#	ARTICLE	IF	CITATIONS
1	Experiences and perspectives of cancer stakeholders regarding COVID-19 vaccination. Asia-Pacific Journal of Clinical Oncology, 2023, 19, 234-242.	1.1	4
2	Parent-child bonding and attachment during pregnancy and early childhood following congenital heart disease diagnosis. Health Psychology Review, 2022, 16, 378-411.	8.6	12
3	Effectively communicating comprehensive tumor genomic profiling results: Mitigating uncertainty for advanced cancer patients. Patient Education and Counseling, 2022, 105, 452-459.	2.2	5
4	Pilot study of an online training program to increase genetic literacy and communication skills in oncology healthcare professionals discussing BRCA1/2 genetic testing with breast and ovarian cancer patients. Familial Cancer, 2022, 21, 157-166.	1.9	9
5	Workforce participation in relation to cancer diagnosis, type and stage: Australian population-based study of 163,556 middle-aged people. Journal of Cancer Survivorship, 2022, 16, 461-473.	2.9	7
6	The untold story of late effects: a qualitative analysis of breast cancer survivors' emotional responses to late effects. Supportive Care in Cancer, 2022, 30, 177-185.	2.2	9
7	Value of whole-genome sequencing to Australian cancer patients and their first-degree relatives participating in a genomic sequencing study. Journal of Genetic Counseling, 2022, 31, 96-108.	1.6	2
8	Cancer patient knowledge about and behavioral intentions after germline genome sequencing. Patient Education and Counseling, 2022, 105, 707-718.	2.2	2
9	Psychosocial well-being and supportive care needs of cancer patients and survivors living in rural or regional areas: a systematic review from 2010 to 2021. Supportive Care in Cancer, 2022, 30, 1021-1064.	2.2	29
10	Getting the MOST out of follow-up: a randomized controlled trial comparing 3 monthly nurse led follow-up via telehealth, including monitoring CA125 and patient reported outcomes using the MOST (Measure of Ovarian Symptoms and Treatment concerns) with routine clinic based or telehealth follow-up, after completion of first line chemotherapy in patients with epithelial ovarian cancer. International Journal of Gynecological Cancer, 2022, 32, 560-565.	2.5	4
11	Psychological predictors of advanced cancer patients' preferences for return of results from comprehensive tumor genomic profiling. American Journal of Medical Genetics, Part A, 2022, 188, 725-734.	1.2	2
12	Paramedics delivering palliative and end-of-life care in community-based settings: A systematic integrative review with thematic synthesis. Palliative Medicine, 2022, 36, 405-421.	3.1	22
13	Measuring female breast cancer survivors' concerns about late effects of treatment: initial development of the Concerns about Late Effects in Oncology Questionnaire (CLEO). Supportive Care in Cancer, 2022, 30, 3563-3572.	2.2	2
14	The impact of COVID-19 on cancer patients, their carers and oncology health professionals: A qualitative study. Patient Education and Counseling, 2022, 105, 2397-2403.	2.2	17
15	Development, acceptability and uptake of an on-line communication skills education program targeting challenging conversations for oncology health professionals related to identifying and responding to anxiety and depression. BMC Health Services Research, 2022, 22, 132.	2.2	5
16	Psychological impact of comprehensive tumor genomic profiling results for advanced cancer patients. Patient Education and Counseling, 2022, 105, 2206-2216.	2.2	4
17	Promise unfulfilled: Implementing web-based psychological therapy in routine cancer care, a qualitative study of oncology health professionals' attitudes. Psycho-Oncology, 2022, 31, 1127-1135.	2.3	4
18	Staff perspectives on the feasibility of a clinical pathway for anxiety and depression in cancer care, and mid-implementation adaptations. BMC Health Services Research, 2022, 22, 192.	2.2	3

#	ARTICLE	IF	CITATIONS
19	Preferences for return of germline genome sequencing results for cancer patients and their genetic relatives in a research setting. <i>European Journal of Human Genetics</i> , 2022, 30, 930-937.	2.8	6
