#	ARTICLE	IF	CITATIONS
1	The development of theory-informed participant-centred interventions to maximise participant retention in randomised controlled trials. <i>Trials</i> , 2022, 23, 268.	1.6	3
2	Using a behavioural approach to explore the factors that affect questionnaire return within a clinical trial: a qualitative study based on the theoretical domains framework. <i>BMJ Open</i> , 2021, 11, e048128.	1.9	7
3	Identification and categorisation of relevant outcomes for symptomatic uncomplicated gallstone disease: in-depth analysis to inform the development of a core outcome set. <i>BMJ Open</i> , 2021, 11, e045568.	1.9	3
4	Barriers and facilitators to reducing anticholinergic burden: a qualitative systematic review. <i>International Journal of Clinical Pharmacy</i> , 2021, 43, 1451-1460.	2.1	13
5	Why trials lose participants: A multitrail investigation of participants' perspectives using the theoretical domains framework. <i>Journal of Clinical Epidemiology</i> , 2021, 137, 1-13.	5.0	16
6	Protocol for a randomised controlled trial comparing laparoscopic cholecystectomy with observation/conservative management for preventing recurrent symptoms and complications in adults with uncomplicated symptomatic gallstones (C-Gall trial). <i>BMJ Open</i> , 2021, 11, e039781.	1.9	15
7	Understanding Stakeholder Views Regarding the Design of an Intervention Trial to Reduce Anticholinergic Burden: A Qualitative Study. <i>Frontiers in Pharmacology</i> , 2021, 12, 608208.	3.5	3
8	Interventions to Reduce Anticholinergic Burden in Adults Aged 65 and Older: A Systematic Review. <i>Journal of the American Medical Directors Association</i> , 2020, 21, 172-180.e5.	2.5	32
9	Barriers and facilitators to reducing anticholinergic burden from the perspectives of patients, their carers, and healthcare professionals: A protocol for qualitative evidence synthesis. <i>Journal of Evidence-Based Medicine</i> , 2019, 12, 227-231.	1.8	5
10	Exploring non-retention in clinical trials: a meta-ethnographic synthesis of studies reporting participant reasons for drop out. <i>BMJ Open</i> , 2019, 9, e021959.	1.9	48
11	Pilot randomised controlled trial of Weight Watchers® referral with or without dietitian-led group support for weight loss in women treated for breast cancer: the BRIGHT (BReast cancer weiGHT loss) trial. <i>Pilot and Feasibility Studies</i> , 2019, 5, 24.	1.2	4
12	Qualitative study exploring the key determinants of information gathering to inform the management of over-the-counter (OTC) consultations in community pharmacies. <i>BMJ Open</i> , 2019, 9, e029937.	1.9	10
13	Systematic Techniques to Enhance rEtention in Randomised controlled trials: the STEER study protocol. <i>Trials</i> , 2018, 19, 197.	1.6	14
14	An Audit and Feedback Intervention for Reducing Antibiotic Prescribing in General Dental Practice: The RAPiD Cluster Randomised Controlled Trial. <i>PLoS Medicine</i> , 2016, 13, e1002115.	8.4	77
15	Barriers and facilitators of evidence-based management of patients with bacterial infections among general dental practitioners: a theory-informed interview study. <i>Implementation Science</i> , 2015, 11, 11.	6.9	37
16	Evaluating an audit and feedback intervention for reducing antibiotic prescribing behaviour in general dental practice (the RAPiD trial): a partial factorial cluster randomised trial protocol. <i>Implementation Science</i> , 2014, 9, 50.	6.9	29
