#	ARTICLE	IF	CITATIONS
1	Patient centered goal-setting in a subacute rehabilitation setting. <i>Disability and Rehabilitation</i> , 2010, 32, 159-172.	1.8	187
2	A qualitative study of the transition from hospital to home for individuals with acquired brain injury and their family caregivers. <i>Brain Injury</i> , 2007, 21, 1119-1130.	1.2	113
3	Qualitative Exploration of a Client-Centered, Goal-Directed Approach to Community-Based Occupational Therapy for Adults With Traumatic Brain Injury. <i>American Journal of Occupational Therapy</i> , 2009, 63, 559-568.	0.3	94
4	The transition from hospital to home for individuals with acquired brain injury: A literature review and research recommendations. <i>Disability and Rehabilitation</i> , 2008, 30, 1153-1176.	1.8	86
5	Aphasia LIFT: Exploratory investigation of an intensive comprehensive aphasia programme. <i>Aphasiology</i> , 2013, 27, 1339-1361.	2.2	63
6	Clinical Utility of the Combined Use of the Canadian Occupational Performance Measure and Goal Attainment Scaling. <i>American Journal of Occupational Therapy</i> , 2010, 64, 904-914.	0.3	63
7	Perceived service and support needs during transition from hospital to home following acquired brain injury. <i>Disability and Rehabilitation</i> , 2011, 33, 818-829.	1.8	60
8	Systematic Review of Behavioral Interventions Targeting Social Communication Difficulties After Traumatic Brain Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 1352-1365.	0.9	60
9	The use of tracheostomy speaking valves in mechanically ventilated patients results in improved communication and does not prolong ventilation time in cardiothoracic intensive care unit patients. <i>Journal of Critical Care</i> , 2015, 30, 491-494.	2.2	58
10	Long-term Functional Outcomes and Patient Perspective Following Altered Fractionation Radiotherapy with Concomitant Boost for Oropharyngeal Cancer. <i>Dysphagia</i> , 2012, 27, 481-490.	1.8	50
11	Does Enhanced Primary Care enhance primary care? Policy-induced dilemmas for allied health professionals. <i>Medical Journal of Australia</i> , 2008, 188, 29-32.	1.7	46
12	Predictors of health-related quality of life in people with a complex chronic disease including multimorbidity: a longitudinal cohort study. <i>Quality of Life Research</i> , 2016, 25, 2579-2592.	3.1	45
13	The short- and long-term effectiveness of the LSVT® for dysarthria following TBI and stroke. <i>Brain Injury</i> , 2008, 22, 339-352.	1.2	42
14	Reengagement in Meaningful Occupations During the Transition From Hospital to Home for People With Acquired Brain Injury and Their Family Caregivers. <i>American Journal of Occupational Therapy</i> , 2009, 63, 609-620.	0.3	42
15	Identifying Factors Associated With Perceived Success in the Transition From Hospital to Home After Brain Injury. <i>Journal of Head Trauma Rehabilitation</i> , 2012, 27, 143-153.	1.7	41
16	Goal-directed outpatient rehabilitation following TBI: A pilot study of programme effectiveness and comparison of outcomes in home and day hospital settings. <i>Brain Injury</i> , 2011, 25, 1114-1125.	1.2	39
17	Linked Lives: The Experiences of Family Caregivers During the Transition from Hospital to Home Following Traumatic Brain Injury. <i>Brain Impairment</i> , 2012, 13, 108-122.	0.7	37
18	Brain injury rehabilitation: The lived experience of inpatients and their family caregivers. <i>Scandinavian Journal of Occupational Therapy</i> , 2012, 19, 184-193.	1.7	36

#	ARTICLE	IF	CITATIONS
19	Dysarthria and dysphagia as long-term sequelae in a child treated for posterior fossa tumour. <i>Developmental Neurorehabilitation</i> , 2003, 6, 67-75.	1.1	34
20	Caregivers of Adults With Traumatic Brain Injury: The Emotional Impact of Transition From Hospital to Home. <i>Brain Impairment</i> , 2010, 11, 281-292.	0.7	33
