#	ARTICLE	IF	CITATIONS
1	Body Image. Men and Masculinities, 2002, 4, 219-232.	2.8	288
2	The contribution of perceptions of stigmatisation to disability in patients with psoriasis. Journal of Psychosomatic Research, 2001, 50, 11-15.	2.6	250
3	A cognitive-behavioural symptom management programme as an adjunct in psoriasis therapy. British Journal of Dermatology, 2002, 146, 458-465.	1.5	218
4	Psychologic Factors in Psoriasis: Consequences, Mechanisms, and Interventions. Dermatologic Clinics, 2005, 23, 681-694.	1.7	212
5	Psychological Distress Impairs Clearance of Psoriasis in Patients Treated With Photochemotherapy. Archives of Dermatology, 2003, 139, 752-6.	1.4	199
6	Psychological stress, distress and disability in patients with psoriasis: Consensus and variation in the contribution of illness perceptions, coping and alexithymia. British Journal of Clinical Psychology, 2002, 41, 157-174.	3.5	179
7	Glucocorticoid Sensitivity Is Determined by a Specific Glucocorticoid Receptor Haplotype. Journal of Clinical Endocrinology and Metabolism, 2004, 89, 892-897.	3.6	163
8	Physical and psychologic measures are necessary to assess overall psoriasis severity. Journal of the American Academy of Dermatology, 2001, 45, 72-76.	1.2	153
9	What patients with psoriasis believe about their condition. Journal of the American Academy of Dermatology, 1998, 39, 196-201.	1.2	152
10	Adherence to treatment in patients with psoriasis. Journal of the European Academy of Dermatology and Venereology, 2006, 20, 370-379.	2.4	128
11	Development of the PSORIQoL, a psoriasis-specific measure of quality of life designed for use in clinical practice and trials. British Journal of Dermatology, 2003, 149, 323-331.	1.5	127
12	The impact of psychological and clinical factors on quality of life in individuals with atopic dermatitis. Journal of Psychosomatic Research, 2004, 57, 195-200.	2.6	127
13	Detection of psychological distress in patients with psoriasis: low consensus between dermatologist and patient. British Journal of Dermatology, 2004, 151, 1227-1233.	1.5	116
14	Alcohol consumption and psychological distress in patients with psoriasis. British Journal of Dermatology, 2007, 158, 071115063928007-???	1.5	108
15	Patients with psoriasis and their compliance with medication. Journal of the American Academy of Dermatology, 1999, 41, 581-583.	1.2	105
16	Response of the hypothalamic-pituitary-adrenal axis to psychological stress in patients with psoriasis. British Journal of Dermatology, 2005, 153, 1114-1120.	1.5	105
17	Targeting cognitive-behaviour therapy to patients' implicit model of psoriasis: Results from a patient preference controlled trial. British Journal of Clinical Psychology, 2004, 43, 65-82.	3.5	97
18	Pathological worrying, illness perceptions and disease severity in patients with psoriasis. British Journal of Health Psychology, 2000, 5, 71-82.	3.5	94

#	ARTICLE	IF	CITATIONS
19	Systemic sclerosis: Patients' perceptions of their condition. Arthritis and Rheumatism, 2003, 49, 689-696.	6.7	85
20	Macrophage Migration Inhibitory Factor Gene Polymorphism is Associated with Psoriasis. Journal of Investigative Dermatology, 2004, 123, 484-487.	0.7	74
21	Alexithymia in patients with psoriasis. Journal of Psychosomatic Research, 2005, 58, 89-96.	2.6	73
22	The individual health burden of acne. Journal of Health Psychology, 2009, 14, 1105-1118.	2.3	73
23	Successful treatment of psoriasis improves psoriasis-specific but not more general aspects of patients' well-being. British Journal of Dermatology, 2004, 151, 1219-1226.	1.5	68
24	Illness perception in individuals with atopic dermatitis. Psychology, Health and Medicine, 2007, 12, 433-444.	2.4	56
25	Divergent Beliefs About Psoriasis Are Associated with Increased Psychological Distress. Journal of Investigative Dermatology, 2004, 123, 49-56.	0.7	50
26	Diminished Neural and Cognitive Responses to Facial Expressions of Disgust in Patients with Psoriasis: A Functional Magnetic Resonance Imaging Study. Journal of Investigative Dermatology, 2009, 129, 2613-2619.	0.7	49
27	The Effects of Acute Social Stress on Epidermal Langerhans' Cell Frequency and Expression of Cutaneous Neuropeptides. Journal of Investigative Dermatology, 2008, 128, 1273-1279.	0.7	48
28	Attentional bias for psoriasis-specific and psychosocial threat in patients with psoriasis. Journal of Behavioral Medicine, 2003, 26, 211-224.	2.1	46
29	Brain imaging in patients with COVID-19: A systematic review. Brain, Behavior, & Immunity - Health, 2021, 16, 100290.	2.5	45
30	Stigmatization and psoriasis. British Journal of Dermatology, 2003, 149, 209-211.	1.5	41
31	Gene expression profiles in psoriasis: analysis of impact of body site location and clinical severity. British Journal of Dermatology, 2005, 152, 489-504.	1.5	35
32	Influence of Childhood Scleroderma on Physical Function and Quality of Life. Journal of Rheumatology, 2011, 38, 167-173.	2.0	35
33	Why put new wine in old bottles: the need for a biopsychosocial approach to the assessment, treatment, and understanding of unexplained and explained symptoms in medicine. Journal of Psychosomatic Research, 2000, 48, 511-514.	2.6	30
34	Factor analysis of the Revised Illness Perception Questionnaire in adults with atopic dermatitis. Psychology, Health and Medicine, 2008, 13, 346-359.	2.4	29
35	Evidence of high levels of anxiety and depression in polymorphic light eruption and their association with clinical and demographic variables. British Journal of Dermatology, 2008, 159, 439-444.	1.5	28
36	Electronic reminders to improve medication adherence—are they acceptable to the patient?. International Journal of Clinical Pharmacy, 2009, 31, 627-629.	1.4	27

