#	Article	IF	Citations
1	Health effects of dietary risks in 195 countries, 1990â€“2017: a systematic analysis for the Global Burden of Disease Study 2017. Lancet, The, 2019, 393, 1958-1972.	13.7	3,062
2	Obesity and loss of disease-free years owing to major non-communicable diseases: a multicohort study. Lancet Public Health, The, 2018, 3, e490-e497.	10.0	241
3	Insomnia as a risk factor for ill health: results from the large populationâ€based prospective <scp>HUNT</scp> Study in <scp>N</scp>orway. Journal of Sleep Research, 2014, 23, 124-132.	3.2	195
4	Multiple socio-economic circumstances and healthy food habits. European Journal of Clinical Nutrition, 2007, 61, 701-710.	2.9	171
5	Long working hours and alcohol use: systematic review and meta-analysis of published studies and unpublished individual participant data. BMJ, The, 2015, 350, g7772-g7772.	6.0	152
6	Associations of job strain and working overtime with adverse health behaviors and obesity: Evidence from the Whitehall II Study, Helsinki Health Study, and the Japanese Civil Servants Study. Social Science and Medicine, 2008, 66, 1681-1698.	3.8	150
7	Register-based study among employees showed small nonparticipation bias in health surveys and check-ups. Journal of Clinical Epidemiology, 2008, 61, 900-906.	5.0	142
8	Association of Healthy Lifestyle With Years Lived Without Major Chronic Diseases. JAMA Internal Medicine, 2020, 180, 760.	5.1	140
9	Cohort Profile: The Helsinki Health Study. International Journal of Epidemiology, 2013, 42, 722-730.	1.9	133
10	Does survey non-response bias the association between occupational social class and health?. Scandinavian Journal of Public Health, 2007, 35, 212-215.	2.3	127
11	Past, present, and future: trends in sleep duration and implications for public health. Sleep Health, 2017, 3, 317-323.	2.5	117
12	Working conditions and health behaviours among employed women and men: the Helsinki Health Study. Preventive Medicine, 2004, 38, 48-56.	3.4	116
13	Bidirectional associations between insomnia symptoms and unhealthy behaviours. Journal of Sleep Research, 2013, 22, 89-95.	3.2	114
14	Sociodemographic and socioeconomic differences in sleep duration and insomnia-related symptoms in Finnish adults. BMC Public Health, 2012, 12, 565.	2.9	111
15	Working conditions as risk factors for disability retirement: a longitudinal register linkage study. BMC Public Health, 2012, 12, 309.	2.9	109
16	Risk Factors for Low Back Pain: A Populationâ€Based Longitudinal Study. Arthritis Care and Research, 2019, 71, 290-299.	3.4	108
17	Socioeconomic circumstances and common mental disorders among Finnish and British public sector employees: evidence from the Helsinki Health Study and the Whitehall II Study. International Journal of Epidemiology, 2007, 36, 776-786.	1.9	101
18	Sleep complaints in middle-aged women and men: the contribution of working conditions and work-family conflicts. Journal of Sleep Research, 2010, 19, 466-477.	3.2	100

#	Article	IF	Citations
19	Obesity as a Risk Factor for Sciatica: A Meta-Analysis. American Journal of Epidemiology, 2014, 179, 929-937.	3.4	97
20	Psychosocial factors at work, long work hours, and obesity: a systematic review. Scandinavian Journal of Work, Environment and Health, 2013, 39, 241-258.	3.4	93
21	Rethinking the sleep-health link. Sleep Health, 2018, 4, 339-348.	2.5	87
22	Having lunch at a staff canteen is associated with recommended food habits. Public Health Nutrition, 2004, 7, 53-61.	2.2	86
23	Association of sleep duration and sleep quality with the physical, social, and emotional functioning among Australian adults. Sleep Health, 2018, 4, 194-200.	2.5	74
24	Workplace bullying and subsequent sleep problems â€“ the Helsinki Health Study. Scandinavian Journal of Work, Environment and Health, 2011, 37, 204-212.	3.4	73
25	Associations of workâ€“family conflicts with food habits and physical activity. Public Health Nutrition, 2007, 10, 222-229.	2.2	70
26	Physical and psychosocial working conditions as explanations for occupational class inequalities in self-rated health. European Journal of Public Health, 2009, 19, 458-463.	0.3	70
27	The burden of mental disorders, substance use disorders and self-harm among young people in Europe, 1990â€“2019: Findings from the Global Burden of Disease Study 2019. Lancet Regional Health - Europe, The, 2022, 16, 100341.	5.6	70
28	Sleep and Sickness Absence: A Nationally Representative Register-Based Follow-Up Study. Sleep, 2014, 37, 1413-1425.	1.1	68
29	Association of sleep duration with weight and weight gain: a prospective follow-up study. Journal of Sleep Research, 2011, 20, 298-302.	3.2	63
