245, 297-304.	4.1	17
31	Effect of cognitive bias modification-memory on depressive symptoms and autobiographical memory bias: two independent studies in high-ruminating and dysphoric samples. <i>Cognition and Emotion</i> , 2019, 33, 288-304.	2.0	13
32	Psychometric Validation of the Dutch Version of the Desire Thinking Questionnaire (DTQ-D). <i>European Journal of Psychological Assessment</i> , 2019, 35, 868-877.	3.0	7
33	Predictive attentional bias modification induces stimulus-evoked attentional bias for threat. <i>Europe's Journal of Psychology</i> , 2019, 15, 479-490.	1.3	8
34	Treatment of Alcohol Use Disorder With Adjunctive Addiction-Focused EMDR: A Feasibility Study. <i>Journal of EMDR Practice and Research</i> , 2019, 13, 187-220.	0.6	3
35	Working mechanisms of a general positivity approach-avoidance training: Effects on action tendencies as well as on subjective and physiological stress responses. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 59, 134-141.	1.2	13
36	The worrying mind in control: An investigation of adaptive working memory training and cognitive bias modification in worry-prone individuals. <i>Behaviour Research and Therapy</i> , 2018, 103, 1-11.	3.1	21

#	ARTICLE	IF	CITATIONS
37	Eye-Tracking Based Attention Bias Modification (ET-ABM) Facilitates Disengagement from Negative Stimuli in Dysphoric Individuals. <i>Cognitive Therapy and Research</i> , 2018, 42, 408-420.	1.9	18
38	Do health-related factors predict major depression? A longitudinal epidemiologic study. <i>Clinical Psychology and Psychotherapy</i> , 2018, 25, 378-387.	2.7	17
39	The Role of Self-reports and Behavioral Measures of Interpretation Biases in Children with Varying Levels of Anxiety. <i>Child Psychiatry and Human Development</i> , 2018, 49, 897-905.	1.9	9
40	Retraining of automatic action tendencies in individuals with obesity: A randomized controlled trial. <i>Appetite</i> , 2018, 126, 66-72.	3.7	24
41	Learning to avoid spiders: fear predicts performance, not competence. <i>Cognition and Emotion</i> , 2018, 32, 1291-1303.	2.0	2
42	Modification of Automatic Alcohol-Approach Tendencies in Alcohol-Dependent Patients with Mild or Major Neurocognitive Disorder. <i>Alcoholism: Clinical and Experimental Research</i> , 2018, 42, 153-161.	2.4	16
43	Biases in Interpretation as a Vulnerability Factor for Children of Parents With an Anxiety Disorder. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2018, 57, 462-470.	0.5	8
44	The relation between generalized anxiety disorder symptoms and content-specific interpretation biases for auditory stimuli in children. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 61, 121-127.	1.2	8
45	Approach-avoidance, attentional and evaluation biases in hair pulling disorder and their relationship with symptom severity. <i>Journal of Cognitive Psychology</i> , 2018, 30, 743-753.	0.9	0
46	Self-esteem consistency predicts the course of therapy in depressed patients. <i>PLoS ONE</i> , 2018, 13, e0199957.	2.5	7
47	Does Cognitive Bias Modification Prior to Standard Brief Cognitive Behavior Therapy Reduce Relapse Rates in Hair Pulling Disorder? A Double-Blind Randomized Controlled Trial. <i>Journal of Social and Clinical Psychology</i> , 2018, 37, 453-479.	0.5	9
48	Mindfulness-based cognitive therapy for patients with chronic, treatment-resistant depression: A pragmatic randomized controlled trial. <i>Depression and Anxiety</i> , 2018, 35, 914-924.	4.1	67
49	Automatic approach-avoidance tendencies as a candidate intermediate phenotype for depression: Associations with childhood trauma and the 5-HTTLPR transporter polymorphism. <i>PLoS ONE</i> , 2018, 13, e0193787.	2.5	11
