#	ARTICLE	IF	CITATIONS
1	Anxiety symptoms and problematic smartphone use severity among Chinese college students: The moderating role of social support. <i>Current Psychology</i> , 2023, 42, 2841-2849.	2.8	4
2	Relations between anxiety sensitivity's cognitive concerns and anxiety severity: brooding and reflection as serial multiple mediators. <i>Current Psychology</i> , 2023, 42, 9218-9224.	2.8	4
3	Anxiety-Related Coping Styles and Individual Differences in Primary Emotional Systems Against the Background of Affective Neuroscience Theory: a Study Using Samples from Germany and China. <i>Trends in Psychology</i> , 2023, 31, 740-756.	1.2	3
4	Exploring subtypes and correlates of internet gaming disorder severity among adolescents during COVID-19 in China: A latent class analysis. <i>Current Psychology</i> , 2023, 42, 19915-19926.	2.8	12
5	The relationship between adolescent stress and problematic smartphone use: The serial mediating effects of anxiety and frequency of smartphone use. <i>Current Psychology</i> , 2023, 42, 7867-7874.	2.8	5
6	Boredom proneness and rumination mediate relationships between depression and anxiety with problematic smartphone use severity. <i>Current Psychology</i> , 2022, 41, 5287-5297.	2.8	23
7	Prediction of problematic social media use (PSU) using machine learning approaches. <i>Current Psychology</i> , 2022, 41, 2755-2764.	2.8	24
8	Latent profile analysis of PTSD and dissociation, and relations with anger. <i>Current Psychology</i> , 2022, 41, 1595-1602.	2.8	4
9	Gaming to cope: Applying network analysis to understand the relationship between posttraumatic stress symptoms and internet gaming disorder symptoms among disaster-exposed Chinese young adults. <i>Addictive Behaviors</i> , 2022, 124, 107096.	3.0	24
10	Willingness to accept (WTA), willingness to pay (WTP), and the WTA/WTP disparity in Chinese social media platforms: Descriptive statistics and associations with personality and social media use. <i>Acta Psychologica</i> , 2022, 223, 103462.	1.5	7
11	Mindfulness mediates relations between anxiety with problematic smartphone use severity. <i>Cyberpsychology</i> , 2022, 16, .	1.5	9
12	Stigma and gaming disorder: should we take a "glass half full" or "glass half empty" perspective?. <i>Addiction</i> , 2022, 117, 1816-1817.	3.3	2
13	To distance or to help: People's ambivalent attitude towards residents from the COVID-19 epicenter. <i>Current Psychology</i> , 2022, , 1-10.	2.8	2
14	Nomophobia and relationships with latent classes of solitude. <i>Bulletin of the Menninger Clinic</i> , 2022, 86, 1-19.	0.6	8
15	Do we still need psychological self-report questionnaires in the age of the Internet of Things?. <i>Discover Psychology</i> , 2022, 2, 1.	0.9	14
16	Acceptance and Fear of Artificial Intelligence: associations with personality in a German and a Chinese sample. <i>Discover Psychology</i> , 2022, 2, 1.	0.9	16
17	Hyperinsulinemia Associated Depression. <i>Clinical Medicine Insights: Endocrinology and Diabetes</i> , 2022, 15, 117955142210902.	1.9	11
18	Longitudinal PTSD symptom trajectories: Relative contributions of state anxiety, depression, and emotion dysregulation. <i>Journal of Affective Disorders</i> , 2022, 308, 281-288.	4.1	3

#	ARTICLE	IF	CITATIONS
19	DSM-5 Posttraumatic Stress Disorder Symptoms in Nonclinical Samples of Chinese and Pakistani Trauma-Exposed Adults. <i>Journal of Nervous and Mental Disease</i> , 2022, 210, 439-445.	1.0	0
20	The relationship between adolescent emotion dysregulation and problematic technology use: Systematic review of the empirical literature. <i>Journal of Behavioral Addictions</i> , 2022, 11, 290-304.	3.7	5
21	Emotion regulation in relation to smartphone use: Process smartphone use mediates the association between expressive suppression and problematic smartphone use. <i>Current Psychology</i> , 2021, 40, 3246-3255.	2.8	46
22	The Influence of Intolerance of Uncertainty on Anxiety and Depression Symptoms in Chinese-speaking Samples: Structure and Validity of The Chinese Translation of The Intolerance of Uncertainty Scale. <i>Journal of Personality Assessment</i> , 2021, 103, 406-415.	2.1	24
23	Disrupted Daily Activities From Interruptive Smartphone Notifications: Relations With Depression and Anxiety Severity and the Mediating Role of Boredom Proneness. <i>Social Science Computer Review</i> , 2021, 39, 20-37.	4.2	31
