#	ARTICLE	IF	CITATIONS
1	Anxiety Disorders, Hypertension, and Cardiovascular Risk: A Review. <i>International Journal of Psychiatry in Medicine</i> , 2011, 41, 365-377.	1.8	193
2	Higher Primary Care Physician Continuity is Associated With Lower Costs and Hospitalizations. <i>Annals of Family Medicine</i> , 2018, 16, 492-497.	1.9	153
3	More Comprehensive Care Among Family Physicians is Associated with Lower Costs and Fewer Hospitalizations. <i>Annals of Family Medicine</i> , 2015, 13, 206-213.	1.9	125
4	Solo and Small Practices: A Vital, Diverse Part of Primary Care. <i>Annals of Family Medicine</i> , 2016, 14, 8-15.	1.9	85
5	Physician Burnout and Higher Clinic Capacity to Address Patients' Social Needs. <i>Journal of the American Board of Family Medicine</i> , 2019, 32, 69-78.	1.5	61
6	Comparison of Intended Scope of Practice for Family Medicine Residents With Reported Scope of Practice Among Practicing Family Physicians. <i>JAMA - Journal of the American Medical Association</i> , 2015, 314, 2364.	7.4	58
7	Burnout and Scope of Practice in New Family Physicians. <i>Annals of Family Medicine</i> , 2018, 16, 200-205.	1.9	58
8	Workplace Factors Associated With Burnout of Family Physicians. <i>JAMA Internal Medicine</i> , 2017, 177, 1036.	5.1	53
9	Prevalence of Burnout in Board Certified Family Physicians. <i>Journal of the American Board of Family Medicine</i> , 2017, 30, 125-126.	1.5	51
10	Health Is Primary: Family Medicine for America's Health. <i>Annals of Family Medicine</i> , 2014, 12, S1-S12.	1.9	48
11	Rural—Urban Distribution of the U.S. Geriatrics Physician Workforce. <i>Journal of the American Geriatrics Society</i> , 2011, 59, 699-703.	2.6	45
12	Nonemergency Medicine—Trained Physician Coverage in Rural Emergency Departments. <i>Journal of Rural Health</i> , 2008, 24, 183-188.	2.9	36
13	The American Board of Family Medicine's Data Collection Method for Tracking Their Specialty. <i>Journal of the American Board of Family Medicine</i> , 2019, 32, 89-95.	1.5	31
14	County-Level Poverty Is Equally Associated With Unmet Health Care Needs in Rural and Urban Settings. <i>Journal of Rural Health</i> , 2010, 26, 373-382.	2.9	29
15	Training on the Clock: Family Medicine Residency Directors' Responses to Resident Duty Hours Reform. <i>Academic Medicine</i> , 2006, 81, 1032-1037.	1.6	26
16	Rural—urban comparison of contextual associations with self-reported mental health status. <i>Health and Place</i> , 2009, 15, 125-132.	3.3	26
17	Most Family Physicians Work Routinely With Nurse Practitioners, Physician Assistants, or Certified Nurse Midwives. <i>Journal of the American Board of Family Medicine</i> , 2013, 26, 244-245.	1.5	25
18	Examining the Functioning and Reliability of the Family Medicine Milestones. <i>Journal of Graduate Medical Education</i> , 2017, 9, 46-53.	1.3	24

#	ARTICLE	IF	CITATIONS
19	Trends in Physician House Calls to Medicare Beneficiaries. <i>Journal of the American Board of Family Medicine</i> , 2012, 25, 862-868.	1.5	23
20	Team Configurations, Efficiency, and Family Physician Burnout. <i>Journal of the American Board of Family Medicine</i> , 2020, 33, 368-377.	1.5	23
21	Family medicine graduate proximity to their site of training: policy options for improving the distribution of primary care access. <i>Family Medicine</i> , 2015, 47, 124-30.	0.5	23
22	Family Physicians' Quality Interventions and Performance Improvement Through the ABFM Diabetes Performance in Practice Module. <i>Annals of Family Medicine</i> , 2014, 12, 17-20.	1.9	22
23	Effectiveness Over Efficiency. <i>Medical Care</i> , 2014, 52, 97-98.	2.4	22
24	Debt and the Emerging Physician Workforce. <i>Academic Medicine</i> , 2019, 94, 267-273.	1.6	22
25	Wide Gap between Preparation and Scope of Practice of Early Career Family Physicians. <i>Journal of the American Board of Family Medicine</i> , 2018, 31, 181-182.	1.5	21
26	Buprenorphine Provision by Early Career Family Physicians. <i>Annals of Family Medicine</i> , 2018, 16, 443-446.	1.9	20