20	The long haul: Lived experiences of survivors following different treatments for advanced colorectal cancer: A qualitative study. <i>European Journal of Oncology Nursing</i> , 2022, 58, 102123.	2.1	9
21	Validation of the multidimensional impact of Cancer Risk Assessment Questionnaire to assess impact of waiting for genome sequencing results. <i>Psycho-Oncology</i> , 2022, , .	2.3	1
22	Medical treatment decision-making in rural cancer patients: A qualitative systematic review and meta-synthesis. <i>Patient Education and Counseling</i> , 2022, 105, 2693-2701.	2.2	2
23	Trajectory of Anxiety Related to Radiation Therapy Mask Immobilization and Treatment Delivery in Head and Neck Cancer and Radiation Therapists' Ability to Detect This Anxiety. <i>Advances in Radiation Oncology</i> , 2022, 7, 100967.	1.2	2
24	Management of common clinical problems experienced by survivors of cancer. <i>Lancet, The</i> , 2022, 399, 1537-1550.	13.7	74
25	Body Image Scale: Evaluation of the Psychometric Properties in Three Indian Head and Neck Cancer Language Groups. <i>Frontiers in Psychology</i> , 2022, 13, .	2.1	0
26	Psychological predictors of cancer patients' and their relatives' attitudes towards the return of genomic sequencing results. <i>European Journal of Medical Genetics</i> , 2022, 65, 104516.	1.3	2
27	Psychological outcomes in advanced cancer patients after receiving genomic tumor profiling results.. <i>Health Psychology</i> , 2022, 41, 396-408.	1.6	1
28	Further validation of the Perceptions of Uncertainties in Genome Sequencing scale among patients with cancer undergoing tumor sequencing. <i>Clinical Genetics</i> , 2022, 102, 110-116.	2.0	0
29	Including migrant oncology patients in research: A multisite pilot randomised controlled trial testing consultation audio-recordings and question prompt lists. <i>Contemporary Clinical Trials Communications</i> , 2022, 28, 100932.	1.1	2
30	Return of comprehensive tumour genomic profiling results to advanced cancer patients: a qualitative study. <i>Supportive Care in Cancer</i> , 2022, 30, 8201-8210.	2.2	1
31	Pilot of a novel theoretically derived intervention for cancer-related anxiety with patients with advanced or recurred disease. <i>Behavioural and Cognitive Psychotherapy</i> , 2021, 49, 247-253.	1.2	4
32	Family communication about genomic sequencing: A qualitative study with cancer patients and relatives. <i>Patient Education and Counseling</i> , 2021, 104, 944-952.	2.2	11
33	The Questionnaire prompt list (<sc>QPL</sc>): Why it is needed in the Indian oncology setting?. <i>Cancer Reports</i> , 2021, 4, e1316.	1.4	6
34	What factors influence organisational readiness for change? Implementation of the Australian clinical pathway for the screening, assessment and management of anxiety and depression in adult cancer patients (ADAPT CP). <i>Supportive Care in Cancer</i> , 2021, 29, 3235-3244.	2.2	11
35	A review of the barriers to using Patient-Reported Outcomes (PROs) and Patient-Reported Outcome Measures (PROMs) in routine cancer care. <i>Journal of Medical Radiation Sciences</i> , 2021, 68, 186-195.	1.5	117
36	The experiences and needs of Australian medical oncologists in integrating comprehensive genomic profiling into clinical care: a nation-wide survey. <i>Oncotarget</i> , 2021, 12, 2169-2176.	1.8	2

#	ARTICLE	IF	CITATIONS
37	Is a Brief Online Booklet Sufficient to Reduce Fear of Cancer Recurrence or Progression in Women With Ovarian Cancer?. <i>Frontiers in Psychology</i> , 2021, 12, 634136.	2.1	7
38	The role of attentional biases in the context of cancer: A systematic review and meta-analysis. <i>Psycho-Oncology</i> , 2021, 30, 649-658.	2.3	2
39	Setting an International Research Agenda for Fear of Cancer Recurrence: An Online Delphi Consensus Study. <i>Frontiers in Psychology</i> , 2021, 12, 596682.	2.1	18
40	Pursuing germline genome sequencing to reduce illness uncertainty may involve additional uncertainties for cancer patients: A mixed-methods study. <i>Journal of Genetic Counseling</i> , 2021, 30, 1143-1155.	1.6	4
