#	ARTICLE	IF	CITATIONS
1	Nurse staffing and education and hospital mortality in nine European countries: a retrospective observational study. <i>Lancet</i> , The, 2014, 383, 1824-1830.	6.3	1,497
2	Patient safety, satisfaction, and quality of hospital care: cross sectional surveys of nurses and patients in 12 countries in Europe and the United States. <i>BMJ: British Medical Journal</i> , 2012, 344, e1717-e1717.	2.4	1,321
3	The communication goals and needs of cancer patients: a review. <i>Psycho-Oncology</i> , 2005, 14, 831-845.	1.0	347
4	Post-operative mortality, missed care and nurse staffing in nine countries: A cross-sectional study. <i>International Journal of Nursing Studies</i> , 2018, 78, 10-15.	2.5	326
5	Nurses' Shift Length and Overtime Working in 12 European Countries. <i>Medical Care</i> , 2014, 52, 975-981.	1.1	225
6	Is there a cost to poor communication in cancer care?: a critical review of the literature. <i>Psycho-Oncology</i> , 2005, 14, 875-884.	1.0	210
7	Differences in cancer awareness and beliefs between Australia, Canada, Denmark, Norway, Sweden and the UK (the International Cancer Benchmarking Partnership): do they contribute to differences in cancer survival?. <i>British Journal of Cancer</i> , 2013, 108, 292-300.	2.9	183
8	Self-reported taste and smell changes during cancer chemotherapy. <i>Supportive Care in Cancer</i> , 2008, 16, 275-283.	1.0	158
9	A conceptual framework for patient-professional communication: an application to the cancer context. <i>Psycho-Oncology</i> , 2005, 14, 801-809.	1.0	147
10	Chemosensory Changes Experienced by Patients Undergoing Cancer Chemotherapy: A Qualitative Interview Study. <i>Journal of Pain and Symptom Management</i> , 2007, 34, 403-412.	0.6	132
11	A cross-sectional study of "care left undone" on nursing shifts in hospitals. <i>Journal of Advanced Nursing</i> , 2016, 72, 2086-2097.	1.5	121
12	Advanced home care for cancer patients at the end of life: a qualitative study of hopes and expectations of family caregivers. <i>Scandinavian Journal of Caring Sciences</i> , 2002, 16, 240-247.	1.0	114
13	Symptom Prevalence, Intensity, and Distress in Patients With Inoperable Lung Cancer in Relation to Time of Death. <i>Journal of Clinical Oncology</i> , 2007, 25, 5381-5389.	0.8	112
14	Comorbidity, Treatment and Mortality: A Population Based Cohort Study of Prostate Cancer in PCBaSe Sweden. <i>Journal of Urology</i> , 2011, 185, 833-840.	0.2	104
15	Home parenteral nutrition: A qualitative interview study of the experiences of advanced cancer patients and their families. <i>Clinical Nutrition</i> , 2005, 24, 961-970.	2.3	94
16	Symptoms in patients with lung carcinoma. <i>Cancer</i> , 2005, 104, 2013-2021.	2.0	93
17	An international measure of awareness and beliefs about cancer: development and testing of the ABC. <i>BMJ Open</i> , 2012, 2, e001758.	0.8	90
18	The path from oral nutrition to home parenteral nutrition: a qualitative interview study of the experiences of advanced cancer patients and their families. <i>Clinical Nutrition</i> , 2004, 23, 1280-1287.	2.3	87

#	ARTICLE	IF	CITATIONS
19	Social inequalities in non-small cell lung cancer management and survival: a population-based study in central Sweden. <i>Thorax</i> , 2010, 65, 327-333.	2.7	87
20	Nurses' practice environment and satisfaction with schedule flexibility is related to intention to leave due to dissatisfaction: A multi-country, multilevel study. <i>International Journal of Nursing Studies</i> , 2016, 58, 47-58.	2.5	78
21	Are the Most Distressing Concerns of Patients With Inoperable Lung Cancer Adequately Assessed? A Mixed-Methods Analysis. <i>Journal of Clinical Oncology</i> , 2010, 28, 1942-1949.	0.8	77
22	Innovations and Dilemmas in Psychosocial Oncology: Contributions from the 10th Conference of the European Society for Psychosocial Oncology. <i>Acta Oncologica</i> , 1999, 38, 685-687.	0.8	72
23	Self-reported symptom distress in cancer patients: Reflections of disease, illness or sickness?. <i>Social Science and Medicine</i> , 1991, 33, 1229-1240.	1.8	71
24	Four Essential Drugs Needed for Quality Care of the Dying: A Delphi-Study Based International Expert Consensus Opinion. <i>Journal of Palliative Medicine</i> , 2013, 16, 38-43.	0.6	70