27	Family Physicians' Scope of Practice and American Board of Family Medicine Recertification Examination Performance. <i>Journal of the American Board of Family Medicine</i> , 2015, 28, 265-270.	1.5	19
28	Shifting Patterns of Physician Home Visits. <i>Journal of Primary Care and Community Health</i> , 2016, 7, 71-75.	2.1	19
29	Harmonized Outcome Measures for Use in Depression Patient Registries and Clinical Practice. <i>Annals of Internal Medicine</i> , 2020, 172, 803-809.	3.9	19
30	Fewer Family Physicians Are in Solo Practices. <i>Journal of the American Board of Family Medicine</i> , 2015, 28, 11-12.	1.5	17
31	The Diversity of Providers on the Family Medicine Team. <i>Journal of the American Board of Family Medicine</i> , 2016, 29, 8-9.	1.5	17
32	Distribution of Physician Specialties by Rurality. <i>Journal of Rural Health</i> , 2021, 37, 714-722.	2.9	17
33	Scope of Practice and Patient Panel Size of Family Physicians Who Work With Nurse Practitioners or Physician Assistants. <i>Family Medicine</i> , 2019, 51, 311-318.	0.5	17
34	Medical Specialty Boards Can Help Measure Graduate Medical Education Outcomes. <i>Academic Medicine</i> , 2014, 89, 840-842.	1.6	16
35	One in Fifteen Family Physicians Principally Provide Emergency or Urgent Care. <i>Journal of the American Board of Family Medicine</i> , 2014, 27, 447-448.	1.5	16
36	Physician Satisfaction With and Practice Changes Resulting From American Board of Family Medicine Maintenance of Certification Performance in Practice Modules. <i>Journal of Continuing Education in the Health Professions</i> , 2016, 36, 55-60.	1.3	15

#	ARTICLE	IF	CITATIONS
37	Training Family Medicine Residents to Perform Home Visits: A CERA Survey. <i>Journal of Graduate Medical Education</i> , 2017, 9, 90-96.	1.3	15
38	Over Half of Graduating Family Medicine Residents Report More Than \$150,000 in Educational Debt. <i>Journal of the American Board of Family Medicine</i> , 2016, 29, 180-181.	1.5	14
39	Community Size and Organization of Practice Predict Family Physician Recertification Success. <i>Journal of the American Board of Family Medicine</i> , 2014, 27, 383-390.	1.5	13
40	Improving Quality of Care for Diabetes Through a Maintenance of Certification Activity: Family Physicians' Use of the Chronic Care Model. <i>Journal of Continuing Education in the Health Professions</i> , 2014, 34, 47-55.	1.3	13
41	US family physicians' intrauterine and implantable contraception provision: results from a national survey. <i>Contraception</i> , 2016, 93, 432-437.	1.5	13
42	Physician Perceptions of Performance Feedback in a Quality Improvement Activity. <i>American Journal of Medical Quality</i> , 2018, 33, 283-290.	0.5	13
43	The Relationship Between Board Certification and Disciplinary Actions Against Board-Eligible Family Physicians. <i>Academic Medicine</i> , 2019, 94, 847-852.	1.6	13
44	Family Physician Burnout Does Not Differ With Rurality. <i>Journal of Rural Health</i> , 2021, 37, 755-761.	2.9	13
45	Only One Third of Family Physicians Can Estimate Their Patient Panel Size. <i>Journal of the American Board of Family Medicine</i> , 2015, 28, 173-174.	1.5	12
46	Developing the National Family Medicine Graduate Survey. <i>Journal of Graduate Medical Education</i> , 2017, 9, 570-573.	1.3	12
47	Burnout in Young Family Physicians: Variation Across States. <i>Journal of the American Board of Family Medicine</i> , 2018, 31, 7-8.	1.5	12
48	Prevalence and practice for rare diseases in primary care: a national cross-sectional study in the USA. <i>BMJ Open</i> , 2019, 9, e027248.	1.9	12
49	The Current State of Research Capacity in US Family Medicine Departments. <i>Family Medicine</i> , 2019, 51, 112-119.	0.5	12
50	Do Family Physicians Choose Self-Assessment Activities Based on What They Know or Don't Know?. <i>Journal of Continuing Education in the Health Professions</i> , 2014, 34, 164-170.	1.3	11
51	Intention Versus Reality: Family Medicine Residency Graduates' Intention to Practice Obstetrics. <i>Journal of the American Board of Family Medicine</i> , 2017, 30, 405-406.	1.5	11