41	Colorectal cancer survivorship: A systematic review and thematic synthesis of qualitative research. <i>European Journal of Cancer Care</i> , 2021, 30, e13421.	1.5	43
42	Development and usability testing of a web-based psychosocial intervention for women living with metastatic breast cancer: Finding My Way-Advanced. <i>Journal of Cancer Survivorship</i> , 2021, 15, 403-409.	2.9	8
43	Impact of Individual, Organizational, and Technological Factors on the Implementation of an Online Portal to Support a Clinical Pathway Addressing Psycho-Oncology Care: Mixed Methods Study. <i>JMIR Human Factors</i> , 2021, 8, e26390.	2.0	9
44	The secondary use and linking of health administrative and clinical trial data in cancer: attitudes towards data reuse in Australia. <i>Breast</i> , 2021, 56, S84.	2.2	0
45	Cancer Patient Experience of Uncertainty While Waiting for Genome Sequencing Results. <i>Frontiers in Psychology</i> , 2021, 12, 647502.	2.1	8
46	Improving breast cancer nurses' management of challenging situations involving family carers: Pilot evaluation of a brief targeted online education module (TRIO-Conflict). <i>Patient Education and Counseling</i> , 2021, 104, 3023-3031.	2.2	6
47	Enabling cross-cultural data pooling in trials: linguistic validation of head and neck cancer measures for Indian patients. <i>Quality of Life Research</i> , 2021, 30, 2649-2661.	3.1	5
48	A systematic literature review of attitudes towards secondary use and sharing of health administrative and clinical trial data: a focus on consent. <i>Systematic Reviews</i> , 2021, 10, 132.	5.3	23
49	eTRIO trial: study protocol of a randomised controlled trial of online education modules to facilitate effective family caregiver involvement in oncology. <i>BMJ Open</i> , 2021, 11, e043224.	1.9	3
50	A Systematic Review of Fear of Cancer Recurrence Among Indigenous and Minority Peoples. <i>Frontiers in Psychology</i> , 2021, 12, 621850.	2.1	12
51	Online Therapy for Fear of Cancer Recurrence: Is It the Complete Answer?. <i>Journal of the National Cancer Institute</i> , 2021, 113, 1442-1443.	6.3	2
52	Fear of cancer recurrence in patients undergoing germline genome sequencing. <i>Supportive Care in Cancer</i> , 2021, 29, 7289-7297.	2.2	2
53	The implementation of a decision aid for women with early-stage breast cancer considering contralateral prophylactic mastectomy: A pilot study. <i>Patient Education and Counseling</i> , 2021, 105, 74-80.	2.2	1
54	Online, Group-Based Psychological Support for Adolescent and Young Adult Cancer Survivors: Results from the Recapture Life Randomized Trial. <i>Cancers</i> , 2021, 13, 2460.	3.7	21

#	ARTICLE	IF	CITATIONS
55	Moderators of intervention efficacy for Finding My Way: A web-based psychosocial intervention for cancer-related distress. Supportive Care in Cancer, 2021, 29, 7669-7678.	2.2	8
56	Patientsâ€™ and oncologistsâ€™ perspectives on a novel Clinician-led Fear of Cancer Recurrence (ClFeR) Intervention. Supportive Care in Cancer, 2021, 29, 7637-7646.	2.2	3
57	Novel Clinician-Lead Intervention to Address Fear of Cancer Recurrence in Breast Cancer Survivors. JCO Oncology Practice, 2021, 17, e774-e784.	2.9	15
58	Identifying the 'Active Ingredients' of an Effective Psychological Intervention to Reduce Fear of Cancer Recurrence: A Process Evaluation. Frontiers in Psychology, 2021, 12, 661190.	2.1	4
59	Patient-reported anxiety and depression measures for use in Indian head and neck cancer populations: a psychometric evaluation. Journal of Patient-Reported Outcomes, 2021, 5, 44.	1.9	2
60	Longitudinal patterns in fear of cancer progression in patients with rare, advanced cancers undergoing comprehensive tumour genomic profiling. Psycho-Oncology, 2021, 30, 1920-1929.	2.3	0
61	The role of interpretation biases and symptom burden in fear of cancer recurrence/progression among ovarian cancer survivors. Psycho-Oncology, 2021, 30, 1948-1956.	2.3	8