21	A comparison of client and therapist goals for people with aphasia: A qualitative exploratory study. <i>Aphasiology</i> , 2012, 26, 1298-1315.	2.2	32
22	Reflections on life: Experiences of individuals with brain injury during the transition from hospital to home. <i>Brain Injury</i> , 2013, 27, 1294-1303.	1.2	32
23	Remediation of social communication impairments following traumatic brain injury using metacognitive strategy intervention: a pilot study. <i>Brain Injury</i> , 2017, 31, 1830-1839.	1.2	31
24	Delivering occupational therapy hand assessment and treatment sessions via telehealth. <i>Journal of Telemedicine and Telecare</i> , 2018, 24, 185-192.	2.7	31
25	Perceptions of recovery during the early transition phase from hospital to home following acquired brain injury: A journey of discovery. <i>Neuropsychological Rehabilitation</i> , 2011, 21, 64-91.	1.6	30
26	A Prospective Investigation of Swallowing, Nutrition, and Patient-rated Functional Impact Following Altered Fractionation Radiotherapy with Concomitant Boost for Oropharyngeal Cancer. <i>Dysphagia</i> , 2012, 27, 32-45.	1.8	30
27	Social participation following right hemisphere stroke: influence of a cognitive-communication disorder. <i>Aphasiology</i> , 2018, 32, 164-182.	2.2	30
28	Comparison of rehabilitation outcomes in day hospital and home settings for people with acquired brain injury – a systematic review. <i>Disability and Rehabilitation</i> , 2010, 32, 2061-2077.	1.8	29
29	Care and support needs of patients and carers early post-discharge following treatment for non-malignant brain tumour: establishing a new reality. <i>Supportive Care in Cancer</i> , 2012, 20, 2595-2610.	2.2	29
30	Better than nothing? Restrictions and realities of enhanced primary care for allied health practitioners. <i>Australian Journal of Primary Health</i> , 2009, 15, 326.	0.9	28
31	Intervention for lateral /s/ using electropalatography (EPG) biofeedback and an intensive motor learning approach: a case report. <i>International Journal of Language and Communication Disorders</i> , 2008, 43, 219-229.	1.5	27
32	Profiling early outcomes during the transition from hospital to home after brain injury. <i>Brain Injury</i> , 2009, 23, 51-60.	1.2	27
33	Impact of Enhanced Primary Care on equitable access to and economic efficiency of allied health services: a qualitative investigation. <i>Australian Health Review</i> , 2010, 34, 30.	1.1	27
34	Development of Depressive Symptoms During Early Community Reintegration After Traumatic Brain Injury. <i>Journal of the International Neuropsychological Society</i> , 2011, 17, 112-119.	1.8	27
35	The Effect of Environmental Barriers on Community Integration for Individuals With Moderate to Severe Traumatic Brain Injury. <i>Journal of Head Trauma Rehabilitation</i> , 2014, 29, 125-135.	1.7	25
36	Abdominal Binder Improves Lung Volumes and Voice in People With Tetraplegic Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 2189-2197.	0.9	24

#	ARTICLE	IF	CITATIONS
37	Patterns of return to oral intake and decannulation post-tracheostomy across clinical populations in an acute inpatient setting. <i>International Journal of Language and Communication Disorders</i> , 2016, 51, 556-567.	1.5	24
38	Development and construct validation of the Client-Centredness of Goal Setting (C-COGS) scale. <i>Scandinavian Journal of Occupational Therapy</i> , 2015, 22, 302-310.	1.7	23
39	Comparing the experience of outpatient therapy in home and day hospital settings after traumatic brain injury: patient, significant other and therapist perspectives. <i>Disability and Rehabilitation</i> , 2011, 33, 1203-1214.	1.8	22
