#	ARTICLE	IF	CITATIONS
1	Cardiac-specific experiential avoidance predicts change in general psychological well-being among patients completing cardiac rehabilitation. <i>Applied Psychology: Health and Well-Being</i> , 2021, 13, 715-727.	3.0	4
2	ACTonFood. Acceptance and Commitment Therapy-Based Group Treatment Compared to Cognitive Behavioral Therapy-Based Group Treatment for Weight Loss Maintenance: An Individually Randomized Group Treatment Trial. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 9558.	2.6	9
3	The Combined Effect of Psychological and Relational Aspects on Cardiac Patient Activation. <i>Journal of Clinical Psychology in Medical Settings</i> , 2020, 27, 783-794.	1.4	13
4	ACTonHEALTH study protocol: promoting psychological flexibility with activity tracker and mHealth tools to foster healthful lifestyle for obesity and other chronic health conditions. <i>Trials</i> , 2018, 19, 659.	1.6	25
5	What Is the Role of the Placebo Effect for Pain Relief in Neurorehabilitation? Clinical Implications From the Italian Consensus Conference on Pain in Neurorehabilitation. <i>Frontiers in Neurology</i> , 2018, 9, 310.	2.4	40
6	Cross-Lagged Relations Between Exercise Capacity and Psychological Distress During Cardiac Rehabilitation. <i>Annals of Behavioral Medicine</i> , 2018, 52, 963-972.	2.9	6
7	Psychological Treatments and Psychotherapies in the Neurorehabilitation of Pain: Evidences and Recommendations from the Italian Consensus Conference on Pain in Neurorehabilitation. <i>Frontiers in Psychology</i> , 2016, 7, 115.	2.1	66
8	Psychological Considerations in the Assessment and Treatment of Pain in Neurorehabilitation and Psychological Factors Predictive of Therapeutic Response: Evidence and Recommendations from the Italian Consensus Conference on Pain in Neurorehabilitation. <i>Frontiers in Psychology</i> , 2016, 7, 468.	2.1	43
9	ACTonFOOD: opportunities of ACT to address food addiction. <i>Frontiers in Psychology</i> , 2015, 6, 396.	2.1	8
10	Development and initial validation of the Cardiovascular Disease Acceptance and Action Questionnaire (CVD-AAQ) in an Italian sample of cardiac patients. <i>Frontiers in Psychology</i> , 2014, 5, 1284.	2.1	12
11	Effectiveness of group reminiscence for improving wellbeing of institutionalized elderly adults: study protocol for a randomized controlled trial. <i>Trials</i> , 2014, 15, 408.	1.6	34
12	The ACTonHEART study: rationale and design of a randomized controlled clinical trial comparing a brief intervention based on Acceptance and Commitment Therapy to usual secondary prevention care of coronary heart disease. <i>Health and Quality of Life Outcomes</i> , 2014, 12, 22.	2.4	29
13	The Role of Psychogeriatrics in Healthy Living and Active Ageing. <i>Studies in Health Technology and Informatics</i> , 2014, 203, 122-33.	0.3	4
14	Psychometric Properties of the Social Phobia and Anxiety Inventory for Children (SPAI-C). <i>European Journal of Psychological Assessment</i> , 2012, 28, 51-59.	3.0	12
15	Unstable Maternal Environment, Separation Anxiety, and Heightened CO <sub>2</sub> Sensitivity Induced by Gene-by-Environment Interplay. <i>PLoS ONE</i> , 2011, 6, e18637.	2.5	71
16	Gene-environment interactions in panic disorder and CO <sub>2</sub> sensitivity: Effects of events occurring early in life. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2011, 156, 79-88.	1.7	43
17	Genetic and environmental influences upon the CBCL/6-18 DSM-oriented scales: similarities and differences across three different computational approaches and two age ranges. <i>European Child and Adolescent Psychiatry</i> , 2010, 19, 647-658.	4.7	10
18	The role of genes and environment in shaping co-occurrence of DSM-IV defined anxiety dimensions among Italian twins aged 8-17. <i>Journal of Anxiety Disorders</i> , 2010, 24, 433-439.	3.2	26

#	ARTICLE	IF	CITATIONS
19	A Genetically Informed Study of the Association Between Childhood Separation Anxiety, Sensitivity to CO <sub>2</sub> , Panic Disorder, and the Effect of Childhood Parental Loss. Archives of General Psychiatry, 2009, 66, 64.	12.3	102
20	The co-occurrence between internalizing and externalizing behaviors. European Child and Adolescent Psychiatry, 2008, 17, 82-92.	4.7	47
21	A twin study of the common vulnerability between heightened sensitivity to hypercapnia and panic disorder. American Journal of Medical Genetics Part B: Neuropsychiatric Genetics, 2008, 147B, 586-593.	1.7	49
22	A General Population Twin Study of the CBCL/6-18 DSM-Oriented Scales. Journal of the American Academy of Child and Adolescent Psychiatry, 2007, 46, 619-627.	0.5	62
23	A genetic study of the acute anxious response to carbon dioxide stimulation in man. Journal of Psychiatric Research, 2007, 41, 906-917.	3.1	52
