#	ARTICLE	IF	CITATIONS
1	The reactiveâ€“proactive aggression questionnaire: differential correlates of reactive and proactive aggression in adolescent boys. <i>Aggressive Behavior</i> , 2006, 32, 159-171.	2.4	1,232
2	Polyvagal Theory and developmental psychopathology: Emotion dysregulation and conduct problems from preschool to adolescence. <i>Biological Psychology</i> , 2007, 74, 174-184.	2.2	601
3	Multifinality in the development of personality disorders: A Biology Ã— Sex Ã— Environment interaction model of antisocial and borderline traits. <i>Development and Psychopathology</i> , 2009, 21, 735-770.	2.3	218
4	Ten good reasons to consider biological processes in prevention and intervention research. <i>Development and Psychopathology</i> , 2008, 20, 745-774.	2.3	198
5	Autonomic correlates of attention-deficit/hyperactivity disorder and oppositional defiant disorder in preschool children.. <i>Journal of Abnormal Psychology</i> , 2006, 115, 174-178.	1.9	188
6	Correspondence between physiological and selfâ€“report measures of emotion dysregulation: A longitudinal investigation of youth with and without psychopathology. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009, 50, 1357-1364.	5.2	183
7	The dynamics of internalizing and externalizing comorbidity across the early school years. <i>Development and Psychopathology</i> , 2016, 28, 1033-1052.	2.3	159
8	Sympathetic- and parasympathetic-linked cardiac function and prediction of externalizing behavior, emotion regulation, and prosocial behavior among preschoolers treated for ADHD.. <i>Journal of Consulting and Clinical Psychology</i> , 2013, 81, 481-493.	2.0	131
9	Familial and temperamental predictors of resilience in children at risk for conduct disorder and depression. <i>Development and Psychopathology</i> , 2007, 19, 701-727.	2.3	123
10	Neurological correlates of reward responding in adolescents with and without externalizing behavior disorders.. <i>Journal of Abnormal Psychology</i> , 2009, 118, 203-213.	1.9	119
11	Quantifying respiratory sinus arrhythmia: Effects of misspecifying breathing frequencies across development. <i>Development and Psychopathology</i> , 2018, 30, 351-366.	2.3	116
12	The canary in the coalmine: The sensitivity of mesolimbic dopamine to environmental adversity during development. <i>Neuroscience and Biobehavioral Reviews</i> , 2011, 35, 794-803.	6.1	103
13	Instantiating the multiple levels of analysis perspective in a program of study on externalizing behavior. <i>Development and Psychopathology</i> , 2012, 24, 1003-1018.	2.3	101
14	Direct and Passive Prenatal Nicotine Exposure and the Development of Externalizing Psychopathology. <i>Child Psychiatry and Human Development</i> , 2007, 38, 255-269.	1.9	96
15	Early adversity, RSA, and inhibitory control: Evidence of children's neurobiological sensitivity to social context. <i>Developmental Psychobiology</i> , 2014, 56, 964-978.	1.6	92
16	Associations between respiratory sinus arrhythmia reactivity and internalizing and externalizing symptoms are emotion specific. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2013, 13, 238-251.	2.0	91
17	Serious delinquent behavior, sensation seeking, and electrodermal arousal. <i>Journal of Abnormal Child Psychology</i> , 2002, 30, 477-486.	3.5	90
18	EEG asymmetry in borderline personality disorder and depression following rejection.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2014, 5, 178-185.	1.3	81

#	ARTICLE	IF	CITATIONS
19	Estimating time-varying RSA to examine psychophysiological linkage of marital dyads. <i>Psychophysiology</i> , 2015, 52, 1059-1065.	2.4	79
20	Diversity and representation: Key issues for psychophysiological science. <i>Psychophysiology</i> , 2016, 53, 3-13.	2.4	66
21	Mapping cardiac physiology and parenting processes in maltreating mother-child dyads.. <i>Journal of Family Psychology</i> , 2011, 25, 663-674.	1.3	58
22	Disrupted Effective Connectivity Between the Medial Frontal Cortex and the Caudate in Adolescent Boys With Externalizing Behavior Disorders. <i>Criminal Justice and Behavior</i> , 2009, 36, 1141-1157.	1.8	54
