#	ARTICLE	IF	CITATIONS
1	Self-management intervention to reduce pulmonary exacerbations by supporting treatment adherence in adults with cystic fibrosis: a randomised controlled trial. <i>Thorax</i> , 2022, 77, 461-469.	5.6	27
2	Socioeconomic Deprivation and Dropout from Contemporary Psychological Intervention for Common Mental Disorders: A Systematic Review. <i>Administration and Policy in Mental Health and Mental Health Services Research</i> , 2022, 49, 490-505.	2.1	3
3	Tendency to call an ambulance or attend an emergency department for minor or non-urgent problems: a vignette-based population survey in Britain. <i>Emergency Medicine Journal</i> , 2022, 39, 436-442.	1.0	4
4	Objective Nebuliser Adherence Data as "Proof" of Adherence in the Management of Cystic Fibrosis: A Qualitative Interview Study. <i>Patient Preference and Adherence</i> , 2022, Volume 16, 771-780.	1.8	4
5	The use of co-production, co-design and co-creation to mobilise knowledge in the management of health conditions: a systematic review. <i>BMC Health Services Research</i> , 2022, 22, .	2.2	44
6	Understanding young adults' reasons for seeking "clinically unnecessary" urgent and emergency care: A qualitative interview study. <i>Health Expectations</i> , 2021, 24, 1535-1544.	2.6	5
7	Adapting interventions to new contexts"the ADAPT guidance. <i>BMJ</i> , The, 2021, 374, n1679.	6.0	130
8	An intervention to support adherence to inhaled medication in adults with cystic fibrosis: the ACTiF research programme including RCT. <i>Programme Grants for Applied Research</i> , 2021, 9, 1-146.	1.0	6
9	"Clinically unnecessary" use of emergency and urgent care: A realist review of patients' decision making. <i>Health Expectations</i> , 2020, 23, 19-40.	2.6	49
10	The Mixed Methods Research Workbook: Activities for Designing, Implementing, and Publishing Projects. <i>Journal of Mixed Methods Research</i> , 2020, 14, 548-549.	2.6	4
11	Guidance for reporting intervention development studies in health research (GUIDED): an evidence-based consensus study. <i>BMJ Open</i> , 2020, 10, e033516.	1.9	171
12	Mechanisms of Action of a Web-Based Intervention With Health Professional Support to Increase Adherence to Nebulizer Treatments in Adults With Cystic Fibrosis: Qualitative Interview Study. <i>Journal of Medical Internet Research</i> , 2020, 22, e16782.	4.3	16
13	Drivers of "clinically unnecessary" use of emergency and urgent care: the DEUCE mixed-methods study. <i>Health Services and Delivery Research</i> , 2020, 8, 1-256.	1.4	9
14	Evaluating alcohol intoxication management services: the EDARA mixed-methods study. <i>Health Services and Delivery Research</i> , 2020, 8, 1-214.	1.4	4
15	Tendency to contact general practice instead of self-care: a population vignette study. <i>BJGP Open</i> , 2020, 4, bjgpopen20X101024.	1.8	4
16	How do third sector organisations or charities providing health and well-being services in England implement patient-reported outcome measures (PROMs)? A qualitative interview study. <i>BMJ Open</i> , 2020, 10, e039116.	1.9	0
17	Feasibility study for supporting medication adherence for adults with cystic fibrosis: mixed-methods process evaluation. <i>BMJ Open</i> , 2020, 10, e039089.	1.9	0
18	Feasibility study for supporting medication adherence for adults with cystic fibrosis: mixed-methods process evaluation. <i>BMJ Open</i> , 2020, 10, e039089.	1.9	8

#	ARTICLE	IF	CITATIONS
19	How do third sector organisations or charities providing health and well-being services in England implement patient-reported outcome measures (PROMs)? A qualitative interview study. <i>BMJ Open</i> , 2020, 10, e039116.	1.9	3
20	When Is Forgetting Not Forgetting? A Discursive Analysis of Differences in Forgetting Talk Between Adults With Cystic Fibrosis With Different Levels of Adherence to Nebulizer Treatments. <i>Qualitative Health Research</i> , 2019, 29, 2119-2131.	2.1	16
21	Socioeconomic disparities in access to intensive insulin regimens for adults with type 1 diabetes: a qualitative study of patient and healthcare professional perspectives. <i>International Journal for Equity in Health</i> , 2019, 18, 150.	3.5	15
22	Attending to design when developing complex health interventions: A qualitative interview study with intervention developers and associated stakeholders. <i>PLoS ONE</i> , 2019, 14, e0223615.	2.5	28