30	Socio-economic circumstances and food habits in Eastern, Central and Western European populations. Public Health Nutrition, 2011, 14, 678-687.	2.2	61
31	The association of income with fresh fruit and vegetable consumption at different levels of education. European Journal of Clinical Nutrition, 2010, 64, 324-327.	2.9	55
32	Factors associated with health survey response among young employees: a register-based study using online, mailed and telephone interview data collection methods. BMC Public Health, 2020, 20, 184.	2.9	53
33	Psychosocial working conditions and weight gain among employees. International Journal of Obesity, 2005, 29, 909-915.	3.4	50
34	Sleep problems and major weight gain: a follow-up study. International Journal of Obesity, 2011, 35, 109-114.	3.4	49
35	Sleep Problems and Disability Retirement: A Register-based Follow-up Study. American Journal of Epidemiology, 2011, 173, 871-881.	3.4	49
36	Comparison of a Sleep Item From the General Health Questionnaire-12 With the Jenkins Sleep Questionnaire as Measures of Sleep Disturbance. Journal of Epidemiology, 2011, 21, 474-480.	2.4	48

#	Article	IF	Citations
37	Pain and disability retirement: A prospective cohort study. Pain, 2012, 153, 526-531.	4.2	47
38	Sex inequalities in physical and mental functioning of British, Finnish, and Japanese civil servants: Role of job demand, control and work hours. Social Science and Medicine, 2011, 73, 595-603.	3.8	46
39	Working conditions and weight gain: a 28-year follow-up study of industrial employees. European Journal of Epidemiology, 2008, 23, 303-310.	5.7	44
40	Economic difficulties and common mental disorders among Finnish and British white-collar employees: the contribution of social and behavioural factors. Journal of Epidemiology and Community Health, 2009, 63, 439-446.	3.7	39
41	Workâ€“family conflicts and subsequent sleep medication among women and men: A longitudinal registry linkage study. Social Science and Medicine, 2013, 79, 66-75.	3.8	39
42	Workâ€“Family Conflicts and Health Behaviors Among British, Finnish, and Japanese Employees. International Journal of Behavioral Medicine, 2010, 17, 134-142.	1.7	38
43	Insomnia symptoms and mortality: a registerâ€linked study among women and men from Finland, Norway and Lithuania. Journal of Sleep Research, 2016, 25, 96-103.	3.2	38
44	Sleep problems and sickness absence among middle-aged employees. Scandinavian Journal of Work, Environment and Health, 2012, 38, 47-55.	3.4	38
45	Relative weight and disability retirement: a prospective cohort study. Scandinavian Journal of Work, Environment and Health, 2013, 39, 259-267.	3.4	37
46	Joint associations of sleep duration and insomnia symptoms with subsequent sickness absence: The Helsinki Health Study. Scandinavian Journal of Public Health, 2013, 41, 516-523.	2.3	36
47	Common mental disorders and cause-specific disability retirement. Occupational and Environmental Medicine, 2015, 72, 181-187.	2.8	36
48	Long-term exposure to heavy physical work, disability pension due to musculoskeletal disorders and all-cause mortality: 20-year follow-upâ€”introducing Helsinki Health Study job exposure matrix. International Archives of Occupational and Environmental Health, 2019, 92, 337-345.	2.3	36
49	Social class differences in health behaviours among employees from Britain, Finland and Japan: The influence of psychosocial factors. Health and Place, 2010, 16, 61-70.	3.3	35
50	Work Disability Before and After Diabetes Diagnosis: A Nationwide Population-Based Register Study in Sweden. American Journal of Public Health, 2015, 105, e22-e29.	2.7	35
51	Economic difficulties and subsequent sleep problems: Evidence from British and Finnish occupational cohorts. Sleep Medicine, 2012, 13, 680-685.	1.6	34
52	Complaints of insomnia among midlife employed people: The contribution of childhood and present socioeconomic circumstances. Sleep Medicine, 2010, 11, 828-836.	1.6	32
53	Changes in healthy food habits after transition to old age retirement. European Journal of Public Health, 2012, 22, 582-586.	0.3	31
54	Insomnia symptoms and short sleep duration predict trajectory of mental health symptoms. Sleep Medicine, 2019, 54, 53-61.	1.6	31

#	Article	IF	Citations
55	Changes in working conditions and subsequent sickness absence. Scandinavian Journal of Work, Environment and Health, 2014, 40, 82-88.	3.4	30
56	Long working hours and change in body weight: analysis of individual-participant data from 19 cohort studies. International Journal of Obesity, 2020, 44, 1368-1375.	3.4	29
57	Economic difficulties and physical functioning in Finnish and British employees: contribution of social and behavioural factors. European Journal of Public Health, 2011, 21, 456-462.	0.3	28
