#	ARTICLE	IF	CITATIONS
1	Cephalometric analyses for cleft patients: a statistical approach to compare the variables of Delaire's craniofacial analysis to Bergen analysis. <i>Clinical Oral Investigations</i> , 2022, 26, 353-364.	3.0	4
2	Effect of periodontal treatment on preclinical Alzheimer's disease—Results of a trial emulation approach. <i>Alzheimer's and Dementia</i> , 2022, 18, 127-141.	0.8	26
3	SHIP-MR and Radiology: 12 Years of Whole-Body Magnetic Resonance Imaging in a Single Center. <i>Healthcare (Switzerland)</i> , 2022, 10, 33.	2.0	11
4	What German dentists choose for their teeth: A Web-based survey of molar restorations and their longevity. <i>Journal of Prosthetic Dentistry</i> , 2021, 125, 805-814.	2.8	7
5	Association between coronal caries and malocclusion in an adult population. <i>Journal of Orofacial Orthopedics</i> , 2021, 82, 295-312.	1.3	3
6	New insights in the link between malocclusion and periodontal disease. <i>Journal of Clinical Periodontology</i> , 2019, 46, 144-159.	4.9	27
7	Reducing uncertainty in estimating associations of oral exposures with <i>Helicobacter pylori</i> serology in the general population. <i>Journal of Clinical Periodontology</i> , 2018, 45, 1056-1068.	4.9	1
8	Dental practitioner recruitment for a randomized clinical trial in the field to evaluate the performance of a new glass ionomer restoration material. <i>Trials</i> , 2016, 17, 73.	1.6	5
9	High social support buffers the effects of 5-HTTLPR genotypes within social anxiety disorder. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2014, 264, 433-439.	3.2	32
10	Missing, unreplaced teeth and risk of all-cause and cardiovascular mortality. <i>International Journal of Cardiology</i> , 2013, 167, 1430-1437.	1.7	68
11	The effect of catechol-O-methyltransferase polymorphisms on pain is modified by depressive symptoms. <i>European Journal of Pain</i> , 2012, 16, 878-889.	2.8	13
12	Moderation of adult depression by the serotonin transporter promoter variant (5-HTTLPR), childhood abuse and adult traumatic events in a general population sample. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2012, 159B, 298-309.	1.7	50
13	The association of tooth loss with all-cause and circulatory mortality. Is there a benefit of replaced teeth? A systematic review and meta-analysis. <i>Clinical Oral Investigations</i> , 2012, 16, 333-351.	3.0	92
14	Cohort Profile: The Study of Health in Pomerania. <i>International Journal of Epidemiology</i> , 2011, 40, 294-307.	1.9	876
15	Epidemiology of periodontal diseases in the study of health in Pomerania. <i>Journal of Clinical Periodontology</i> , 2009, 36, 114-123.	4.9	115
16	Tooth loss and cognitive impairment. <i>Journal of Clinical Periodontology</i> , 2009, 36, 550-557.	4.9	72
17	Socioeconomic indicators and prosthetic replacement of missing teeth in a working-age population—Results of the Study of Health in Pomerania (SHIP). <i>Community Dentistry and Oral Epidemiology</i> , 2009, 37, 104-115.	1.9	24
18	Self-reported Halitosis and Gastro-esophageal Reflux Disease in the General Population. <i>Journal of General Internal Medicine</i> , 2008, 23, 260-266.	2.6	44

#	ARTICLE	IF	CITATIONS
19	Refining exposure definitions for studies of periodontal disease and systemic disease associations. Community Dentistry and Oral Epidemiology, 2008, 36, 493-502.	1.9	56
20	Inverse association between number of teeth and left ventricular mass in women. Journal of Hypertension, 2007, 25, 2035-2043.	0.5	19
21	The Influence of Dynamic Occlusal Interferences on Probing Depth and Attachment Level: Results of the Study of Health in Pomerania (SHIP). Journal of Periodontology, 2006, 77, 506-516.	3.4	36
22	Gender differences in the relation between number of teeth and systolic blood pressure. Journal of Hypertension, 2006, 24, 1257-1263.	0.5	49
23	Tooth loss is independently associated with the risk of acquired aortic valve sclerosis. American Heart Journal, 2005, 150, 1198-1203.	2.7	40
24	Periodontal disease, but not edentulism, is independently associated with increased plasma fibrinogen levels. Thrombosis and Haemostasis, 2004, 92, 244-252.	3.4	48
25	Gender Differences in the Relationship Between Periodontal Disease, Tooth Loss, and Atherosclerosis. Stroke, 2004, 35, 2029-2035.	2.0	140