23	Improving the content validity of the mixed methods appraisal tool: a modified e-Delphi study. <i>Journal of Clinical Epidemiology</i> , 2019, 111, 49-59.e1.	5.0	441
24	Supporting medication adherence for adults with cystic fibrosis: a randomised feasibility study. <i>BMC Pulmonary Medicine</i> , 2019, 19, 77.	2.0	27
25	Adherence to medication in adults with Cystic Fibrosis: An investigation using objective adherence data and the Theoretical Domains Framework. <i>British Journal of Health Psychology</i> , 2019, 24, 357-380.	3.5	34
26	Taxonomy of approaches to developing interventions to improve health: a systematic methods overview. <i>Pilot and Feasibility Studies</i> , 2019, 5, 41.	1.2	266
27	When and how do "effective" interventions need to be adapted and/or re-evaluated in new contexts? The need for guidance. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 481-482.	3.7	59
28	Understanding successful development of complex health and healthcare interventions and its drivers from the perspective of developers and wider stakeholders: an international qualitative interview study. <i>BMJ Open</i> , 2019, 9, e028756.	1.9	41
29	Guidance on how to develop complex interventions to improve health and healthcare. <i>BMJ Open</i> , 2019, 9, e029954.	1.9	690
30	Integrating quantitative and qualitative data and findings when undertaking randomised controlled trials. <i>BMJ Open</i> , 2019, 9, e032081.	1.9	42
31	Developing interventions to improve health: a systematic mapping review of international practice between 2015 and 2016. <i>Pilot and Feasibility Studies</i> , 2019, 5, 127.	1.2	23
32	Not Managing Expectations: A Grounded Theory of Intimate Partner Violence From the Perspective of Pakistani People. <i>Journal of Interpersonal Violence</i> , 2019, 34, 4085-4113.	2.0	13
33	Developing new ways of measuring the quality and impact of ambulance service care: the PhOEBE mixed-methods research programme. <i>Programme Grants for Applied Research</i> , 2019, 7, 1-90.	1.0	10
34	Exploring variation in how ambulance services address non-conveyance: a qualitative interview study. <i>BMJ Open</i> , 2018, 8, e024228.	1.9	22
35	The facilitators and barriers to implementing patient reported outcome measures in organisations delivering health related services: a systematic review of reviews. <i>Journal of Patient-Reported Outcomes</i> , 2018, 2, 46.	1.9	194
36	The Mixed Methods Appraisal Tool (MMAT) version 2018 for information professionals and researchers. <i>Education for Information</i> , 2018, 34, 285-291.	0.5	1,312

#	ARTICLE	IF	CITATIONS
37	Why do ambulance services have different non-transport rates? A national cross sectional study. PLoS ONE, 2018, 13, e0204508.	2.5	21
38	A Practical Guide to Using Qualitative Research with Randomized Controlled Trials. , 2018, , .		62
39	How to incorporate patient and public perspectives into the design and conduct of research. F1000Research, 2018, 7, 752.	1.6	100
40	Understanding variation in ambulance service non-conveyance rates: a mixed methods study. Health Services and Delivery Research, 2018, 6, 1-192.	1.4	39
41	Socioeconomic inequalities in mortality, morbidity and diabetes management for adults with type 1 diabetes: A systematic review. PLoS ONE, 2017, 12, e0177210.	2.5	83
42	An evidence-based approach to the use of telehealth in long-term health conditions: development of an intervention and evaluation through pragmatic randomised controlled trials in patients with depression or raised cardiovascular risk. Programme Grants for Applied Research, 2017, 5, 1-468.	1.0	4
43	Effectiveness of an integrated telehealth service for patients with depression: a pragmatic randomised controlled trial of a complex intervention. Lancet Psychiatry, the, 2016, 3, 515-525.	7.4	73
44	Telehealth for patients at high risk of cardiovascular disease: pragmatic randomised controlled trial. BMJ, The, 2016, 353, i2647.	6.0	50
45	Variation in avoidable emergency admissions: multiple case studies of emergency and urgent care systems. Journal of Health Services Research and Policy, 2016, 21, 5-14.	1.7	15
46	Being Human: A Qualitative Interview Study Exploring Why a Telehealth Intervention for Management of Chronic Conditions Had a Modest Effect. Journal of Medical Internet Research, 2016, 18, e163.	4.3	24
