| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 1  | Healthcare Workers Beliefs about COVID-19; a Longitudinal, Mixed Methods Analysis. Psychology,<br>Health and Medicine, 2023, 28, 110-123.  | 2.4 | 3         |
| 2  | Patient reported factors influencing the decisionâ€making process of men with localised prostate cancer when considering Active Surveillance—A systematic review and thematic synthesis. Psycho-Oncology, 2022, 31, 388-404.                                       | 2.3 | 8         |
| 3  | Glass ceiling versus sticky floor, sideways sexism and priming a manager to think male as barriers to<br>equality in clinical psychology: An interpretive phenomenological analysis approach Professional<br>Psychology: Research and Practice, 2022, 53, 225-233. | 1.0 | 1         |
| 4  | Healthcare workers use of psychological support resources during COVID-19; a mixed methods approach utilising Pillar Integration Analysis. PLoS ONE, 2022, 17, e0267458.   | 2.5 | 5         |
| 5  | Facilitating a return to productive roles following acquired brain injury: The impact of pre-injury<br>work level, current abilities, and neuropsychological performance. Neuropsychological<br>Rehabilitation, 2021, 31, 914-934.                                 | 1.6 | 4         |
| 6  | An investigation of psychological responses to COVID-19 in Irish healthcare workers: longitudinal quantitative and nested qualitative study. HRB Open Research, 2021, 4, 15.   | 0.6 | 2         |
| 7  | "Picture this― Patients' Drawings of Non-Muscle Invasive Bladder Cancer: A Novel Method to Help<br>Understand How Patients Perceive Their Condition. Bladder Cancer, 2021, 7, 149-159.   | 0.4 | 3         |
| 8  | Brain imaging in patients with COVID-19: A systematic review. Brain, Behavior, & Immunity - Health, 2021, 16, 100290.  | 2.5 | 45        |
| 9  | The Young Adult Male's Perception of Life with Inflammatory Bowel Disease and a Stoma: A Qualitative<br>Examination. Journal of Clinical Psychology in Medical Settings, 2020, 27, 560-571.  | 1.4 | 5         |
| 10 | Assessing Cognitive Estimation and Its Effects on Community Integration in People with Acquired<br>Brain Injury Undergoing Rehabilitation. BioMed Research International, 2017, 2017, 1-13.  | 1.9 | 2         |
| 11 | A structured multicomponent group programme for carers of people with acquired brain injury:<br>Effects on perceived criticism, strain, and psychological distress. British Journal of Health<br>Psychology, 2016, 21, 224-243.                                    | 3.5 | 7         |
| 12 | Cognitive reserve and preinjury educational attainment: effects on outcome of community-based rehabilitation for longer-term individuals with acquired brain injury. International Journal of Rehabilitation Research, 2016, 39, 234-239.                          | 1.3 | 14        |
| 13 | Body mass index, waist circumference and HOMA-IR correlate with the Psoriasis Area and Severity<br>Index in patients with psoriasis receiving phototherapy. British Journal of Dermatology, 2014, 171,<br>436-438.   | 1.5 | 18        |
| 14 | A comparison of intense pulsed light and laser treatment of telangiectases in patients with systemic sclerosis: a within-subject randomized trial. Rheumatology, 2014, 53, 1422-1430.  | 1.9 | 25        |
| 15 | A pilot study of body image dissatisfaction and the psychological impact of systemic sclerosis-related telangiectases. Clinical and Experimental Rheumatology, 2013, 31, 12-7.   | 0.8 | 9         |
| 16 | Childrens' and parents' beliefs about childhood onset scleroderma are influenced by child age and physical function impairment. Rheumatology, 2012, 51, 1331-1333.   | 1.9 | 4         |
| 17 | Impact of photosensitivity disorders on the life quality of children. Photodermatology<br>Photoimmunology and Photomedicine, 2012, 28, 290-292.  | 1.5 | 15        |
| 18 | Photodermatoses: environmentally induced conditions with high psychological impact.<br>Photochemical and Photobiological Sciences, 2012, 12, 182-189.  | 2.9 | 16        |

