#	ARTICLE	IF	CITATIONS
1	Problematic smartphone use: A conceptual overview and systematic review of relations with anxiety and depression psychopathology. <i>Journal of Affective Disorders</i> , 2017, 207, 251-259.	4.1	862
2	Fear of missing out, need for touch, anxiety and depression are related to problematic smartphone use. <i>Computers in Human Behavior</i> , 2016, 63, 509-516.	8.5	543
3	Poly-Victimization and Risk of Posttraumatic, Depressive, and Substance Use Disorders and Involvement in Delinquency in a National Sample of Adolescents. <i>Journal of Adolescent Health</i> , 2010, 46, 545-552.	2.5	498
4	Which instruments are most commonly used to assess traumatic event exposure and posttraumatic effects?: A survey of traumatic stress professionals. <i>Journal of Traumatic Stress</i> , 2005, 18, 541-545.	1.8	351
5	Problematic smartphone use and relations with negative affect, fear of missing out, and fear of negative and positive evaluation. <i>Psychiatry Research</i> , 2018, 262, 618-623.	3.3	331
6	Dimensional structure of DSM-5 posttraumatic stress symptoms: Support for a hybrid Anhedonia and Externalizing Behaviors model. <i>Journal of Psychiatric Research</i> , 2015, 61, 106-113.	3.1	273
7	Current directions in videoconferencing tele-mental health research.. <i>Clinical Psychology: Science and Practice</i> , 2009, 16, 323-338.	0.9	261
8	Evidence for a unique PTSD construct represented by PTSD's D1â€“D3 symptoms. <i>Journal of Anxiety Disorders</i> , 2011, 25, 340-345.	3.2	247
9	A systematic literature review of PTSD's latent structure in the Diagnostic and Statistical Manual of Mental Disorders: DSM-IV to DSM-5. <i>Clinical Psychology Review</i> , 2016, 44, 60-74.	11.4	242
10	The factor structure of posttraumatic stress disorder: A literature update, critique of methodology, and agenda for future research. <i>Journal of Anxiety Disorders</i> , 2011, 25, 849-854.	3.2	226
11	COVID-19 anxiety symptoms associated with problematic smartphone use severity in Chinese adults. <i>Journal of Affective Disorders</i> , 2020, 274, 576-582.	4.1	223
12	Non-social features of smartphone use are most related to depression, anxiety and problematic smartphone use. <i>Computers in Human Behavior</i> , 2017, 69, 75-82.	8.5	211
13	The underlying dimensions of DSM-5 posttraumatic stress disorder symptoms in an epidemiological sample of Chinese earthquake survivors. <i>Journal of Anxiety Disorders</i> , 2014, 28, 345-351.	3.2	208
14	Coping style use predicts posttraumatic stress and complicated grief symptom severity among college students reporting a traumatic loss.. <i>Journal of Counseling Psychology</i> , 2007, 54, 344-350.	2.0	202
15	The association between problematic smartphone use, depression and anxiety symptom severity, and objectively measured smartphone use over one week. <i>Computers in Human Behavior</i> , 2018, 87, 10-17.	8.5	201
16	Reliability and validity of the Attitudes Toward Seeking Professional Psychological Help Scale-Short Form. <i>Psychiatry Research</i> , 2008, 159, 320-329.	3.3	195
17	Posttraumatic stress disorder in DSM-5: Estimates of prevalence and symptom structure in a nonclinical sample of college students. <i>Journal of Anxiety Disorders</i> , 2012, 26, 58-64.	3.2	191
18	Fear of missing out: Testing relationships with negative affectivity, online social engagement, and problematic smartphone use. <i>Computers in Human Behavior</i> , 2018, 89, 289-298.	8.5	185

#	ARTICLE	IF	CITATIONS
19	The relationship between anxiety symptom severity and problematic smartphone use: A review of the literature and conceptual frameworks. <i>Journal of Anxiety Disorders</i> , 2019, 62, 45-52.	3.2	179
20	Empirical Examination of a Proposed Refinement to DSM-IV Posttraumatic Stress Disorder Symptom Criteria Using the National Comorbidity Survey Replication Data. <i>Journal of Clinical Psychiatry</i> , 2008, 69, 597-602.	2.2	177
21	Depression and emotion regulation predict objective smartphone use measured over one week. <i>Personality and Individual Differences</i> , 2018, 133, 21-28.	2.9	168