47	Reassurance as a key outcome valued by emergency ambulance service users: a qualitative interview study. Health Expectations, 2015, 18, 2951-2961.	2.6	40
48	Assessing the implementability of telehealth interventions for self-management support: a realist review. Implementation Science, 2015, 10, 59.	6.9	101
49	Who does not participate in telehealth trials and why? A cross-sectional survey. Trials, 2015, 16, 258.	1.6	44
50	Process evaluation of complex interventions: Medical Research Council guidance. BMJ, The, 2015, 350, h1258-h1258.	6.0	3,602
51	TElehealth in CHronic disease: mixed-methods study to develop the TECH conceptual model for intervention design and evaluation. BMJ Open, 2015, 5, e006448-e006448.	1.9	66
52	Maximising the impact of qualitative research in feasibility studies for randomised controlled trials: guidance for researchers. Pilot and Feasibility Studies, 2015, 1, 32.	1.2	240
53	Factors influencing unspecified chest pain admission rates in England. Emergency Medicine Journal, 2015, 32, 439-443.	1.0	8
54	Intimate Partner Violence in Pakistan. Trauma, Violence, and Abuse, 2015, 16, 299-315.	6.2	52

#	ARTICLE	IF	CITATIONS
55	Process evaluation in complex public health intervention studies: the need for guidance. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 101-102.	3.7	228
56	A system-wide approach to explaining variation in potentially avoidable emergency admissions: national ecological study. <i>BMJ Quality and Safety</i> , 2014, 23, 47-55.	3.7	62
57	Acceptability of NHS 111 the telephone service for urgent health care: cross sectional postal survey of users' views. <i>Family Practice</i> , 2014, 31, 193-200.	1.9	23
58	Awareness and use of a new urgent care telephone service, NHS 111: cross-sectional population survey. <i>Journal of Health Services Research and Policy</i> , 2014, 19, 224-230.	1.7	19
59	Describing qualitative research undertaken with randomised controlled trials in grant proposals: a documentary analysis. <i>BMC Medical Research Methodology</i> , 2014, 14, 24.	3.1	38
60	Effectiveness and cost-effectiveness of a telehealth intervention to support the management of long-term conditions: study protocol for two linked randomized controlled trials. <i>Trials</i> , 2014, 15, 36.	1.6	33
61	Conducting qualitative research within Clinical Trials Units: Avoiding potential pitfalls. <i>Contemporary Clinical Trials</i> , 2014, 38, 338-343.	1.8	53
62	Getting added value from using qualitative research with randomized controlled trials: a qualitative interview study. <i>Trials</i> , 2014, 15, 215.	1.6	85
63	Are People With Chronic Diseases Interested in Using Telehealth? A Cross-Sectional Postal Survey. <i>Journal of Medical Internet Research</i> , 2014, 16, e123.	4.3	103
64	Maximising the value of combining qualitative research and randomised controlled trials in health research: the QUAlitative Research in Trials (QUART) study – a mixed methods study. <i>Health Technology Assessment</i> , 2014, 18, 1-197, v-vi.	2.8	106
65	Mixed Methods in Biomedical and Health Services Research. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2013, 6, 119-123.	2.2	144
66	The appropriateness of, and compliance with, telephone triage decisions: a systematic review and narrative synthesis. <i>Journal of Advanced Nursing</i> , 2012, 68, 2610-2621.	3.3	77
67	Patients' experiences and views of an emergency and urgent care system. <i>Health Expectations</i> , 2012, 15, 78-86.	2.6	27
68	Integrating community pharmacy with NHS Direct: evaluation of a pilot scheme. <i>International Journal of Pharmacy Practice</i> , 2011, 9, 33-33.	0.6	0
69	Computerised cognitive behavioural therapy for the treatment of depression in people with multiple sclerosis: external pilot trial. <i>Trials</i> , 2011, 12, 259.	1.6	42
70	Measuring patients' experiences and views of the emergency and urgent care system: psychometric testing of the urgent care system questionnaire. <i>BMJ Quality and Safety</i> , 2011, 20, 134-140.	3.7	13
71	Three techniques for integrating data in mixed methods studies. <i>BMJ: British Medical Journal</i> , 2010, 341, c4587-c4587.	2.3	865
72	Testing survey methodology to measure patients' experiences and views of the emergency and urgent care system: telephone versus postal survey. <i>BMC Medical Research Methodology</i> , 2010, 10, 52.	3.1	26