23	The role of resting frontal EEG asymmetry in psychopathology: Afferent or efferent filter?. <i>Developmental Psychobiology</i> , 2014, 56, 73-85.	1.6	50
24	Children's Parasympathetic Reactivity to Specific Emotions Moderates Response to Intervention for Early-Onset Aggression. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2015, 44, 291-304.	3.4	48
25	Implications of ongoing neural development for the measurement of the error-related negativity in childhood. <i>Developmental Science</i> , 2015, 18, 452-468.	2.4	44
26	Patterns of Psychopathology in the Families of Children with Conduct Problems, Depression, and both Psychiatric Conditions. <i>Journal of Abnormal Child Psychology</i> , 2007, 35, 301-312.	3.5	42
27	Electrodermal responding predicts responses to, and may be altered by, preschool intervention for ADHD.. <i>Journal of Consulting and Clinical Psychology</i> , 2015, 83, 293-303.	2.0	42
28	Developmental dynamics of autonomic function in childhood. <i>Psychophysiology</i> , 2018, 55, e13218.	2.4	40
29	Emotional Reactivity, Behavior Problems, and Social Adjustment at School Entry in a High-risk Sample. <i>Journal of Abnormal Child Psychology</i> , 2016, 44, 1527-1541.	3.5	39
30	Conducting Event-Related Potential (ERP) Research With Young Children. <i>Journal of Psychophysiology</i> , 2020, 34, 137-158.	0.7	37
31	Neuroanatomical Correlates of Heterotypic Comorbidity in Externalizing Male Adolescents. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2012, 41, 346-352.	3.4	32
32	How does reactivity to frustrative non-reward increase risk for externalizing symptoms?. <i>International Journal of Psychophysiology</i> , 2015, 98, 300-309.	1.0	32
33	Resting sympathetic arousal moderates the association between parasympathetic reactivity and working memory performance in adults reporting high levels of life stress. <i>Psychophysiology</i> , 2017, 54, 1195-1208.	2.4	31
34	When you go low, I go high: Negative coordination of physiological synchrony among parents and children. <i>Developmental Psychobiology</i> , 2020, 62, 310-323.	1.6	31
35	Aggression as an equifinal outcome of distinct neurocognitive and neuroaffective processes. <i>Development and Psychopathology</i> , 2012, 24, 985-1002.	2.3	30
36	Temporal Lobe Deficits in Murderers. <i>Journal of Neuropsychiatry and Clinical Neurosciences</i> , 2001, 13, 486-491.	1.8	27

#	ARTICLE	IF	CITATIONS
37	Preschool Children's Cardiac Reactivity Moderates Relations Between Exposure to Family Violence and Emotional Adjustment. <i>Child Maltreatment</i> , 2011, 16, 205-215.	3.3	25
38	Relevance of a neurophysiological marker of attention allocation for children's learning-related behaviors and academic performance.. <i>Developmental Psychology</i> , 2015, 51, 1148-1162.	1.6	24
39	Parental support of self-regulation among children at risk for externalizing symptoms: Developmental trajectories of physiological regulation and behavioral adjustment.. <i>Developmental Psychology</i> , 2020, 56, 528-540.	1.6	20
40	Magnitude and Chronicity of Environmental Smoke Exposure Across Infancy and Early Childhood in a Sample of Low-Income Children. <i>Nicotine and Tobacco Research</i> , 2019, 21, 1665-1672.	2.6	15
41	Association between environmental tobacco smoke exposure across the first four years of life and manifestation of externalizing behavior problems in school-aged children. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2020, 61, 1243-1252.	5.2	15
42	Concordance of mother-child respiratory sinus arrhythmia is continually moderated by dynamic changes in emotional content of film stimuli. <i>Biological Psychology</i> , 2021, 161, 108053.	2.2	13
43	Research and Policy on Disability. <i>Policy Insights From the Behavioral and Brain Sciences</i> , 2016, 3, 138-145.	2.4	11
44	Children's Sensitivity to Cost and Reward in Decision Making across Distinct Domains of Probability, Effort, and Delay. <i>Journal of Behavioral Decision Making</i> , 2018, 31, 12-24.	1.7	11
45	Differential Effects of Family Stress Exposure and Harsh Parental Discipline on Child Social Competence. <i>Journal of Child and Family Studies</i> , 2018, 27, 483-493.	1.3	11