#	ARTICLE	IF	CITATIONS
37	Adversarial growth in patients undergoing treatment for psoriasis: A prospective study of the ability of patients to construe benefits from negative events. <i>Psychology, Health and Medicine</i> , 2005, 10, 44-56.	2.4	26
38	A comparison of intense pulsed light and laser treatment of telangiectases in patients with systemic sclerosis: a within-subject randomized trial. <i>Rheumatology</i> , 2014, 53, 1422-1430.	1.9	25
39	Psychological adjustment to systemic sclerosisâ€”exploring the association of disease factors, functional ability, body related attitudes and fear of negative evaluation. <i>Psychology, Health and Medicine</i> , 2004, 9, 29-39.	2.4	24
40	Psychologic distress in polymorphous light eruption and its relationship to patients' beliefs about their condition. <i>Journal of the American Academy of Dermatology</i> , 2007, 56, 426-431.	1.2	24
41	Illness beliefs of patients on home parenteral nutrition (HPN) and their relation to emotional distress. <i>Clinical Nutrition</i> , 2005, 24, 896-903.	5.0	23
42	Seasonal and Latitudinal Impact of Polymorphic Light Eruption on Quality of Life. <i>Journal of Investigative Dermatology</i> , 2006, 126, 1648-1651.	0.7	18
43	Body mass index, waist circumference and HOMA-IR correlate with the Psoriasis Area and Severity Index in patients with psoriasis receiving phototherapy. <i>British Journal of Dermatology</i> , 2014, 171, 436-438.	1.5	18
44	Photodermatoses: environmentally induced conditions with high psychological impact. <i>Photochemical and Photobiological Sciences</i> , 2012, 12, 182-189.	2.9	16
45	Impact of photosensitivity disorders on the life quality of children. <i>Photodermatology Photoimmunology and Photomedicine</i> , 2012, 28, 290-292.	1.5	15
46	Cognitive reserve and preinjury educational attainment: effects on outcome of community-based rehabilitation for longer-term individuals with acquired brain injury. <i>International Journal of Rehabilitation Research</i> , 2016, 39, 234-239.	1.3	14
47	The Greater Patient concept. <i>British Journal of Dermatology</i> , 2007, 158, 071027220355005-???	1.5	11
48	Worry and Pathological Worry in Patients with Psoriasis: Cross Sectional and Longitudinal Analyses of the Penn State Worry Questionnaire (PSWQ) in Four Samples of Patients. <i>Journal of Clinical Psychology in Medical Settings</i> , 2005, 12, 143-152.	1.4	9
49	A pilot study of body image dissatisfaction and the psychological impact of systemic sclerosis-related telangiectases. <i>Clinical and Experimental Rheumatology</i> , 2013, 31, 12-7.	0.8	9
50	How beneficial is cognitive behaviour therapy in the treatment of atopic dermatitis? A single-case study. <i>Psychology, Health and Medicine</i> , 2007, 12, 445-449.	2.4	8
51	Patient reported factors influencing the decisionâ€œmaking process of men with localised prostate cancer when considering Active Surveillanceâ€œA systematic review and thematic synthesis. <i>Psycho-Oncology</i> , 2022, 31, 388-404.	2.3	8
52	A structured multicomponent group programme for carers of people with acquired brain injury: Effects on perceived criticism, strain, and psychological distress. <i>British Journal of Health Psychology</i> , 2016, 21, 224-243.	3.5	7
53	A COGNITIVE BEHAVIOUR THERAPY GROUP FOR PATIENTS WITH CHRONIC FATIGUE SYNDROME: A PRELIMINARY INVESTIGATION. <i>Behavioural and Cognitive Psychotherapy</i> , 2004, 32, 107-112.	1.2	6
54	Psychological distress and adherence in patients with psoriasis. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2006, 20, 33-41.	2.4	6

#	ARTICLE	IF	CITATIONS
55	An Examination of the Psychometric Properties and Factor Structure of the Feelings of Stigmatization Questionnaire. Journal of Clinical Psychology in Medical Settings, 2007, 14, 248-257.	1.4	5