62	Does undertaking genome sequencing prompt actual and planned lifestyle-related behavior change in cancer patients and survivors? A qualitative study. Journal of Psychosocial Oncology Research and Practice, 2021, 3, e059.	0.5	1
63	ConquerFear®: Feasibility study with pilot results of a psychological intervention for fear of cancer recurrence delivered in groups. Psycho-Oncology, 2021, , .	2.3	5
64	Impact of personal genomic risk information on melanoma prevention behaviors and psychological outcomes: a randomized controlled trial. Genetics in Medicine, 2021, 23, 2394-2403.	2.4	22
65	Uptake of an online psychological therapy program (iCanADAPT®Early) when implemented within a clinical pathway in cancer care centres. Psycho-Oncology, 2021, , .	2.3	5
66	A mixed methods pilot and feasibility open trial of internet-delivered cognitive behaviour therapy (iCanADAPT Advanced) for people with advanced cancer with depression and/or anxiety. Internet Interventions, 2021, 26, 100449.	2.7	4
67	Patient-reported outcomes and personalised cancer care. Medical Journal of Australia, 2021, 214, 406-408.e1.	1.7	10
68	Acceptability and appropriateness of a clinical pathway for managing anxiety and depression in cancer patients: a mixed methods study of staff perspectives. BMC Health Services Research, 2021, 21, 1243.	2.2	11
69	Benefits of a brief psychological intervention targeting fear of cancer recurrence in people at high risk of developing another melanoma: 12-month follow-up results of a randomized controlled trial. British Journal of Dermatology, 2020, 182, 860-868.	1.5	13
70	The experiences and impact of being deemed ineligible for living kidney donation: Semi-structured interview study. Nephrology, 2020, 25, 339-350.	1.6	12
71	Randomised controlled trial of internet-delivered cognitive behaviour therapy for clinical depression and/or anxiety in cancer survivors (iCanADAPT Early). Psycho-Oncology, 2020, 29, 76-85.	2.3	46
72	Impact of fear of cancer recurrence on survival among lymphoma patients. Psycho-Oncology, 2020, 29, 364-372.	2.3	21

#	ARTICLE	IF	CITATIONS
73	Who should access germline genome sequencing? A mixed methods study of patient views. <i>Clinical Genetics</i> , 2020, 97, 329-337.	2.0	3
74	Identifying the key characteristics of clinical fear of cancer recurrence: An international Delphi study. <i>Psycho-Oncology</i> , 2020, 29, 430-436.	2.3	62
75	Development and usability evaluation of an online self-management intervention for fear of cancer recurrence (<scp>iConquerFear</scp>). <i>Psycho-Oncology</i> , 2020, 29, 98-106.	2.3	36
76	Testing a model of fear of cancer recurrence or progression: the central role of intrusions, death anxiety and threat appraisal. <i>Journal of Behavioral Medicine</i> , 2020, 43, 225-236.	2.1	37
77	Return to work after a cancer diagnosis: a meta-review of reviews and a meta-synthesis of recent qualitative studies. <i>Journal of Cancer Survivorship</i> , 2020, 14, 114-134.	2.9	84
78	Unmasking Anxiety: A Qualitative Investigation of Health Professionals' Perspectives of Mask Anxiety in Head and Neck Cancer. <i>Journal of Medical Imaging and Radiation Sciences</i> , 2020, 51, 12-21.	0.3	9
79	Communication during childhood cancer: Systematic review of patient perspectives. <i>Cancer</i> , 2020, 126, 701-716.	4.1	50
80	Exploring head and neck cancer patients' experiences with radiation therapy immobilisation masks: A qualitative study. <i>European Journal of Cancer Care</i> , 2020, 29, e13215.	1.5	11
81	A systematic literature review of health consumer attitudes towards secondary use and sharing of health administrative and clinical trial data: a focus on privacy, trust, and transparency. <i>Systematic Reviews</i> , 2020, 9, 235.	5.3	21
82	A systematic literature review of researchers' and healthcare professionals' attitudes towards the secondary use and sharing of health administrative and clinical trial data. <i>Systematic Reviews</i> , 2020, 9, 240.	5.3	12
83	Advanced cancer patient preferences for receiving molecular profiling results. <i>Psycho-Oncology</i> , 2020, 29, 1533-1539.	2.3	5