46	Cortical and affective regulation of autonomic coordination. <i>Psychophysiology</i> , 2020, 57, e13544.	2.4	10
47	Proximity to sources of airborne lead is associated with reductions in Children's executive function in the first four years of life. <i>Health and Place</i> , 2021, 68, 102517.	3.3	10
48	Capturing emotion coherence in daily life: Using ambulatory physiology measures and ecological momentary assessments to examine within-person associations and individual differences. <i>Biological Psychology</i> , 2021, 162, 108074.	2.2	10
49	Neurophysiological evidence for distinct biases in emotional face processing associated with internalizing and externalizing symptoms in children. <i>Biological Psychology</i> , 2020, 150, 107829.	2.2	8
50	A dynamic systems account of parental self-regulation processes in the context of challenging child behavior. <i>Child Development</i> , 2022, 93, .	3.0	8
51	Predictors of Developmental Patterns of Obesity in Young Children. <i>Frontiers in Pediatrics</i> , 2020, 8, 109.	1.9	7
52	A registered report format for <i>Psychophysiology</i> . <i>Psychophysiology</i> , 2020, 57, .	2.4	6
53	Physiological Regulation among Caregivers and their Children: Relations with Trauma History, Symptoms, and Parenting Behavior. <i>Journal of Child and Family Studies</i> , 2019, 28, 3098-3109.	1.3	5
54	An event-based analysis of maternal physiological reactivity following aversive child behaviors. <i>Psychophysiology</i> , 2022, 59, e14093.	2.4	4

#	ARTICLE	IF	CITATIONS
55	Decision-making in uncertain contexts: The role of autonomic markers in resolving indecision. <i>International Journal of Psychophysiology</i> , 2022, 177, 220-229.	1.0	4
56	Exposure to Parental Aggression and the Development of Psychopathology in Young Children: The Mediating Role of Early Dissociative Symptoms. <i>Journal of Interpersonal Violence</i> , 2022, 37, NP6988-NP7013.	2.0	3
57	A biopsychosocial approach to emotion-related parenting: Physiological responses to child frustration among urban Chinese parents.. <i>Journal of Family Psychology</i> , 2021, 35, 639-648.	1.3	3
58	The reliability of visual ERP components in children across the first year of school. <i>Developmental Psychobiology</i> , 2021, 63, e22150.	1.6	2
59	Social and Biological Changes During Adolescence That Precipitate the Onset of Antisocial Behavior. , 2013, , 447-461.		2
60	Integrating dynamic and developmental time scales: Emotion-specific autonomic coordination predicts baseline functioning over time. <i>International Journal of Psychophysiology</i> , 2022, 171, 29-37.	1.0	2
61	Unsealing Fate: Policy Practices Aimed at Reducing the Intergenerational Transmission of Poverty. <i>Policy Insights From the Behavioral and Brain Sciences</i> , 2017, 4, 115-122.	2.4	1
62	The developmental cascade of early parenting, emergence of executive functioning, and emotional symptoms across childhood. <i>Infant Mental Health Journal</i> , 2021, 42, 331-345.	1.8	1
63	Association Between Dynamic Parasympathetic Reactivity to Frustration and Children's Social Success with Peers in Kindergarten. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 1537-1549.	2.3	1
64	Developmental changes in external and internal performance monitoring across middle childhood: An ERP study. <i>International Journal of Psychophysiology</i> , 2021, 169, 20-33.	1.0	1
65	Early executive and school functioning: Protective roles of home environment by income. <i>Journal of Applied Developmental Psychology</i> , 2022, 78, 101369.	1.7	1
66	<scp>Father's child</scp> physiological concordance on two timescales is differentially associated with paternal characteristics. <i>Psychophysiology</i> , 2022, , e14073.	2.4	1
67	The association between perinatal hypoxia exposure and externalizing symptoms and children's decision making in conditions of uncertainty is moderated by DRD2 genotype. <i>Developmental Psychobiology</i> , 2019, 61, 56-68.	1.6	0
68	SPR statement on racial justice. <i>Psychophysiology</i> , 2020, 57, e13634.	2.4	0
69	Association between EEG asymmetry and the error-related negativity across middle childhood. <i>Biological Psychology</i> , 2021, 163, 108137.	2.2	0