#	ARTICLE	IF	CITATIONS
73	Is primary angioplasty an acceptable alternative to thrombolysis? Quantitative and qualitative study of patient and carer satisfaction. <i>Health Expectations</i> , 2010, 13, 350-358.	2.6	10
74	The acceptability of computerised cognitive behavioural therapy for the treatment of depression in people with chronic physical disease: A qualitative study of people with multiple sclerosis. <i>Psychology and Health</i> , 2010, 25, 699-712.	2.2	82
75	Rethinking pragmatic randomised controlled trials: introducing the "cohort multiple randomised controlled trial" design. <i>BMJ: British Medical Journal</i> , 2010, 340, c1066-c1066.	2.3	391
76	Do walk-in centres for commuters work? A mixed methods evaluation. <i>British Journal of General Practice</i> , 2009, 59, e383-e389.	1.4	9
77	Feeling Fixed and its Contribution to Patient Satisfaction with Primary Angioplasty: A Qualitative Study. <i>European Journal of Cardiovascular Nursing</i> , 2009, 8, 85-90.	0.9	27
78	Editorial: Mixed Methods Research in the Health Sciences: A Quiet Revolution. <i>Journal of Mixed Methods Research</i> , 2009, 3, 3-6.	2.6	76
79	Structural issues affecting mixed methods studies in health research: a qualitative study. <i>BMC Medical Research Methodology</i> , 2009, 9, 82.	3.1	32
80	The Quality of Mixed Methods Studies in Health Services Research. <i>Journal of Health Services Research and Policy</i> , 2008, 13, 92-98.	1.7	749
81	Characteristics of the Emergency and Urgent Care System Important to Patients: A Qualitative Study. <i>Journal of Health Services Research and Policy</i> , 2008, 13, 19-25.	1.7	50
82	Multidisciplinary, Interdisciplinary, or Dysfunctional? Team Working in Mixed-Methods Research. <i>Qualitative Health Research</i> , 2008, 18, 1574-1585.	2.1	86
83	Impact of same-day appointments on patient satisfaction with general practice appointment systems. <i>British Journal of General Practice</i> , 2008, 58, 641-643.	1.4	22
84	Integration and Publications as Indicators of "Yield" From Mixed Methods Studies. <i>Journal of Mixed Methods Research</i> , 2007, 1, 147-163.	2.6	154
85	The effect of attitude to risk on decisions made by nurses using computerised decision support software in telephone clinical assessment: an observational study. <i>BMC Medical Informatics and Decision Making</i> , 2007, 7, 39.	3.0	7
86	Exploring the effect of changes to service provision on the use of unscheduled care in England: population surveys. <i>BMC Health Services Research</i> , 2007, 7, 61.	2.2	32
87	Why, and how, mixed methods research is undertaken in health services research in England: a mixed methods study. <i>BMC Health Services Research</i> , 2007, 7, 85.	2.2	227
88	Equity of access to health care. Evidence from NHS Direct in the UK. <i>Journal of Telemedicine and Telecare</i> , 2006, 12, 262-265.	2.7	38
89	Advanced access: more than just GP waiting times?. <i>Family Practice</i> , 2006, 23, 233-239.	1.9	25
90	Does NHS Direct empower patients?. <i>Social Science and Medicine</i> , 2005, 61, 1761-1771.	3.8	53

#	ARTICLE	IF	CITATIONS
91	Do different types of nurses give different triage decisions in NHS Direct? A mixed methods study. Journal of Health Services Research and Policy, 2004, 9, 226-233.	1.7	41
92	Evaluating decision aids - where next?. Health Expectations, 2004, 7, 98-103.	2.6	22
93	"Any other comments?" Open questions on questionnaires â€“ a bane or a bonus to research?. BMC Medical Research Methodology, 2004, 4, 25.	3.1	386
94	Nurses' views of using computerized decision support software in NHS Direct. Journal of Advanced Nursing, 2004, 45, 280-286.	3.3	53
95	Evaluation of advanced access in the national primary care collaborative. British Journal of General Practice, 2004, 54, 334-40.	1.4	45
96	The continuum of patient satisfactionâ€”from satisfied to very satisfied. Social Science and Medicine, 2003, 57, 2465-2470.	3.8	111
97	Women's perceptions of informed choice in maternity care. Midwifery, 2002, 18, 136-144.	2.3	64
98	Impact of NHS Direct on demand for immediate care: observational study. BMJ: British Medical Journal, 2000, 321, 150-153.	2.3	160
99	Combining Qualitative and Quantitative Methods. , 0, , 102-111.		42
