#	ARTICLE	IF	CITATIONS
1	Exploring the role of Islam on the lived experience of patients with Long QT Syndrome in Saudi Arabia. <i>Journal of Genetic Counseling</i> , 2022, 31, 922-936.	1.6	1
2	Rapid Point-of-Care Genotyping to Avoid Aminoglycoside-Induced Ototoxicity in Neonatal Intensive Care. <i>JAMA Pediatrics</i> , 2022, 176, 486.	6.2	30
3	Receiving results of uncertain clinical relevance from population genetic screening: systematic review & meta-synthesis of qualitative research. <i>European Journal of Human Genetics</i> , 2022, 30, 520-531.	2.8	15
4	<i>â€œI just want to be normalâ€</i>: A qualitative investigation of adolescents' coping goals when dealing with pain related to arthritis and the underlying parentâ€™ adolescent personal models. <i>Paediatric and Neonatal Pain</i> , 2022, 4, 96-109.	1.7	2
5	â€œWe want to live a little longer and our family want[s] us aroundâ€: A summative content analysis of adherence to COVIDâ€™19â€™related guidelines using the Theoretical Domains Framework. <i>British Journal of Health Psychology</i> , 2022, 27, 1119-1152.	3.5	2
6	The feasibility of implementing risk stratification into a national breast cancer screening programme: a focus group study investigating the perspectives of healthcare personnel responsible for delivery. <i>BMC Women's Health</i> , 2022, 22, 142.	2.0	8
7	The parenting process in Syrian refugees: A grounded theory study.. <i>Peace and Conflict</i> , 2021, 27, 67-80.	0.4	0
8	Pharmacogenetics to Avoid Loss of Hearing (PALOH) trial: a protocol for a prospective observational implementation trial. <i>BMJ Open</i> , 2021, 11, e044457.	1.9	9
9	Process evaluation of co-designed interventions to improve communication of positive newborn bloodspot screening results. <i>BMJ Open</i> , 2021, 11, e050773.	1.9	9
10	Consent for newborn screening: screening professionals' and parentsâ€™ views. <i>Public Health</i> , 2020, 178, 151-158.	2.9	6
11	Engagement barriers and service inequities in the NHS Breast Screening Programme: Views from British-Pakistani women. <i>Journal of Medical Screening</i> , 2020, 27, 130-137.	2.3	21
12	Qualitative exploration of health professionalsâ€™ experiences of communicating positive newborn bloodspot screening results for nine conditions in England. <i>BMJ Open</i> , 2020, 10, e037081.	1.9	12
13	Processing of positive newborn screening results: a qualitative exploration of current practice in England. <i>BMJ Open</i> , 2020, 10, e044755.	1.9	8
14	What are the benefits and harms of risk stratified screening as part of the NHS breast screening Programme? Study protocol for a multi-site non-randomised comparison of BC-predict versus usual screening (NCT04359420). <i>BMC Cancer</i> , 2020, 20, 570.	2.6	37
15	Constructing a Bioethical Framework to Evaluate and Optimise Newborn Bloodspot Screening for Cystic Fibrosis. <i>International Journal of Neonatal Screening</i> , 2020, 6, 40.	3.2	2
16	The introduction of risk stratified screening into the NHS breast screening Programme: views from British-Pakistani women. <i>BMC Cancer</i> , 2020, 20, 452.	2.6	23
17	Psychological Impact on Parents of an Inconclusive Diagnosis Following Newborn Bloodspot Screening for Cystic Fibrosis: A Qualitative Study. <i>International Journal of Neonatal Screening</i> , 2019, 5, 23.	3.2	31
18	Diagnosing and Preventing Hearing Loss in the Genomic Age. <i>Trends in Hearing</i> , 2019, 23, 233121651987898.	1.3	16

#	ARTICLE	IF	CITATIONS
19	Rethinking Strategies for Positive Newborn Screening Result (NBS+) Delivery (ReSPoND): a process evaluation of co-designing interventions to minimise impact on parental emotional well-being and stress. Pilot and Feasibility Studies, 2019, 5, 108.	1.2	8
20	WS20-2 Parents' psychological adaptation to an unclear diagnosis after positive newborn bloodspot screening for cystic fibrosis: a qualitative study. Journal of Cystic Fibrosis, 2019, 18, S37.	0.7	0
21	Preferences for aspects of antenatal and newborn screening: a systematic review. BMC Pregnancy and Childbirth, 2019, 19, 131.	2.4	12
22	Facilitators and Barriers to Participating in a Randomized Controlled Trial of a Psychological Therapy for Substance Use. Journal of Nervous and Mental Disease, 2019, 207, 487-496.	1.0	4
23	Syria: refugee parents' experiences and need for parenting support in camps and humanitarian settings. Vulnerable Children and Youth Studies, 2018, 13, 19-29.	1.1	34
24	Improving the quality of prison research: A qualitative study of ex-offender service user involvement in prison suicide prevention research. Health Expectations, 2018, 21, 100-109.	2.6	20
25	The prioritization of symptom beliefs over illness beliefs: The development and validation of the Pain Perception Questionnaire for Young People. British Journal of Health Psychology, 2018, 23, 68-87.	3.5	14
26	Understanding Midwives' Preferences for Providing Information About Newborn Bloodspot Screening. MDM Policy and Practice, 2018, 3, 238146831774617.	0.9	5
27	Communication with children about sickle cell disease: A qualitative study of parent experience. British Journal of Health Psychology, 2018, 23, 685-700.	3.5	8
28	Psychological Characteristics and Predictors of Suicide Probability in High-Risk Prisoners. Criminal Justice and Behavior, 2017, 44, 321-335.	1.8	15
29	Eliciting Preferences for Information Provision in Newborn Bloodspot Screening Programs. Value in Health, 2017, 20, 651-661.	0.3	14
30	Training Genetic Counsellors to Deliver an Innovative Therapeutic Intervention: their Views and Experience of Facilitating Multi-Family Discussion Groups. Journal of Genetic Counseling, 2017, 26, 199-214.	1.6	11
31	Young children's experiences of living with a parent with bipolar disorder: Understanding the child's perspective. Psychology and Psychotherapy: Theory, Research and Practice, 2017, 90, 212-228.	2.5	17
32	Consent for newborn screening and storage of blood samples. British Journal of Midwifery, 2017, 25, 730-732.	0.4	1
33	Provision of information about newborn screening antenatally: a sequential exploratory mixed-methods project. Health Technology Assessment, 2017, 21, 1-240.	2.8	26
34	Preventing interpersonal violence in Panama: is a parenting intervention developed in Australia culturally appropriate?. International Journal of Public Health, 2016, 61, 915-922.	2.3	3
35	Exploration of Mechanisms behind Changes after Participation in a Parenting Intervention: A Qualitative Study in a Low-Resource Setting. American Journal of Community Psychology, 2016, 57, 181-189.	2.5	14
36	A qualitative study to explore how professionals in the United Kingdom make decisions to test children for a sickle cell carrier status. European Journal of Human Genetics, 2016, 24, 164-170.	2.8	9