25	Nurses' Practice Environment and Work-Family Conflict in Relation to Burn Out: A Multilevel Modelling Approach. <i>PLoS ONE</i> , 2014, 9, e96991.	1.1	70
26	Staffing and resource adequacy strongly related to RNs' assessment of patient safety: a national study of RNs working in acute-care hospitals in Sweden. <i>BMJ Quality and Safety</i> , 2014, 23, 242-249.	1.8	63
27	Measuring Symptom Distress in Patients With Lung Cancer. <i>Cancer Nursing</i> , 2000, 23, 82-90.	0.7	61
28	Increasing Stringency in Symptom Cluster Research: A Methodological Exploration of Symptom Clusters in Patients With Inoperable Lung Cancer. <i>Oncology Nursing Forum</i> , 2009, 36, E282-E292.	0.5	60
29	What do we know about facilitating patient communication in the cancer care setting?. <i>Psycho-Oncology</i> , 2005, 14, 848-858.	1.0	56
30	Gender and rural-urban differences in reported health status by older people in Bangladesh. <i>Archives of Gerontology and Geriatrics</i> , 2003, 37, 77-91.	1.4	55
31	Taste and Smell Changes in Patients Receiving Cancer Chemotherapy. <i>Cancer Nursing</i> , 2009, 32, 45-54.	0.7	53
32	Public awareness of palliative care in Sweden. <i>Scandinavian Journal of Public Health</i> , 2018, 46, 478-487.	1.2	53
33	Differences according to socioeconomic status in the management and mortality in men with high risk prostate cancer. <i>European Journal of Cancer</i> , 2012, 48, 75-84.	1.3	52
34	Characteristics of taste and smell alterations reported by patients after starting treatment for lung cancer. <i>Supportive Care in Cancer</i> , 2014, 22, 2635-2644.	1.0	52
35	Complexity in Non-Pharmacological Caregiving Activities at the End of Life: An International Qualitative Study. <i>PLoS Medicine</i> , 2012, 9, e1001173.	3.9	51
36	Agile, a guiding principle for health care improvement?. <i>International Journal of Health Care Quality Assurance</i> , 2015, 28, 468-493.	0.2	50

#	ARTICLE	IF	CITATIONS
37	Factors related to participation in a cervical cancer screening programme in urban Sweden. <i>European Journal of Cancer Prevention</i> , 2005, 14, 459-466.	0.6	49
38	Experiences of engagement in creative activity at a palliative care facility. <i>Palliative and Supportive Care</i> , 2007, 5, 241-250.	0.6	48
39	Women's experiences of cervical cellular changes: an unintentional transition from health to liminality?. <i>Sociology of Health and Illness</i> , 2004, 26, 306-325.	1.1	47
40	Discrepancies and Similarities in How Patients with Lung Cancer and Their Professional and Family Caregivers Assess Symptom Occurrence and Symptom Distress. <i>Journal of Pain and Symptom Management</i> , 2005, 29, 572-583.	0.6	47
41	Developing communication competency in the context of cancer: a critical interpretive analysis of provider training programs. <i>Psycho-Oncology</i> , 2005, 14, 861-872.	1.0	46
42	How do women who choose not to participate in population-based cervical cancer screening reason about their decision?. <i>Psycho-Oncology</i> , 2008, 17, 561-569.	1.0	46
43	A study of Swedish midwives' encounters with infibulated African women in Sweden. <i>Midwifery</i> , 2002, 18, 113-125.	1.0	45
44	Factors Influencing Agreement in Symptom Ratings By Lung Cancer Patients and Their Significant Others. <i>Journal of Pain and Symptom Management</i> , 2007, 33, 146-155.	0.6	44
45	Symptoms and problems with functioning among women and men with inoperable lung cancer—a longitudinal study. <i>Lung Cancer</i> , 2008, 60, 113-124.	0.9	44
46	'I got a letter?' A qualitative study of women's reasoning about attendance in a cervical cancer screening programme in urban Sweden. <i>Psycho-Oncology</i> , 2001, 10, 76-87.	1.0	43
47	Structural characteristics of hospitals and nurse-reported care quality, work environment, burnout and leaving intentions. <i>Journal of Nursing Management</i> , 2015, 23, 263-274.	1.4	42
48	Complexity in caring for patients with advanced cancer. <i>Journal of Advanced Nursing</i> , 2004, 45, 420-429.	1.5	41
49	Considerations in Developing and Delivering a Nonpharmacological Intervention for Symptom Management in Lung Cancer: The Views of Patients and Informal Caregivers. <i>Journal of Pain and Symptom Management</i> , 2012, 44, 831-842.	0.6	41
50	Framing the onset of lung cancer biographically: narratives of continuity and disruption. <i>Psycho-Oncology</i> , 2007, 16, 466-473.	1.0	40