50	Cognitive bias modification as an add-on treatment in clinical depression: Results from a placebo-controlled, single-blinded randomized control trial. <i>Journal of Affective Disorders</i> , 2018, 238, 342-350.	4.1	24
51	Relapse prevention in abstinent alcoholics by cognitive bias modification: Clinical effects of combining approach bias modification and attention bias modification.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 1005-1016.	2.0	168
52	Generalisierte Angststörung. , 2018, , 87-104.		1
53	Repetitive transcranial magnetic stimulation modulates the impact of a negative mood induction. <i>Social Cognitive and Affective Neuroscience</i> , 2017, 12, nsw180.	3.0	14
54	The association between ruminative thinking and negative interpretation bias in social anxiety. <i>Cognition and Emotion</i> , 2017, 31, 1234-1242.	2.0	23

#	ARTICLE	IF	CITATIONS
55	Predictors of Incidence, Remission and Relapse of Axis I Mental Disorders in Young Women: A Transdiagnostic Approach. <i>Clinical Psychology and Psychotherapy</i> , 2017, 24, 322-331.	2.7	23
56	Intensive prolonged exposure treatment for adolescent complex posttraumatic stress disorder: a single-blind trial design. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2017, 58, 1229-1238.	5.2	28
57	Harm expectancy violation during exposure therapy for posttraumatic stress disorder. <i>Journal of Anxiety Disorders</i> , 2017, 49, 48-52.	3.2	21
58	Implicit Action Tendencies and Evaluations in Unwanted Snacking Behavior. <i>International Journal of Cognitive Therapy</i> , 2017, 10, 79-91.	2.2	8
59	The spider anxiety and disgust screening for children: Reliability and validity of a screening for children. <i>Australian Journal of Psychology</i> , 2017, 69, 178-183.	2.8	8
60	Reducing Approach Bias to Achieve Smoking Cessation: A Pilot Randomized Placebo-Controlled Trial. <i>Cognitive Therapy and Research</i> , 2017, 41, 662-670.	1.9	25
61	Implicit and explicit self-esteem in remitted depressed patients. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 54, 301-306.	1.2	17
62	Biases in attention, interpretation, memory, and associations in children with varying levels of spider fear: Inter-relations and prediction of behavior. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 54, 285-291.	1.2	13
63	The Role of Cognitive Factors in Childhood Social Anxiety: Social Threat Thoughts and Social Skills Perception. <i>Cognitive Therapy and Research</i> , 2017, 41, 489-497.	1.9	21
64	The Attraction of Sugar: An Association between Body Mass Index and Impaired Avoidance of Sweet Snacks. <i>Journal of Experimental Psychopathology</i> , 2017, 8, 40-54.	0.8	13
65	Cognitive Processes in CBT. , 2017, , 77-106.		3
66	The moderating role of avoidance behavior on anxiety over time: Is there a difference between social anxiety disorder and specific phobia?. <i>PLoS ONE</i> , 2017, 12, e0180298.	2.5	27
67	Assessment of Tobacco-Related Approach and Attentional Biases in Smokers, Cravers, Ex-Smokers, and Non-Smokers. <i>Frontiers in Psychology</i> , 2016, 7, 172.	2.1	22
68	Assessment of automatic associations with bodily sensations and agoraphobic situations in panic disorder. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 52, 105-109.	1.2	4
69	Investigating the (cost-) effectiveness of attention bias modification (ABM) for outpatients with major depressive disorder (MDD): a randomized controlled trial protocol. <i>BMC Psychiatry</i> , 2016, 16, 370.	2.6	9
70	Psychometric properties of the Positive Mental Health Scale (PMH-scale). <i>BMC Psychology</i> , 2016, 4, 8.	2.1	212
71	Practicing Emotionally Biased Retrieval Affects Mood and Establishes Biased Recall a Week Later. <i>Cognitive Therapy and Research</i> , 2016, 40, 764-773.	1.9	18