22	Fear of missing out (FoMO) and rumination mediate relations between social anxiety and problematic Facebook use. <i>Addictive Behaviors Reports</i> , 2019, 9, 100150.	1.9	158
23	Depression and anxiety symptoms are related to problematic smartphone use severity in Chinese young adults: Fear of missing out as a mediator. <i>Addictive Behaviors</i> , 2020, 101, 105962.	3.0	158
24	Anhedonia and emotional numbing in combat veterans with PTSD. <i>Behaviour Research and Therapy</i> , 2006, 44, 457-467.	3.1	157
25	Construct validity and factor structure of the difficulties in Emotion Regulation Scale among adults with severe mental illness. <i>Journal of Psychiatric Research</i> , 2014, 58, 175-180.	3.1	145
26	Documented combat exposure of US veterans seeking treatment for combat-related post-traumatic stress disorder. <i>British Journal of Psychiatry</i> , 2005, 186, 467-472.	2.8	137
27	Depression and social anxiety in relation to problematic smartphone use. <i>Internet Research</i> , 2018, 28, 315-332.	4.9	137
28	Exposure-based cognitive-behavioral treatment of PTSD in adults with schizophrenia or schizoaffective disorder: A pilot study. <i>Journal of Anxiety Disorders</i> , 2009, 23, 665-675.	3.2	135
29	Subthreshold PTSD in Primary Care. <i>Journal of Nervous and Mental Disease</i> , 2005, 193, 658-664.	1.0	133
30	UTILITY OF THE DIMENSIONS OF ANGER REACTIONS-5 (DAR-5) SCALE AS A BRIEF ANGER MEASURE. <i>Depression and Anxiety</i> , 2014, 31, 166-173.	4.1	129
31	Fear of Missing Out (FoMO) and social media's impact on daily-life and productivity at work: Do WhatsApp, Facebook, Instagram, and Snapchat Use Disorders mediate that association?. <i>Addictive Behaviors</i> , 2020, 110, 106487.	3.0	124
32	Proneness to Boredom Mediates Relationships Between Problematic Smartphone Use With Depression and Anxiety Severity. <i>Social Science Computer Review</i> , 2018, 36, 707-720.	4.2	122
33	Fear of missing out (FOMO): overview, theoretical underpinnings, and literature review on relations with severity of negative affectivity and problematic technology use. <i>Revista Brasileira De Psiquiatria</i> , 2021, 43, 203-209.	1.7	122
34	What do psychotherapists really do in practice? An Internet study of over 2,000 practitioners.. <i>Psychotherapy</i> , 2010, 47, 260-267.	1.2	118
35	On the Psychology of TikTok Use: A First Glimpse From Empirical Findings. <i>Frontiers in Public Health</i> , 2021, 9, 641673.	2.7	115
36	Disability Compensation Seeking Among Veterans Evaluated for Posttraumatic Stress Disorder. <i>Psychiatric Services</i> , 2003, 54, 84-91.	2.0	113

#	ARTICLE	IF	CITATIONS
37	Health service use predictors among trauma survivors: A critical review.. <i>Psychological Services</i> , 2005, 2, 3-19.	1.5	112
38	Psychometric Properties of the UCLA PTSD Reaction Index. Part II: Investigating Factor Structure Findings in a National Clinicâ€Referred Youth Sample. <i>Journal of Traumatic Stress</i> , 2013, 26, 10-18.	1.8	111
39	DSM-5 PTSD's symptom dimensions and relations with major depression's symptom dimensions in a primary care sample. <i>Psychiatry Research</i> , 2014, 215, 146-153.	3.3	109
40	Distress tolerance and mindfulness mediate relations between depression and anxiety sensitivity with problematic smartphone use. <i>Computers in Human Behavior</i> , 2018, 84, 477-484.	8.5	105
41	Depression, anxiety and fear of missing out as correlates of social, non-social and problematic smartphone use. <i>Addictive Behaviors</i> , 2020, 105, 106335.	3.0	101
42	The factor structure of major depression symptoms: A test of four competing models using the Patient Health Questionnaire-9. <i>Psychiatry Research</i> , 2012, 199, 169-173.	3.3	99
43	Boredom proneness and fear of missing out mediate relations between depression and anxiety with problematic smartphone use. <i>Human Behavior and Emerging Technologies</i> , 2020, 2, 61-70.	4.4	99