40	Physiological Characteristics of Dysphagia Following Thermal Burn Injury. <i>Dysphagia</i> , 2012, 27, 370-383.	1.8	21
41	Impact of nasogastric tubes on swallowing physiology in older, healthy subjects: A randomized controlled crossover trial. <i>Clinical Nutrition</i> , 2015, 34, 572-578.	5.0	21
42	Cognitive-communication disorder following right hemisphere stroke: exploring rehabilitation access and outcomes.. <i>Topics in Stroke Rehabilitation</i> , 2017, 24, 330-336.	1.9	21
43	Understanding Dysphagia Care in the Community Setting. <i>Dysphagia</i> , 2019, 34, 681-691.	1.8	21
44	Development of Self-Awareness After Severe Traumatic Brain Injury Through Participation in Occupation-Based Rehabilitation: Mixed-Methods Analysis of a Case Series. <i>American Journal of Occupational Therapy</i> , 2014, 68, 578-588.	0.3	21
45	Recording sentinel events in the life course of individuals with acquired brain injury: A preliminary study. <i>Brain Injury</i> , 2012, 26, 1381-1396.	1.2	19
46	Ventilation distribution and lung recruitment with speaking valve use in tracheostomised patient weaning from mechanical ventilation in intensive care. <i>Journal of Critical Care</i> , 2017, 40, 164-170.	2.2	19
47	Clinical indicators associated with successful tracheostomy cuff deflation. <i>Australian Critical Care</i> , 2016, 29, 132-137.	1.3	18
48	Speech pathologists and professional interpreters managing culturally and linguistically diverse adults with communication disorders: a systematic review. <i>International Journal of Language and Communication Disorders</i> , 2019, 54, 689-704.	1.5	16
49	Effectiveness of Lee Silverman Voice Treatment (LSVT)® on hypernasality in non-progressive dysarthria: the need for further research. <i>International Journal of Language and Communication Disorders</i> , 2010, 45, 31-46.	1.5	14
50	Dysphagia Management Practices Among Speech-Language Pathologists in Malaysia. <i>Asia Pacific Journal of Speech Language and Hearing</i> , 2012, 15, 111-128.	0.2	14
51	Swallowing, nutrition and patient-rated functional outcomes at 6 months following two non-surgical treatments for T1-T3 oropharyngeal cancer. <i>Supportive Care in Cancer</i> , 2012, 20, 2073-2081.	2.2	12
52	Tracheostomy Tube Type and Inner Cannula Selection Impact Pressure and Resistance to Air Flow. <i>Respiratory Care</i> , 2016, 61, 607-614.	1.6	12
53	Prospective Memory After Stroke: A Scoping Review. <i>Brain Impairment</i> , 2016, 17, 123-142.	0.7	11
54	Sentinel Events During the Transition From Hospital to Home: A Longitudinal Study of Women With Traumatic Brain Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, S46-S53.	0.9	11

#	ARTICLE	IF	CITATIONS
55	Evaluating the Feasibility and Validity of Using Trained Allied Health Assistants to Assist in Mealtime Monitoring of Dysphagic Patients. <i>Dysphagia</i> , 2019, 34, 350-359.	1.8	11
56	An exploration of goal-setting practices in Queensland rehabilitation services. <i>Disability and Rehabilitation</i> , 2022, 44, 4368-4378.	1.8	11
57	STRENGTH and the Health Care Team: Changing Interprofessional and Client-Centered Practices. <i>Topics in Stroke Rehabilitation</i> , 2014, 21, 413-420.	1.9	10
58	Living with Dysphagia in the Community: Caregivers "do whatever it takes." <i>Dysphagia</i> , 2021, 36, 108-119.	1.8	10
59	Client perspectives on living with dysphagia in the community. <i>International Journal of Speech-Language Pathology</i> , 2021, 23, 201-212.	1.2	10
60	Acoustic Investigation of Vocal Quality following Treatment for Childhood Cerebellar Tumour. <i>Folia Phoniatrica Et Logopaedica</i> , 2004, 56, 93-107.	1.1	9
61	Supporting the Needs of Young Adults With Acquired Brain Injury During Transition From Hospital to Home: The Queensland Service Provider Perspective. <i>Brain Impairment</i> , 2009, 10, 325-340.	0.7	9