51	Patient-professional communication research in cancer: an integrative review of research methods in the context of a conceptual framework. <i>Psycho-Oncology</i> , 2005, 14, 812-828.	1.0	39
52	How do interventions designed to improve provider-patient communication work? Illustrative applications of a framework for communication. <i>Acta Oncologica</i> , 2010, 49, 136-143.	0.8	39
53	Intention to leave the workplace among nurses working with cancer patients in acute care hospitals in Sweden. <i>European Journal of Oncology Nursing</i> , 2015, 19, 629-637.	0.9	39
54	Nutritional support and risk status among cancer patients in palliative home care services. <i>Supportive Care in Cancer</i> , 2009, 17, 153-161.	1.0	37

#	ARTICLE	IF	CITATIONS
55	Smoking Cessation for Patients With Head and Neck Cancer. <i>Cancer Nursing</i> , 2005, 28, 226-235.	0.7	35
56	Time spans from first symptom to treatment in patients with lung cancer – The influence of symptoms and demographic characteristics. <i>Acta Oncologica</i> , 2008, 47, 397-405.	0.8	34
57	Obstetric care at the intersection of science and culture: Swedish doctors' perspectives on obstetric care of women who have undergone female genital cutting. <i>Journal of Obstetrics and Gynaecology</i> , 2010, 30, 553-558.	0.4	34
58	Self-reported taste and smell alterations in patients under investigation for lung cancer. <i>Acta Oncologica</i> , 2014, 53, 1405-1412.	0.8	34
59	RN assessments of excellent quality of care and patient safety are associated with significantly lower odds of 30-day inpatient mortality: A national cross-sectional study of acute-care hospitals. <i>International Journal of Nursing Studies</i> , 2016, 61, 117-124.	2.5	34
60	Rationales for attending or not attending mammography screening – a focus group study among women in Sweden. <i>European Journal of Cancer Prevention</i> , 2001, 10, 429-442.	0.6	33
61	Clock Time and Embodied Time Experienced by Patients With Inoperable Lung Cancer. <i>Cancer Nursing</i> , 2010, 33, 55-63.	0.7	33
62	Community patterns of stigma towards persons living with HIV: A population-based latent class analysis from rural Vietnam. <i>BMC Public Health</i> , 2011, 11, 705.	1.2	33
63	Awareness of risk factors for cancer: a comparative study of Sweden and Denmark. <i>BMC Public Health</i> , 2015, 15, 1156.	1.2	33
64	Organization of nursing care in three Nordic countries: relationships between nurses' workload, level of involvement in direct patient care, job satisfaction, and intention to leave. <i>BMC Nursing</i> , 2014, 13, 27.	0.9	32
65	Hospital organizational factors influence work-family conflict in registered nurses: Multilevel modeling of a nation-wide cross-sectional survey in Sweden. <i>International Journal of Nursing Studies</i> , 2014, 51, 744-751.	2.5	31
66	The Diagnostic Process and the Boundaries of Normality. <i>Qualitative Health Research</i> , 1998, 8, 48-60.	1.0	30
67	Mapping patterns of complementary and alternative medicine use in cancer: An explorative cross-sectional study of individuals with reported positive "exceptional" experiences. <i>BMC Complementary and Alternative Medicine</i> , 2008, 8, 48.	3.7	30
68	A longitudinal study of changing characteristics of self-reported taste and smell alterations in patients treated for lung cancer. <i>European Journal of Oncology Nursing</i> , 2016, 21, 232-241.	0.9	30
69	Perception of quality of care: comparison of the views of patients with lung cancer and their family members. <i>Journal of Clinical Nursing</i> , 2012, 21, 585-594.	1.4	29
70	A National Observational Study of the Prevalence and Use of Enteral Tube Feeding, Parenteral Nutrition and Intravenous Glucose in Cancer Patients Enrolled in Specialized Palliative Care. <i>Nutrients</i> , 2013, 5, 267-282.	1.7	29
71	Cancer patients' hopes and expectations of nursing practice in Stockholm. <i>Scandinavian Journal of Caring Sciences</i> , 1994, 8, 213-222.	1.0	28
72	The experience of cough in patients diagnosed with lung cancer. <i>Supportive Care in Cancer</i> , 2011, 19, 1997-2004.	1.0	28

#	ARTICLE	IF	CITATIONS
73	Research in public health and end-of-life care – Building on the past and developing the new. <i>Progress in Palliative Care</i> , 2016, 24, 25-30.	0.7	28