58	Working Conditions and Major Weight Gainâ€"A Prospective Cohort Study. Archives of Environmental and Occupational Health, 2013, 68, 166-172.	1.4	28
59	Different measures of body weight as predictors of sickness absence. Scandinavian Journal of Public Health, 2013, 41, 25-31.	2.3	28
60	Cognitive stimulation in the workplace, plasma proteins, and risk of dementia: three analyses of population cohort studies. BMJ, The, 2021, 374, n1804.	6.0	28
61	The joint association of sleep duration and insomnia symptoms with disability retirement â€“ a longitudinal, register-linked study. Scandinavian Journal of Work, Environment and Health, 2012, 38, 427-435.	3.4	28
62	Childhood and adult socioâ€eeconomic position and social mobility as determinants of low back pain outcomes. European Journal of Pain, 2014, 18, 128-138.	2.8	27
63	Childhood adversity, adult socioeconomic status and risk of work disability: a prospective cohort study. Occupational and Environmental Medicine, 2017, 74, 659-666.	2.8	27
64	Co-occurrence of depressive, anxiety, and somatic symptoms: trajectories from adolescence to midlife using group-based joint trajectory analysis. BMC Psychiatry, 2019, 19, 236.	2.6	27
65	Joint associations of smoking and physical activity with disability retirement: a register-linked cohort study. BMJ Open, 2015, 5, e006988.	1.9	26
66	The Economic Burden of Insomnia at the Workplace. An Opportunity and Time for Intervention?. Sleep, 2011, 34, 1151-1152.	1.1	25
67	Working conditions and psychotropic medication: a prospective cohort study. Social Psychiatry and Psychiatric Epidemiology, 2012, 47, 663-670.	3.1	24
68	Early work-related physical exposures and low back pain in midlife: the Cardiovascular Risk in Young Finns Study. Occupational and Environmental Medicine, 2017, 74, 163-168.	2.8	24
69	Associations of relative weight with subsequent changes over time in insomnia symptoms: A follow-up study among middle-aged women and men. Sleep Medicine, 2012, 13, 1271-1279.	1.6	23
70	Insomnia symptoms and subsequent cardiovascular medication: a registerâ€linked followâ€up study among middleâ€aged employees. Journal of Sleep Research, 2014, 23, 283-291.	3.2	23
71	Changes Over Time in Absolute and Relative Socioeconomic Differences in Smoking: A Comparison of Cohort Studies From Britain, Finland, and Japan. Nicotine and Tobacco Research, 2016, 18, 1697-1704.	2.6	23
72	The joint contribution of cardiovascular disease and socioeconomic status to disability retirement: A register linkage study. International Journal of Cardiology, 2017, 230, 222-227.	1.7	22

#	Article	IF	Citations
73	Conflicts Between Work and Family Life and Subsequent Sleep Problems Among Employees from Finland, Britain, and Japan. International Journal of Behavioral Medicine, 2014, 21, 310-318.	1.7	21
74	Predictors of Depression and Musculoskeletal Disorder Related Work Disability Among Young, Middle-Aged, and Aging Employees. Journal of Occupational and Environmental Medicine, 2017, 59, 114-119.	1.7	21
75	Trends in Diagnosisâ€Specific Work Disability Before and After Stroke: A Longitudinal Populationâ€Based Study in Sweden. Journal of the American Heart Association, 2018, 7, .	3.7	21
76	The joint contribution of pain and insomnia to sickness absence and disability retirement: A registerâ€"linkage study among <scp>N</scp>orwegian and <scp>F</scp>innish employees. European Journal of Pain, 2014, 18, 883-892.	2.8	20
77	Risk and Prognostic Factors of Low Back Pain. Spine, 2019, 44, 1248-1255.	2.0	20
78	Multiple socioeconomic determinants of weight gain: the Helsinki Health Study. BMC Public Health, 2013, 13, 259.	2.9	19
79	Weight change and sickness absence--a prospective study among middle-aged employees. European Journal of Public Health, 2015, 25, 263-267.	0.3	19
80	Changes in working conditions and physical health functioning among midlife and ageing employees. Scandinavian Journal of Work, Environment and Health, 2015, 41, 511-518.	3.4	19
81	Changes in socio-economic differences in food habits over time. Public Health Nutrition, 2011, 14, 1919-1926.	2.2	18
82	Workplace bullying and subsequent psychotropic medication: a cohort study with register linkages. BMJ Open, 2012, 2, e001660.	1.9	18
83	Work disability before and after a major cardiovascular event: a ten-year study using nationwide medical and insurance registers. Scientific Reports, 2017, 7, 1142.	3.3	18
84	Common Mental Disorders and Sickness Absence. Journal of Occupational and Environmental Medicine, 2018, 60, 569-575.	1.7	17