52	Burnout Among Family Physicians by Gender and Age. <i>Journal of the American Board of Family Medicine</i> , 2020, 33, 355-356.	1.5	11
53	Advancing primary care with Artificial Intelligence and Machine Learning. <i>Healthcare</i> , 2022, 10, 100594.	1.3	11
54	Patient-Centered Medical Home Recognition and Diabetes Control Among Health Centers: Exploring the Role of Enabling Services. <i>Population Health Management</i> , 2018, 21, 6-12.	1.7	10

#	ARTICLE	IF	CITATIONS
55	Barriers Faced by Family Medicine Graduates Interested in Performing Obstetric Deliveries. <i>Journal of the American Board of Family Medicine</i> , 2018, 31, 332-333.	1.5	10
56	How Is Family Medicine Engaging Patients at the Practice-Level?: A National Sample of Family Physicians. <i>Journal of the American Board of Family Medicine</i> , 2018, 31, 733-742.	1.5	10
57	Associations Between Burnout and Practice Organization in Family Physicians. <i>Annals of Family Medicine</i> , 2019, 17, 502-509.	1.9	10
58	Competency Assessment in Family Medicine Residency: Observations, Knowledge-Based Examinations, and Advancement. <i>Journal of Graduate Medical Education</i> , 2017, 9, 730-734.	1.3	9
59	Adherence to clinical guidelines for monitoring diabetes in primary care settings. <i>Family Medicine and Community Health</i> , 2018, 6, 161-167.	1.6	9
60	Family Physicians' Contributions to Rural Emergency Care and Urban Urgent Care. <i>Journal of the American Board of Family Medicine</i> , 2019, 32, 295-296.	1.5	9
61	Prevalence and Factors Associated with Family Physicians Providing E-Visits. <i>Journal of the American Board of Family Medicine</i> , 2019, 32, 868-875.	1.5	9
62	Primary Care Physicians and Spending on Low-Value Care. <i>Annals of Internal Medicine</i> , 2021, 174, 875-878.	3.9	9
63	Relationship Between Physician Burnout And The Quality And Cost Of Care For Medicare Beneficiaries Is Complex. <i>Health Affairs</i> , 2022, 41, 549-556.	5.2	9
64	Academic Achievement, Professionalism, and Burnout in Family Medicine Residents. <i>Family Medicine</i> , 2021, 53, 423-432.	0.5	8
65	Characteristics of Graduating Family Medicine Residents Who Intend to Practice Maternity Care. <i>Family Medicine</i> , 2018, 50, 345-352.	0.5	8
66	Which Family Physicians Work Routinely With Nurse Practitioners, Physician Assistants or Certified Nurse Midwives. <i>Journal of Rural Health</i> , 2014, 30, 227-234.	2.9	7
67	Family Medicine Department Chairs's™ Opinions Regarding Scope of Practice. <i>Academic Medicine</i> , 2015, 90, 1691-1697.	1.6	7
68	Characteristics of Young Family Physician Hospitalists. <i>Journal of the American Board of Family Medicine</i> , 2018, 31, 680-681.	1.5	7
69	The Essential Role of Family Physicians in Providing Cesarean Sections in Rural Communities. <i>Journal of the American Board of Family Medicine</i> , 2021, 34, 10-11.	1.5	7
70	Meaningful Use And Medical Home Functionality In Primary Care Practice. <i>Health Affairs</i> , 2020, 39, 1977-1983.	5.2	7
71	Opportunities and Barriers for Family Physician Contribution to the Maternity Care Workforce. <i>Family Medicine</i> , 2019, 51, 383-388.	0.5	7
72	Abortion Provision Among Recently Graduated Family Physicians. <i>Family Medicine</i> , 2020, 52, 724-729.	0.5	7

#	ARTICLE	IF	CITATIONS
73	Creating the Individual Scope of Practice (I-SOP) scale. <i>Journal of Applied Measurement</i> , 2014, 15, 227-39.	0.3	7
74	Do family physicians electronic health records support meaningful use?. <i>Healthcare</i> , 2015, 3, 38-42.	1.3	6
75	Practice Patterns of Family Physicians With and Without Sports Medicine Certification. <i>Clinical Journal of Sport Medicine</i> , 2020, 30, 210-215.	1.8	6
76	General Practitioners in US Medical Practice Compared With Family Physicians. <i>Annals of Family Medicine</i> , 2020, 18, 127-130.	1.9	6
77	Early-Career and Graduating Physicians More Likely to Prescribe Buprenorphine. <i>Journal of the American Board of Family Medicine</i> , 2020, 33, 7-8.	1.5	6