24	The influence of depressive symptoms and fear of missing out on severity of problematic smartphone use and Internet gaming disorder among Chinese young adults: A three-wave mediation model. <i>Addictive Behaviors</i> , 2021, 112, 106648.	3.0	87
25	Modeling consumer engagement on social networking sites: Roles of attitudinal and motivational factors. <i>Journal of Retailing and Consumer Services</i> , 2021, 59, 102348.	9.4	33
26	Individual differences in Fear of Missing Out (FoMO): Age, gender, and the Big Five personality trait domains, facets, and items. <i>Personality and Individual Differences</i> , 2021, 171, 110546.	2.9	64
27	Examining the links between active Facebook use, received likes, self-esteem and happiness: A study using objective social media data. <i>Telematics and Informatics</i> , 2021, 58, 101523.	5.8	69
28	Health anxiety related to problematic smartphone use and gaming disorder severity during COVID-19: Fear of missing out as a mediator. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 137-146.	4.4	61
29	Comparing Smartphone, WhatsApp, Facebook, Instagram, and Snapchat: Which Platform Elicits the Greatest Use Disorder Symptoms?. <i>Cyberpsychology, Behavior, and Social Networking</i> , 2021, 24, 129-134.	3.9	49
30	Post-traumatic stress symptoms of children and adolescents exposed to the 2008 Wenchuan Earthquake: A longitudinal study of 5-HTTLPR genotype main effects and gene-environment interactions. <i>International Journal of Psychology</i> , 2021, 56, 22-29.	2.8	8
31	Modeling anxiety and fear of COVID-19 using machine learning in a sample of Chinese adults: associations with psychopathology, sociodemographic, and exposure variables. <i>Anxiety, Stress and Coping</i> , 2021, 34, 130-144.	2.9	10
32	WeChat's Problematic Use and Relations with the Big Five Personality Traits and Fear of Missing Out. <i>Journal of Technology in Behavioral Science</i> , 2021, 6, 397-405.	2.3	8
33	Applying fairness in labeling various types of internet use disorders. <i>Journal of Behavioral Addictions</i> , 2021, 9, 924-927.	3.7	23
34	How objectively measured Twitter and Instagram use relate to self-reported personality and tendencies toward Internet/Smartphone Use Disorder. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 898-911.	4.4	9
35	Objectively-measured and self-reported smartphone use in relation to surface learning, procrastination, academic productivity, and psychopathology symptoms in college students. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 912-921.	4.4	23
36	Applying machine learning methods to model social interactions in alcohol consumption among adolescents. <i>Addiction Research and Theory</i> , 2021, 29, 436-443.	1.9	2

#	ARTICLE	IF	CITATIONS
37	A machine learning approach to modeling PTSD and difficulties in emotion regulation. <i>Psychiatry Research</i> , 2021, 297, 113712.	3.3	10
38	The evaluation of fake and true news: on the role of intelligence, personality, interpersonal trust, ideological attitudes, and news consumption. <i>Heliyon</i> , 2021, 7, e06503.	3.2	21
39	On the Psychology of TikTok Use: A First Glimpse From Empirical Findings. <i>Frontiers in Public Health</i> , 2021, 9, 641673.	2.7	115
40	Severity of depression and anxiety in relation to problematic smartphone use in the United Arab Emirates: The mediational roles of rumination and fear of missing out. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 423-431.	4.4	16
41	Linking the Technology Acceptance Model to Smartphone Use and Smartphone Use Disorder: Results from a Survey Study. <i>Digital Psychology</i> , 2021, 2, 6-18.	0.4	1
42	On Corporate Responsibility When Studying Social Media Use and Well-Being. <i>Trends in Cognitive Sciences</i> , 2021, 25, 268-270.	7.8	21
43	Fear of missing out (FOMO): overview, theoretical underpinnings, and literature review on relations with severity of negative affectivity and problematic technology use. <i>Revista Brasileira De Psiquiatria</i> , 2021, 43, 203-209.	1.7	122
44	Anxiety and stress severity are related to greater fear of missing out on rewarding experiences: A latent profile analysis. <i>PsyCh Journal</i> , 2021, 10, 688-697.	1.1	16
45	Dispositional optimism mediates relations between childhood maltreatment and PTSD symptom severity among trauma-exposed adults. <i>Child Abuse and Neglect</i> , 2021, 115, 105023.	2.6	14
46	A comprehensive review of studies using the Affective Neuroscience Personality Scales in the psychological and psychiatric sciences. <i>Neuroscience and Biobehavioral Reviews</i> , 2021, 125, 160-167.	6.1	23