44	Social anxiety and disinhibition: An analysis of curiosity and social rank appraisals, approachâ€ avoidance conflicts, and disruptive risk-taking behavior. <i>Journal of Anxiety Disorders</i> , 2008, 22, 925-939.	3.2	98
45	Statistical procedures for analyzing mental health services data. <i>Psychiatry Research</i> , 2008, 160, 129-136.	3.3	98
46	Anxiety regarding contracting COVID-19 related to interoceptive anxiety sensations: The moderating role of disgust propensity and sensitivity. <i>Journal of Anxiety Disorders</i> , 2020, 73, 102233.	3.2	95
47	Testing whether posttraumatic stress disorder and major depressive disorder are similar or unique constructs. <i>Journal of Anxiety Disorders</i> , 2011, 25, 404-410.	3.2	94
48	US Department of Veterans Affairs Disability Policies for Posttraumatic Stress Disorder: Administrative Trends and Implications for Treatment, Rehabilitation, and Research. <i>American Journal of Public Health</i> , 2007, 97, 2143-2145.	2.7	92
49	A Pilot Study of Functional Magnetic Resonance Imaging Brain Correlates of Deception in Healthy Young Men. <i>Journal of Neuropsychiatry and Clinical Neurosciences</i> , 2004, 16, 295-305.	1.8	91
50	The influence of depressive symptoms and fear of missing out on severity of problematic smartphone use and Internet gaming disorder among Chinese young adults: A three-wave mediation model. <i>Addictive Behaviors</i> , 2021, 112, 106648.	3.0	87
51	A new agenda for personality psychology in the digital age?. <i>Personality and Individual Differences</i> , 2019, 147, 128-134.	2.9	85
52	Psychometric properties of the PTSD Checklist with older primary care patients. <i>Journal of Traumatic Stress</i> , 2005, 18, 371-376.	1.8	83
53	Attitudes Toward Medical and Mental Health Care Delivered Via Telehealth Applications Among Rural and Urban Primary Care Patients. <i>Journal of Nervous and Mental Disease</i> , 2008, 196, 166-170.	1.0	83
54	Assessing a five factor model of PTSD: Is dysphoric arousal a unique PTSD construct showing differential relationships with anxiety and depression?. <i>Journal of Anxiety Disorders</i> , 2012, 26, 368-376.	3.2	83

#	ARTICLE	IF	CITATIONS
55	Differences in posttraumatic stress disorder diagnostic rates and symptom severity between Criterion A1 and non-Criterion A1 stressors. <i>Journal of Anxiety Disorders</i> , 2008, 22, 1255-1263.	3.2	79
56	Screening for PTSD in public-sector mental health settings: the diagnostic utility of the PTSD checklist. <i>Depression and Anxiety</i> , 2007, 24, 124-129.	4.1	78
57	Assessing posttraumatic stress disorder with or without reference to a single, worst traumatic event: Examining differences in factor structure.. <i>Psychological Assessment</i> , 2009, 21, 629-634.	1.5	78
58	Personality Associations With Smartphone and Internet Use Disorder: A Comparison Study Including Links to Impulsivity and Social Anxiety. <i>Frontiers in Public Health</i> , 2019, 7, 127.	2.7	78
59	Worry and anger are associated with latent classes of problematic smartphone use severity among college students. <i>Journal of Affective Disorders</i> , 2019, 246, 209-216.	4.1	78
60	Correlates of Mental Health Service Use Intensity in the National Comorbidity Survey and National Comorbidity Survey Replication. <i>Psychiatric Services</i> , 2007, 58, 1108-1115.	2.0	76
61	Therapist Adherence and Competence With Manualized Cognitive-Behavioral Therapy for PTSD Delivered via Videoconferencing Technology. <i>Behavior Modification</i> , 2007, 31, 856-866.	1.6	76
62	Trauma Professionals' Attitudes Toward and Utilization of Evidence-Based Practices. <i>Behavior Modification</i> , 2007, 31, 732-748.	1.6	75
63	Latent profile analyses of posttraumatic stress disorder, depression and generalized anxiety disorder symptoms in trauma-exposed soldiers. <i>Journal of Psychiatric Research</i> , 2015, 68, 19-26.	3.1	74
64	Imagery rescripting and exposure group treatment of posttraumatic nightmares in Veterans with PTSD. <i>Journal of Anxiety Disorders</i> , 2011, 25, 531-535.	3.2	71