84	Disability, psychological distress and quality of life in relation to cancer diagnosis and cancer type: population-based Australian study of 22,505 cancer survivors and 244,000 people without cancer. <i>BMC Medicine</i> , 2020, 18, 372.	5.5	53
85	Online resources for family caregivers of cognitively competent patients: A review of user-driven reputable health website content on caregiver communication with health professionals. <i>Patient Education and Counseling</i> , 2020, 103, 2408-2419.	2.2	5
86	Assessment of the Value of Tumor Variation Profiling Perceived by Patients With Cancer. <i>JAMA Network Open</i> , 2020, 3, e204721.	5.9	7
87	Breast Cancer Polygenic Risk Score and Contralateral Breast Cancer Risk. <i>American Journal of Human Genetics</i> , 2020, 107, 837-848.	6.2	39
88	The value of real-world testing: a qualitative feasibility study to explore staff and organisational barriers and strategies to support implementation of a clinical pathway for the management of anxiety and depression in adult cancer patients. <i>Pilot and Feasibility Studies</i> , 2020, 6, 109.	1.2	10
89	Patient experience of uncertainty in cancer genomics: a systematic review. <i>Genetics in Medicine</i> , 2020, 22, 1450-1460.	2.4	18
90	Using patient-reported outcomes (PROs) and patient-reported outcome measures (PROMs) in routine head and neck cancer care: What do health professionals perceive as barriers and facilitators?. <i>Journal of Medical Imaging and Radiation Oncology</i> , 2020, 64, 704-710.	1.8	27

#	ARTICLE	IF	CITATIONS
91	When to break the news and whose responsibility is it? A cross-sectional qualitative study of health professionals's views regarding disclosure of BRCA genetic cancer risk. <i>BMJ Open</i> , 2020, 10, e033127.	1.9	8
92	Impact of migrancy on cancer clinical trial participation: Factors associated with approach and consent in Australian-born versus migrant groups. <i>Asia-Pacific Journal of Clinical Oncology</i> , 2020, 16, 115-122.	1.1	2
93	Advanced Cancer Patient Knowledge of and Attitudes towards Tumor Molecular Profiling. <i>Translational Oncology</i> , 2020, 13, 100799.	3.7	7
94	Prognostic Awareness in Adult Oncology and Palliative Care. <i>Journal of Clinical Oncology</i> , 2020, 38, 877-884.	1.6	32
95	Cancer patients's views and understanding of genome sequencing: a qualitative study. <i>Journal of Medical Genetics</i> , 2020, 57, 671-676.	3.2	16
96	Using artificial intelligence to analyse and teach communication in healthcare. <i>Breast</i> , 2020, 50, 49-55.	2.2	43
97	Effective health communication "a key factor in fighting the COVID-19 pandemic. <i>Patient Education and Counseling</i> , 2020, 103, 873-876.	2.2	239
98	Indian Cancer Patients's Needs, Perceptions of, and Expectations from their Support Network: a Qualitative Study. <i>Journal of Cancer Education</i> , 2020, 35, 462-469.	1.3	12
99	What are the optimal measures to identify anxiety and depression in people diagnosed with head and neck cancer (HNC): a systematic review. <i>Journal of Patient-Reported Outcomes</i> , 2020, 4, 26.	1.9	16
100	CIFeR: A novel Clinician-lead Intervention to address Fear of cancer Recurrence (FCR) in breast cancer survivors.. <i>Journal of Clinical Oncology</i> , 2020, 38, 12115-12115.	1.6	2
101	Implementing Web-Based Therapy in Routine Mental Health Care: Systematic Review of Health Professionals's Perspectives. <i>Journal of Medical Internet Research</i> , 2020, 22, e17362.	4.3	45
102	Online psychological self-management intervention for testicular cancer survivors (e-TC 2.0): promising acceptability and preliminary efficacy, but limited feasibility. <i>Journal of Psychosocial Oncology Research and Practice</i> , 2020, 2, e33.	0.5	4
103	Examining trajectories of anxiety in men with prostate cancer faced with complex treatment decisions. <i>Supportive Care in Cancer</i> , 2019, 27, 567-571.	2.2	0
104	Patient perspectives on molecular tumor profiling: "Why wouldn't you?" <i>BMC Cancer</i> , 2019, 19, 753.	2.6	21
