## Nicholas R Medjeral-Thomas

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/9380791/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	C3 glomerulopathy: consensus report. Kidney International, 2013, 84, 1079-1089.	5.2	505
2	C3 Glomerulopathy. Clinical Journal of the American Society of Nephrology: CJASN, 2014, 9, 46-53.	4.5	192
3	Circulating complement factor H–related proteins 1Âand 5 correlate with disease activity in IgA nephropathy. Kidney International, 2017, 92, 942-952.	5.2	99
4	The role of complement in IgA nephropathy. Molecular Immunology, 2019, 114, 123-132.	2.2	76
5	A novel CFHR5 fusion protein causes C3 glomerulopathy in a family without Cypriot ancestry. Kidney International, 2014, 85, 933-937.	5.2	61
6	Longitudinal proteomic profiling of dialysis patients with COVID-19 reveals markers of severity and predictors of death. ELife, 2021, 10, .	6.0	58
7	Progressive IgA Nephropathy Is Associated With Low Circulating Mannan-Binding Lectin–Associated Serine Protease-3 (MASP-3) and Increased Glomerular Factor H–Related Protein-5 (FHR5) Deposition. Kidney International Reports, 2018, 3, 426-438.	0.8	57
8	Circulating complement factor H–related protein 5 levels contribute to development and progression of IgA nephropathy. Kidney International, 2018, 94, 150-158.	5.2	57
9	The complement factor Hâ€related proteins. Immunological Reviews, 2016, 274, 191-201.	6.0	54
10	Long-term Outcomes of Rituximab Therapy in Ocular Granulomatosis with Polyangiitis. Ophthalmology, 2015, 122, 1262-1268.	5.2	53
11	Complement activation in IgA nephropathy. Seminars in Immunopathology, 2021, 43, 679-690.	6.1	42
12	Glomerular membrane attack complex is not a reliable marker of ongoing C5 activation in lupus nephritis. Kidney International, 2019, 95, 655-665.	5.2	33
13	O- and N-Glycosylation of Serum Immunoglobulin A is Associated with IgA Nephropathy and Glomerular Function. Journal of the American Society of Nephrology: JASN, 2021, 32, 2455-2465.	6.1	33
14	Glomerular Complement Factor H–Related Protein 5 (FHR5) Is Highly Prevalent in C3 Glomerulopathy and Associated With Renal Impairment. Kidney International Reports, 2019, 4, 1387-1400.	0.8	17
15	Complement in IgA Nephropathy: The Role of Complement in the Pathogenesis, Diagnosis, and Future Management of IgA Nephropathy. Advances in Chronic Kidney Disease, 2020, 27, 111-119.	1.4	13
16	Protease inhibitor plasma concentrations associate with COVID-19 infection. Oxford Open Immunology, 2021, 2, iqab014.	2.8	7
17	Complement and kidney disease, new insights. Current Opinion in Nephrology and Hypertension, 2021, 30, 310-316.	2.0	5
18	Can Urinary Complement Proteins Stratify Patients to Therapeutic Complement Inhibitors?. Kidney International Reports, 2022, 7, 939-941.	0.8	1

#	Article	IF	CITATIONS
19	New Insights into Epidemiology and Outcome of Bacterial Infection–Related Glomerulonephritis. Clinical Journal of the American Society of Nephrology: CJASN, 2021, 16, 1149-1151.	4.5	0