65	Non-social smartphone use mediates the relationship between intolerance of uncertainty and problematic smartphone use: Evidence from a repeated-measures study. <i>Computers in Human Behavior</i> , 2019, 96, 56-62.	8.5	71
66	Diagnostic alterations for post-traumatic stress disorder: examining data from the National Comorbidity Survey Replication and National Survey of Adolescents. <i>Psychological Medicine</i> , 2009, 39, 1957-1966.	4.5	70
67	The relationship between rumination, PTSD, and depression symptoms. <i>Journal of Affective Disorders</i> , 2015, 180, 116-121.	4.1	70
68	The DSM-5 dissociative-PTSD subtype: Can levels of depression, anxiety, hostility, and sleeping difficulties differentiate between dissociative-PTSD and PTSD in rape and sexual assault victims?. <i>Journal of Anxiety Disorders</i> , 2014, 28, 418-426.	3.2	69
69	Examining the links between active Facebook use, received likes, self-esteem and happiness: A study using objective social media data. <i>Telematics and Informatics</i> , 2021, 58, 101523.	5.8	69
70	Factor Structure of the PTSD Checklist for DSM-5. <i>Journal of Nervous and Mental Disease</i> , 2016, 204, 108-115.	1.0	68
71	Fear of missing out is associated with disrupted activities from receiving smartphone notifications and surface learning in college students. <i>Computers and Education</i> , 2019, 140, 103590.	8.3	68
72	The Detection of Malingered Posttraumatic Stress Disorder with MMPI-2 Fake Bad Indices. <i>Assessment</i> , 2001, 8, 221-236.	3.1	66

#	ARTICLE	IF	CITATIONS
73	Structural relations between DSM-5 PTSD and major depression symptoms in military soldiers. <i>Journal of Affective Disorders</i> , 2015, 175, 373-378.	4.1	66
74	Examining latent classes of smartphone users: Relations with psychopathology and problematic smartphone use. <i>Computers in Human Behavior</i> , 2018, 82, 159-166.	8.5	66
75	Individual differences in Fear of Missing Out (FoMO): Age, gender, and the Big Five personality trait domains, facets, and items. <i>Personality and Individual Differences</i> , 2021, 171, 110546.	2.9	64
76	Comparing alternative factor models of PTSD symptoms across earthquake victims and violent riot witnesses in China: Evidence for a five-factor model proposed by. <i>Journal of Anxiety Disorders</i> , 2011, 25, 771-776.	3.2	62
77	Cognitive- and Emotion-Related Dysfunctional Coping Processes: Transdiagnostic Mechanisms Explaining Depression and Anxiety's Relations with Problematic Smartphone Use. <i>Current Addiction Reports</i> , 2019, 6, 410-417.	3.4	62
78	Posttraumatic stress disorder, poor physical health and substance use behaviors in a national trauma-exposed sample. <i>Psychiatry Research</i> , 2011, 188, 390-395.	3.3	61
79	The 7-factor hybrid model of DSM-5 PTSD symptoms and alcohol consumption and consequences in a national sample of trauma-exposed veterans. <i>Journal of Anxiety Disorders</i> , 2017, 51, 14-21.	3.2	61
80	Health anxiety related to problematic smartphone use and gaming disorder severity during COVID-19: Fear of missing out as a mediator. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 137-146.	4.4	61
81	An examination of the construct validity of posttraumatic stress disorder with veterans using a revised criterion set. <i>Behaviour Research and Therapy</i> , 2010, 48, 909-914.	3.1	60
82	Refining Posttraumatic Stress Disorder Diagnosis. <i>Journal of Clinical Psychiatry</i> , 2009, 70, 748-755.	2.2	60
83	The Infrequency-Posttraumatic Stress Disorder Scale (Fptsd) for the MMPI-2: Development and Initial Validation With Veterans Presenting With Combat-Related PTSD. <i>Journal of Personality Assessment</i> , 2002, 79, 531-549.	2.1	59
84	Heterogeneity in the latent structure of PTSD symptoms among Canadian veterans.. <i>Psychological Assessment</i> , 2010, 22, 666-674.	1.5	59
85	Latent classes of childhood poly-victimization and associations with suicidal behavior among adult trauma victims: Moderating role of anger. <i>Child Abuse and Neglect</i> , 2016, 62, 19-28.	2.6	59
86	Using machine learning to model problematic smartphone use severity: The significant role of fear of missing out. <i>Addictive Behaviors</i> , 2020, 103, 106261.	3.0	59