62	Impact of voice and communication deficits for individuals with cervical spinal cord injury living in the community. <i>International Journal of Language and Communication Disorders</i> , 2016, 51, 568-580.	1.5	9
63	Health-related quality of life of people with multimorbidity at a community-based, interprofessional student-assisted clinic: Implications for assessment and intervention. <i>Chronic Illness</i> , 2018, 14, 169-181.	1.5	9
64	Relationship and Social Network Change in People With Impaired Social Cognition Post Right Hemisphere Stroke. <i>American Journal of Speech-Language Pathology</i> , 2021, 30, 962-973.	1.8	9
65	Return to driving in the first 6 months of community integration after acquired brain injury. <i>NeuroRehabilitation</i> , 2014, 34, 157-166.	1.3	8
66	Accuracy and confidence of allied health assistants administering the subjective global assessment on inpatients in a rural setting: a preliminary feasibility study. <i>Nutrition and Dietetics</i> , 2018, 75, 129-136.	1.8	8
67	Pre-discharge home visits: A qualitative exploration of the experience of occupational therapists and multidisciplinary stakeholders. <i>Australian Occupational Therapy Journal</i> , 2019, 66, 249-257.	1.1	8
68	Delegation models in dysphagia management: Current policy, clinical perceptions and practice patterns. <i>International Journal of Speech-Language Pathology</i> , 2020, 22, 163-173.	1.2	8
69	Reliability of the Client-Centeredness of Goal Setting (C-COGS) Scale in Acquired Brain Injury Rehabilitation. <i>American Journal of Occupational Therapy</i> , 2016, 70, 7004290010p1-7004290010p8.	0.3	8
70	Treating dysarthria following traumatic brain injury: Investigating the benefits of commencing treatment during post-traumatic amnesia in two participants. <i>Brain Injury</i> , 2006, 20, 1307-1319.	1.2	7
71	Examining nurse-led dysphagia screening tools in the general medical hospital population. <i>Speech, Language and Hearing</i> , 2017, 20, 29-37.	1.0	7
72	Post-acute hospital healthcare services for people with mild stroke: a scoping review. <i>Topics in Stroke Rehabilitation</i> , 2017, 24, 288-298.	1.9	7

#	ARTICLE	IF	CITATIONS
73	Dysphagia care for adults in the community setting commands a different approach: perspectives of speech-language therapists. <i>International Journal of Language and Communication Disorders</i> , 2019, 54, 971-981.	1.5	7
74	Prevalence of active foot disease and foot disease risk factors in a subacute inpatient rehabilitation facility: a cross-sectional prevalence study. <i>Journal of Foot and Ankle Research</i> , 2014, 7, 41.	1.9	6
75	The lived experience of supporting people with mild stroke. <i>Scandinavian Journal of Occupational Therapy</i> , 2020, 27, 184-193.	1.7	6
76	Assessment of prospective memory after stroke utilizing virtual reality. <i>Virtual Reality</i> , 2023, 27, 333-346.	6.1	6
77	Impact of an Abdominal Binder on Speech Outcomes in People With Tetraplegic Spinal Cord Injury: Perceptual and Acoustic Measures. <i>Topics in Spinal Cord Injury Rehabilitation</i> , 2014, 20, 48-57.	1.8	6
78	Developing tailored theoretically informed goal-setting interventions for rehabilitation services: a co-design approach. <i>BMC Health Services Research</i> , 2022, 22, .	2.2	6
79	The Assessment and Prediction of Prospective Memory after Stroke. <i>Journal of the International Neuropsychological Society</i> , 2020, 26, 873-882.	1.8	5
80	Differential motor speech outcomes in children treated for mid-line cerebellar tumour. <i>Brain Injury</i> , 2005, 19, 119-134.	1.2	4