85	Changes in physical and mental health functioning during retirement transition: a register-linkage follow-up study. European Journal of Public Health, 2018, 28, 805-809.	0.3	16
86	Physical working conditions and subsequent disability retirement due to any cause, mental disorders and musculoskeletal diseases: does the risk vary by common mental disorders?. Social Psychiatry and Psychiatric Epidemiology, 2020, 55, 1021-1029.	3.1	16
87	Changes in fruit, vegetable and fish consumption after statutory retirement: a prospective cohort study. British Journal of Nutrition, 2020, 123, 1390-1395.	2.3	16
88	Associations Between Working Conditions and Angina Pectoris Symptoms Among Employed Women. Psychosomatic Medicine, 2006, 68, 348-354.	2.0	15
89	Leisure time physical activity and subsequent physical and mental health functioning among midlife Finnish, British and Japanese employees: a follow-up study in three occupational cohorts. BMJ Open, 2016, 6, e009788.	1.9	15
90	Body mass index and the risk of disability retirement: a systematic review and meta-analysis. Occupational and Environmental Medicine, 2020, 77, 48-55.	2.8	15

#	Article	IF	Citations
91	Trends of Diagnosis-Specific Work Disability After Newly Diagnosed Diabetes: A 4-Year Nationwide Prospective Cohort Study. Diabetes Care, 2015, 38, 1883-1890.	8.6	14
92	Changes in psychosocial and physical working conditions and common mental disorders. European Journal of Public Health, 2016, 26, 458-463.	0.3	14
93	Recurrent back pain during working life and exit from paid employment: a 28-year follow-up of the Whitehall II Study. Occupational and Environmental Medicine, 2018, 75, 786-791.	2.8	14
94	Alcohol use and sickness absence due to all causes and mental- or musculoskeletal disorders: a nationally representative study. BMC Public Health, 2018, 18, 152.	2.9	14
95	Obesity, change of body mass index and subsequent physical and mental health functioning: a 12-year follow-up study among ageing employees. BMC Public Health, 2017, 17, 744.	2.9	13
96	Work participation trajectories among 1,098,748 Finns: reasons for premature labour market exit and the incidence of sickness absence due to mental disorders and musculoskeletal diseases. BMC Public Health, 2019, 19, 1418.	2.9	13
97	Common mental disorders and trajectories of work disability among midlife public sector employees â€“ A 10-year follow-up study. Journal of Affective Disorders, 2019, 247, 66-72.	4.1	13
98	Social class inequalities in health among occupational cohorts from Finland, Britain and Japan: A follow up study. Health and Place, 2015, 31, 173-179.	3.3	12
99	Change in organizational justice as a predictor of insomnia symptoms: longitudinal study analysing observational data as a non-randomized pseudo-trial. International Journal of Epidemiology, 2017, 46, dyw293.	1.9	12
100	Changes in psychosocial and physical working conditions and psychotropic medication in ageing public sector employees: a record-linkage follow-up study. BMJ Open, 2017, 7, e015573.	1.9	12
101	Occupational social class trajectories in physical functioning among employed women from midlife to retirement. BMC Public Health, 2019, 19, 1525.	2.9	12
102	Ageing shift workersâ€™ sleep and workingâ€hour characteristics after implementing ergonomic shiftâ€scheduling rules. Journal of Sleep Research, 2021, 30, e13227.	3.2	12
103	Pre-retirement physical working conditions and changes in physical health functioning during retirement transition process. Scandinavian Journal of Work, Environment and Health, 2016, 42, 405-412.	3.4	12
104	Acceptability of Computerized Cognitive Behavioral Therapy for Adults: Umbrella Review. JMIR Mental Health, 2021, 8, e23091.	3.3	12
105	Magnesium supplementation for the treatment of restless legs syndrome and periodic limb movement disorder: A systematic review. Sleep Medicine Reviews, 2019, 48, 101218.	8.5	11
106	Determinants of long-term unemployment in early adulthood: A Finnish birth cohort study. SSM - Population Health, 2019, 8, 100410.	2.7	11
107	The joint contribution of physical activity, insomnia symptoms, and smoking to the cost of shortâ€term sickness absence. Scandinavian Journal of Medicine and Science in Sports, 2019, 29, 440-449.	2.9	11
108	Recurrent pain and work disability: a record linkage study. International Archives of Occupational and Environmental Health, 2020, 93, 421-432.	2.3	11

#	Article	IF	Citations
109	Socioeconomic Differences in Occupational Health Service Utilization and Sickness Absence Due to Mental Disorders: A Register-Based Retrospective Cohort Study. International Journal of Environmental Research and Public Health, 2020, 17, 2064.	2.6	11