#	ARTICLE	IF	CITATIONS
37	Developing an intervention to facilitate family communication about inherited genetic conditions, and training genetic counsellors in its delivery. <i>European Journal of Human Genetics</i> , 2016, 24, 794-802.	2.8	35
38	The Strengthening Families Program 10â€™14 in Panama: Parentsâ€™™ perceptions of cultural fit.. <i>Professional Psychology: Research and Practice</i> , 2016, 47, 56-65.	1.0	10
39	Cognitiveâ€™behavioural suicide prevention for male prisoners: a pilot randomized controlled trial. <i>Psychological Medicine</i> , 2015, 45, 3441-3451.	4.5	47
40	The Role of Information Provision in Economic Evaluations of Newborn Bloodspot Screening: A Systematic Review. <i>Applied Health Economics and Health Policy</i> , 2015, 13, 615-626.	2.1	11
41	An Exploration of Parentsâ€™™ Perceptions and Beliefs About Changes Following Participation in a Family Skill Training Program: a Qualitative Study in a Developing Country. <i>Prevention Science</i> , 2015, 16, 674-684.	2.6	19
42	Effect of hopelessness on the links between psychiatric symptoms and suicidality in a vulnerable population at risk of suicide. <i>Psychiatry Research</i> , 2015, 230, 464-471.	3.3	57
43	Parentsâ€™™ responses to receiving sickle cell or cystic fibrosis carrier results for their child following newborn screening. <i>European Journal of Human Genetics</i> , 2015, 23, 459-465.	2.8	46
44	The moderating effects of coping and self-esteem on the relationship between defeat, entrapment and suicidality in a sample of prisoners at high risk of suicide. <i>European Psychiatry</i> , 2015, 30, 988-994.	0.2	38
45	Young Adultsâ€™™ Preâ€™Existing Knowledge of Cystic Fibrosis and Sickle Cell Diseases: Implications for Newborn Screening. <i>Journal of Genetic Counseling</i> , 2014, 23, 121-130.	1.6	7
46	Disparities in Current and Future Childhood and Newborn Carrier Identification. <i>Journal of Genetic Counseling</i> , 2014, 23, 701-707.	1.6	4
47	Informing Children of Their Newborn Screening Carrier Result for Sickle Cell or Cystic Fibrosis: Qualitative Study of Parentsâ€™™ Intentions, Views and Support Needs. <i>Journal of Genetic Counseling</i> , 2014, 23, 409-420.	1.6	20
48	Ethical issues in research into conflict and displacement. <i>Lancet, The</i> , 2013, 382, 764-765.	13.7	10
49	Familial influences on antenatal and newborn haemoglobinopathy screening. <i>Ethnicity and Health</i> , 2011, 16, 361-375.	2.5	14
50	A qualitative study exploring genetic counsellorsâ€™™ experiences of counselling children. <i>European Journal of Human Genetics</i> , 2010, 18, 1090-1094.	2.8	13
51	How should risk be communicated to children: a cross-sectional study comparing different formats of probability information. <i>BMC Medical Informatics and Decision Making</i> , 2009, 9, 26.	3.0	20
52	Communication of carrier status information following universal newborn screening for sickle cell disorders and cystic fibrosis: qualitative study of experience and practice. <i>Health Technology Assessment</i> , 2009, 13, 1-82, iii.	2.8	58
53	Risks and benefits of nanotechnology: How young adults perceive possible advances in nanomedicine compared with conventional treatments. <i>Health, Risk and Society</i> , 2007, 9, 159-171.	1.7	24
54	Communicating Carrier Status Information to Children: Their Ability to Understand Concepts Related to Genetic Testing. <i>Australian Journal of Cancer Nursing</i> , 2007, 9, 250-250.	1.6	0

#	ARTICLE	IF	CITATIONS
55	Imparting carrier status results detected by universal newborn screening for sickle cell and cystic fibrosis in England: a qualitative study of current practice and policy challenges. BMC Health Services Research, 2007, 7, 203.	2.2	31
56	Personality functioning: the influence of stature. Archives of Disease in Childhood, 2004, 89, 17-21.	1.9	46
57	Role of religion/spirituality in the context of genetic counseling: health professionals' experiences in an Islamic country. Journal of Biochemical and Clinical Genetics, 0, , 60-70.	0.1	2