HELEN LOUISE RICHARDS

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 19 | Influence of Childhood Scleroderma on Physical Function and Quality of Life. Journal of Rheumatology, 2011, 38, 167-173.  | 2.0 | 35        |
| 20 | Does satisfaction with information equate to better anticoagulant control?. International Journal of Clinical Pharmacy, 2011, 33, 543-548.  | 2.1 | 5         |
| 21 | The individual health burden of acne. Journal of Health Psychology, 2009, 14, 1105-1118.  | 2.3 | 73        |
| 22 | Electronic reminders to improve medication adherence—are they acceptable to the patient?.<br>International Journal of Clinical Pharmacy, 2009, 31, 627-629.   | 1.4 | 27        |
| 23 | Diminished Neural and Cognitive Responses to Facial Expressions of Disgust in Patients with Psoriasis:<br>A Functional Magnetic Resonance Imaging Study. Journal of Investigative Dermatology, 2009, 129,<br>2613-2619. | 0.7 | 49        |
| 24 | The Effects of Acute Social Stress on Epidermal Langerhans' Cell Frequency and Expression of Cutaneous Neuropeptides. Journal of Investigative Dermatology, 2008, 128, 1273-1279.                                       | 0.7 | 48        |
| 25 | Evidence of high levels of anxiety and depression in polymorphic light eruption and their association with clinical and demographic variables. British Journal of Dermatology, 2008, 159, 439-444.                      | 1.5 | 28        |
| 26 | Factor analysis of the Revised Illness Perception Questionnaire in adults with atopic dermatitis.<br>Psychology, Health and Medicine, 2008, 13, 346-359.  | 2.4 | 29        |
| 27 | How beneficial is cognitive behaviour therapy in the treatment of atopic dermatitis? A single-case study. Psychology, Health and Medicine, 2007, 12, 445-449.   | 2.4 | 8         |
| 28 | Psychologic distress in polymorphous light eruption and its relationship to patients' beliefs about their condition. Journal of the American Academy of Dermatology, 2007, 56, 426-431.                                 | 1.2 | 24        |
| 29 | Illness perception in individuals with atopic dermatitis. Psychology, Health and Medicine, 2007, 12, 433-444.   | 2.4 | 56        |
| 30 | The Greater Patient concept. British Journal of Dermatology, 2007, 158, 071027220355005-???.  | 1.5 | 11        |
| 31 | Alcohol consumption and psychological distress in patients with psoriasis. British Journal of Dermatology, 2007, 158, 071115063928007-???.  | 1.5 | 108       |
| 32 | An Examination of the Psychometric Properties and Factor Structure of the Feelings of Stigmatization Questionnaire. Journal of Clinical Psychology in Medical Settings, 2007, 14, 248-257.                              | 1.4 | 5         |
| 33 | The psychological impact of skin disease. Independent Nurse, 2007, 2007, .  | 0.1 | Ο         |
| 34 | Adherence to treatment in patients with psoriasis. Journal of the European Academy of Dermatology and Venereology, 2006, 20, 370-379.   | 2.4 | 128       |
| 35 | Psychological distress and adherence in patients with psoriasis. Journal of the European Academy of<br>Dermatology and Venereology, 2006, 20, 33-41.  | 2.4 | 6         |
| 36 | Seasonal and Latitudinal Impact of Polymorphic Light Eruption on Quality of Life. Journal of<br>Investigative Dermatology, 2006, 126, 1648-1651.  | 0.7 | 18        |

HELEN LOUISE RICHARDS

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 37 | Gene expression profiles in psoriasis: analysis of impact of body site location and clinical severity.<br>British Journal of Dermatology, 2005, 152, 489-504.   | 1.5 | 35        |
| 38 | Response of the hypothalamic-pituitary-adrenal axis to psychological stress in patients with psoriasis.<br>British Journal of Dermatology, 2005, 153, 1114-1120.  | 1.5 | 105       |
| 39 | Illness beliefs of patients on home parenteral nutrition (HPN) and their relation to emotional distress. Clinical Nutrition, 2005, 24, 896-903.   | 5.0 | 23        |
| 40 | Worry and Pathological Worry in Patients with Psoriasis: Cross Sectional and Longitudinal Analyses<br>of the Penn State Worry Questionnaire (PSWQ) in Four Samples of Patients. Journal of Clinical<br>Psychology in Medical Settings, 2005, 12, 143-152. | 1.4 | 9         |
| 41 | Psychologic Factors in Psoriasis: Consequences, Mechanisms, and Interventions. Dermatologic Clinics, 2005, 23, 681-694.   | 1.7 | 212       |
| 42 | Adversarial growth in patients undergoing treatment for psoriasis: A prospective study of the ability of patients to construe benefits from negative events. Psychology, Health and Medicine, 2005, 10, 44-56.  | 2.4 | 26        |
| 43 | Alexithymia in patients with psoriasis. Journal of Psychosomatic Research, 2005, 58, 89-96.   | 2.6 | 73        |
| 44 | Glucocorticoid Sensitivity Is Determined by a Specific Glucocorticoid Receptor Haplotype. Journal of<br>Clinical Endocrinology and Metabolism, 2004, 89, 892-897.   | 3.6 | 163       |
| 45 | A COGNITIVE BEHAVIOUR THERAPY GROUP FOR PATIENTS WITH CHRONIC FATIGUE SYNDROME: A PRELIMINARY INVESTIGATION. Behavioural and Cognitive Psychotherapy, 2004, 32, 107-112.  | 1.2 | 6         |
| 46 | Detection of psychological distress in patients with psoriasis: low consensus between dermatologist and patient. British Journal of Dermatology, 2004, 151, 1227-1233.  | 1.5 | 116       |
| 47 | Successful treatment of psoriasis improves psoriasis-specific but not more general aspects of patients' well-being. British Journal of Dermatology, 2004, 151, 1219-1226.   | 1.5 | 68        |
| 48 | Divergent Beliefs About Psoriasis Are Associated with Increased Psychological Distress. Journal of<br>Investigative Dermatology, 2004, 123, 49-56.  | 0.7 | 50        |
| 49 | Macrophage Migration Inhibitory Factor Gene Polymorphism is Associated with Psoriasis. Journal of<br>Investigative Dermatology, 2004, 123, 484-487.   | 0.7 | 74        |
| 50 | Targeting cognitiveâ€behaviour therapy to patients' implicit model of psoriasis: Results from a patient preference controlled trial. British Journal of Clinical Psychology, 2004, 43, 65-82.   | 3.5 | 97        |
| 51 | Psychological adjustment to systemic sclerosis—exploring the association of disease factors,<br>functional ability, body related attitudes and fear of negative evaluation. Psychology, Health and<br>Medicine, 2004, 9, 29-39.                           | 2.4 | 24        |
| 52 | The impact of psychological and clinical factors on quality of life in individuals with atopic dermatitis. Journal of Psychosomatic Research, 2004, 57, 195-200.  | 2.6 | 127       |
| 53 | Attentional bias for psoriasis-specific and psychosocial threat in patients with psoriasis. Journal of Behavioral Medicine, 2003, 26, 211-224.  | 2.1 | 46        |
| 54 | Systemic sclerosis: Patients' perceptions of their condition. Arthritis and Rheumatism, 2003, 49, 689-696.  | 6.7 | 85        |