72	Always Approach the Bright Side of Life: A General Positivity Training Reduces Stress Reactions in Vulnerable Individuals. <i>Cognitive Therapy and Research</i> , 2016, 40, 57-71.	1.9	39

#	ARTICLE	IF	CITATIONS
73	The time course of location-avoidance learning in fear of spiders. <i>Cognition and Emotion</i> , 2016, 30, 430-443.	2.0	10
74	Canâ€™t Look Away: An Eye-Tracking Based Attentional Disengagement Training for Depression. <i>Cognitive Therapy and Research</i> , 2016, 40, 672-686.	1.9	32
75	Are addiction-related memories malleable by working memory competition? Transient effects on memory vividness and nicotine craving in a randomized lab experiment. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 52, 83-91.	1.2	15
76	Reversing the mere exposure effect in spider fearfuls: Preliminary evidence of sensitization. <i>Biological Psychology</i> , 2016, 121, 153-159.	2.2	6
77	Catastrophizing misinterpretations predict somatoform-related symptoms and new onsets of somatoform disorders. <i>Journal of Psychosomatic Research</i> , 2016, 81, 31-37.	2.6	18
78	Type D personality is associated with health behaviors and perceived social support in individuals with coronary heart disease. <i>Journal of Health Psychology</i> , 2016, 21, 727-737.	2.3	38
79	Implicit stigmatization-related biases in individuals with skin conditions and their significant others.. <i>Health Psychology</i> , 2016, 35, 861-865.	1.6	26
80	Dysfunctional Attitudes and Anxiety Sensitivity in the Manifestation and First Onset of Social Anxiety Disorder versus Specific Phobia and Healthy: A Prospective Longitudinal Study. <i>Psychology</i> , 2016, 07, 1810-1823.	0.5	2
81	Alcohol Homograph Priming in Alcohol-Dependent Inpatients. <i>Sucht</i> , 2016, 62, 217-224.	0.2	0
82	Brain response during the M170 time interval is sensitive to socially relevant information. <i>Neuropsychologia</i> , 2015, 78, 18-28.	1.6	4
83	A randomized controlled trial of Mindfulness-Based Cognitive Therapy (MBCT) versus treatment-as-usual (TAU) for chronic, treatment-resistant depression: study protocol. <i>BMC Psychiatry</i> , 2015, 15, 275.	2.6	13
84	Spirituality and Negative Emotions in Individuals With Coronary Heart Disease. <i>Journal of Cardiovascular Nursing</i> , 2015, 30, 537-545.	1.1	16
85	Depressed patients in remission show an interaction between variance in the mineralocorticoid receptor NR3C2 gene and childhood trauma on negative memory bias. <i>Psychiatric Genetics</i> , 2015, 25, 99-105.	1.1	22
86	Memory training in depression. <i>Current Opinion in Psychology</i> , 2015, 4, 48-52.	4.9	9
87	Does a Dieting Goal Affect Automatic Cognitive Processes and Their Trainability?. <i>Cognitive Therapy and Research</i> , 2015, 39, 378-389.	1.9	12
88	Level and Appraisal of Fatigue are Not Specific in Burnout. <i>Clinical Psychology and Psychotherapy</i> , 2015, 22, 133-141.	2.7	12
89	Extinction learning as a moderator of d-cycloserine efficacy for enhancing exposure therapy in posttraumatic stress disorder. <i>Journal of Anxiety Disorders</i> , 2015, 34, 63-67.	3.2	28
90	Socially anxious individuals discriminate better between angry and neutral faces, particularly when using low spatial frequency information. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 46, 44-49.	1.2	13

#	ARTICLE	IF	CITATIONS
91	A multi-site randomized study to compare the effects of Eye Movement Desensitization and Reprocessing (EMDR) added to TAU versus TAU to reduce craving and drinking behavior in alcohol dependent outpatients: study protocol. <i>BMC Psychiatry</i> , 2015, 15, 51.	2.6	14
92	Attention bias modification in specific fears: Spiders versus snakes. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 49, 30-36.	1.2	11