81	Charting the recovery of dysphagia in two complex cases of post-thermal burn injury: Physiological characteristics and functional outcomes. <i>Speech, Language and Hearing</i> , 2015, 18, 204-211.	1.0	4
82	Establishing phonation using the Blom-Åtracheostomy tube system: A report of three cases post cervical spinal cord injury. <i>Speech, Language and Hearing</i> , 2016, 19, 227-237.	1.0	4
83	Unveiling the complexities of mild stroke: An interpretative phenomenological analysis of the mild stroke experience. <i>Australian Occupational Therapy Journal</i> , 2019, 66, 656-664.	1.1	4
84	“Just got to live life as it comes” A case study of the spousal-dyad longitudinal mild stroke transitional experience. <i>Brain Injury</i> , 2019, 33, 1200-1207.	1.2	4
85	Speech-language pathology services for Indigenous Australian adults with acquired communication disorders: a systematic quantitative literature review. <i>Speech, Language and Hearing</i> , 2020, 23, 79-90.	1.0	4
86	Dysphagia screening using an allied health assistant delegation model: service considerations for implementation. <i>Disability and Rehabilitation</i> , 2020, , 1-9.	1.8	4
87	Does metacognitive strategy instruction improve impaired self-awareness in adults with cognitive-communication disorders following an acquired brain injury?. <i>Speech, Language and Hearing</i> , 2022, 25, 125-137.	1.0	4
88	Self-reported prospective memory after stroke. <i>Neuropsychological Rehabilitation</i> , 2021, 31, 1190-1206.	1.6	4
89	Setting a prioritized agenda to drive speech-language therapy research in health. <i>International Journal of Language and Communication Disorders</i> , 2021, 56, 768-783.	1.5	4
90	Occupational engagement following mild stroke in the Australian context using the occupational gaps questionnaire. <i>Scandinavian Journal of Occupational Therapy</i> , 2021, 28, 384-390.	1.7	4

#	ARTICLE	IF	CITATIONS
91	Can goal attainment scaling (GAS) accurately identify changes in social communication impairments following TBI?. <i>Speech, Language and Hearing</i> , 2019, 22, 183-194.	1.0	3
92	Clinical profile of Aboriginal and Torres Strait Islander adults with stroke and traumatic brain injury at a regional Australian hospital: a retrospective chart audit. <i>Brain Impairment</i> , 2021, 22, 281-293.	0.7	3
93	Exploring the Validity and Operational Impact of Using Allied Health Assistants to Conduct Dysphagia Screening for Low-Risk Patients Within the Acute Hospital Setting. <i>American Journal of Speech-Language Pathology</i> , 2020, 29, 1944-1955.	1.8	3
94	Experiences of communication changes following spinal cord injury: a qualitative analysis. <i>Disability and Rehabilitation</i> , 2020, 42, 2271-2278.	1.8	2
95	The impact of using implementation intentions as task instructions on prospective memory performance after stroke. <i>Neuropsychological Rehabilitation</i> , 2023, 33, 239-254.	1.6	2
96	Speech outcomes following brainstem tumour in childhood. <i>Asia Pacific Journal of Speech Language and Hearing</i> , 2001, 6, 21-32.	0.2	1
97	Test item priorities for a screening tool to identify cognitive-communication disorder after right hemisphere stroke. <i>Aphasiology</i> , 2022, 36, 669-686.	2.2	1
98	Prospective Memory After Stroke: A Scoping Review – CORRIGENDUM. <i>Brain Impairment</i> , 2018, 19, 352-357.	0.7	0
99	Reproducibility, longitudinal validity and interpretability of the Disease Burden Morbidity Assessment in people with chronic disease. <i>Chronic Illness</i> , 2018, 14, 310-325.	1.5	0
100	Assessment and rehabilitation of acquired communication disorders in Aboriginal and Torres Strait Islander adults with stroke or traumatic brain injury: a retrospective chart review. <i>Disability and Rehabilitation</i> , 2022, , 1-11.	1.8	0