47	Show me your smartphone and then I will show you your brain structure and brain function. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 891-897.	4.4	15
48	The relationship between smartphone use and students' academic performance. <i>Learning and Individual Differences</i> , 2021, 89, 102035.	2.7	13
49	Anxiety Regarding COVID-19 Is Related to Attentional Control: The Mediating Role of Anxiety Sensitivity. <i>Frontiers in Psychiatry</i> , 2021, 12, 713279.	2.6	5
50	Investigating Links Between Fear of COVID-19, Neuroticism, Social Networks Use Disorder, and Smartphone Use Disorder Tendencies. <i>Frontiers in Psychology</i> , 2021, 12, 682837.	2.1	16
51	On Blurry Boundaries When Defining Digital Biomarkers: How Much Biology Needs to Be in a Digital Biomarker?. <i>Frontiers in Psychiatry</i> , 2021, 12, 740292.	2.6	28
52	Cohort profile: the Ohio Army National Guard Mental Health Initiative (OHARNG-MHI). <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 2107-2116.	3.1	0
53	Molecular genetics of neurotransmitters and neuropeptides involved in Internet use disorders including first insights on a potential role of hypothalamus™ oxytocin hormone. <i>Handbook of Clinical Neurology</i> / Edited By P J Vinken and G W Bruyn, 2021, 182, 389-400.	1.8	4
54	Editorial: Problematic Internet Technology Use: Assessment, Risk Factors, Comorbidity, Adverse Consequences and Intervention. <i>Frontiers in Psychiatry</i> , 2021, 12, 786019.	2.6	2

#	ARTICLE	IF	CITATIONS
55	Discrepancies between Self-Reports and Behavior: Fear of Missing Out (FoMO), Self-Reported Problematic Smartphone Use Severity, and Objectively Measured Smartphone Use. <i>Digital Psychology</i> , 2021, 2, 3-10.	0.4	14
56	Anxiety sensitivity mediates relations between anxiety (but not depression) and problematic smartphone use severity, adjusting for age and sex, in Chinese adolescents early in the COVID-19 pandemic. <i>Human Behavior and Emerging Technologies</i> , 2021, 3, 788-797.	4.4	6
57	From low sense of control to problematic smartphone use severity during Covid-19 outbreak: The mediating role of fear of missing out and the moderating role of repetitive negative thinking. <i>PLoS ONE</i> , 2021, 16, e0261023.	2.5	17
58	Sexual Dysfunction in Male Canadian Armed Forces Members and Veterans Seeking Mental Health Treatment. <i>Military Medicine</i> , 2020, 185, 68-74.	0.8	5
59	Depression and anxiety symptoms are related to problematic smartphone use severity in Chinese young adults: Fear of missing out as a mediator. <i>Addictive Behaviors</i> , 2020, 101, 105962.	3.0	158
60	When Do People Seek Internet Counseling? Exploring the Temporal Patterns of Initial Submissions to Online Counseling Services. <i>Journal of Technology in Human Services</i> , 2020, 38, 184-202.	1.6	10
61	Depicting the associations between different forms of psychopathology in trauma-exposed adolescents. <i>European Child and Adolescent Psychiatry</i> , 2020, 29, 827-837.	4.7	7
62	Fear of missing out predicts repeated measurements of greater negative affect using experience sampling methodology. <i>Journal of Affective Disorders</i> , 2020, 262, 298-303.	4.1	37
63	Boredom proneness and fear of missing out mediate relations between depression and anxiety with problematic smartphone use. <i>Human Behavior and Emerging Technologies</i> , 2020, 2, 61-70.	4.4	99
64	Using machine learning to model problematic smartphone use severity: The significant role of fear of missing out. <i>Addictive Behaviors</i> , 2020, 103, 106261.	3.0	59
65	Association between the OXTR rs53576 genotype and latent profiles of post-traumatic stress disorder and depression symptoms in a representative sample of earthquake survivors. <i>Anxiety, Stress and Coping</i> , 2020, 33, 140-147.	2.9	9
66	Preliminary study examining the mediational link between mild traumatic brain injury, acute stress, and post-traumatic stress symptoms following trauma. <i>HÅrgre Utbildning</i> , 2020, 11, 1815279.	3.0	3
67	Character Strengths as Complementary Predictors of Anxiety Symptoms. <i>Applied Research in Quality of Life</i> , 2020, , 1.	2.4	1
68	Test of the dynamic interplay between DSM-5 PTSD symptom clusters in children and adolescents. <i>Journal of Anxiety Disorders</i> , 2020, 76, 102319.	3.2	5
69	An Item-Based Analysis of PTSD Emotional Numbing Symptoms in Disaster-Exposed Children and Adolescents. <i>Journal of Abnormal Child Psychology</i> , 2020, 48, 1303-1311.	3.5	4