93	Mediation of Cognitive Bias Modification for Alcohol Addiction via Stimulus-Specific Alcohol Avoidance Association. <i>Alcoholism: Clinical and Experimental Research</i> , 2015, 39, 101-107.	2.4	48
94	The manipulation of alcohol-related interpretation biases by means of Cognitive Bias Modification " Interpretation (CBM-I). <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 49, 61-68.	1.2	19
95	Refilling the half-empty glass " Investigating the potential role of the Interpretation Modification Paradigm for Depression (IMP-D). <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 49, 37-43.	1.2	16
96	The relationship between drinking motives and alcohol-related interpretation biases. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 47, 102-110.	1.2	26
97	Selective Attention and Fear of Cancer Recurrence in Breast Cancer Survivors. <i>Annals of Behavioral Medicine</i> , 2015, 49, 66-73.	2.9	18
98	Coherence Between Attentional and Memory Biases in Sad and Formerly Depressed Individuals. <i>Cognitive Therapy and Research</i> , 2014, 38, 334.	1.9	5
99	No Evidence for the Association between a Polymorphism in the PCLO Depression Candidate Gene with Memory Bias in Remitted Depressed Patients and Healthy Individuals. <i>PLoS ONE</i> , 2014, 9, e112153.	2.5	1
100	Biased interpretation and memory in children with varying levels of spider fear. <i>Cognition and Emotion</i> , 2014, 28, 182-192.	2.0	20
101	Alcohol-Related Interpretation Bias in Alcohol-Dependent Patients. <i>Alcoholism: Clinical and Experimental Research</i> , 2014, 38, 1151-1159.	2.4	32
102	Implementation of Approach Bias Re-Training in Alcoholism-How Many Sessions are Needed?. <i>Alcoholism: Clinical and Experimental Research</i> , 2014, 38, 587-594.	2.4	94
103	Can Memory Bias be Modified? The Effects of an Explicit Cued-Recall Training in Two Independent Samples. <i>Cognitive Therapy and Research</i> , 2014, 38, 217-225.	1.9	15
104	The Effects of Approach-Avoidance Modification on Social Anxiety Disorder: A Pilot Study. <i>Cognitive Therapy and Research</i> , 2014, 38, 226-238.	1.9	34
105	Association between genes, stressful childhood events and processing bias in depression vulnerable individuals. <i>Genes, Brain and Behavior</i> , 2014, 13, 508-516.	2.2	20
106	Editorial for the Special Issue on Cognitive Bias Modification Techniques: An Introduction to a Time Traveller's Tale. <i>Cognitive Therapy and Research</i> , 2014, 38, 83-88.	1.9	52
107	Cognitive-Behavioural Therapy Targeting Fear of Progression in an Interdisciplinary Care Program: A Case Study in Systemic Sclerosis. <i>Journal of Clinical Psychology in Medical Settings</i> , 2014, 21, 297-312.	1.4	4
108	Don't panic: Interpretation bias is predictive of new onsets of panic disorder. <i>Journal of Anxiety Disorders</i> , 2014, 28, 83-87.	3.2	41

#	ARTICLE	IF	CITATIONS
109	Shorter gaze duration for happy faces in current but not remitted depression: Evidence from eye movements. <i>Psychiatry Research</i> , 2014, 218, 79-86.	3.3	34
110	What is the contribution of different cognitive biases and stressful childhood events to the presence and number of previous depressive episodes?. <i>Psychiatry Research</i> , 2014, 217, 134-142.	3.3	18
111	A multi-site single blind clinical study to compare the effects of prolonged exposure, eye movement desensitization and reprocessing and waiting list on patients with a current diagnosis of psychosis and co morbid post traumatic stress disorder: study protocol for the randomized controlled trial <i>Treating Trauma in Psychosis</i> . <i>Trials</i> , 2013, 14, 151.	1.6	39
112	Approach bias modification in alcohol dependence: Do clinical effects replicate and for whom does it work best?. <i>Developmental Cognitive Neuroscience</i> , 2013, 4, 38-51.	4.0	359