87	The PTSD Symptom Scale's latent structure: An examination of trauma-exposed medical patients. <i>Journal of Anxiety Disorders</i> , 2008, 22, 1355-1368.	3.2	58
88	Do gender and age moderate the symptom structure of PTSD? Findings from a national clinical sample of children and adolescents. <i>Psychiatry Research</i> , 2013, 210, 1056-1064.	3.3	58
89	Internalizing and externalizing classes in posttraumatic stress disorder: A latent class analysis. <i>Journal of Traumatic Stress</i> , 2010, 23, 340-349.	1.8	57
90	Factor structure and diagnostic validity of the Beck Depression Inventory-II with adult clinical inpatients: Comparison to a gold-standard diagnostic interview.. <i>Psychological Assessment</i> , 2014, 26, 1106-1115.	1.5	57

#	ARTICLE	IF	CITATIONS
91	Affect and Exercise: Positive Affective Expectations Can Increase Post-Exercise Mood and Exercise Intentions. <i>Annals of Behavioral Medicine</i> , 2015, 49, 269-279.	2.9	56
92	Discriminant validity and gender differences in DSM-5 posttraumatic stress disorder symptoms. <i>Journal of Affective Disorders</i> , 2016, 190, 56-67.	4.1	56
93	Identification and posttraumatic stress disorder symptoms in rescue workers in the Marmara, Turkey, earthquake. <i>Journal of Traumatic Stress</i> , 2005, 18, 485-489.	1.8	55
94	Gender differences in the factor structure of posttraumatic stress disorder symptoms in war-exposed adolescents. <i>Journal of Anxiety Disorders</i> , 2011, 25, 604-611.	3.2	55
95	Underlying Dimensions of DSM-5 Posttraumatic Stress Disorder and Major Depressive Disorder Symptoms. <i>Psychological Injury and Law</i> , 2013, 6, 290-298.	1.6	55
96	Evaluation of the Dimensions of Anger Reactions-5 (DAR-5) Scale in combat veterans with posttraumatic stress disorder. <i>Journal of Anxiety Disorders</i> , 2014, 28, 830-835.	3.2	55
97	Discussing digital technology overuse in children and adolescents during the COVID-19 pandemic and beyond: On the importance of considering Affective Neuroscience Theory. <i>Addictive Behaviors Reports</i> , 2020, 12, 100313.	1.9	55
98	Persistent Complex Bereavement Disorder Symptom Domains Relate Differentially to PTSD and Depression: A Study of War-Exposed Bosnian Adolescents. <i>Journal of Abnormal Child Psychology</i> , 2016, 44, 1361-1373.	3.5	54
99	Sex differences in global and local connectivity of adolescent posttraumatic stress disorder symptoms. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 216-224.	5.2	54
100	Types of smartphone usage and relations with problematic smartphone behaviors: The role of content consumption vs. social smartphone use. <i>Cyberpsychology</i> , 2017, 11, .	1.5	54
101	A comparison of psychological/psychiatric symptomatology of women and men sexually abused as children. <i>Child Abuse and Neglect</i> , 1999, 23, 683-692.	2.6	53
102	Factor structure of PTSD, and relation with gender in trauma survivors from India. <i>HÅtgre Utbildning</i> , 2014, 5, 25547.	3.0	52
103	Cross-Validation of the MMPI-2 in Detecting Malingered Posttraumatic Stress Disorder. <i>Journal of Personality Assessment</i> , 2000, 75, 449-463.	2.1	51
104	Assessing the fit of the Dysphoric Arousal model across two nationally representative epidemiological surveys: The Australian NSMHWB and the United States NESARC. <i>Journal of Anxiety Disorders</i> , 2013, 27, 109-115.	3.2	51
105	PTSD's relation with problematic smartphone use: Mediating role of impulsivity. <i>Computers in Human Behavior</i> , 2017, 75, 177-183.	8.5	50
106	Comparing Smartphone, WhatsApp, Facebook, Instagram, and Snapchat: Which Platform Elicits the Greatest Use Disorder Symptoms?. <i>Cyberpsychology, Behavior, and Social Networking</i> , 2021, 24, 129-134.	3.9	49
107	Predictors of posttraumatic stress disorder, depression, and suicidal ideation among Canadian Forces personnel in a National Canadian Military Health Survey. <i>Journal of Psychiatric Research</i> , 2011, 45, 1483-1488.	3.1	48
