#	Article	IF	CITATIONS
1	High Prevalence of Untreated Depression in Patients Accessing Low-Vision Services. Ophthalmology, 2016, 123, 440-441.	5.2	45
2	Depression in Visual Impairment Trial (DEPVIT): A Randomized Clinical Trial of Depression Treatments in People With Low Vision., 2016, 57, 4247.		36
3	Measuring Low Vision Service Outcomes: Rasch Analysis of the Seven-Item National Eye Institute Visual Function Questionnaire. Optometry and Vision Science, 2008, 85, 112-121.	1.2	35
4	The Depression in Visual Impairment Trial (DEPVIT): trial design and protocol. BMC Psychiatry, 2012, 12, 57.	2.6	35
5	Models of low vision care: past, present and future. Australasian journal of optometry, The, 2014, 97, 209-213.	1.3	31
6	Continuing professional development requirements for UK health professionals: a scoping review. BMJ Open, 2020, 10, e032781.	1.9	30
7	Effectiveness of portable electronic and optical magnifiers for near vision activities in low vision: a randomised crossover trial. Ophthalmic and Physiological Optics, 2017, 37, 370-384.	2.0	27
8	Depressive symptoms in people with vision impairment: a cross-sectional study to identify who is most at risk. BMJ Open, 2019, 9, e026163.	1.9	27
9	Effectiveness of the community-based Low Vision Service Wales: a long-term outcome study. British Journal of Ophthalmology, 2013, 97, 487-491.	3.9	22
10	The newly established primary care based Welsh Low Vision Service is effective and has improved access to low vision services in Wales. Ophthalmic and Physiological Optics, 2010, 30, 358-364.	2.0	20
11	The pâ€ <scp>EVES</scp> study design and methodology: a randomised controlled trial to compare portable electronic vision enhancement systems (pâ€ <scp>EVES</scp>) to optical magnifiers for near vision activities in visual impairment. Ophthalmic and Physiological Optics, 2014, 34, 558-572.	2.0	13
12	How do community-based eye care practitioners approach depression in patients with low vision? A mixed methods study. BMC Psychiatry, 2019, 19, 426.	2.6	12
13	Barriers to integrating routine depression screening into community low vision rehabilitation services: a mixed methods study. BMC Psychiatry, 2020, 20, 419.	2.6	9
14	Training results in increased practitioner confidence and identification of depression in people with low vision: a mixed methods study. Ophthalmic and Physiological Optics, 2021, 41, 316-330.	2.0	6
15	How does the optometry profession move up a gear to tackle the problem of climate change?. Ophthalmic and Physiological Optics, 2022, 42, 4-7.	2.0	1