113	Cognitive-behavioural therapy reduces unwanted thought intrusions in generalized anxiety disorder. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013, 44, 1-6.	1.2	12
114	Approach and Avoidance of Emotional Faces in Happy and Sad Mood. <i>Cognitive Therapy and Research</i> , 2013, 37, 1-6.	1.9	36
115	Cognitive-behavior therapy resolves implicit fear associations in generalized anxiety disorder. <i>Behaviour Research and Therapy</i> , 2013, 51, 15-23.	3.1	16
116	Simple rules for detecting depression. <i>Journal of Applied Research in Memory and Cognition</i> , 2013, 2, 149-157.	1.1	28
117	Validating the Beck Depression Inventory-II in Indonesia's general population and coronary heart disease patients. <i>International Journal of Clinical and Health Psychology</i> , 2013, 13, 235-242.	5.1	57
118	Effects of Approach-Avoidance Training on Implicit and Explicit Evaluations of Neutral, Angry, and Smiling Face Stimuli. <i>Psychological Reports</i> , 2013, 113, 199-216.	1.7	18
119	Attentional bias and anxiety in individuals with coronary heart disease. <i>Psychology and Health</i> , 2013, 28, 1306-1322.	2.2	4
120	Make the manikin move: Symbolic approach-avoidance responses affect implicit and explicit face evaluations. <i>Journal of Cognitive Psychology</i> , 2013, 25, 738-744.	0.9	31
121	To be or Not to be Threatening, but What was the Question? Biased Face Evaluation in Social Anxiety and Depression Depends on How You Frame the Query. <i>Frontiers in Psychology</i> , 2013, 4, 205.	2.1	3
122	Training approach-avoidance of smiling faces affects emotional vulnerability in socially anxious individuals. <i>Frontiers in Human Neuroscience</i> , 2013, 7, 481.	2.0	41
123	Does Negative Affect Prime Alcohol in Alcohol-Dependent Inpatients? A Large-Scale Clinical Investigation of the Moderating role of Depression and Executive Control. <i>Journal of Experimental Psychopathology</i> , 2013, 4, 279-290.	0.8	2
124	Simple rules for detecting depression.. <i>Journal of Applied Research in Memory and Cognition</i> , 2013, 2, 149-157.	1.1	10
125	Impaired cognitive performance and responsiveness to reward in burnout patients: Two years later. <i>Work and Stress</i> , 2012, 26, 333-346.	4.5	24
126	A Neutral Face Is Not Neutral Even if You Have Not Seen It: Social Anxiety Disorder and Affective Priming with Facial Expressions. <i>Cognitive Behaviour Therapy</i> , 2012, 41, 108-118.	3.5	21

#	ARTICLE	IF	CITATIONS
127	Higher sensitivity for low spatial frequency expressions in social anxiety: Evident in indirect but not direct tasks?. <i>Emotion</i> , 2012, 12, 847-851.	1.8	11
128	'Getting into the spirit': Alcohol-related interpretation bias in heavy-drinking students.. <i>Psychology of Addictive Behaviors</i> , 2012, 26, 627-632.	2.1	29
129	Fronto-limbic microstructure and structural connectivity in remission from major depression. <i>Psychiatry Research - Neuroimaging</i> , 2012, 204, 40-48.	1.8	41
130	Treatment sensitivity of implicit threat evaluation, avoidance tendency and visual working memory bias in specific phobia. <i>Journal of Anxiety Disorders</i> , 2012, 26, 321-328.	3.2	22
131	Analogue trauma results in enhanced encoding of threat information at the expense of neutral information. <i>Journal of Anxiety Disorders</i> , 2012, 26, 656-664.	3.2	6
132	Subjective fear, interference by threat, and fear associations independently predict fear-related behavior in children. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2012, 43, 952-958.	1.2	12
133	Disease-related and psychosocial factors associated with depressive symptoms in patients with systemic sclerosis, including fear of progression and appearance self-esteem. <i>Journal of Psychosomatic Research</i> , 2012, 72, 199-204.	2.6	54