108	Exploring the relationship between underlying dimensions of posttraumatic stress disorder and depression in a national, trauma-exposed military sample. <i>Journal of Affective Disorders</i> , 2011, 133, 477-480.	4.1	48

#	ARTICLE	IF	CITATIONS
109	Identifying latent profiles of posttraumatic stress and major depression symptoms in Canadian veterans: Exploring differences across profiles in health related functioning. <i>Psychiatry Research</i> , 2015, 228, 1-7.	3.3	48
110	Predicting tendencies towards the disordered use of Facebook's social media platforms: On the role of personality, impulsivity, and social anxiety. <i>Psychiatry Research</i> , 2020, 285, 112793.	3.3	48
111	Assessing Latent Level Associations Between PTSD and Dissociative Factors: Is Depersonalization and Derealization Related to PTSD Factors More So than Alternative Dissociative Factors?. <i>Psychological Injury and Law</i> , 2014, 7, 131-142.	1.6	47
112	Psychosocial interventions in the early phases of disasters.. <i>Psychotherapy</i> , 2004, 41, 399-411.	1.2	46
113	Outpatient medical and mental healthcare utilization models among military veterans: Results from the 2001 National Survey of Veterans. <i>Journal of Psychiatric Research</i> , 2008, 42, 858-867.	3.1	46
114	Latent-level relations between DSM-5 PTSD symptom clusters and problematic smartphone use. <i>Computers in Human Behavior</i> , 2017, 72, 170-177.	8.5	46
115	Emotion regulation in relation to smartphone use: Process smartphone use mediates the association between expressive suppression and problematic smartphone use. <i>Current Psychology</i> , 2021, 40, 3246-3255.	2.8	46
116	Age, gender, personality, ideological attitudes and individual differences in a person's news spectrum: how many and who might be prone to "filter bubbles" and "echo chambers" online?. <i>Heliyon</i> , 2020, 6, e03214.	3.2	46
117	MMPI-2F scale elevations in adult victims of child sexual abuse. <i>Journal of Traumatic Stress</i> , 2003, 16, 269-274.	1.8	45
118	An evaluation of the DSM-5 factor structure for posttraumatic stress disorder in survivors of traumatic injury. <i>Journal of Anxiety Disorders</i> , 2015, 29, 43-51.	3.2	44
119	Emotion regulation's relationships with depression, anxiety and stress due to imagined smartphone and social media loss. <i>Psychiatry Research</i> , 2018, 261, 28-34.	3.3	44
120	Social Anxiety and Positive Outcome Expectancies on Risk-Taking Behaviors. <i>Cognitive Therapy and Research</i> , 2006, 30, 749-761.	1.9	43
121	The SCID PTSD module's trauma screen: validity with two samples in detecting trauma history. <i>Depression and Anxiety</i> , 2008, 25, 737-741.	4.1	43
122	The association between the Big Five personality traits and smartphone use disorder: A meta-analysis. <i>Journal of Behavioral Addictions</i> , 2020, 9, 534-550.	3.7	43
123	Patterns of DSM-5 posttraumatic stress disorder and depression symptoms in an epidemiological sample of Chinese earthquake survivors: A latent profile analysis. <i>Journal of Affective Disorders</i> , 2015, 186, 58-65.	4.1	42
124	Associations between symptoms of problematic smartphone, Facebook, WhatsApp, and Instagram use: An item-level exploratory graph analysis perspective. <i>Journal of Behavioral Addictions</i> , 2020, 9, 686-697.	3.7	42
125	Association of PTSD and Depression With Medical and Specialist Care Utilization in Modern Peacekeeping Veterans in Canada With Health-Related Disabilities. <i>Journal of Clinical Psychiatry</i> , 2006, 67, 1240-1245.	2.2	41
126	Discriminating Malingered From Genuine Civilian Posttraumatic Stress Disorder. <i>Assessment</i> , 2004, 11, 139-144.	3.1	40

#	ARTICLE	IF	CITATIONS
127	Longitudinal invariance of posttraumatic stress disorder symptoms in adolescent earthquake survivors. <i>Journal of Anxiety Disorders</i> , 2012, 26, 263-270.	3.2	40
128	General distress is more important than PTSD's cognition and mood alterations factor in accounting for PTSD and depression's comorbidity. <i>Journal of Affective Disorders</i> , 2017, 211, 118-123.	4.1	40