105	Systematic review of interventions by non-mental health specialists for managing fear of cancer recurrence in adult cancer survivors. <i>Supportive Care in Cancer</i> , 2019, 27, 4055-4067.	2.2	38
106	Psychological intervention (ConquerFear) for treating fear of cancer recurrence: mediators and moderators of treatment efficacy. <i>Journal of Cancer Survivorship</i> , 2019, 13, 695-702.	2.9	26
107	How and how much is spirituality discussed in palliative care consultations for advanced cancer patients with and without a question prompt list?. <i>Patient Education and Counseling</i> , 2019, 102, 2208-2213.	2.2	10
108	The Elusive Search for Success: Defining and Measuring Implementation Outcomes in a Real-World Hospital Trial. <i>Frontiers in Public Health</i> , 2019, 7, 293.	2.7	17

#	ARTICLE	IF	CITATIONS
109	Content comparison of unmet needs self-report measures used in patients with head and neck cancer: A systematic review. <i>Psycho-Oncology</i> , 2019, 28, 2295-2306.	2.3	32
110	Re-defining moral distress: A systematic review and critical re-appraisal of the argument-based bioethics literature. <i>Clinical Ethics</i> , 2019, 14, 195-210.	0.7	27
111	Health professional and at-risk BRCA young adult perspectives about information needs: What does Gen Y need to know?. <i>Journal of Genetic Counseling</i> , 2019, 28, 1154-1165.	1.6	8
112	OC-0198 Using PROs and PROMs in routine head and neck cancer care: what do RTs perceive as barriers?. <i>Radiotherapy and Oncology</i> , 2019, 133, S102-S103.	0.6	1
113	A Psychosexual Rehabilitation Booklet Increases Vaginal Dilator Adherence and Knowledge in Women Undergoing Pelvic Radiation Therapy for Gynaecological or Anorectal Cancer: A Randomised Controlled Trial. <i>Clinical Oncology</i> , 2019, 31, 124-131.	1.4	15
114	Health-related quality of life, psychosocial functioning, and unmet health needs in patients with sarcoma: A systematic review. <i>Psycho-Oncology</i> , 2019, 28, 653-664.	2.3	46
115	Talking across generations: Family communication about <i>BRCA1</i> and <i>BRCA2</i> genetic cancer risk. <i>Journal of Genetic Counseling</i> , 2019, 28, 516-532.	1.6	25
116	Challenges and strategies proposed by genetic health professionals to assist with family communication. <i>European Journal of Human Genetics</i> , 2019, 27, 1630-1638.	2.8	22
117	A systematic review of body image measures for people diagnosed with head and neck cancer (HNC). <i>Supportive Care in Cancer</i> , 2019, 27, 3657-3666.	2.2	18
118	Cost-Effectiveness of a Psycho-Educational Intervention Targeting Fear of Cancer Recurrence in People Treated for Early-Stage Melanoma. <i>Applied Health Economics and Health Policy</i> , 2019, 17, 669-681.	2.1	11
119	Risk attitudes and sun protection behaviour: Can behaviour be altered by using a melanoma genomic risk intervention?. <i>Cancer Epidemiology</i> , 2019, 61, 8-13.	1.9	6
120	Patient-reported outcomes with neoadjuvant vs adjuvant systemic therapy for operable breast cancer. <i>Breast</i> , 2019, 46, 25-31.	2.2	3
121	Age-related supportive care needs of women with gynaecological cancer: A qualitative exploration. <i>European Journal of Cancer Care</i> , 2019, 28, e13070.	1.5	24
122	Recognising and managing the psychosocial needs of family carers: It's time for change. <i>Patient Education and Counseling</i> , 2019, 102, 401-403.	2.2	5
123	The trials and tribulations of conducting an m-health pilot randomized controlled trial to improve oral cancer therapy adherence: recommendations for future multisite, non-drug clinical trials. <i>BMC Research Notes</i> , 2019, 12, 226.	1.4	7
124	A research agenda for fear of cancer recurrence: A <i>Delphi</i> study conducted in <i>Australia</i> . <i>Psycho-Oncology</i> , 2019, 28, 989-996.	2.3	24
125	Health literacy and cancer care coordination in Chinese migrant patients and their carers: A cross-sectional survey. <i>Psycho-Oncology</i> , 2019, 28, 1048-1055.	2.3	13
126	Challenges and perceived unmet needs of Chinese migrants affected by cancer: Focus group findings. <i>Journal of Psychosocial Oncology</i> , 2019, 37, 383-397.	1.2	11