70	An exploration of the DSM-5 posttraumatic stress disorder symptom latent variable network. <i>HÅrgre Utbildning</i> , 2020, 11, 1759279.	3.0	3
71	A comparison of ICD-11 and DSM-5 criteria for PTSD among a representative sample of Chinese earthquake survivors. <i>HÅrgre Utbildning</i> , 2020, 11, 1760481.	3.0	7
72	Editorial overview: Cyberpsychology: reviews of research on the intersection between computer technology use and human behavior. <i>Current Opinion in Psychology</i> , 2020, 36, iv-vii.	4.9	3

#	ARTICLE	IF	CITATIONS
73	Discussing digital technology overuse in children and adolescents during the COVID-19 pandemic and beyond: On the importance of considering Affective Neuroscience Theory. Addictive Behaviors Reports, 2020, 12, 100313.	1.9	55
74	The compatibility of theoretical frameworks with machine learning analyses in psychological research. Current Opinion in Psychology, 2020, 36, 83-88.	4.9	30
75	Anxiety regarding contracting COVID-19 related to interoceptive anxiety sensations: The moderating role of disgust propensity and sensitivity. Journal of Anxiety Disorders, 2020, 73, 102233.	3.2	95
76	Fear of Missing Out (FoMO) and social media's impact on daily-life and productivity at work: Do WhatsApp, Facebook, Instagram, and Snapchat Use Disorders mediate that association?. Addictive Behaviors, 2020, 110, 106487.	3.0	124
77	COVID-19 anxiety symptoms associated with problematic smartphone use severity in Chinese adults. Journal of Affective Disorders, 2020, 274, 576-582.	4.1	223
78	Ethical standards for telemental health must be maintained during the COVID-19 pandemic. Asian Journal of Psychiatry, 2020, 53, 102218.	2.0	11
79	One Social Media Company to Rule Them All: Associations Between Use of Facebook-Owned Social Media Platforms, Sociodemographic Characteristics, and the Big Five Personality Traits. Frontiers in Psychology, 2020, 11, 936.	2.1	30
80	Depression, anxiety and fear of missing out as correlates of social, non-social and problematic smartphone use. Addictive Behaviors, 2020, 105, 106335.	3.0	101
81	Age, gender, personality, ideological attitudes and individual differences in a person's news spectrum: how many and who might be prone to "filter bubbles" and "echo chambers" online?. Heliyon, 2020, 6, e03214.	3.2	46
82	Predicting tendencies towards the disordered use of Facebook's social media platforms: On the role of personality, impulsivity, and social anxiety. Psychiatry Research, 2020, 285, 112793.	3.3	48
83	Rumination and negative smartphone use expectancies are associated with greater levels of problematic smartphone use: A latent class analysis. Psychiatry Research, 2020, 285, 112845.	3.3	37
84	Excessive reassurance seeking mediates relations between rumination and problematic smartphone use. Bulletin of the Menninger Clinic, 2020, 84, 137-155.	0.6	23
85	Clusters of trauma types as measured by the Life Events Checklist for DSM-5. International Journal of Stress Management, 2020, 27, 380-393.	1.2	24
86	The mediating effect of rumination between posttraumatic stress disorder symptoms and anger reactions. Psychological Trauma: Theory, Research, Practice, and Policy, 2020, 12, 619-626.	2.1	9
87	Associations between symptoms of problematic smartphone, Facebook, WhatsApp, and Instagram use: An item-level exploratory graph analysis perspective. Journal of Behavioral Addictions, 2020, 9, 686-697.	3.7	42
88	The association between the Big Five personality traits and smartphone use disorder: A meta-analysis. Journal of Behavioral Addictions, 2020, 9, 534-550.	3.7	43
89	Digital Phenotyping - A Case for Cognitive Functions and Dementia?. Digital Psychology, 2020, 1, 44-51.	0.4	3
90	On the Need for Digital Phenotyping to Obtain Insights into Mental States in the COVID-19 Pandemic. Digital Psychology, 2020, 1, 40-42.	0.4	9

#	ARTICLE	IF	CITATIONS
91	Relationship between Internet Gaming Disorder Symptoms with Attention Deficit Hyperactivity Disorder and Alexithymia Symptoms among University Students. <i>Addicta the Turkish Journal on Addictions</i> , 2020, 7, 1-9.	1.0	7
92	Sex differences in global and local connectivity of adolescent posttraumatic stress disorder symptoms. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 216-224.	5.2	54
93	Examination of the Relation Between PTSD Symptoms, Smartphone Feature Uses, and Problematic Smartphone Use. <i>Social Science Computer Review</i> , 2019, 37, 385-403.	4.2	16
